Alternative Method of Instruction

Grade K

Day 4

Literacy: Word Family Sort
If you have scissors and glue (or tape) available, the student can cut, sort, and paste the words. If you do not, the student can write the words in the appropriate squares.

Literacy: Three Highlights of My Snow Day

Math: Students count the snowflakes and write the number in the box. Then they add the number of snowflakes to make ten.

Math: My Numbers
Have your student write the numbers 1-20 in the boxes. On the lined paper, have your student practice writing the numbers 1-9 neatly and legibly.
Word family sort

Sort the words by their word family.

map
bat
cap
hat
mat
lop

clean
Count how many in the ten frame. Tell how many more are needed to make ten.

We need _____ more to make 10.

We need _____ more to make 10.

We need _____ more to make 10.

We need _____ more to make 10.

KinderFest©2016
My numbers: 1, 2, 3, 4, 5, 6, 7, 8, 9
