

PUBLIC SOLICITATION IN THE SCHOOLS

The Board recognizes the social value of charitable and humanitarian agencies and their need for financial support. To ensure that students and school personnel are not exploited in efforts to gain financial support for these organizations, the District shall not permit non-school organizations to use school time, facilities, personnel or students for collection, sale, merchandising, or any form of solicitation. Student fundraising for charitable causes shall be governed by policy JJE - *Student Fundraising Activities*.

The District will allow contractual relationships with vendors to offer specialty products or services to students, at group rates, that the school system cannot provide. Examples of such products and services are class rings, yearbooks, school photographs, graduation invitations, caps and gowns, and “school spirit” merchandise (e.g., sweatshirts with school logo). The building principal will be responsible for screening and approval of vendors of student-oriented. Vendors shall not be permitted to contact students or school personnel during school hours, except as authorized by the building principal.

Long-term, multi-year contractual agreements with significant financial responsibility born by the school shall require the written approval of the Superintendent of Schools.
