School-based Internet access is provided to students only for academic purposes and Thomasville City Schools' Acceptable Use Policy governs its use. Thomasville City Schools believes that Internet use can promote academic excellence when on-line resources are used for research and educational purposes. However, with widespread access to computers and people comes the possibility of encountering material and information that do not support the mission and goals of Thomasville City Schools and may be considered inappropriate by some families. It is impossible to guarantee that students will never encounter inappropriate materials, so it becomes the responsibility of the student to use good judgment when on-line. Parents and students should discuss appropriate and inappropriate on-line activities and reach a mutual understanding about acceptable standards for their family.

Student Agreement: I understand the potential problems concerning inappropriate materials on the Internet and I will use good judgment in my on-line behavior. I further understand that any misuse of computer resources may require suspension or cancellation of my network access privileges.
