Independent Auditor's Report

To the Board of Trustees
Van Vleck Independent School District
142 S Fourth Street
Van Vleck, Texas 77482

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Van Vleck Independent School District ("the District") as of and for the year ended August 31, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Van Vleck Independent School District as of August 31, 2015, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Change in Accounting Principle

As described in Note A to the financial statements, in 2015, Van Vleck Independent School District adopted new accounting guidance, Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, and GASB Statement No. 71, *Pension Transition for contributions made Subsequent to the Measurement Date -- an amendment of GASB Statement No. 68*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability and schedule of District pension contributions identified as Required Supplementary Information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Van Vleck Independent School District's basic financial statements. The introductory section and combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements. The accompanying other supplementary information is presented for purposes of additional analysis and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated 'December 21, 2015 on our consideration of Van Vleck Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Van Vleck Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

Van Vleck Independent School District

VAN VLECK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
AUGUST 31, 2015

This discussion and analysis of the Van Vleck Independent School District's financial statements provides a narrative overview of the District's financial activities for the fiscal year ended August 31, 2015. The information presented here should be read in conjunction with the basic financial statements and the accompanying notes to those financial statements.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of Van Vleck Independent School District's finances in a manner similar to private sector business. They present the financial picture of the District from an economic resources measurement focus using the accrual basis of accounting. These statements include all assets of the District as well as all liabilities. Additionally, certain eliminations have occurred in regards to interfund activity, payables and receivables.

The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Increases or decreases in net position over time may serve as a useful indicator of whether the financial position of Van Vleck Independent School District is improving or deteriorating.

The *statement of activities* presents information showing how the district's net position changed during the most recent fiscal year using full accrual basis of accounting. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Van Vleck Independent School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *current sources and uses of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year.

Such information may be useful in evaluating a district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the district-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the district's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Fiduciary funds. *Fiduciary funds* are used to account for resources held for the benefit of parties outside the district. Fiduciary funds are not reflected in the district-wide financial statement because the resources of those funds are not available to support the District's own programs. The accounting used for the fiduciary funds is much like that used for proprietary funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

VAN VLECK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
AUGUST 31, 2015

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the district-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* that further explains and supports the information in the financial statements.

District-wide Financial Analysis

The District's net position at August 31, 2015 and 2014 are summarized as follows:

	Governmental Activities		Variance
	8/31/2015	Restated 8/31/2014	
Current and other assets	\$ 2,427,024	\$ 2,371,584	\$ 55,440
Capital assets	<u>3,731,257</u>	<u>3,940,019</u>	<u>(208,762)</u>
Total assets	<u>6,158,281</u>	<u>6,311,603</u>	<u>(153,322)</u>
Deferred outflow of resources	<u>173,007</u>	<u>91,998</u>	<u>81,009</u>
Other liabilities	344,663	349,416	(4,753)
Long-term liabilities outstanding	<u>1,488,270</u>	<u>1,825,531</u>	<u>(337,261)</u>
Total liabilities	<u>1,832,933</u>	<u>2,174,947</u>	<u>(342,014)</u>
Deferred inflow of resources	<u>296,504</u>	<u>0</u>	<u>296,504</u>
Net position:			
Net Investment in capital assets	3,212,263	3,304,679	(92,416)
Restricted	24,852	32,491	(7,639)
Unrestricted	<u>964,736</u>	<u>891,484</u>	<u>73,252</u>
Total net position	<u>\$ 4,201,851</u>	<u>\$ 4,228,654</u>	<u>\$ (26,803)</u>

Net position may serve over time as a useful indicator of a district's financial position. In the case of Van Vleck Independent School District, assets exceeded liabilities by \$4,201,851 at the close of the most recent fiscal year, August 31, 2015.

