School District Organization

School District Legal Status

The Illinois Constitution requires the State to provide for an efficient system of high-quality public educational institutions and services in order to achieve the educational development of all persons to the limits of their capabilities.

The General Assembly has implemented this mandate through the creation of school districts. The District is governed by the laws for school districts serving a resident population of not fewer than 1,000 and not more than 500,000.

The School Board constitutes a body corporate that possesses all the usual powers of a corporation for public purposes, and in that name may sue and be sued, purchase, hold and sell personal property and real estate, and enter into such obligations as are authorized by law.

School District Elections

School District elections are non-partisan, governed by the general election laws of the State, and include the election of School Board members, various public policy propositions, and advisory questions. Board members are elected at the consolidated election held on the first Tuesday in April in odd-numbered years. If, however, that date conflicts with the celebration of Passover, the consolidated election is postponed to the first Tuesday following the last day of Passover. The canvass of votes is conducted by the election authority within 21 days after the election.

The Board, by proper resolution, may cause to be placed on the ballot: (a) public policy referendum according to Article 28 of the Election Code, or (b) advisory questions of public policy according to Section 9-1.5 of the School Code.

The Board Secretary serves as the local election official. He or she receives petitions for the submission of a public question to referenda and forwards them to the proper election officer and otherwise provides information to the community concerning District elections.

Each of the listed exceptions is mutually exclusive and independent of every other.

**Enforcement**

The Board President and Superintendent shall seek guidance from the Board attorney concerning compliance with and enforcement of this policy and State ethics laws. The Board may, as necessary or prudent, appoint an Ethics Advisor for this task.
Written complaints alleging a violation of this policy shall be filed with the Superintendent or Board President. If attempts to correct any misunderstanding or problem do not resolve the matter, the Superintendent or Board President shall, after consulting with the Board Attorney, either place the alleged violation on a Board meeting agenda for the Board’s disposition or refer the complainant to Board policy 2:260, *Uniform Grievance Procedure*. Board Member Development

The School Board desires that its individual members learn, understand, and practice effective governance principles. The Board is responsible for Board member orientation and development. Board members have an equal opportunity to attend State and national meetings designed to familiarize members with public school issues, governance, and legislation.

The Board President and/or Superintendent shall provide all Board members with information regarding pertinent education materials, publications, and notices of training or development.

Mandatory Board Member Training

Each Board member is responsible for his or her own compliance with the mandatory training laws that are described below:

1. Each Board member elected or appointed to fill a vacancy of at least one year’s duration must complete at least four hours of professional development leadership training in education and labor law, financial oversight and accountability, and fiduciary responsibilities within the first year of his or her first term.

2. Each Board member must complete training on the Open Meetings Act no later than 90 days after taking the oath of office for the first time. After completing the training, each Board member must file a copy of the certificate of completion with the Board. Training on the Open Meetings Act is only required once.

3. Each Board member must complete a training program on evaluations under the Performance Evaluation Reform Act (PERA) before participating in a vote on a tenured teacher’s dismissal using the optional alternative evaluation dismissal process. This dismissal process is available after the District’s PERA implementation date.

The Superintendent or designee shall maintain on the District website a log identifying the complete training and development activities of each Board member.

Board Self-Evaluation

The Board will conduct periodic self-evaluations with the goal of continuous improvement.

New Board Member Orientation

The orientation process for newly elected or appointed Board members includes:

1. The Board President or Superintendent, or their designees, shall give each new Board member a copy of or online access to the Board Policy Manual, the Board’s regular meeting minutes for the past year, and other helpful information including material describing the District and explaining the Board’s roles and responsibilities.

Board Member Compensation; Expenses

Board Member Compensation Prohibited
School Board members provide volunteer service to the community and may not receive compensation for services, except that a Board member serving as the Board Secretary may be paid an amount up to the statutory limit if the Board so provides.

Roll Call Vote
All Board member expense requests for travel, meals, and/or lodging must be approved by roll call vote at an open meeting of the Board.

Regulation of School District Expenses
The Board regulates the reimbursement of all travel, meal, and lodging expenses in the District by resolution. No later than approval of the annual budget and when necessary, the Superintendent will recommend a maximum allowable reimbursement amount for expenses to be included in the resolution. The recommended amount should be based upon the District’s budget and other financial considerations.

Money shall not be advanced or reimbursed, or purchase orders issued for: (1) the expenses of any person except the Board member, (2) anyone’s personal expenses, or (3) entertainment expenses. Entertainment includes, but is not limited to, shows, amusements, theaters, circuses, sporting events, or any other place of public or private entertainment or amusement, unless the entertainment is ancillary to the purpose of the program or event.

Exceeding the Maximum Allowable Reimbursement Amount(s)
All requests for expense advancements, reimbursements, and/or purchase orders that exceed the maximum allowable reimbursement amount set by the Board may only be approved by it when:

1. The Board’s resolution to regulate expenses allows for such approval;
2. An emergency or other extraordinary circumstance exists; and
3. The request is approved by a roll call vote at an open Board meeting.

Advancements
The Board may advance to its members actual and necessary expenses to be incurred while attending:

1. Meetings sponsored by the Illinois State Board of Education or by the Regional Superintendent of Schools;
2. County or regional meetings and the annual meeting sponsored by any school board association complying with Article 23 of the School Code; and
3. Meetings sponsored by a national organization in the field of public school education.

Expense advancement requests must be submitted to the Superintendent or designee on the Board’s standardized estimated expense approval form. After spending expense advancements, Board
members must use the Board’s standardized expense reimbursement form and submit to the Superintendent: (a) the itemized, signed advancement voucher that was issued, and (b) the amount of actual expenses by attaching receipts. A Board member must return to the District any portion of an expense advancement not used. If an expense advancement is not requested, expense reimbursements may be issued by the Board to its members for the activities listed in numbers one through three, above, along with registration fees or tuition for a course(s) that allowed compliance with the mandatory trainings described in policy 2:120, Board Member Development and other professional development opportunities that are encouraged by the School Code (see the Reimbursements and Purchase Orders subhead, below). Expense advancements and vouchers shall be presented to the Board in its regular bill process.

Reimbursements and Purchase Orders
Expense reimbursement is not guaranteed and, when possible, Board members should seek pre-approval of expenses by providing an estimation of expenses on the Board’s standardized estimated expense approval form, except in situations when the expense is diminutive. When pre-approval is not sought, Board members must seek reimbursement on the Board’s standardized expense reimbursement form. Expense reimbursements and purchase orders shall be presented to the Board in its regular bill process.

Credit and Procurement Cards
Credit and procurement cards shall not be issued to Board members.

Committees
The School Board may establish committees to assist with the Board’s governance function and, in some situations, to comply with State law requirements. These committees are known as Board committees and report directly to the Board. Committee members may include both Board members and non-Board members depending on the committee’s purpose. A Board committee may not take final action on behalf of the Board – it may only make recommendations to the Board.

Special Board Committees
A special committee may be created for specific purposes or to investigate special issues. A special committee is automatically dissolved after presenting its final report to the Board or at the Board’s discretion.

Standing Board Committees
A standing committee is created for an indefinite term although its members will fluctuate. Standing committees are:

1. Parent-Teacher Advisory Committee. This committee assists in the development of student behavior policy and procedure, and provides information and recommendations to the Board. Its members are parents/guardians and teachers, and may include persons whose expertise or experience is needed. The committee reviews such issues as administering medication in the schools, reciprocal reporting between the School District and local law enforcement agencies regarding criminal offenses committed by students, student discipline, disruptive classroom behavior, school bus safety procedures, and the dissemination of student conduct information.

2. Behavioral Interventions Committee. This committee develops and monitors procedures for using behavioral interventions in accordance with Board policy 7:230, Misconduct by Students with Disabilities, and provides information and recommendations to the Board. At the Board President’s discretion, the Parent-Teacher Advisory Committee shall perform the duties assigned to the Behavioral Interventions Committee.

School Board Meeting Procedure

Agenda

The School Board President is responsible for focusing the Board meeting agendas on appropriate content. The Superintendent shall prepare agendas in consultation with the Board President. The President shall designate a portion of the agenda as a consent agenda for those items that usually do not require discussion or explanation before Board action. Upon the request of any Board member, an item will be withdrawn from the consent agenda and placed on the regular agenda for independent consideration.

Each Board meeting agenda shall contain the general subject matter of any item that will be the subject of final action at the meeting. Items submitted by Board members to the Superintendent or the President shall be placed on the agenda for an upcoming meeting. District residents may suggest inclusions for the agenda. The Board will take final action only on items contained in the posted agenda; items not on the agenda may still be discussed.

The Superintendent shall provide a copy of the agenda, with adequate data and background information, to each Board member at least 48 hours before each meeting, except a meeting held in the event of an emergency. The meeting agenda shall be posted in accordance with Board policy 2:200, Types of School Board Meetings.

