no

No.

No

nope

Nope

I believe the entirety of the school system needs to be: 1) Looked over, 2) Redone and refreshed to ensure the health and education of students and teachers, and 3) To take inspiration from other states, and other nations on the international level to improve our system. There is not much we as students can do to fix the system that is meant to teach us for the future, and even though we cannot improve the system ourselves, our voice should be heard.

nope.

No questions are great. School is more layed back this year and is much better than it is compared to when i first came to SHS as a freshman

Nope can't think of any.

I feel there should be a question asking how would you discipline or how would handle bullying since what the administrators are doing is not working.

teachers explaing work better

I don't have any questions

ms. Reeter's math.

We just need Ms. Reeter to explainl things a little better

There was not :-)

to gragawat

.

no you are good

no im good.

do you like the food here/ do you know how to talk to your class mates

coments about teathers

When will we be getting better food.

when will there be better lunch or breakfast

We MUST have better food.

No bullying is kinda bad and they just give them warnings and it needs to be taken care of but i understand and know that the principle is busy.

We should have better food because it is unappetizing and has made me sick multiple times I have found many strands of hair and once even found a fingernail. We also must get better teachers when it comes to certain subjects, teachers have made many students cry and dread coming to class.

We need ranch for pizza

nun

not that i could think of

helping kids more when they need help

there is not any.

No i don't think so

there are not

No I feel like all the questions are good ones to ask.

There are no topics that you didn't cover that I felt there was a need to be covered.

I think this survey should of asked if we are comfortable at this school and if were comfortabele going to talk to a adult at this school

Vaping and weed abuse in school

fun

why we don't have certain sports

NA

nah

There are no other topics that I think you should have talked about

none

Do teachers treat all genders fairly.

idk

is the food good

nah nothin

iodrnv;

n/a

Sports and what you all could consider equipment or coaching wise.

phones for the love of god let us be on them in the halls or at least when we aren't doing anything in class

what is your favorite part of school

i think it was all covered

Should we be able to have snacks in class just small ones

NO

I think we should look into the extracurricular coaches and people in charge and how they treat the students and players.

When you asked if i liked going to this school i put a 2 because I hate going to school in general. Its not because of this school, I prefer this school over any other school. I was just saying I dislike going to school in general.

no

no there isnt any other topics i think of

Some teachers not all but some can be relly bias

No.

I wish some complicated subjects were able to be broken down and spoken about better by teachers in class, because sometimes some students don't understand at all. Along with club opportunities that could be spread out because some people have zero clue about any club opportunities.

this might be reaching but i feel as though we would come together and be closer as a school if we had more events/activities including the whole school. Though we congratulate kids on there good attendance or grades, many kids are trying their best to make it here, and feel as though their efforts will go nowhere. Just suggest more recognition as a whole group, not separate reasons. Not saying the student who are doing good shouldn't get celebrated because I strongly believe they should. Just feel the kids who are still trying their best but not making it far should be noticed and called out for there hard work. I myself work hard and have great grades but others aren't as fortunate and i can see so many students busting

their butts, studying and being exhausted just to get a bad grade, and I feel for them.

Yuh, about how I feel about this school. I hate this school, it sucks and it makes me mad. I don't understand this school, I really wish my voice could be heard in this school. No one listens and teachers are disrespectful to me for no reason. I miss school because what's the point in going to a school that can't help you. I feel like I'm not safe here, everyone can talk a whole lot of crap on you and you tell a teacher and they don't do anything. Someone touches you in a very inappropriate way and the principle here does not give them the discipline they need.

we need better food, and new math teacher, and a music teacher.