Current assets increased slightly at \$55,440 while capital assets decreased \$208,762 as a result of recognized depreciation expense of \$354,516 exceeding capital additions of \$145,754. Prior year deferred outflow of resources and noncurrent liabilities were restated \$91,998 and \$1,190,191 in prior year to include the effects of GASB 68 "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement No. 27". Noncurrent liabilities decreased \$337,261 due to scheduled debt payments and a decrease in the net pension liability after restatement as discussed further below. Deferred inflows of resources increased \$296,504 due to the implementation of GASB 68 mentioned earlier.

A large portion of the District's net position (76 percent) reflects its investment in capital assets less any debt used to acquire those assets that is still outstanding. The District uses capital assets to provide services to students; consequently these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

VAN VLECK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
AUGUST 31, 2015

An additional portion of the District's net position (less than 1 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (23 percent) may be used to meet the District's ongoing obligations to educate the school-age children of Van Vleck.

The District's governmental activities as of August 31, 2015 and 2014 are summarized as follows:

	Governmental Activities		Variance
	8/31/2015	Restated 8/31/2014	
Revenues:			
Program Revenues:			
Charges for services	\$ 343,283	\$ 328,899	\$ 14,384
Operating grants & contributions	1,188,822	1,190,041	(1,219)
General Revenues:			
Property taxes	6,245,355	5,516,558	728,797
Investment earnings	6,214	7,247	(1,033)
Grants & contributions not restricted for specific purpose	3,007,844	2,985,910	21,934
Miscellaneous	229,649	224,519	5,130
Total revenues	<u>11,021,167</u>	<u>10,253,174</u>	<u>767,993</u>
Expenses:			
Instruction	5,588,886	5,702,753	(113,867)
Instructional resources and media	106,841	101,818	5,023
Curriculum and staff development	51,322	23,473	27,849
Instructional leadership	113,180	116,307	(3,127)
School leadership	661,054	598,229	62,825
Guidance and counseling	233,025	215,550	17,475
Health services	102,438	97,253	5,185
Student transportation	434,364	465,660	(31,296)
Food service	659,664	637,849	21,815
Extracurricular activities	593,435	580,769	12,666
General administration	546,609	574,615	(28,006)
Plant maintenance and operations	1,365,648	1,316,853	48,795
Security and monitoring services	49,981	50,341	(360)
Data processing services	227,913	210,757	17,156
Community services	0	11,982	(11,982)
Interest on long-term debt	27,665	31,623	(3,958)
Shared Service Payments	207,912	205,877	2,035
Other Intergovernmental Charge:	78,035	52,898	25,137
Total expenses	<u>11,047,972</u>	<u>10,994,607</u>	<u>53,365</u>
Increase in net position	(26,805)	(741,433)	714,628
Net position, beginning	4,228,656	4,970,087	(741,431)
Net position ending	<u>\$ 4,201,851</u>	<u>\$ 4,228,654</u>	<u>\$ (26,803)</u>

Governmental activities. Governmental activities decreased the District's net position \$26,805 compared to the prior year decrease of \$741,433. Overall, revenue increased \$767,993 and expenditures increased \$53,365. Key elements comparing current to prior year are as follows:

VAN VLECK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
AUGUST 31, 2015

- Property taxes have increased due to an increase in values of over \$89m.
- Overall, instructional salaries decreased due to numerous terminations at various times during the year that were not filled.
- School leadership payroll costs were up due to addition of support personnel as well as raises.
- Transportation costs were down due primarily to the decline in fuel costs.
- Maintenance costs were up in utilities over \$38,000 due to change in e-rate funding from bill credits to reimbursements which are included in miscellaneous revenue above.
- Upon board approval, Van Vleck ISD signed a consulting agreement with Walker Quality Services, LLC to consult for the school food service department at a fee of \$2400/month plus travel costs. In addition, the board approved to make cosmetic changes to the food service areas and to purchase additional food service equipment.

Revenues by Source - Governmental Activities

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund accounting and budget controls has been the framework of the District's strong fiscal management and accountability.

