

The Department of Public Instruction (DPI) is required by state statute ([Wis. Stat. 115.385](#)) to generate a district and school report card for every publicly funded school and district in the state. The report cards are intended to help schools and districts use performance data to celebrate successes and improve their efforts to prepare students for their futures. These public report cards can be found online at: <http://dpi.wi.gov/accountability/report-cards>.

At the foundation of the report cards are four priority areas. Schools and districts receive a score for each priority area:

- Achievement - proficiency in English language arts (ELA) and mathematics on the annual state assessments
- Growth - year-to-year progress in ELA and math achievement
- Target Group Outcomes - outcomes for students with the lowest test scores: the Target Group.
- On-Track to Graduation - reliable predictors of how successfully students are progressing toward completing their K-12 education.