The Board President shall determine the order of business at regular Board meetings. Upon consent of a majority of members present, the order of business at any meeting may be changed.

Voting Method

Unless otherwise provided by law, when a vote is taken upon any measure before the Board, with a quorum being present, a majority of the votes cast shall determine its outcome. A vote of abstain or present, or a vote other than yea or nay, or a failure to vote, is counted for the purposes of determining whether a quorum is present. A vote of abstain or present, or a vote other than yea or nay, or a failure to vote, however, is not counted in determining whether a measure has been passed by the Board, unless otherwise stated in law. The sequence for casting votes is rotated.

On all questions involving the expenditure of money and on all questions involving the closing of a meeting to the public, a roll call vote shall be taken and entered in the Board’s minutes. An individual Board member may request that a roll call vote be taken on any other matter; the President or other presiding officer may approve or deny the request but a denial is subject to being overturned by a majority vote of the members present.

Minutes

The Board Secretary shall keep written minutes of all Board meetings (whether open or closed), which shall be signed by the President and the Secretary. The minutes include:

1. The meeting’s date, time, and place;

2. Board members recorded as either present or absent;
3. A summary of the discussion on all matters proposed, deliberated, or decided, and a record of any votes taken;

4. On all matters requiring a roll call vote, a record of who voted yea and nay;

5. If the meeting is adjourned to another date, the time and place of the adjourned meeting;

6. The vote of each member present when a vote is taken to hold a closed meeting or portion of a meeting, and the reason for the closed meeting with a citation to the specific exception contained in the Open Meetings Act authorizing the closed meeting;

7. A record of all motions, including individuals making and seconding motions;

8. Upon request by a Board member, a record of how he or she voted on a particular motion; and

9. The type of meeting, including any notices and, if a reconvened meeting, the original meeting’s date.

The minutes shall be submitted to the Board for approval or modification at its next regularly scheduled open meeting. Minutes for open meetings must be approved within 30 days after the meeting or at the second subsequent regular meeting, whichever is later.

At least semi-annually in an open meeting, the Board: (1) reviews minutes from all closed meetings that are currently unavailable for public release, and (2) decides which, if any, no longer require confidential treatment and are available for public inspection. The Board may meet in a prior closed session to review the minutes from closed meetings that are currently unavailable for public release.

The Board’s meeting minutes must be submitted to the Board Treasurer at such times as the Treasurer may require.

The official minutes are in the custody of the Board Secretary. Open meeting minutes are available for inspection during regular office hours within ten days after the Board’s approval; they may be inspected in the District’s main office, in the presence of the Secretary, the Superintendent or designee, or any Board member.

Minutes from closed meetings are likewise available, but only if the Board has released them for public inspection, except that Board members may access closed session minutes not yet released for public inspection (1) in the District’s administrative offices or their official storage location, and (2) in the presence of the Recording Secretary, the Superintendent or designated administrator, or any elected Board member. The minutes, whether reviewed by members of the public or the Board, shall not be removed from the District’s administrative offices or their official storage location except by vote of the Board or by court order.

The Board’s open meeting minutes shall be posted on the District website within ten days after the Board approves them; the minutes will remain posted for at least 60 days.

**Verbatim Record of Closed Meetings**

The Superintendent, or the Board Secretary when the Superintendent is absent, shall audio record all closed meetings. If neither is present, the Board President or presiding officer shall assume this responsibility. After the closed meeting, the person making the audio recording shall label the recording with the date and store it in a secure location. The Superintendent shall ensure that: (1)
an audio recording device and all necessary accompanying items are available to the Board for every closed meeting, and (2) a secure location for storing closed meeting audio recordings is maintained close to the Board’s regular meeting location.

After 18 months have passed since being made, the audio recording of a closed meeting is destroyed provided the Board approved: (1) its destruction, and (2) minutes of the particular closed meeting. Individual Board members may access verbatim recordings in the presence of the Recording Secretary, the Superintendent or designated administrator, or any elected Board member. Access to the verbatim recordings is available at the District’s administrative offices or the verbatim recording’s official storage location. Requests shall be made to the Superintendent or Board President. While a Board member is listening to a verbatim recording, it shall not be re-recorded or removed from the District’s main office or official storage location, except by vote of the Board or by court order.

Before making such requests, Board members should consider whether such requests are germane to their responsibilities, service to District, and/or Oath of Office in policy 2:80, Board Member Oath and Conduct. In the interest of encouraging free and open expression by Board members during closed meetings, the recordings of closed meetings should not be used by Board members to confirm or dispute the accuracy of recollections.

Quorum and Participation by Audio or Video Means

A quorum of the Board must be physically present at all Board meetings. A majority of the full membership of the Board constitutes a quorum.

Provided a quorum is physically present, a Board member may attend a meeting by video or audio conference if he or she is prevented from physically attending because of: (1) personal illness or disability, (2) employment or District business, or (3) a family or other emergency. If a member wishes to attend a meeting by video or audio means, he or she must notify the recording secretary or Superintendent at least 24 hours before the meeting unless advance notice is impractical. The recording secretary or Superintendent will inform the Board President and make appropriate arrangements. A Board member who attends a meeting by audio or video means, as provided in this policy, may participate in all aspects of the Board meeting including voting on any item.

Rules of Order

Unless State law or Board-adopted rules apply, the Board President, as the presiding officer, will use Robert’s Rules of Order, Newly Revised (10th Edition), as a guide when a question arises concerning procedure.

Broadcasting and Recording Board Meetings

Any person may record or broadcast an open Board meeting. Special requests to facilitate recording or broadcasting an open Board meeting, such as seating, writing surfaces, lighting, and access to electrical power, should be directed to the Superintendent at least 24 hours before the meeting. Recording meetings shall not distract or disturb Board members, other meeting participants, or members of the public. The Board President may designate a location for recording equipment, may restrict the movements of individuals who are using recording equipment, or may take such other steps as are deemed necessary to preserve decorum and facilitate the meeting.

Board Policy Development
The School Board governs using written policies. Written policies ensure legal compliance, establish Board processes, articulate District ends, delegate authority, and define operating limits. Board policies also provide the basis for monitoring progress toward District ends.

Policy Development
Anyone may propose new policies, changes to existing policies, or deletion of existing policies. Staff suggestions should be processed through the Superintendent. Suggestions from all others should be made to the Board President or the Superintendent.

A Board Policy Committee will consider all policy suggestions and provide information and recommendations to the Board.

The Superintendent is responsible for: (1) providing relevant policy information and data to the Board, (2) notifying those who will implement or be affected by or required to implement a proposed policy and obtaining their advice and suggestions, and (3) having policy recommendations drafted into written form for Board deliberation. The Superintendent shall seek the counsel of the Board Attorney when appropriate.

Policy Adoption and Dissemination
Policies or policy revisions will not be adopted at the Board meeting at which they are first introduced, except when: (1) appropriate for a consent agenda because no Board discussion is required, or (2) necessary or prudent in order to meet emergency or special conditions or to be legally compliant. Further Board consideration will be given at a subsequent meeting(s) and after opportunity for community input. The adoption of a policy will serve to supersede all previously adopted policies on the same topic.

The Board policies are available for public inspection in the District’s main office during regular office hours. Copy requests should be made pursuant to Board policy 2:250, Access to District Public Records.

Board Policy Review and Monitoring
The Board will periodically review its policies for relevancy, monitor its policies for effectiveness, and consider whether any modifications are required. The Board may use an annual policy review and monitoring calendar.

Superintendent Implementation
The Board will support any reasonable interpretation of Board policy made by the Superintendent. If reasonable minds differ, the Board will review the applicable policy and consider the need for further clarification.

In the absence of Board policy, the Superintendent is authorized to take appropriate action.
Suspension of Policies

The Board, by a majority vote of members present at any meeting, may temporarily suspend a Board policy except those provisions that are controlled by law or contract. The failure to suspend with a specific motion does not invalidate the Board action.

Access to District Public Records

Full access to the District’s public records is available to any person as provided in the Illinois Freedom of Information Act (FOIA), this policy, and implementing procedures. The Superintendent or designee shall: (1) provide the Board with sufficient information and data to permit the Board to monitor the District’s compliance with FOIA and this policy, and (2) report any FOIA requests during the Board’s regular meetings along with the status of the District’s response.

Freedom of Information Officer

The Superintendent shall serve as the District’s Freedom of Information Officer and assumes all the duties and powers of that office as provided in FOIA and this policy. The Superintendent may delegate these duties and powers to one or more designees, but the delegation shall not relieve the Superintendent of the responsibility for the action that was delegated.

Definition

The District’s public records are defined as records, reports, forms, writings, letters, memoranda, books, papers, maps, photographs, microfilms, cards, tapes, recordings, electronic data processing records, electronic communications, recorded information and all other documentary material pertaining to the transaction of public business, regardless of physical form or characteristics, having been prepared by or for, or having been or being used by, received by, in the possession of, or under the control of the School District.

