

NENANA CITY SCHOOL DISTRICT

Home of the Lynx

Mission:

To provide an innovative education for students including trauma-engaged techniques and relevant activities promoting problem-solving and citizenship.

Vision:

To be the exemplary rural Alaskan district that is flexible and responsive to the needs of students while developing academic and personal excellence.

Dear Nenana Parents, Students, Staff, and Community:

In order to effectively meet the School District's mission and vision, the District has committed to regularly reviewing and selecting the curriculum used to teach students at Nenana City School. You can find details and more information on our website, [here](#). Part of this process is an opportunity for the public to review curriculum materials considered by the District's relevant curriculum committee, made up of board members, administrators, and teachers.

Nenana City School District is currently in the process of selecting a comprehensive Health curriculum for all 7th through 12th grade students. The intention is to purchase a curriculum by the end of this school year, to begin implementation next school year. The curriculum will be used for 7 years. The committee has reached the point of public review, and would like to seek your input on all curricula currently under consideration.

At your convenience, please find the hard copies of the curriculum in the school library for consideration. The library will be open from 4pm-7pm from April 11th through the 25th for this purpose. You may use [this](#) form to complete the review. There are digital components to each curriculum, samples of which can be provided to you upon request. The curriculum committee will convene on the week of April 23rd to consider public comments.

Please contact Stephen Calkin at the school's phone number (907) 832-5464 or email him at scalkin@nenanalynx.org if you have any questions or comments regarding either the curriculum under consideration or the review process itself.

Thank you for your time and consideration.
