Dear Parents,

During the school year, pictures are often taken of the students participating in classroom or school activities. These pictures are used for, but not limited to, class projects; newspaper articles; the district website; classroom websites; etc.

If you do not want your child to be included in these pictures it is necessary for you to complete, sign and return this form to your child's teacher so that we can have it on file. This form will be good for the whole school year and will include all picture use in anything school related excluding the yearbook.

Thank you

Mr. Kenneth L. Veidheffer
Principal

Mrs. Jennifer L. Gaston
Assistant Principal