Requesting Records

A request for inspection and/or copies of public records must be made in writing and may be submitted by personal delivery, mail, telefax, or email directed to the District’s Freedom of Information Officer. Individuals making a request are not required to state a reason for the request other than to identify when the request is for a commercial purpose or when requesting a fee waiver. The Superintendent or designee shall instruct District employees to immediately forward any request for inspection and copying of a public record to the District’s Freedom of Information Officer or designee.

Responding to Requests

The Freedom of Information Officer shall approve all requests for public records unless:

1. The requested material does not exist;
2. The requested material is exempt from inspection and copying by the Freedom of Information Act; or
3. Complying with the request would be unduly burdensome.

Within five business days after receipt of a request for access to a public record, the Freedom of Information Officer shall comply with or deny the request, unless the time for response is extended as specified in Section 3 of FOIA. The Freedom of Information Officer may extend the time for a response for up to five business days from the original due date. If an extension is needed, the
Freedom of Information Officer shall: (1) notify the person making the request of the reason for the extension, and (2) either inform the person of the date on which a response will be made, or agree with the person in writing on a compliance period.

The time periods are extended for responding to requests for records made for a commercial purpose, requests by a recurrent requester, or voluminous requests, as those terms are defined in Section 2 of FOIA. The time periods for responding to those requests are governed by Sections 3.1, 3.2, and 3.6 of FOIA.

When responding to a request for a record containing both exempt and non-exempt material, the Freedom of Information Officer shall redact exempt material from the record before complying with the request.

Fees

Persons making a request for copies of public records must pay any and all applicable fees. The Freedom of Information Officer shall establish a fee schedule that complies with FOIA and this policy and is subject to the Board's review. The fee schedule shall include copying fees and all other fees to the maximum extent they are permitted by FOIA, including without limitation, search and review fees for responding to a request for a commercial purpose and fees, costs, and personnel hours in connection with responding to a voluminous request.

Copying fees, except when fixed by statute, shall be reasonably calculated to reimburse the District’s actual cost for reproducing and certifying public records and for the use, by any person, of its equipment to copy records. In no case shall the copying fees exceed the maximum fees permitted by FOIA. If the District’s actual copying costs are equal to or greater than the maximum fees permitted by FOIA, the Freedom of Information Officer is authorized to use FOIA’s maximum fees as the District’s fees. No copying fees shall be charged for: (1) the first 50 pages of black and white, letter or legal sized copies, or (2) electronic copies other than the actual cost of the recording medium, except if the response is to a voluminous request, as defined in FOIA.

A fee reduction is available if the request qualifies under Section 6 of FOIA. The Freedom of Information Officer shall set the amount of the reduction taking into consideration the amount of material requested and the cost of copying it.

Provision of Copies and Access to Records

A public record that is the subject of an approved access request will be available for inspection or copying at the District’s administrative office during regular business hours, unless other arrangements are made by the Freedom of Information Officer.

Many public records are immediately available from the District’s website including, but not limited to, the process for requesting a public record. The Freedom of Information Officer shall direct a requester to the District’s website if a requested record is available there. If the requester is unable to reasonably access the record online, he or she may resubmit the request for the record, stating his or her inability to reasonably access the record online, and the District shall make the requested record available for inspection and copying as otherwise provided in this policy.

Preserving Public Records

Public records, including email messages, shall be preserved and cataloged if: (1) they are evidence of the District’s organization, function, policies, procedures, or activities, (2) they contain informational
data appropriate for preservation, (3) their retention is required by State or federal law, or (4) they are subject to a retention request by the Board Attorney (e.g., a litigation hold), District auditor, or other individual authorized by the School Board or State or federal law to make such a request. Unless its retention is required as described in items numbered 3 or 4 above, a public record, as defined by the Illinois Local Records Act, may be destroyed when authorized by the Local Records Commission.

Uniform Grievance Procedure

A student, parent/guardian, employee, or community member should notify any District Complaint Manager if he or she believes that the School Board, its employees, or its agents have violated his or her rights guaranteed by the State or federal Constitution, State or federal statute, or Board policy, or have a complaint regarding any one of the following:

1. Title II of the Americans with Disabilities Act
2. Title IX of the Education Amendments of 1972
3. Section 504 of the Rehabilitation Act of 1973
7. Breastfeeding accommodations for students, 105 ILCS 5/10-20.60
8. Bullying, 105 ILCS 5/27-23.7
9. Misuse of funds received for services to improve educational opportunities for educationally disadvantaged or deprived children
10. Curriculum, instructional materials, and/or programs
13. Provision of services to homeless students
16. Employee Credit Privacy Act, 820 ILCS 70/

The Complaint Manager will first attempt to resolve complaints without resorting to this grievance procedure. If a formal complaint is filed under this policy, the Complaint Manager will address the complaint promptly and equitably. A student and/or parent/guardian filing a complaint under this policy may forego any informal suggestions and/or attempts to resolve it and may proceed directly to this grievance procedure. The Complaint Manager will not require a student or parent/guardian complaining of any form of harassment to attempt to resolve allegations directly with the accused (or the accused’s parents/guardians); this includes mediation.

Right to Pursue Other Remedies Not Impaired

The right of a person to prompt and equitable resolution of a complaint filed under this policy shall not be impaired by the person’s pursuit of other remedies, e.g., criminal complaints, civil actions, etc. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies and use of this grievance procedure does not extend any filing deadline related to the pursuit of other remedies. If a person is pursuing another remedy subject to a complaint under this policy, the District will continue with a simultaneous investigation under this policy.
Deadlines
All deadlines under this policy may be extended by the Complaint Manager as he or she deems appropriate. As used in this policy, school business days means days on which the District’s main office is open.

Filing a Complaint
A person (hereinafter Complainant) who wishes to avail him or herself of this grievance procedure may do so by filing a complaint with any District Complaint Manager. The Complainant shall not be required to file a complaint with a particular Complaint Manager and may request a Complaint Manager of the same gender. The Complaint Manager may request the Complainant to provide a written statement regarding the nature of the complaint or require a meeting with a student’s parent(s)/guardian(s). The Complaint Manager shall assist the Complainant as needed.

For any complaint alleging bullying and/or cyberbullying of students, the Complaint Manager shall process and review the complaint according to Board policy 7:180, Prevention of and Response to Bullying, Intimidation, and Harassment, in addition to any response required by this policy. For any complaint alleging sexual harassment or other violation of Board policy 5:20, Workplace Harassment Prohibited, the Complaint Manager shall process and review the complaint according to that policy, in addition to any response required by this policy 2:260, Uniform Grievance Procedure.

Investigation
The Complaint Manager will investigate the complaint or appoint a qualified person to undertake the investigation on his or her behalf. The Complaint Manager shall ensure both parties have an equal opportunity to present evidence during an investigation. If the Complainant is a student under 18 years of age, the Complaint Manager will notify his or her parent(s)/guardian(s) that they may attend any investigatory meetings in which their child is involved. The complaint and identity of the Complainant will not be disclosed except: (1) as required by law or this policy, (2) as necessary to fully investigate the complaint, or (3) as authorized by the Complainant.

The identity of any student witnesses will not be disclosed except: (1) as required by law or any collective bargaining agreement, (2) as necessary to fully investigate the complaint, or (3) as authorized by the parent/guardian of the student witness, or by the student if the student is 18 years of age or older.

The Complaint Manager will inform, at regular intervals, the person(s) filing a complaint under this policy about the status of the investigation. Within 30 school business days of the date the complaint was filed, the Complaint Manager shall file a written report of his or her findings with the Superintendent. The Complaint Manager may request an extension of time.

The Superintendent will keep the Board informed of all complaints.

If a complaint contains allegations involving the Superintendent, the written report shall be filed directly with the Board, which will make a decision in accordance with paragraph four of the following section of this policy.

Decision and Appeal
Within five school business days after receiving the Complaint Manager’s report, the Superintendent shall mail his or her written decision to the Complainant and the accused by first class U.S. mail as well
as to the Complaint Manager. All decisions shall be based upon the preponderance of evidence standard.

Within 10 school business days after receiving the Superintendent’s decision, the Complainant or the accused may appeal the decision to the Board by making a written request to the Complaint Manager. The Complaint Manager shall promptly forward all materials relative to the complaint and appeal to the Board.

Within 30 school business days, the Board shall affirm, reverse, or amend the Superintendent’s decision or direct the Superintendent to gather additional information. Within five school business days of the Board’s decision, the Superintendent shall inform the Complainant and the accused of the Board’s action.

For complaints containing allegations involving the Superintendent, within 30 school business days after receiving the Complaint Manager’s report, the Board shall mail its written decision to the Complainant and the accused by first class U.S. mail as well as to the Complaint Manager.

This policy shall not be construed to create an independent right to a hearing before the Superintendent or Board. The failure to strictly follow the timelines in this grievance procedure shall not prejudice any party.