Governmental funds. The general government functions are reported in the General and Special Revenue Funds. The focus of the District's *governmental funds* is to provide information on current sources, uses, and balances of *spendable* resources. Such information is useful in determining the District's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year the District's governmental funds reported combined ending fund balances of \$1,589,761, a decrease of \$45,430 over the prior year fund balance. \$1,299,264 of this total constitutes unassigned fund balance, while \$231,374 represents non-spendable prepaid expenditures, \$24,852 is restricted by outside sources and \$34,271 has been committed by the Board of Directors for campus activities.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$1,530,638. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unassigned fund balance represents 13 percent of general fund current expenditures.

The fund balance of the general fund decreased \$32,688 compared to the prior year decrease of \$670,391. Key elements comparing current year to prior year are the same as those noted above under the district-wide analysis.

VAN VLECK INDEPENDENT SCHOOL DISTRICT
MANAGEMENT DISCUSSION AND ANALYSIS
AUGUST 31, 2015

General Fund Budgetary Highlights. The Board of Trustees approved budget amendments throughout the increasing appropriations by \$452,993. The most significant amendments were in student transportation \$109,000, plant maintenance \$120,000 and data processing \$95,000 all in wages.

Actual Revenue exceeded budgetary estimates by a \$8,529 while actual expenditures were under appropriations by \$213,639.

Debt Administration

Debt administration events during the current fiscal year included scheduled principal payments of \$116,346 on the capital lease agreement to retrofit the District facilities and the addition of the net pension liability of \$1,190,191 beginning of year and \$969,276 end of year due to implementation of GASB 68 mentioned earlier.

Capital Assets

Capital asset events during the current fiscal year included the recognition of \$354,516 in depreciation expense and the purchase of a steamer for the cafeteria, dodge van and bus.

Economic Factors and Next Year's Budgets and Rates

The annual budget is developed to provide efficient, effective and controlled use of the District's resources. The 2015-2016 budget is tight due to a decrease in ADA along with a reduction in state funds due to a change in the funding formula. Factors affecting the 2016 budget were as follows:

- The VVUSD budget is based on the tax rate of \$1.03 for the 2015-2016 school year.
- Certified Appraised values for budget preparation were \$711,094,253 an increase from 2014 values of \$615,366,203.
- In order to ensure the recruitment and retention of quality staff, included in the 2015-2016 budget is a 3% salary increase for all employees.

Request for Information

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed to the Van Vleck Independent School District, Attention: Superintendent, 142 S Fourth Street, Van Vleck, Tx 77482 or call 979-245-8518.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AUGUST 31, 2015

A. Summary of Significant Accounting Policies

Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. All fiduciary activities are reported only in the fund financial statements.

Reporting Entity

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board.

The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No. 14, "The Financial Reporting Entity," as revised by GASB Statement No.39, and there are no component units included within the reporting entity.

Basis of Presentation – Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category governmental and fiduciary are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

Additionally, the District reports the following fund types:

Fiduciary funds are reported in the fiduciary fund financial statements. However, because their assets are held in a trustee or agent capacity and are therefore not available to support District programs, these funds are not included in the government-wide statements.

Private-Purpose Trust Funds: These funds are used to report trust arrangements for scholarships under which principal and income benefit individuals, private organizations, or other governments not reported in other fiduciary fund types.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

During the course of operations the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the District.

The private purpose trust fund is reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, food service fund and debt service fund. Other special revenue funds do not have appropriated budgets since other means control the use of these resources (e.g., grant awards and endowment requirements) and sometimes span a period of more than one fiscal year.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

The appropriated budget is prepared at the fund and function level. The department heads may make transfers of appropriations within a function; however, transfers of appropriations between functions require the approval of the Board of Trustees. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the functional level.

Appropriations in all budgeted funds lapse at the end of the fiscal year. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

Assets, Liabilities, Deferred Outflows/inflows of Resources, and Net Position/fund Balance

Cash and cash equivalents:

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments:

Investments for the District are reported at fair value (generally based on quoted market prices) except for the position in Government Investment Pool (Pool). In accordance with state law, the Pool operates in conformity with all of the requirements of the Securities and Exchange Commission's (SEC) Rule 2a7 as promulgated under the Investment Company Act of 1940, as amended. Accordingly, the Pool qualifies as a 2a7-like pool and is reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. The Pool is subject to regulatory oversight by the State Treasurer, although it is not registered with the SEC.

