County Profile Information

Washington County, Kansas

According to figures provided in the Kansas Statistical Abstract, the population of Washington county was approximately 5420 in 2018. This represents a -6.54% change or net migration since the 2010 United States Census. With a total number of 894.8 square miles in the county, the population density for the county is 6.5 people per square mile. This places the county in the KDHE population peer group of a Rural area. According to projections reported in the Kansas Statistical Abstract, the percentage change in total population through the year 2044 is estimated at -31.58 for the county.

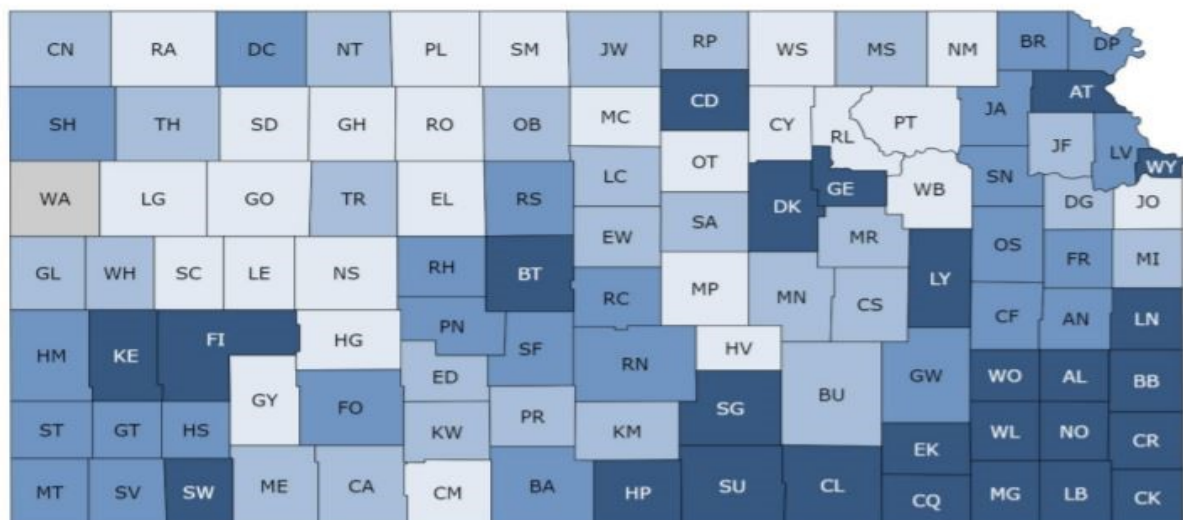

County Health Rankings:

The County Health Rankings (provided by the Robert Wood Johnson Foundation) measure the health of nearly all counties in the nation and rank them within states. The Rankings are compiled using county-level measures from a variety of national and state data sources with 1 being the best.

The overall rankings in health factors represent what influences the health of a county. They are an estimate of the future health of counties as compared to other counties within a state. The ranks are based on four types of measures: health behaviors, clinical care, social and economic, and physical environment factors.

Details regarding this data can be found at: <http://www.countyhealthrankings.org/#app/>

