RE:	Senior Citizen Tax Exemption	9
DATE:	December 19, 2013	

By law, each municipality must adopt the Senior Citizen Tax Exemption. For the last eight years the Board has adopted the same scale as the County (Catskill, Coxsackie-Athens, and Cairo-Durham continue to adopt the same scale).

The district was notified on December 10, 2013 by Laura J. VanValkenburg, Director of Real Property Tax Service that they are recommending to the Greene County Legislature that the maximum income limit remain the same, set at \$22,500 with a sliding scale for 2014.

It is my recommendation that we continue to adopt the same scale as the County for the Senior Citizen Tax Exemption and the Disabled Citizen Tax Exemption.

I certify that the information provided above and in the attached documents is true and accurate to the best of my knowledge. I understand that the accountability status determination reported in the Information Reporting Services (IRS) portal/nySTART is official and that the district and its school must meet all federal and State requirements pertaining to such accountability designations and expected student performance improvements.

I further certify that I have reviewed the Diagnostic Self-Review Document and met with the school leadership to discuss and revise the rubric ratings as appropriate and that I concur that the ratings provided in the rubric are an accurate assessment of the school's current performance in relation to the tenets.

Superintendent's Signature Date For New York City schools, the Community school District Superintendent must sign the self-assessment.

Movember 1, 2013

A Message to School/District Leaders:

The purpose of the New York State Education Department (NYSED) school review is to provide all New York State (NYS) stakeholders currently involved in school and/or district evaluation cogent messages around school improvement and highly effective educational practices. Our thinking is that the more the NYS educational community engages in common practices and uses common language to evaluate and describe effective schools, the more readily we, as an educational community, will be able to provide high-quality seats to all students in our state.

<u>Guidance</u>

The Diagnostic Self-Review Document provides an opportunity for the school, with the assistance of the district, to assess it's current level of performance in regard to the school leadership, teacher practices and decisions, curriculum development and support, student social and emotional developmental health, and family and community engagement. Schools should use the self-review as an opportunity to identify actions to be taken to improve student academic results for the identified subgroup(s), describe the district resources to be used to implement the actions identified, and describe the professional development activities planned to support the implementation of the actions to improve student academic results.

The Diagnostic Self-Review Document and Report Template must be approved by the district's Board of Education (for New York City (NYC) schools, it must be approved by the Chancellor) and posted to the district's website by Friday, November 22, 2013, as well as kept on file at both the school and the district offices.

Completing This Form

- Before completing this form, please examine the rubric, and discuss the tenets and the statements of practice with the district representative who will be assisting you in completing, reviewing and approving your LAP Self-Assessment. As the rubric used for the Diagnostic Self-Review is the same one as used for Diagnostic Review for School and District Effectiveness (DTSDE) conducted in Focus Districts, the DTSDE website (http://www.p12.nysed.gov/accountability/diagnostic-tool-institute/home.html) contains helpful information about the rubric.
- In collaboration with your school leadership team and your district representatives, complete the Self-Review by identifying the strategies and practices you either are planning to implement or have implemented that meet the needs of your school, as identified by the assessment.
 - Pay particular attention to the performance of the subgroups that caused the school to be identified as requiring a Local Assistance Plan (LAP).
 - Use evaluative language and connect how the strategies and practices have or will impact teaching and learning.
 - Make sure the activities proposed reflect a new and robust direction or a continuation of practices that are showing evidence-based positive results in closing the achievement gap(s).
- Be concise and clear when describing the evidence that supports your ratings.
- Provide information in the plan that addresses the "who, what, when, and why" of the strategies chosen to meet the needs of the school.
- Please Note: The designation of a school as a LAP means that a school has areas that need improvement, particularly as they relate to the subgroup(s) of students who are failing to make academic gains. These areas should be reflected in the ratings, evidence and action plans outlined in this assessment.
- Before the completed Self-Review Document and Report Template are submitted to the Board of Education (for NYC, the Chancellor) for approval, the school superintendent must meet with the school leadership to discuss and revise the rubric ratings as appropriate.

A successfully completed Self-Review provides an accurate picture of your school and its needs and describes the actions you and the district will take to address these needs. The evidence and plans for improvement described in the document will closely align to the expectations put forth in the rubric, therefore aligning the plan to the optimal conditions for school effectiveness.

If you have any questions regarding completion of the Local Assistance Plan Self Assessment, please send an email to <u>accountinfo@mail.nysed.gov</u>.