Inventories and Prepaid Items:

Inventories of purchased food and supplies on the balance sheet are stated at average cost, while inventories of food commodities are recorded at market values supplied by the Texas Department of Human Services. Inventory items are recorded as expenditures when they are consumed. Although commodities are received at no cost, their fair market value is supplied by the Texas Department of Human Services and recorded as inventory and deferred revenue when received. When requisitioned, inventory and deferred revenue are relieved, expenditures are charged, and revenue is recognized for an equal amount.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital assets:

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of the donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is Used. Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	30-50
Building Improvements	20-30
Vehicles	2-15
Equipment	3-15
Equipment	5-10

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Deferred outflows/inflows of resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then. The District has one item that qualifies for reporting in this category. The deferred outflows of resources calculated in the actuarial pension study required by GASB 68 and the current year pension payments are reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The item "unavailable" revenue is reported in the governmental funds balance sheet. The "unavailable" source represents the uncollected delinquent taxes receivable. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available for governmental funds. The deferred inflows of resources calculated in the actuarial pension study required by GASB 68 are reported in the government-wide statement of net position.

Net position flow assumption:

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Fund balance flow assumptions:

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund balance policies:

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board of Trustees is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board of Trustees has not delegated the authority to assign fund balance. When it is appropriate to assign fund balance this is accomplished in the same manner as committed funds that is through the adoption of a resolution. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Revenues and Expenditures/expenses

Program revenues:

Amounts reported as program revenues include 1) fees, fines, and charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property taxes:

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Compensated absences:

Vacation days shall be used during the year in which they are earned and shall not accumulate. Unused vacation days shall not be reimbursed upon the employee's resignation, retirement, or any other termination of employment.

Employees earn five days per year of state personal leave, with no limit on accumulation and no restrictions on transfer among districts. Employees earn five local leave days per school year in accordance with administrative regulations with no limit on accumulation. Unused sick leave days shall not be reimbursed upon the employee's resignation, retirement or any other termination of employment.

Data control codes:

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

B. Deposits and Investments

Cash Deposits

Custodial credit risk - deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's funds are required to be deposited and invested under the terms of a depository contract. At August 31, 2015, the carrying amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$29,439 and the bank balance was \$233,259. The District's cash deposits at August 31, 2015 and during the year ended August 31, 2015, were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Investments

All investments made by the District shall comply with the Public Funds Investment Act (Texas Government Code Chapter 2256, Subchapter A) and all federal, state, and local statutes, rules or regulations. The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper. The State Treasurer's Investment Pool (Pool) operates in accordance with state law, which requires it to meet all of the requirements of Rule 2a-7 of the Securities and Exchange Commission. The Pool has a credit rating of AAA from Standard & Poor's Financial Services. Local government investment pools in this rating category meet the highest standards for credit quality, conservative investment policies, and safety of principal. The Pool invests in a high quality portfolio of debt securities investments legally permissible for municipalities and school districts in the state.

The government utilizes a pooled investment concept for all its funds to maximize its investment program. Investment income from this internal pooling is allocated to the respective funds based upon the sources of funds invested.

As of August 31, 2015 the District had the following investments:

<u>Investment or Investment Type</u>	<u>Maturity</u>	<u>Credit Rating</u>	<u>Fair Value</u>
First Public, included in cash	N/A	Aaa	\$ 1,437,774
Certificate of Deposit	12/29/16	N/A	14,423
Total Investments			<u>\$ 1,452,197</u>

C. Disaggregated Receivables

Receivables as of the year end for the District's individual major funds and nonmajor funds in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Nonmajor Funds</u>	<u>Totals</u>
Real Property Taxes	\$ 1,102,478	\$ --	\$ 1,102,478
Less allowance on taxes	(607,105)	--	(607,105)
	<u>\$ 495,373</u>	<u>\$ --</u>	<u>\$ 495,373</u>
Due from Other Governments:			
TEA	\$ 212,718	\$ 20,355	\$ 233,073
Other Governments	--	7,302	7,302
	<u>\$ 212,718</u>	<u>\$ 27,657</u>	<u>\$ 240,375</u>

There are no significant receivables that are not scheduled for collection within one year of year end.