Appointing a Nondiscrimination Coordinator and Complaint Managers

The Superintendent shall appoint a Nondiscrimination Coordinator to manage the District’s efforts to provide equal opportunity employment and educational opportunities and prohibit the harassment of employees, students, and others. The Nondiscrimination Coordinator also serves as the District’s Title IX Coordinator.

The Superintendent shall appoint at least one Complaint Manager to administer the complaint process in this policy. If possible, the Superintendent will appoint two Complaint Managers, one of each gender. The District’s Nondiscrimination Coordinator may be appointed as one of the Complaint Managers.

The Superintendent shall insert into this policy and keep current the names, addresses, and telephone numbers of the Nondiscrimination Coordinator and the Complaint Managers.

Training should include instructions on the proper handling of information containing social security numbers from the time of collection through the destruction of the information.
2. Only employees who are required to use or handle information or documents that contain social security numbers shall have access to such information or documents.
3. Social security numbers requested from an individual shall be provided in a manner that makes the social security number easily redacted if the record is required to be released as part of a public records request.
4. When collecting a social security number or upon request by an individual, a statement of the purpose(s) for which the District is collecting and using the social security number shall be provided. The stated reason for collection of the social security number must be relevant to the documented purpose.
5. All employees must be advised of this policy’s existence, and a copy of the policy must be made available to each employee. The policy must also be made available to any member of the public, upon request.

No District employee shall collect, store, use, or disclose an individual’s social security number unless specifically authorized by the Superintendent. This policy shall not be interpreted as a guarantee of the confidentiality of social security numbers and/or other personal information. The District will use best efforts to comply with this policy, but this policy should not be construed to convey any rights to protection of information not otherwise afforded by law. An employee who has substantially breached the confidentiality of social security numbers may be subject to disciplinary action or sanctions up to and including dismissal in accordance with District policy and procedures.

Revenue and Investments

Revenue
The Superintendent or designee is responsible for making all claims for property tax revenue, State Aid, special State funds for specific programs, federal funds, and categorical grants.

Investments
The Superintendent shall either appoint a Chief Investment Officer or serve as one. The Chief Investment Officer shall invest money that is not required for current operations, in accordance with this policy and State law.

The Chief Investment Officer and Superintendent shall use the standard of prudence when making investment decisions. They shall use the judgment and care, under circumstances then prevailing, that persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the safety of their capital as well as its probable income.

Investment Objectives
The objectives for the School District’s investment activities are:

1. Safety of Principal - Every investment is made with safety as the primary and over-riding concern. Each investment transaction shall ensure that capital loss, whether from credit or market risk, is avoided.

2. Liquidity - The investment portfolio shall provide sufficient liquidity to pay District obligations as they become due. In this regard, the maturity and marketability of investments shall be considered.

3. Rate of Return - The highest return on investments is sought, consistent with the preservation of principal and prudent investment principles.

4. Diversification - The investment portfolio is diversified as to materials and investments, as appropriate to the nature, purpose, and amount of the funds.

Authorized Investments
The Chief Investment Officer may invest District funds in one or more of the following:

1. Bonds, notes, certificates of indebtedness, treasury bills, or other securities now or hereafter issued, that are guaranteed by the full faith and credit of the United States of America as to principal and interest.

2. Bonds, notes, debentures, or other similar obligations of the United States of America, its agencies, and its instrumentalities.

The term “agencies of the United States of America” includes: (a) the federal land banks, federal intermediate credit banks, banks for cooperative, federal farm credit banks, or any other entity authorized to issue debt obligations under the Farm Credit Act of 1971 and Acts
amendatory thereto, (b) the federal home loan banks and the federal home loan mortgage corporation, and (c) any other agency created by Act of Congress.

3. Interest-bearing savings accounts, interest-bearing certificates of deposit or interest-bearing time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act.

4. Obligations of corporations organized in the United States with assets exceeding $500,000,000 if: (a) such obligations are rated at the time of purchase at one of the three highest classifications established by at least two standard rating services and that mature not later than three years from the date of purchase, (b) such purchases do not exceed 10% of the corporation’s outstanding obligations, and (c) no more than one-third of the District’s funds may be invested in short term obligations of corporations.

5. Money market mutual funds registered under the Investment Company Act of 1940, provided that the portfolio of any such money market mutual fund is limited to obligations described in paragraph (1) or (2) and to agreements to repurchase such obligations.

6. Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, school district, the State of Illinois, any other state, or any political subdivision or agency of the State of Illinois or any other state, whether the interest earned is taxable or tax-exempt under federal law. The bonds shall be (a) registered in the name of the municipality, county, or other governmental unit, or held under a custodial agreement at a bank, and (b) rated at the time of purchase within the four highest general classifications established by a rating service of nationally recognized expertise in rating bonds of states and their political subdivisions.

7. Short term discount obligations of the Federal National Mortgage Association or in shares or other forms of securities legally issuable by savings banks or savings and loan associations incorporated under the laws of this State or any other state or under the laws of the United States. Investments may be made only in those savings banks or savings and loan associations, the shares, or investment certificates that are insured by the Federal Deposit Insurance Corporation. Any such securities may be purchased at the offering or market price thereof at the time of such purchase. All such securities so purchased shall mature or be redeemable on a date or dates prior to the time when, in the judgment of the Chief Investment Officer, the public funds so invested will be required for expenditure by the District or its governing authority.

8. Dividend-bearing share accounts, share certificate accounts, or class of share accounts of a credit union chartered under the laws of this State or the laws of the United States; provided, however, the principle office of any such credit union must be located within the State of Illinois. Investments may be made only in those credit unions the accounts of which are insured by applicable law.

9. A Public Treasurers’ Investment Pool created under Section 17 of the State Treasurer Act. The District may also invest any public funds in a fund managed, operated, and administered by a bank, subsidiary of a bank, or subsidiary of a bank holding company or use the services of such an entity to hold and invest or advise regarding the investment of any public funds.

11. Repurchase agreements of government securities having the meaning set out in the Government Securities Act of 1986, as now or hereafter amended or succeeded, subject to the provisions of said Act and the regulations issued there under. The government securities,
unless registered or inscribed in the name of the District, shall be purchased through banks or trust companies authorized to do business in the State of Illinois.

Except for repurchase agreements of government securities that are subject to the Government Securities Act of 1986, as now or hereafter amended or succeeded, the District may not purchase or invest in instruments that constitute repurchase agreements, and no financial institution may enter into such an agreement with or on behalf of the District unless the instrument and the transaction meet all of the following requirements:

a. The securities, unless registered or inscribed in the name of the District, are purchased through banks or trust companies authorized to do business in the State of Illinois.

b. The Chief Investment Officer, after ascertaining which firm will give the most favorable rate of interest, directs the custodial bank to “purchase” specified securities from a designated institution. The “custodial bank” is the bank or trust company, or agency of government, that acts for the District in connection with repurchase agreements involving the investment of funds by the District. The State Treasurer may act as custodial bank for public agencies executing repurchase agreements.

c. A custodial bank must be a member bank of the Federal Reserve System or maintain accounts with member banks. All transfers of book-entry securities must be accomplished on a Reserve Bank’s computer records through a member bank of the Federal Reserve System. These securities must be credited to the District on the records of the custodial bank and the transaction must be confirmed in writing to the District by the custodial bank.

d. Trading partners shall be limited to banks or trust companies authorized to do business in the State of Illinois or to registered primary reporting dealers.

e. The security interest must be perfected.

f. The District enters into a written master repurchase agreement that outlines the basic responsibilities and liabilities of both buyer and seller.

g. Agreements shall be for periods of 330 days or less.

h. The Chief Investment Officer informs the custodial bank in writing of the maturity details of the repurchase agreement.

i. The custodial bank must take delivery of and maintain the securities in its custody for the account of the District and confirm the transaction in writing to the District. The custodial undertaking shall provide that the custodian takes possession of the securities exclusively for the District; that the securities are free of any claims against the trading partner; and that any claims by the custodian are subordinate to the District’s claims to rights to those securities.

j. The obligations purchased by the District may only be sold or presented for redemption or payment by the fiscal agent bank or trust company holding the obligations upon the written instruction of the Chief Investment Officer.

k. The custodial bank shall be liable to the District for any monetary loss suffered by the District due to the failure of the custodial bank to take and maintain possession of such securities.

12. Any investment as authorized by the Public Funds Investment Act, and Acts amendatory thereto. Paragraph 11 supersedes paragraphs 1-10 and controls in the event of conflict.

Except as provided herein, investments may be made only in banks, savings banks, savings and loan associations, or credit unions that are insured by the Federal Deposit Insurance Corporation or other approved share insurer.
Selection of Depositories, Investment Managers, Dealers, and Brokers

The Chief Investment Officer shall establish a list of authorized depositories, investment managers, dealers and brokers based upon the creditworthiness, reputation, minimum capital requirements, qualifications under State law, as well as a long history of dealing with public fund entities. The Board will review and approve the list at least annually.