Postsecondary Progress Report

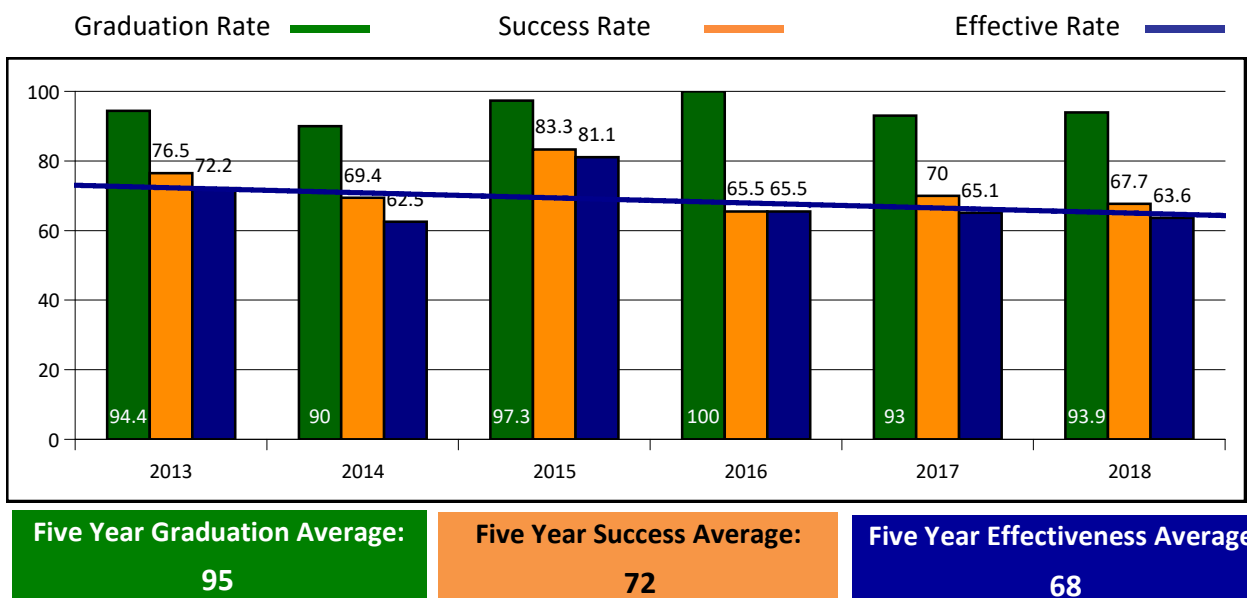

Graduation Rate:

The 4-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who entered high school as 9th graders four years earlier (adjusting for transfers in and out)

Success Rate: A student must meet one of four within two years of High School graduation

1. Student earned an Industry Recognized Certification while in High School
2. Student earned a Postsecondary Certificate
3. Student earned a Postsecondary Degree
4. Student enrolled in Postsecondary in both the first and second year following High School

Effective Rate: The calculated Graduation Rate multiplied by the calculated Success Rate.

95% Confidence Interval for the Predicted Effectiveness Rate

Lower Bound Upper Bound
55.4 — 58.9

If your district's five-year effectiveness average is within or above the predicted range, then your district's effectiveness rates can be considered average, or maybe better than average, when compared to similar districts. On the other hand, if your district's five-year effectiveness average is below this predicted range, then its performance is either average or below average.

Relative Performance

How do I know if my district is average, much better or much worse than similar districts?

Estimate of your district's predicted effectiveness rate: 57.2

District Performance Level Category:

For detailed instructions on how to calculate the statistical data shown below, see the "Relative Performance" tab on the KansansCAN Postsecondary Progress Report page.

Five-Year Effective Avg

68%

95% Confidence Interval for the Predicted Effectiveness Rate

55.4 - 58.9%

The numerator and denominator in the Five-Year Averages contain total student counts over five years (2012-2016).

Graduation Rate: The 4-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who entered high school as 9th graders four years earlier (adjusting for transfers in and out).

Success Rate: A student must meet one of the four following outcomes within two years of High School graduation.

1. Student earned an Industry Recognized Certification while in High School.
2. Student earned a Postsecondary Certificate.
3. Student earned a Postsecondary Degree.
4. Student enrolled in Postsecondary in both the first and second year following High School graduation.

Effective Rate: The calculated Graduation Rate multiplied by the calculated Success Rate.

GRADUATION RATE

The four-year adjusted cohort graduation rate is the percentage of students in a cohort, adjusted for transfers into and out of the school, district, or state, who graduate with a regular high school diploma within four years of entering high school.

ATTENDANCE RATE

Rate at which students are present at school, not including excused or unexcused absences.

CHRONIC ABSENTEEISM

Percentage of students who miss 10% or more of school days per year either with or without a valid excuse.

DROPOUT RATE

The dropout rate is calculated annually and reflects the number of seventh–twelfth grade students who drop out in any one school year. A dropout is any student who exits school between October 1 and September 30 with a dropout EXIT code AND does not re-enroll in school by September 30.

ACT Performance (2020 School Year)

ACT is a national college admissions exam that includes subject level tests in English, Math, Reading and Science. Students receive scores that range from 1 to 36 on each subject and an overall Composite score. This report provides the average Composite score for the 2020 graduating seniors who took the ACT as sophomores, juniors, or seniors.

Note: Not all eligible students completed an ACT.