D. Capital Assets

Capital asset activity for the year ended August 31, 2015, was as follows:

	<u>Beginning Balances</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balances</u>
<u>Governmental activities:</u>				
<i>Capital assets not being depreciated:</i>

E. Retiree Health Care Plan

Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (TRS Care), a cost sharing multiple employer defined benefit postemployment health care plan administered by the Teacher Retirement System of Texas. TRS Care provides health care coverage for certain persons (and their dependents) who retired under the Teacher Retirement System of Texas. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. The Teacher Retirement System of Texas issues a publicly available financial report that includes financial statements and required supplementary information for TRS Care. That report may be obtained by visiting the TRS Web site at www.trs.state.tx.us under the TRS Publications heading, by calling the TRS Communications Department at 1-800-223-8778, or by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701.

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203 and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public School. Funding for optional coverage is provided by those participants selecting the optional coverage. Contribution rates and amounts are shown in the table below for the last three fiscal years.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Contribution Rates and Contribution Amounts							
Year	Member		Rate	State Amount	Federal Amount	District	
	Rate	Amount				Rate	Amount
2015	0.650%	39,982	1.000%	58,610	2,901	0.550%	33,831
2014	0.650%	40,775	1.000%	59,962	2,769	0.550%	34,502
2013	0.650%	37,884	0.500%	27,710	1,431	0.550%	32,056

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2015, 2014, and 2013, the subsidy payments received by TRS-Care on behalf of the District were \$17,806, \$17,020, and \$22,451, respectively.

F. Pension Plan

Plan Description

The District participates in a cost sharing multiple employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit Terms. All employees of public, state- supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary Information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 76003.

Pensions - the fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS' fiduciary net Position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the plan description above.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. It also added a 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees effective for fiscal year 2015 as discussed in Note 1 of the TRS 2014 CAFR. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015.

	2014	2015
Member	6.4%	6.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
Member Contributions	\$ 401,479	\$ 412,124
NECE On-behalf Contributions	\$ 346,398	\$ 332,212
Employer Contributions	\$ 91,997	\$ 95,013

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.

During a new member's first 90 days of employment.

When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.

When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Actuarial Assumptions

The total pension liability in the August 31, 2014 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2014
Actuarial Cost Method	Individual Entry Age Normal
Amortization Method	Level Percentage of Payroll, Open
Remaining Amortization Period	30 years
Asset Valuation Method	5 year Market Value
Discount Rate	8.00%
Long-term expected Invest Rate of Return*	8.00%
Salary Increases*	4.25% to 7.25%
Weighted-Average at Valuation Date	5.55%
Payroll Growth Rate	3.50%

*Includes Inflation of 3%

The total pension liability is determined by an annual actuarial valuation. The active mortality rates were based on the 1994 Group Annuity Mortality Table set back 6 years for both males and females. The post-retirement mortality rates were based on client specific tables multiplied by 80%. The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2010 and adopted on April 8, 2011. With the exception of the postretirement mortality rates for healthy lives and a minor change to the expected retirement age for inactive vested members stemming from the actuarial audit performed in the Summer of 2014, the assumptions and methods are the same as used in the prior valuation. When the mortality assumptions were adopted in 2011 they contained a significant margin for possible future mortality improvement. As of the date of the valuation there has been a significant erosion of this margin to the point that the margin has been eliminated. Therefore, the post-retirement mortality rates for current and future retirees was decreased to add additional margin for future improvement in mortality in accordance with the Actuarial Standards of Practice No. 35.

