

## IEP Service Log Notice

The District maintains related service logs that document the type and number of minutes of related service administered under a student's individualized education program (IEP). These related service logs will be available to parents/guardians at a student's annual review IEP meeting. Parents/guardians may also request a copy of any IEP related service log maintained for their child. Please direct any requests for a copy of a related service log for your child to: Jill Pruitt, NCOE special education coordinator, 618-378-3212.