Rate each practice with an H, E, D, or I in the space provided. Before assigning a rating of Effective or Highly Effective to a Statement of Practice, the school should pay particular attention to how the statement of practice is related to the performance of the subgroup(s) of students who caused the school to be identified as requiring a LAP. When providing a response to a Statement of Practice that Is Effective, Developing, or Ineffective, the school should specify whether actions will be targeted to the subgroup(s) of students who caused the school's identification or be part of a whole school transformation or turnaround strategy.

I would recommend the following proposal:

This proposal, in absence of any state-required coaching licensure for cheerleading, is to take effect during the current season and is in addition to the current district guidelines for coaching.

- Cheerleading advisors shall become certified by the AACCA (American Association of Cheerleading Coaches and Administrators). It is a rigorous safety and coaching certification course for cheerleading advisors that also helps them to organize practices, create safety/emergency plans, work with any age group, and work within the framework of a school district.
- 2. This course is good for four (4) years and has a \$75 fee.
- 3. Traditional state-approved CPR and First aid courses are still required to be kept current by the coaches.
- 4. Coaches shall still complete the yearly CDC "Heads Up" concussion course online.
- 5. Coaches shall still complete district wellness training, Right to Know, and Blood-Borne Pathogens courses.

The following pages are information from the AACCA website. AACCA is currently endorsed by the NFHS, the national governing body of high school sports. Each state may adopt different mandates and rules, but NFHS rules are used by certain sports in NYS, such as baseball, football, and soccer.

Also, this information gives an in-depth look at the resources that will become available to members who register and achieve AACCA certification. There is much, much more information on the website, but this is a very detailed snapshot of what this organization has to offer our district.

Assistant District Principal

The **AACCA** Spirit Safety Certification Program is a lecture course, study manual, and timed exam designed to educate cheerleading and dance coaches in all aspects of spirit safety and risk management.

The course is a three-hour lecture and review of the **AACCA** Safety Manual directed by an **AACCA** National Safety Instructor. The course covers such topics as legal and medical responsibilities, spotting, skill progressions, environmental safety concerns, psychological readiness, physical readiness, program evaluation and more. It concludes with a 90-minute, 100-question exam. A score of 70 must be achieved to qualify for certification. The course tuition is \$75, which includes the required **AACCA** Safety Manual.

The minimum age to take the course for certification is 18 years of age. Those under 18 can take the course as a benefit to their safety awareness, but certification will not be given until the age of 18.

The certification is valid for four years, and provides the certified coach with one million dollars of secondary liability insurance coverage for coaches who are employed full time by a school or school district as the primary coach or advisor for the school's cheerleader or dance squad(s) and are at least 21 years of age. Coverage for certified members remains in force for four years, subject to the renewal of the master policy. There is no policy at this time for non-school coaches.

Coaches will receive a certificate attesting that they have successfully completed the **AACCA** Safety Certification Course.

About AACCA

The American Association of Cheerleading Coaches and Administrators, **AACCA**, is a non-profit educational association for the over 70,000 cheerleading coaches across the United States. Founded in 1987, members of the association include: youth, junior high school, high school, all-star, and college or university coaches/advisors, as well as leading national cheerleading instructional companies dedicated to the safe and responsible practice of student cheerleading.

What can an AACCA certification do for you?

CHEERLEADERS -

Cheerleaders who are trained by **AACCA** certified coaches develop a sense of security and confidence! They know that they will practice and perform under the safest conditions possible. Cheerleaders will also learn that the athletic activity of cheerleading is about more than just stunting and tumbling. It's also about community outreach, school spirit, and leadership.

COACHES -

Coaches who are **AACCA** certified gain the understanding of how to implement the need for safety as their program evolves. They can rest, assured that they are getting the **BEST** safety training from experienced professionals with expert credentials in cheerleading and risk management. Coaches will also enjoy the **AACCA** website! It will provide them with updates, news, cheer related stories and resources!

PARENTS -

Parents get a sense of relief that their children are under the best supervision and care. They get a sense of security that, with **AACCA**, there is a professional organization looking out for the safety of their children! Parents can read more about the type of safety training **AACCA** provides in A Parent's Guide to Cheerleading Safety!

ADMINISTRATORS -

Administrators enjoy the fact that the certification is valid for four years, and is reviewed and updated. Administrators also like the fact that **AACCA** provides a certified coach with one million dollars of secondary liability insurance coverage.

Administrator's Checklist of Cheerleading Programs -

With the proper procedures, safety rules, supervision and equipment in place, cheerleading can be a very rewarding, relatively safe activity for young people. The following checklist is provided for administrators to help them provide a safe environment of the cheerleading program.

It is recommended that the administrator and the cheerleading supervisor meet periodically to discuss needs, objectives and goals of the program.

For more information, please call the **AACCA** office at **800-533-6583**, or visit the **AACCA** web site at <u>http://www.aacca.org</u>.