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2014 are summarized below:

Asset Class	Target Allocation	Long-term Expected Geometric Real Rate of Return	Expected Contribution to Long-term Portfolio Returns *
Global Equity			
U.S.	18%	7.0%	1.4%
Non-U.S. Developed	13%	7.3%	1.1%
Emerging Markets	9%	8.1%	0.9%
Direction Hedge Funds	4%	5.4%	0.2%
Private Equity	13%	9.2%	1.4%
Stable Value

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2014 Net Pension Liability.

	1% Decrease in Discount Rate (7.0%)	Current Discount Rate (8.0%)	1% Increase in Discount Rate (9.0%)
District's proportionate share of the net pension liability	\$ 1,732,037	\$ 969,276	\$ 398,872

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

At August 31, 2015, the District reported a liability of \$969,276 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 969,276
State's proportionate share that is associated with the District	3,569,361
Total	<u>\$ 4,538,637</u>

The net pension liability was measured as of August 31, 2014 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2013 thru August 31, 2014.

At August 31, 2014 the employer's proportion of the collective net pension liability was .0036287% which was no change from its proportion measured as of August 31, 2013.

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period. There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

There was a change in employer contribution requirements that occurred after the measurement date of the net pension liability and the employer's reporting date. A 1.5% contribution for employers not paying Old Age Survivor and Disability Insurance (OASDI) on certain employees went into law effective 09/01/2014. The amount of the expected resultant change in the employer's proportion cannot be determined at this time.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

For the year ended August 31, 2015, the District recognized pension expense of \$427,653 and revenue of \$338,060 for support provided by the State.

At August 31, 2015, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 14,990	\$ --
Changes in actuarial assumptions	63,004	--
Difference between projected and actual investment earnings	--	296,250
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	--	254
Contributions paid to TRS subsequent to the measurement date	95,013	--
Total	<u>\$ 173,007</u>	<u>\$ 296,504</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Exp Amount
2016	\$ (60,948)
2017	(60,948)
2018	(60,948)
2019	(60,948)
2020	13,115
Thereafter	12,167

G. Risk Management

Self-Insured Workers Compensation

During the year ended August 31, 2015, the District met its statutory workers' compensation obligations through participation in a workers compensation pool administered by Claims Administrative Services, Inc. All members participating in the fund execute interlocal agreements that define the responsibilities of the parties. The estimated liability will not exceed the District's loss fund and the District is not responsible for claims and claims allocation expense beyond its individual loss fund. The amounts for IBNR are projected estimates, based on the experience history of the association.

Claims activity as of August 31, 2015 and the prior two years are as follows:

	8/31/15	8/31/14	8/31/13
Unpaid claims, beginning	\$ 54,226	\$ 35,948	\$ 75,413
Incurred claims	15,770	31,572	8,055
Change in IBNR	(17,308)	(2,352)	(33,748)
Paid claims	(6,173)	(10,942)	(13,772)
Unpaid claims, ending	<u>\$ 46,515</u>	<u>\$ 54,226</u>	<u>\$ 35,948</u>

Property Casualty

During the year ended August 31, 2015, Van Vleck ISD met its statutory property casualty obligations through participation in the Property Casualty and Coastal Property Alliance of Texas (the Fund). The Fund was created pursuant to the provisions of the Interlocal Cooperation Act, Chapter 791, Title 7 of the Texas Government Code. All districts participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides property and casualty coverage and services to its members.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

The Fund and its members are protected against higher than expected claims costs through the purchase of stop loss coverage for any covered claim in excess of the Fund's self-insured retentions. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. For the year ended February 28, 2015, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions. The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on the last day of February. The audit is approved by the Fund's Board of Trustees by July of the same year. The Fund's audited financial statement as of February 28, 2015 are available for inspection at the Property Casualty Alliance of Texas office.

Unemployment Compensation Pool

During the year ended August 31, 2015, Van Vleck ISD provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's unemployment compensation program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund meets its obligations to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for unemployment compensation pool members. The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is approved by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2014 are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

H. Employee Health Care Coverage

During the year ended August 31, 2015, employees of the District were covered by a health insurance plan (the Plan). The District paid premiums of \$325 per month per employee and dependents to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to a third party administrator, acting on behalf of the licensed insurer. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement.

