

**FUNDING SOURCES OUTSIDE THE REGIONAL SCHOOL UNIT**

The superintendent will apprise the board of its eligibility for general program funds and make recommendations for board action. The superintendent will keep the Board of Directors informed of sources of state, federal and other funds which support the schools and/or enhance educational opportunities within the schools.

The board authorizes the superintendent to act as an agent for the board in making applications, and accepting subsidies for grants. Such authorization shall be continuous unless revoked by the Board.

The superintendent/designee will provide the board with a written summary twice a year of all grants received, a summary accounting of how the grants supported the district's educational programs and the grants' effects on the financial commitment of the school unit.

Adopted: July 11, 2017