In order to be an authorized depository, each institution must submit copies of the last two sworn statements of resources and liabilities or reports of examination that the institution is required to furnish to the appropriate State or federal agency. Each institution designated as a depository shall, while acting as such depository, furnish the District with a copy of all statements of resources and liabilities or all reports of examination that it is required to furnish to the appropriate State or federal agency.

The above eligibility requirements of a bank to receive or hold public deposits do not apply to investments in an interest-bearing savings account, interest-bearing certificate of deposit, or interest-bearing time deposit if: (1) the District initiates the investment at or through a bank located in Illinois, and (2) the invested public funds are at all times fully insured by an agency or instrumentality of the federal government.

The District may consider a financial institution’s record and current level of financial commitment to its local community when deciding whether to deposit funds in that financial institution. The District may consider factors including:

1. For financial institutions subject to the federal Community Reinvestment Act of 1977, the current and historical ratings that the financial institution has received, to the extent that those ratings are publicly available, under the federal Community Reinvestment Act of 1977;
2. Any changes in ownership, management, policies, or practices of the financial institution that may affect the level of the financial institution’s commitment to its community;
3. The financial impact that the withdrawal or denial of District deposits might have on the financial institution;
4. The financial impact to the District as a result of withdrawing public funds or refusing to deposit additional public funds in the financial institution; and
5. Any additional burden on the District’s resources that might result from ceasing to maintain deposits of public funds at the financial institution under consideration.

Collateral Requirements

All amounts deposited or invested with financial institutions in excess of any insurance limit shall be collateralized in accordance with the Public Funds Investment Act, 30 ILCS 235/. The Superintendent or designee shall keep the Board informed of collateral agreements.

Safekeeping and Custody Arrangements

The preferred method for safekeeping is to have securities registered in the District’s name and held by a third-party custodian. Safekeeping practices should qualify for the Governmental Accounting Standards Board Statement No. 3, Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, Category I, the highest recognized safekeeping procedures.
Controls and Report

The Chief Investment Officer shall establish a system of internal controls and written operational procedures to prevent losses arising from fraud, employee error, misrepresentation by third parties, or imprudent employee action.

The Chief Investment Officer shall provide a quarterly investment report to the Board. The report will: (1) assess whether the investment portfolio is meeting the District’s investment objectives, (2) identify each security by class or type, book value, income earned, and market value, (3) identify those institutions providing investment services to the District, and (4) include any other relevant information. The investment portfolio’s performance shall be measured by appropriate and creditable industry standards for the investment type.

The Board will determine, after receiving the Superintendent’s recommendation, which fund is in most need of interest income and the Superintendent shall execute a transfer. This provision does not apply when the use of interest earned on a particular fund is restricted.

Ethics and Conflicts of Interest

The Board and District officials will avoid any investment transaction or practice that in appearance or fact might impair public confidence. Board members are bound by the Board policy 2:100, Board Member Conflict of Interest. No District employee having influence on the District’s investment decisions shall:

1. Have any interest, directly or indirectly, in any investments in which the District is authorized to invest,
2. Have any interest, directly or indirectly, in the sellers, sponsors, or managers of those investments, or
3. Receive, in any manner, compensation of any kind from any investments in that the agency is authorized to invest.

Incurring Debt

The Superintendent shall provide early notice to the School Board of the District’s need to borrow money. The Superintendent or designee shall prepare all documents and notices necessary for the Board, at its discretion, to: (1) issue State Aid Anticipation Certificates, tax anticipation warrants, working cash fund bonds, bonds, notes, and other evidence of indebtedness, or (2) establish a line of credit with a bank or other financial institution. The Superintendent shall notify the State Board of Education before the District issues any form of long-term or short-term debt that will result in outstanding debt that exceeds 75% of the debt limit specified in State law.

Bond Issue Obligations

In connection with the Board’s issuance of bonds, the Superintendent shall be responsible for ensuring the District’s compliance with federal securities laws, including the anti-fraud provisions of the Securities Act of 1933, as amended and, if applicable, the continuing disclosure obligations under Rule 15c2-12 of the Securities Exchange Act of 1934, as amended.

Additionally, in connection with the Board’s issuance of bonds, the interest on which is excludable from gross income for federal income tax purposes, or which enable the District or bond holder to receive other federal tax benefits, the Board authorizes the Superintendent to establish written procedures for post-issuance compliance monitoring for such bonds to protect their tax-exempt (or tax-advantaged) status.

The Board may contract with outside professionals, such as bond counsel and/or a qualified financial consulting firm, to assist it in meeting the requirements of this subsection.

Insufficient Fund Checks and Debt Recovery

Insufficient Fund Checks

The Superintendent or designee is responsible for collecting up to the maximum fee authorized by State law for returned checks written to the District that are not honored upon presentation to the respective bank or other depository institution for any reason. The Superintendent is authorized to contact the Board Attorney whenever necessary to collect the returned check amount, fee, collection costs and expenses, and interest.

Delinquent Debt Recovery

The Superintendent is authorized to seek collection of delinquent debt owed the District to the fullest extent of the law.

A Local Debt Recovery Program may be available through the Illinois Office of the Comptroller (IOC) in the future. To participate in it, an intergovernmental agreement (IGA) between the District and the IOC must be in existence. The IGA establishes the terms under which the District may refer a delinquent debt to the IOC for an offset (deduction). The IOC may execute an offset, in the amount of the delinquent debt owed to the District, from a future payment that the State makes to an individual or entity responsible for paying the delinquent debt.

The Superintendent or designee shall execute the requirements of the IGA. While executing the requirements of the IGA, the Superintendent or designee is responsible, without limitation, for each of the following:

1. Providing a District-wide, uniform, method of notice and due process to the individual or entity against whom a claim for delinquent debt payment (claim) is made. Written notice and an opportunity to be heard must be given to the individual or entity responsible for paying a delinquent debt before the claim is certified to the IOC for offset. The notice must state the claim’s amount, the reason for the amount due, the claim’s date or time period, and a description of the process to challenge the claim. If reimbursable meals or snacks provided under the Hunger-Free Students’ Bill of Rights Act are the basis of the District’s delinquent debt claim of no less than $500, the notice must be sent to a student’s parent(s)/guardian(s) only after: (a) the student owes the District more than five meals and/or snacks; (b) the Superintendent or designee made: (i) repeated contacts to collect the amounts owed, and (ii) reasonable efforts to collect the amount due for at least one year; and (c) the District requested the student’s parent(s)/guardian(s) to apply for meal benefits pursuant to policy 4:130, Free and Reduced-Price Food Services, and they either: (i) did not qualify, or (ii) refused to apply.

2. An individual or entity challenging a claim shall be provided an informal proceeding to refute the claim’s existence, amount, or current collectability; the decision following this proceeding shall be reviewable.

   a. If a waiver of student fees is requested as a challenge to paying the claim, and the waiver of student fees is denied, an appeal of the denial of a fee waiver request shall be handled
according to 4:140, *Waiver of Student Fees*. If no waiver of student fees is requested, reviews regarding payment of the claim shall be handled according to this policy before certification to the IOC for offset.

b. If application for meal benefits pursuant to policy 4:130, *Free and Reduced-Price Food Services*, is requested as a challenge to paying the claim, and the request is denied, an appeal of the denial of the request shall be handled according to 4:130, *Free and Reduced-Price Food Services*. If no request for meal benefits is received, review of the claim’s payment shall be handled according to this policy before certification to the IOC for offset.

3. Certifying to the IOC that the debt is past due and legally enforceable, and notifying the IOC of any change in the status of an offset claim for delinquent debt.

4. Responding to requests for information from the IOC to facilitate the prompt resolution of any administrative review requests received by the IOC.

Payment Procedures

The Treasurer shall prepare a list of all due and payable bills, indicating vendor name and amount, and shall present it to the School Board in advance of the Board’s first regular monthly meeting or, if necessary, a special meeting. These bills are reviewed by the Board, after which they may be approved for payment by Board order. Approval of all bills shall be given by a roll call vote, and the votes shall be recorded in the minutes. The Treasurer shall pay the bills after receiving a Board order or pertinent portions of the Board minutes, even if the minutes are unapproved, provided the order or minutes are signed by the Board President and Secretary, or a majority of the Board.

The Treasurer is authorized, without further Board approval, to pay Social Security taxes, wages, pension contributions, utility bills, and other recurring bills. These disbursements shall be included in the listing of bills presented to the Board.

The Board authorizes the Superintendent or designee to establish revolving funds and a petty cash fund system for school cafeterias, lunchrooms, athletics, or similar purposes, provided such funds are maintained in accordance with Board policy 4:80, Accounting and Audits, and remain in the custody of an employee who is properly bonded according to State law.

Use of Credit and Procurement Cards

The Superintendent and employees designated by the Superintendent are authorized to use District credit and procurement cards to simplify the acquisition, receipt, and payment of purchases and travel expenses incurred on the District’s behalf. Credit and procurement cards shall only be used for those expenses that are for the District’s benefit and serve a valid and proper public purpose; they shall not be used for personal purchases. Cardholders are responsible for exercising due care and judgment and for acting in the District’s best interests.

