TABE TESTING

The Test for Adult Basic Education (TABE) is a diagnostic test used to determine a person’s skill levels and aptitudes. The TABE test is used by public service agencies who are guiding people into adult education programs, such as getting a GED, going to trade school, etc.

The TABE tests skills and aptitudes in reading, math, and English, as you'll apply them in the workforce or classroom. Although there’s really no such thing as passing or failing the TABE test, your score can determine your eligibility for many programs that can have a positive effect on your life situation, and a huge impact on your future income. It’s important to be prepared for the test. It takes about an hour and a half to complete.

In the reading portion, you’ll be tested on your vocabulary and reading comprehension. The English portion will test for spelling, punctuation, grammar, sentence and paragraph structure, etc. The math section doesn’t involve much complex math — there are some questions on pre-algebra, but mostly it’s about basic math, fractions, percentages, and the decimal system.

Please call the Alliance Career Center to make arrangements (330-829-2267) to schedule the TABE test.