The contract between the District and the third party administrator is renewable September 1, 2015, and terms of coverage and premium costs are included in the contractual provisions.

I. Long-Term Obligations

Capital Leases

The District entered into a lease agreement as lessee for financing an Energy Conservation Project to include retrofitting facilities with new HVAC, lighting, windows and roofing valued at \$946,748 with an estimated life ranging from 10-20 years. Accumulated depreciation at August 31, 2015 was \$343,534. This lease agreements qualify as a capital lease for accounting purposes and, therefore has been recorded at the present value of future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of August 31, 2015 were as follows:

<u>Year Ending August 31:</u>		
2016	\$	141,942
2017		141,942
2018		141,942
2019		141,942
Total Minimum Lease Payments	\$	567,768
Less: Amount Representing Interest		(48,774)
Present Value of Minimum Lease Payments	\$	<u>518,994</u>

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

Changes in long-term obligations for the year ended August 31, 2015, are as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Amounts Due Within One Year
Governmental activities:					
Capital leases	\$ 635,340	\$ --	\$ 116,346	\$ 518,994	\$ 112,533
Net pension liability*	1,190,191	89,593	310,508	969,276	--
	<u>\$ 1,825,531</u>	<u>\$ 89,593</u>	<u>\$ 426,854</u>	<u>\$ 1,488,270</u>	<u>\$ 112,533</u>

* The general fund is typically used to liquidate these liabilities. The beginning net pension liability has been restated for the effects of GASB 68.

J. Fund Balance

Minimum Fund Balance Policy

In order to preserve financial stability, the District must be prepared to respond to cash flow shortages, large or unexpected one-time expenditures, changes in the economy, and changes in state funding. The District shall, therefore, target for its fund balance between 17 percent (60 days) and 25 percent (90 days) of total operating expenditures, excluding debt and capital outlay. At August 31, 2015, the District was no in compliance with this minimum fund balance policy at 16%.

Committed Fund Balances

The Board of Trustees committed funds in the campus activities special revenue fund for use at the campus level.

Restricted Fund Balances

Restricted fund balances in the special revenue funds represent amounts restricted for state and federal grants as well as amounts restricted by donors. Fund balance in the debt service fund is restricted for the retirement of long-term debt.

K. Interfund Balances and Activities

Balances due to and due from other funds at August 31, 2015, are schedule to be repaid within one year and consisted of the following:

<u>Due To Fund</u>	<u>Due From Fund</u>	<u>Amount</u>	<u>Purpose</u>
General Fund	Other Governmental Funds	\$ 37,484	Short-term loans

Transfers to and from other funds at August 31, 2015, consisted of the following:

<u>Transfers From</u>	<u>Transfers To</u>	<u>Amount</u>	<u>Reason</u>
General Fund	Other Governmental Funds	\$ 44,189	Supplement other funds sources

L. Shared Services Arrangements

The District participates in a shared services arrangement ("SSA") for federally funded special education with the following school districts:

Member Districts
 Bay City ISD
 Matagorda ISD
 Palacios ISD
 Tidehaven ISD
 Van Vleck ISD

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

The District accounts for a very small portion of the revenues and expenditures in this program in a federal special revenue fund; however, the District does not account for the majority of the revenues and expenditures and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Bay City Independent School District nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA. The financial report for this SSA may be obtained by writing Bay City ISD, 520 7th Street, Bay City, Tx 77414 or by calling (979) 245-5766.

The District participates in a shared services arrangement ("SSA") for state funded special education with the following school districts:

Member Districts

- Bay City ISD
- Matagorda ISD
- Palacios ISD
- Tidehaven ISD
- Van Vleck ISD

The District does not account for the revenues and expenditures and does not disclose them in these financial statements. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Bay City Independent School District nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent manager is responsible for all financial activities of the SSA. The financial report for this SSA may be obtained by writing Bay City ISD, 520 7th Street, Bay City, Tx 77414 or by calling (979) 245-5766.