The Superintendent or designee shall manage the use of District credit and procurement cards by employees. It is the Board’s responsibility, through the audit and approval process, to determine whether District credit and procurement card use by the Superintendent is appropriate.

In addition to the other limitations contained in this and other Board policies, District credit and procurement cards are governed by the following restrictions:

1. Credit and/or procurement cards may only be used to pay certain job-related expenses or to make purchases on behalf of the Board or District or any student activity fund, or for purposes that would otherwise be addressed through a conventional revolving fund.

2. The Superintendent or designee shall instruct the issuing bank to block the cards’ use at unapproved merchants.

3. The Superintendent shall limit the amount each cardholder may charge in a single purchase or within a given month and inform the issuing bank of these limitations. The Superintendent or designee must approve the use of a District credit or procurement card whenever such use is by telephone, fax, and the Internet. Permission shall be withheld when the use violates any Board policy, is from a vendor whose reputation has not been verified, or would be more expensive than if another available payment method were used.

4. The consequences for unauthorized purchases include, but are not limited to, reimbursing the District for the purchase amount, loss of cardholding privileges, and, if made by an employee, discipline up to and including discharge.

5. All cardholders must sign a statement affirming that they are familiar with this policy.

6. The Superintendent shall implement a process whereby all purchases using a District credit or procurement card are reviewed and approved by someone other than the cardholder or someone under the cardholder’s supervision.

7. Cardholders must submit the original, itemized receipt to document all purchases.

8. No individual may use a District credit or procurement card to make purchases in a manner contrary to State law, including, but not limited to, the bidding and other purchasing requirements in 105 ILCS 5/10-20.21, or any Board policy.

9. The Superintendent or designee shall account for any financial or material reward or rebate offered by the company or institution issuing the District credit or procurement card and shall ensure that it is used for the District’s benefit.

Purchases and Contracts

The Superintendent shall manage the District’s purchases and contracts in accordance with State law, the standards set forth in this policy, and other applicable School Board policies.

Standards for Purchasing and Contracting

All purchases and contracts shall be entered into in accordance with State law. The Board Attorney shall be consulted as needed regarding the legal requirements for purchases or contracts. All contracts shall be approved or authorized by the Board.

All purchases and contracts should support a recognized District function or purpose as well as provide for good quality products and services at the lowest cost, with consideration for service, reliability, and delivery promptness, and in compliance with State law. No purchase or contract shall be made or entered into as a result of favoritism, extravagance, fraud, or corruption.

Adoption of the annual budget authorizes the Superintendent or designee to purchase budgeted supplies, equipment, and services, provided that State law is followed. Purchases of items outside budget parameters require prior Board approval, except in an emergency.

When presenting a contract or purchase for Board approval, the Superintendent or designee shall ensure that it complies with applicable State law, including but not limited to, those specified below:

1. Supplies, materials, or work involving an expenditure in excess of $25,000 must comply with the State law bidding procedure, 105 ILCS 5/10-20.21, unless specifically exempted.

2. Construction, lease, or purchase of school buildings must comply with State law and Board policy 4:150, Facility Management and Building Programs.

3. Guaranteed energy savings must comply with 105 ILCS 5/19b-1 et seq.

4. Third party non-instructional services must comply with 105 ILCS 5/10-22.34c.

5. The Superintendent or designee shall keep a record of: (1) each vendor, product, or service provided, (2) the actual net revenue and non-monetary remuneration from each contract or agreement, and (3) how the revenue was used and to whom the non-monetary remuneration was distributed. The Superintendent or designee shall report this information to the Board by completing the necessary forms that must be attached to the District’s annual budget.

6. Any contract to purchase food with a bidder or offeror must comply with 105 ILCS 5/10-20.21(b-10).

8. Each contractor with the District is bound by each of the following:
a. In accordance with 105 ILCS 5/10-21.9(f): (1) prohibit any of its employees who is or was found guilty of a criminal offense listed in 105 ILCS 5/10-21.9(c) and 5/21B-80(c) to have direct, daily contact at a District school or school-related activity with one or more student(s); (2) prohibits any of the contractor’s employees from having direct, daily contact with one or more students if the employee was found guilty of any offense in 5/21B-80(b) (certain drug offenses) until seven years following the end of the employee’s sentence for the criminal offense; and (3) require each of its employees who will have direct, daily contact with student(s) to cooperate during the District’s fingerprint-based criminal history records check on him or her.

b. In accordance with 105 ILCS 5/24-5: (1) concerning each employee who begins providing services in the District after June 16, 2014, provide the District with evidence of physical fitness to perform the duties assigned and freedom from communicable disease if the employee will have direct, daily contact with one or more student(s); and (2) require any new or existing employee who has and will have direct, daily contact with one or more student(s) to complete additional health examinations as required by the District and be subject to additional health examinations, including tuberculosis screening, as required by the Illinois Department of Public Health rules or order of a local health official.

The Superintendent or designee shall: (1) execute the reporting and website posting mandates in State law concerning District contracts, and (2) monitor the discharge of contracts, contractors’ performances, and the quality and value of services or products being provided.

Administrative Procedure - Federal Award Procurement Procedures

In addition to the State legal requirements for purchases and contracts set forth in Board policy 4:60, *Purchases and Contracts*, and 4:60-AP1, *Purchases*, the following procedures apply to District procurement under federal awards.

Code of Conduct

Board policies 2:100, *Board Member Conflict of Interest*, and 5:120, *Employee Ethics; Conduct; and Conflict of Interest*, contain standards of conduct covering conflicts of interest and governing the actions of board members and employees engaged in the selection, award, and administration of contracts.

General Procurement Standards

A. The District shall avoid acquisition of unnecessary or duplicative items. Consideration will be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. **Note:** A conflict between this regulation’s requirements and the Illinois Criminal Code of 2012 may exist. See 720 ILCS 5/33E-2(i-5) and 5/33E-18 (prohibits bid stringing; violation is a Class 4 felony) and 720 ILCS 5/33E-3 (prohibits bid rigging, a Class 3 felony).

B. To foster greater economy and efficiency, the District may enter into state and local intergovernmental agreements, inter-entity agreements, and/or third party group purchasing organizations where appropriate for procurement or use of common or shared goods and services.

C. The District may use federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

D. The District may use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost. **Note:** A conflict between this regulation’s requirements and the Illinois Criminal Code of 2012 may exist. See 720 ILCS 5/33E-2(i-5) and 5/33E-18 (defines and prohibits bid stringing, a Class 4 felony).

E. The District shall only award contracts to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources. **Note:** State law requires award to the “lowest responsible bidder.”

F. The District shall maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to the following: rationale for the method of
procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

G. The District may use a time and materials type contract only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. **Note:** The Illinois Criminal Code of 2012 (720 ILCS 5/33E-9) requires approval of the Board or designee when a contract cost increases or decreases by $10,000, a/k/a change orders. If a change order will exceed the original contract price by 10%, it must be rebid.

H. The District shall be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements.

**Competition**

A. All procurement transactions shall be conducted in a manner providing full and open competition consistent with the standards of State law (105 ILCS 10-20.21) and policy 4:60 and this section. To ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Situations considered to be restrictive of competition include, but are not limited to:

1. Placing unreasonable requirements on firms in order for them to qualify to do business;
2. Requiring unnecessary experience and excessive bonding;
3. Noncompetitive pricing practices between firms or between affiliated companies;
4. Noncompetitive contracts to consultants that are on retainer contracts;
5. Organizational conflicts of interest;
6. Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance or other relevant requirements of the procurement; and
7. Any arbitrary action in the procurement process.

B. The District shall conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. **Note:** State law may also encourage or discourage these preferences. Discuss these with the Board Attorney. See also *Doyle Plumbing and Heating Co. v. Bd. of Educ., Quincy Pub. Sch. Dist. No. 172*, 291 Ill.App. 3d 221 (4th Dist. 1997); *Cardinal Glass v. Bd. of Educ. of Mendota Comm. Consol. Sch. Dist. 289*, 113 Ill.App. 3d 442 (3rd Dist. 1983). Nothing in this section preempts State licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract. **Note:** The Board must also follow the Local Government and Professional Services Selection Act (50 ILCS 510/).

C. Procurement Transactions. All solicitations will:

1. Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured.
a. Such description must not, in competitive procurements, contain features which unduly restrict competition.

b. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use.

c. Detailed product specifications should be avoided if at all possible.

d. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equivalent” description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated.

2. Identify all requirements which offerors must fulfill and all other factors to be used in evaluating bids and proposals.

D. The District shall ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Note: State laws may conflict with this provision. See 105 ILCS 5/10-20.21 and 50 ILCS 510/.

