

FOR IMMEDIATE RELEASE

June 14, 2019

Contact: Superintendent Cliff Williams

Riley County USD #378

(785) 485-4000

RILEY, KANSAS - The Riley County USD #378 is considering a bond election in November 2019 to renovate and upgrade the local schools. Five (5) general areas of need have been identified by the Facilities Committee of the USD #378 school board.

In an effort to develop a priority and definition of needs the USD #378 board has surveyed, with the help of ASA Strategic Funding Group (Topeka KS) over 250 parents, staff and administration with on-line surveys and face to face meetings in April and May 2019.

Additionally, phone polling of over 150 randomly chosen district registered voters took place in early June seeking district registered voter's opinions on these five areas of need.

In total, 400 parents, staff, administration and registered voters participated in this needs assessment giving each of the following an importance ranking.

1. Physical Plant: Repairing, restoring, and updating facilities to meet educational needs and standards. Utilize practical upgrades for future cost savings whenever and wherever possible. Modular classrooms which have worn out their usage and are a safety and security concern. The addition of an elevator and updated restrooms in the grade school to comply with ADA standards are needed. Additionally shoring up an area of the grade school that appears to be sinking/moving, creating door, window and other structural problems. Finally, many roofs are aged and several need replacement.

88% on average of the over 400 participants polled gave this need the ranking of VERY IMPORTANT/IMPORTANT TO ME.

2. Safety and Security: Addressing many safety and security issues: Construction of secure entries and improved monitoring at both buildings and potentially adding a storm shelter. Incorporate upgrades as required or recommended with associated physical plant redesign to address safety and security needs of the students and staff at the schools. Child pick up lanes at the grade school have been an issue of discussion as well as more visible and secure entries at both buildings has also been a point of discussion. Additionally, rearranging or moving the offices at both buildings to enhance visibility and access to entrances has also been discussed.

85% on average of participants polled gave this need the ranking of **VERY IMPORTANT/IMPORTANT TO ME.**

Improved Educational Space: Build, renovate or add to the current facilities to meet the educational needs of the district's students. Including if necessary, storm shelter/gymnasium at the Grade School for additional educational space as well as safety purposes. Discussed the rearrangement and need for additional educational space at both schools, instructional time improvement, especially for our middle school students. Addition of ADA equipped bathrooms and classrooms at the elementary. Larger and enhanced classrooms rooms at both schools and the potential of improved conference rooms at the grade school.

75% on average of participants polled gave this need the ranking of **VERY IMPORTANT/IMPORTANT TO ME.**

Inviting and Welcoming Educational Atmosphere: Consider improvements needed to create an inviting educational atmosphere at district buildings to provide a welcoming and encouraging environment for students, staff, patrons and visitors. Today's educational facilities are designed to look and feel less institutional to encourage educational collaboration and creativity. Several areas were identified as potential for improvement or creation of such space at each building and help to instill a sense of pride in our school and our community.

70% on average of participants polled gave this need the ranking of **VERY IMPORTANT/IMPORTANT TO ME.**

Energy Savings and Improved Efficiencies: Upgrade heating, cooling, air quality and lighting: Needed not only for cost efficiency but also to improve the educational environment for the district's students and staff. Boilers in both buildings are 36 (HS) & 56 (GS) years old and in need of replacement or newer more modern HVAC systems installed. We are gradually replacing lighting with LED but are dealing with expensive old technology. These and many other HVAC etc. items need updating or replacement.

67% on average of participants polled gave this need the ranking of **VERY IMPORTANT/IMPORTANT TO ME.**

The Board and the Facilities Committee are continuing their due diligence working with engineers and contractors to determine the most efficient and "best fit" solutions to an ever-increasing list of building needs facing them. Engineers as well as maintenance staff and school administration understand there are many needs that have long gone unmet, and a realization that now is the time to address these needs is becoming more and more evident.

Executive Summary
Public Opinion Study June 18, 2019
Riley County USD #378

Telephone interviews were conducted during the weeks of June 3rd and June 10th, 2019. A total of 150 telephone interviews completed by ASA’s Strategic Funding call center. Computer aided telephone interviewing (CATI) with Riley USD #378 registered voters, captured public opinion for potential improvements at the high school and grade school (K-8).

Respondents were asked to assign a level of importance in their opinion, to the five (5) areas of needs identified from an assessment submitted by teachers, parents, and staff.

District registered voters gave their opinion of the importance of the 5 areas of needs identified in a need’s assessment conducted by the District facilities committee with the assistance of ASA Strategic Funding. The top 2 “important” composite scores (very important + important) column 1 and the top score % (very important only) for each of the 5 are as follows:

	Composite%	Top%
1. Repairing, restoring, upgrading buildings and needs for ADA	79.3	54.0 (2)
2. Improving safety and security	74.0	56.7 (1)
3. Improving energy savings and efficiency	62.0	26.7 (5)
4. Creating an inviting educational atmosphere	58.7	32.7 (3)
5. Improving educational spaces	50.0	29.3 (4)

Analysis:

Repairing and Restoring & Safety and Security were by far the two most popular needs as indicated by registered voters. Also, considering the fact that they received a **54.7% and a 56.7% VERY IMPORTANT TO ME** rating respectively (second column) when compared to the other three needs groups indicating strong support for these two needs among registered voters polled.

