

STEM Fair Project Information

FHSA provides the STEM Fair (formerly science fair) so our students can research, observe, analyze and draw conclusions in an area of science, engineering, and mathematics with a societal connection that is of interest to them. While we recognize that younger students will need some assistance in developing their ideas and supervision as they do their experiments, 90% of the work is to be done by the students. Information for students and parents will be provided on ***Tuesday, October 1, 2018***. Below is a table of important information regarding due dates and help sessions. Please note this is a tentative schedule and subject to change.

Date	Student Tasks	Teacher Tasks
Oct. 1	Packets are taken home and read	Pass out packets & answer questions
Oct. 7	Have 3 topics chosen	Approve students' topics
Oct 8-18	Begin collecting background info on your topic	Check-in with students regarding their research
Oct 21-24	Work on hypothesis, materials, procedure	Approve H, M, & P
Oct 24-31	Once approved begin experimentation	Check students' logbooks for experimentation info
Oct 29	HELP Session, 2:25-3:30, room 330	
Nov 1-11	Complete experiment, collect, and analyze data	Provide info into data collection and analysis
Nov 12-30	Data analysis, typing of report & board components	Allow class time for questions, help, & typing as possible with class schedule
Nov 19	HELP Session, 2:25-3:30, room 330	
Dec 2	HELP Session, 2:25-3:30, room 330	
Dec 13	Final Report & Display Board Due	Collect Reports & Boards
Jan. TBA	STEM Fair Judging & STEM Fair Awards*	

*Please note the dates are subject to change based on the weather