M. Disaggregated Revenue

During the current year, revenues reported in the fund financial statements from local sources consisted of the following:

	General Fund	Other Governmental Fund	Totals
Property taxes	\$ 5,992,677	\$	\$ 5,992,677
Penalties & interest	144,989		144,989
Investment earnings	6,152	62	6,214
Food service fees		223,764	223,764
Athletic receipts	36,887		36,887
Extra curricular activities		80,907	80,907
Other	227,649		227,649
Gifts & Bequests	--	20,781	20,781
	<u>\$ 6,408,354</u>	<u>\$ 325,514</u>	<u>\$ 6,733,868</u>

N. Commitments and Contingencies

Contingencies

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

VAN VLECK INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED AUGUST 31, 2015

O. Change in Accounting Policy and Related Prior Period Adjustment

In June, 2012 the Governmental Accounting Standards Board (GASB) issued Statement No. 68, "Accounting and Financial Reporting for Pensions -- an Amendment of GASB Statement No. 27," which is effective for fiscal years beginning after June 15, 2014. The District has implemented the provisions of this Statement for the year ended August 31, 2015.

The Statement requires numerous new pension disclosures in the notes to the financial statements and two new 10-year, pension-related charts as required supplementary information. Also, for the first time the District is required to recognize pension expense, report deferred outflows of resources and deferred inflows of resources related to pensions and a net pension liability for its proportionate shares of the collective (TRS) pension expense, collective (TRS) deferred outflows of resources and deferred inflows of resources related to pensions and collective (TRS) net pension liability.

The effect of the restatement of the beginning net position is as follows:

Beginning net position as previously reported August 31, 2014		\$	5,326,849
Net pension liability (measurement date)	\$	(1,190,191)	
Deferred outflows - District contributions made during fiscal year 2014		91,998	
Total prior period adjustment			(1,098,193)
Net position as restated September 1, 2014		\$	<u>4,228,656</u>

Required Supplementary Information

Required supplementary information includes financial information and disclosures required by the Governmental Accounting Standards Board but not considered a part of the basic financial statements.

*NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2015*

Budget

Under GASBS No. 34, budgetary comparison information is required to be presented for the general fund and each major special revenue fund with a legally adopted budget. In accordance with State law the budgets must be prepared in accordance with GAAP and in accordance with the Texas Education Agency the District is required to adopt a budget for the general fund, food service fund and debt service fund. The district adopted a budget for the general fund and food service fund in accordance with these requirements.

Defined Benefit Pension Plan

Changes of benefit terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

*Combining Statements and Budget Comparisons
as Supplementary Information*

This supplementary information includes financial statements and schedules not required by the Governmental Accounting Standards Board, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Independent Auditor's Report on Internal Control over Financial Reporting and
On Compliance and Other Matters Based on an Audit of Financial Statements
Performed In Accordance With *Government Auditing Standards*

Board of Trustees
Van Vleck Independent School District
142 S Fourth Street
Van Vleck, Texas 77482

Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Van Vleck Independent School District, as of and for the year ended August 31, 2015, and the related notes to the financial statements, which collectively comprise Van Vleck Independent School District's basic financial statements, and have issued our report thereon dated December 21, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Van Vleck Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Van Vleck Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Van Vleck Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Van Vleck Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Van Vleck Independent School District's Response to Findings

Van Vleck Independent School District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Van Vleck Independent School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

Board of Trustees
Van Vleck Independent School District
142 S Fourth Street
Van Vleck, Texas 77482

Members of the Board of Trustees:

Report on Compliance for Each Major Federal Program

We have audited the Van Vleck Independent School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on Van Vleck Independent School District's major federal program for the year ended August 31, 2015. Van Vleck Independent School District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Van Vleck Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Van Vleck Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Van Vleck Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Van Vleck Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended August 31, 2015.

Report on Internal Control Over Compliance

Management of the Van Vleck Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Van Vleck Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Van Vleck Independent School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we considered to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,