E. The District shall not preclude potential bidders from qualifying during the solicitation period.

Methods of Procurement

The District shall use one of the following methods of procurement:

A. Procurement by micro-purchases. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold. To the extent practicable, the District shall distribute micro-purchases equitably among qualified suppliers. Micro-purchases may be awarded without soliciting competitive quotations if the Board considers the price to be reasonable. Note: See 105 ILCS 5/10-20.21 and sample policy 4:60, Purchases and Contracts.

B. Procurement by small purchase procedures. Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the Simplified Acquisition Threshold. If small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources.

C. Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. Note: 105 ILCS 5/10-20.21 requires “lowest responsible bidder.” The sealed bid method is the preferred method for procuring construction, if the conditions in 2 C.F.R. §200.320(c)(1) apply. If sealed bids are used, the requirements in 2 C.F.R. §200.320(c)(2) apply. Note: 105 ILCS 5/10-20.21 requires sealed bids.

D. Procurement by competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate
for the use of sealed bids. If this method is used, the requirements in 2 C.F.R. §200.320(d) apply. **Note:** 105 ILCS 5/10-20.21 requires sealed bids.

E. Procurement by noncompetitive proposals. Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the circumstances in §200.320(f) apply. **Note:** 50 ILCS 510/ may conflict with this regulation.

**Contracting with Small and Minority Businesses, Women’s Business Enterprises, and Labor Surplus Area Firms**

The District shall take all necessary affirmative steps to assure that minority businesses, women’s business enterprises, and labor surplus area firms are used when possible. Affirmative steps shall include:

A. Placing qualified small and minority businesses and women’s business enterprises on solicitation lists;

B. Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources;

C. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women’s business enterprises;

D. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women’s business enterprises;

E. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and

F. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (A) through (E) of this section.

**Contract Cost and Price**

A. The District shall perform a cost or price analysis in connection with every procurement action in excess of the Simplified Acquisition Threshold including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, the non–federal entity must make independent estimates before receiving bids or proposals.

B. The District shall negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration must be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor’s investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

C. Costs or prices based on estimated costs for contracts under the federal award are allowable only to the extent that costs incurred or cost estimates included in negotiated prices would be allowable for the District under Subpart E, Cost Principles, of 2 C.F.R. Part 200.
D. The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

Federal Awarding Agency or Pass-Through Entity Review

The District shall make available, upon request of the federal awarding agency or pass-through entity (ISBE):

A. Technical specifications on proposed procurements where the federal awarding agency or pass-through entity believes such review is needed to ensure that the item or service specified is the one being proposed for acquisition; and

B. Procurement documents (such as requests for proposals or invitations for bids, or independent cost estimates) for pre-procurement review when one or more of the circumstances in §200.324(b) apply.

Bonding Requirements

A. For construction or facility improvement contracts or sub contracts exceeding the Simplified Acquisition Threshold, the federal awarding agency or pass-through entity may accept the bonding policy and requirements of the District provided that the federal awarding agency or pass-through entity has made a determination that the federal interest is adequately protected.

B. If such a determination has not been made, the minimum requirements shall be as follows:

1. A bid guarantee from each bidder equivalent to five percent of the bid price. The bid guarantee must consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual documents as may be required within the time specified.

2. A performance bond on the part of the contractor for 100 percent of the contract price. A performance bond is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract.

3. A payment bond on the part of the contractor for 100 percent of the contract price. A payment bond is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

Contract Provisions

The District’s contracts shall contain the applicable provisions described in Appendix II to 2 C.F.R. Part 200, Contract Provisions for non-Federal Entity Contracts Under Federal Awards.

Resource Conservation

The Superintendent or designee shall manage a program of energy and resource conservation for the District that includes:

1. Periodic review of procurement procedures and specifications to ensure that purchased products and supplies are reusable, durable, or made from recycled materials, if economically and practically feasible.

2. Purchasing recycled paper and paper products in amounts that will, at a minimum, meet the specifications in the School Code, if economically and practically feasible.

3. Periodic review of procedures on the reduction of solid waste generated by academic, administrative, and other institutional functions. These procedures shall: (a) require recycling the District’s waste stream, including landscape waste, computer paper, and white office paper, if economically and practically feasible; (b) include investigation of the feasibility of potential markets for other recyclable materials that are present in the District’s waste stream; and (c) be designed to achieve, before July 1, 2020, at least a 50% reduction in the amount of solid waste that is generated by the District.

4. Adherence to energy conservation measures.

Accounting and Audits

The School District’s accounting and audit services shall comply with the Requirements for Accounting, Budgeting, Financial Reporting, and Auditing, as adopted by the Ill. State Board of Education (ISBE), State and federal laws and regulations, and generally accepted accounting principles. Determination of liabilities and assets, prioritization of expenditures of governmental funds, and provisions for accounting disclosures shall be made in accordance with government accounting standards as directed by the auditor designated by the Board. The Superintendent, in addition to other assigned financial responsibilities, shall report monthly on the District’s financial performance, both income and expense, in relation to the financial plan represented in the budget.

Annual Audit

At the close of each fiscal year, the Superintendent shall arrange an audit of the District funds, accounts, statements, and other financial matters. The audit shall be performed by an independent certified public accountant designated by the Board and be conducted in conformance with prescribed standards and legal requirements. A complete and detailed written audit report shall be provided to each Board member and to the Superintendent. The Superintendent shall annually, on or before October 15, submit an original and one copy of the audit to the Regional Superintendent of Schools.

Annual Financial Report

The Superintendent or designee shall annually prepare and submit the Annual Financial Report on a timely basis using the form adopted by the ISBE. The Superintendent shall review and discuss the Annual Financial Report with the Board before it is submitted.

Inventories

The Superintendent or designee is responsible for establishing and maintaining accurate inventory records. The inventory record of supplies and equipment shall include a description of each item, quantity, location, purchase date, and cost or estimated replacement cost.

Disposition of District Property

The Superintendent or designee shall notify the Board, as necessary, of the following so that the Board may consider its disposition: (1) District personal property (property other than buildings and land) that is no longer needed for school purposes, and (2) school site, building, or other real estate that is unnecessary, unsuitable, or inconvenient. Notwithstanding the above, the Superintendent or designee may unilaterally dispose of personal property of a diminutive value.

Taxable Fringe Benefits

The Superintendent or designee shall: (1) require that all use of District property or equipment by employees is for the District’s convenience and best interests unless it is a Board-approved fringe benefit, and (2) ensure compliance with the Internal Revenue Service regulations regarding when to report an employee’s personal use of District property or equipment as taxable compensation.
Controls for Revolving Funds and Petty Cash

Revolving funds and the petty cash system are established in Board policy 4:50, Payment Procedures. The Superintendent shall: (1) designate a custodian for each revolving fund and petty cash fund, (2) obtain a bond for each fund custodian, and (3) maintain the funds in compliance with this policy, State law, and ISBE rules. A check for the petty cash fund may be drawn payable to the designated petty cash custodian. Bank accounts for revolving funds are limited to a maximum balance of $500.00. All expenditures from these bank accounts must be directly related to the purpose for which the account was established and supported with documentation, including signed invoices or receipts. All deposits into these bank accounts must be accompanied with a clear description of their intended purpose. The Superintendent or designee shall include checks written to reimburse revolving funds on the Board’s monthly listing of bills indicating the recipient and including an explanation.

Control Requirements for Checks

The Board must approve all bank accounts opened or established in the District’s or a District school’s name or with the District’s Federal Employer Identification Number. All checks issued by the School District must be signed by either the Treasurer or Board President, except that checks from an account containing student activity funds and revolving accounts may be signed by the respective account custodian.

Internal Controls

The Superintendent is primarily responsible for establishing and implementing a system of internal controls for safeguarding the District’s financial condition; the Board, however, will oversee these safeguards. The control objectives are to ensure efficient business and financial practices, reliable financial reporting, and compliance with State law and Board policies, and to prevent losses from fraud, waste, and abuse, as well as employee error, misrepresentation by third parties, or other imprudent employee action.

The Superintendent or designee shall annually audit the District’s financial and business operations for compliance with established internal controls and provide the results to the Board. The Board may from time-to-time engage a third party to audit internal controls in addition to the annual audit.

1. Liability coverage to insure against any loss or liability of the School District and the listed individuals against civil rights damage claims and suits, constitutional rights damage claims and suits, and death and bodily injury and property damage claims and suits, including defense costs, when damages are sought for negligent or wrongful acts allegedly committed in the scope of employment or under the Board’s direction or related to any mentoring services provided to the District’s certified staff members; School Board members; employees; volunteer personnel authorized by 105 ILCS 5/10-22.34, 5/10-22.34a, and 5/10-22.34b; mentors of certified staff members authorized in 105 ILCS 5/21A-5 et seq. Transportation

The District shall provide free transportation for any student in the District who resides: (1) at a distance of one and one-half miles or more from his or her assigned school, unless the School Board has certified to the Illinois State Board of Education that adequate public transportation is available, or (2) if adequate public transportation is not available, within one and one-half miles from his or her assigned school where walking to or from school or to or from a pick-up point or bus stop would constitute a serious safety hazard due to either (a) vehicular traffic or rail crossing or (b) a course or pattern of criminal activity, as defined in the Ill. Streetgang Terrorism Omnibus Prevention Act, 740 ILCS 147/. A student’s parent(s)/guardian(s) may file a petition with the Board requesting transportation due to the existence of a serious safety hazard. Free transportation service and vehicle adaptation is provided for a special education student if included in the student’s individualized educational program. Non-public school students shall be transported in accordance with State law. Homeless students shall be transported in accordance with Section 45/1-15 of the Education for Homeless Children Act. Foster care students shall be transported in accordance with Section 6312(c)(5)(B) of the Elementary and Secondary Education Act.