When respondents were asked if all these needs could be funded with a school bond, would they vote *yes or no*. A 60.7% yes score was recorded. Thus, with a margin of error of + or -

7.8%, the *yes* vote range, at the time of polling, could be as high as 68.5% to 52.9% on the low side based on the data collected for this study.

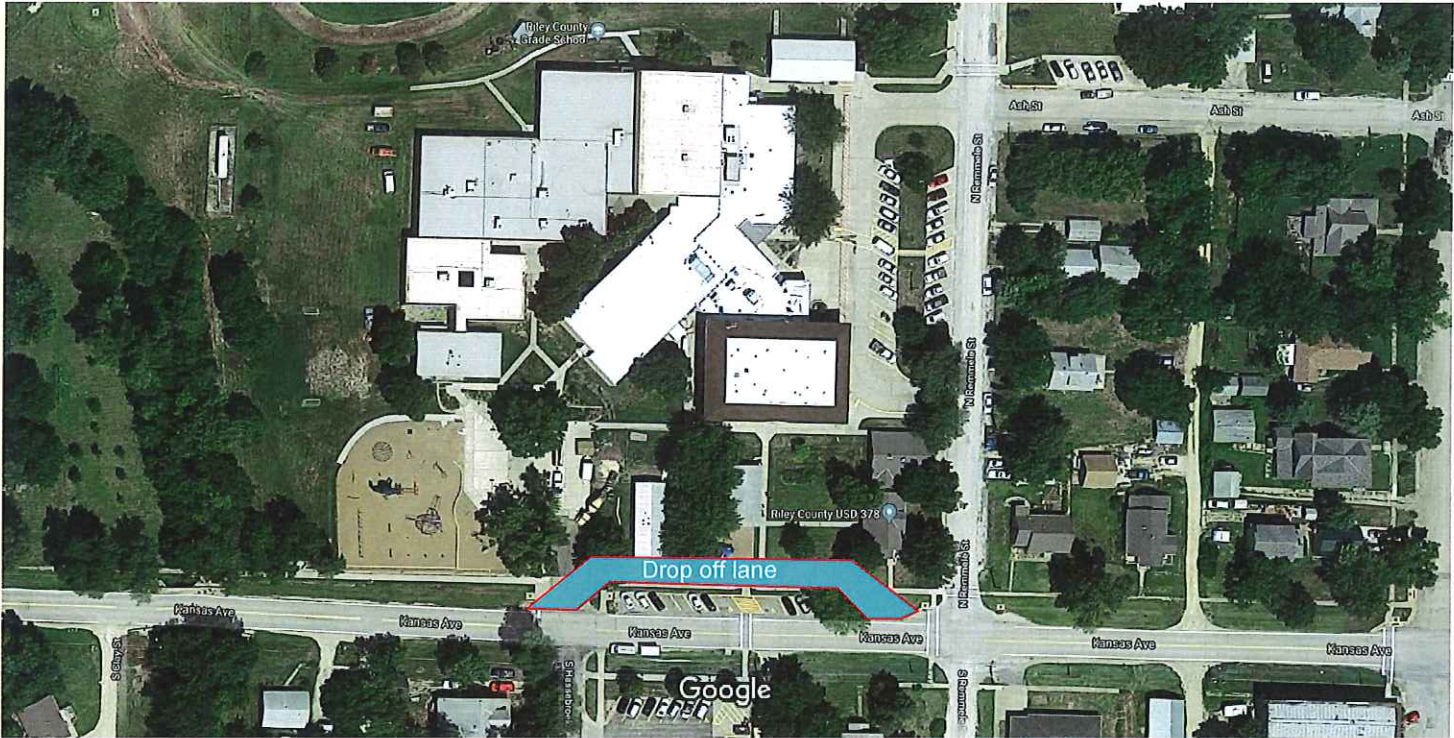

When *undecided* voters (20.7%), and *no* voters (18.7%) were given additional information in Q4, 12.7% additional *yes* voters resulted. If these voters are converted to a *yes* vote with additional information, the *yes* vote could now range as high as 81.2% to as low as 65.6%.

The study also revealed there is a hard line *no* vote of 15.3%. People who said they would continue to vote *no* even with additional information.

Registered voters in the 50 plus age group represented 66.7% of all respondents, and 5.4% more women than men participated in the study. This is consistent with the age and gender demographics of registered voters who actually go to the polls to vote.

This public opinion poll indicates base line support for improvements needed and suggests that continued public forums with education and information while seeking feedback and input should keep the opportunity for a positive bond vote on track.

This study is a snapshot of current public opinion and should be used for administrative use only at this time.

Financial Advisory Fee

For providing financial advisory services to the District for the proposed bond project, our fee is set forth in the following table. The fee will be contingent on a successful bond election and subsequent financing. The fee is included in the bond issue and paid from bond proceeds. If the bond issue is not successful, no fee is payable to Piper Jaffray for our services.

If the amount of Bonds Issued is equal To or more than	And not more than	Then the fee shall be
\$0	\$2,500,000	\$20,000
2,500,001	5,000,000	35,000