If a student is at a location within the District, other than his or her residence, for child care purposes at the time for transportation to and/or from school, that location may be considered for purposes of determining the one and one-half miles from the school attended. Unless the Superintendent or designee establishes new routes, pick-up and drop-off locations for students in day care must be along the District’s regular routes. The District will not discriminate among types of locations where day care is provided, which may include the premises of licensed providers, relatives’ homes, or neighbors’ homes.

Bus schedules and routes shall be determined by the Superintendent or designee and shall be altered only with the Superintendent or designee’s approval and direction. In setting the routes, the pick-up and discharge points should be as safe for students as possible.

No school employee may transport students in school or private vehicles unless authorized by the administration.

Every vehicle regularly used for the transportation of students must pass safety inspections in accordance with State law and Illinois Department of Transportation regulations. The strobe light on a school bus may be illuminated only when the bus is actually being used as a school bus and (1) is stopping or stopped for loading or discharging students on a highway outside an urban area, or (2) is bearing one or more students. The Superintendent shall implement procedures in accordance with State law for accepting comment calls about school bus driving.

All contracts for charter bus services must contain the clause prescribed by State law regarding criminal background checks for bus drivers.
Pre-Trip and Post-Trip Vehicle Inspection

The Superintendent or designee shall develop and implement a pre-trip and post-trip inspection procedure to ensure that the school bus driver: (1) tests the two-way radio or cellular radio telecommunication device and ensures that it is functioning properly before the bus is operated, and (2) walks to the rear of the bus before leaving the bus at the end of each route, work shift, or work day, to check the bus for children or other passengers in the bus.

Food Services

Good nutrition shall be promoted in the District’s meal programs and in other food and beverages that are sold to students during the school day. The Superintendent shall manage a food service program that complies with this policy and is in alignment with School Board policy 6:50, School Wellness.

Food or beverage items sold to students as part of a reimbursable meal under federal law must follow the nutrition standards specified in the U.S. Dept. of Agriculture rules that implement the National School Lunch and Child Nutrition Acts. Schools being reimbursed for meals under these laws are participating schools.

The food service program in participating schools shall comply with the nutrition standards specified in the U.S. Dept. of Agriculture’s Smart Snacks rules when it offers competitive foods to students on the school campus during the school day. Competitive foods are all food and beverages that are offered by any person, organization or entity for sale to students on the school campus during the school day that are not reimbursed under programs authorized by federal law. The food service programs in participating schools shall also comply with any applicable mandates in the Illinois State Board of Education’s School Food Service rules implementing these federal laws and the Ill. School Breakfast and Lunch Program Act.

All revenue from the sale of any food or beverages sold in competition with the School Breakfast Program or National School Lunch Program to students in food service areas during the meal period shall accrue to the nonprofit school lunch program account.

Free and Reduced-Price Food Services

Notice
The Superintendent shall be responsible for implementing the District’s free and reduced-price food services policy and all applicable programs.

Eligibility Criteria and Selection of Children
A student’s eligibility for free and reduced-price food services shall be determined by the income eligibility guidelines, family-size income standards, set annually by the U.S. Dept. of Agriculture and distributed by the Ill. State Board of Education.

Notification
At the beginning of each school year, by letter, the District shall notify students and their parents/guardians of: (1) eligibility requirements for free and reduced-price food service; (2) the application process; (3) the name and telephone number of a contact person for the program; and (4) other information required by federal law. The Superintendent shall provide the same information to: (1) informational media, the local unemployment office, and any major area employers contemplating layoffs; and (2) the District’s website (if applicable), all school newsletters, or students’ registration materials. Parents/guardians enrolling a child in the District for the first time, any time during the school year, shall receive the eligibility information.

Nondiscrimination Assurance
The District shall avoid publicly identifying students receiving free or reduced-price meals and shall use methods for collecting meal payments that prevent identification of children receiving assistance.

Appeal
A family may appeal the District’s decision to deny an application for free and reduced-price food services or to terminate such services as outlined by the U.S. Dept. of Agriculture in 7 C.F.R. §245.7, Determining Eligibility for Free and Reduced-Price Meals and Free Milk in Schools. The Superintendent shall establish a hearing procedure for adverse eligibility decisions and provide by mail a copy of them to the family. The District may also use these procedures to challenge a child’s continued eligibility for free or reduced-price meals or milk.

During an appeal, students previously receiving food service benefits shall not have their benefits terminated. Students who were denied benefits shall not receive benefits during the appeal.

The Superintendent shall keep on file for a period of three years a record of any appeals made and the hearing record. The District shall also maintain accurate and complete records showing the data and method used to determine the number of eligible students served free and reduced-price food services. These records shall be maintained for three years.

Waiver of Student Fees

The Superintendent will recommend to the School Board a schedule of fees, if any, to be charged students for the use of textbooks, consumable materials, extracurricular activities, and other school student fees. Students must also pay for the loss of or damage to school books or other school-owned materials.

Fees for textbooks, other instructional materials, and driver education are waived for students who meet the eligibility criteria for a fee waiver as described in this policy. In order that no student is denied educational services or academic credit due to the inability of parents/guardians to pay student fees, the Superintendent will recommend to the Board which additional fees, if any, the District will waive for students who meet the eligibility criteria for fee waiver. Students receiving a fee waiver are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

Notification

The Superintendent shall ensure that applications for fee waivers are widely available and distributed according to State law and Ill. State Board of Education (ISBE) rule and that provisions for assisting parents/guardians in completing the application are available.

Eligibility Criteria

A student shall be eligible for a fee waiver when the student currently lives in a household that meets the same income guidelines, with the same limits based on household size, that are used for the federal free meals program.

The Superintendent or designee will give additional consideration where one or more of the following factors are present:

* Illness in the family;
* Unusual expenses such as fire, flood, storm damage, etc.;
* Unemployment;
* Emergency situations;
* When one or more of the parents/guardians are involved in a work stoppage.

Verification

The Superintendent or designee shall establish a process for determining a student’s eligibility for a waiver of fees in accordance with State law requirements. The Superintendent or designee may require family income verification at the time an individual applies for a fee waiver and anytime thereafter, but not more often than once every 60 calendar days. The Superintendent or designee shall not use any information from this or any independent verification process to determine free or reduced-price meal eligibility.
If a student receiving a fee waiver is found to be no longer eligible during the school year, the Superintendent or designee shall notify the student's parent/guardian and charge the student a prorated amount based upon the number of school days remaining in the school year.

**Determination and Appeal**

Within 30 calendar days after the receipt of a waiver request, the Superintendent or designee shall mail a notice to the parent/guardian whenever a waiver request is denied. The denial notice shall include: (1) the reason for the denial, (2) the process and timelines for making an appeal, and (3) a statement that the parent/guardian may reapply for a waiver any time during the school year if circumstances change. If the denial is appealed, the District shall follow the procedures for the resolution of appeals as provided in the ISBE rule on waiver of fees.

Facility Management and Building Programs
The Superintendent shall manage the District’s facilities and grounds as well as facility construction and building programs in accordance with the law, the standards set forth in this policy, and other applicable School Board policies. The Superintendent or designee shall facilitate: (1) inspections of schools by the Regional Superintendent and State Fire Marshal or designee, (2) review of plans and specifications for future construction or alterations of a school if requested by the relevant municipality, county (if applicable), or fire protection district, and (3) compliance with the 10-year safety survey process required by the School Code.

Standards for Managing Buildings and Grounds
All District buildings and grounds shall be adequately maintained in order to provide an appropriate, safe, and energy efficient physical environment for learning and teaching. The Superintendent or designee shall provide the Board with periodic reports on maintenance data and projected maintenance needs that include cost analysis. This policy is not intended to discourage efforts to improve the appearance of buildings or grounds that are consistent with the designated use of those buildings and grounds.

Standards for Green Cleaning
For each District school with 50 or more students, the Superintendent or designee shall establish and supervise a green cleaning program that complies with the guidelines established by the Illinois Green Government Coordinating Council.

Standards for Facility Construction and Building Programs
As appropriate, the Board will authorize a comprehensive study to determine the need for facility construction and expansion. On an annual basis, the Superintendent or designee shall provide the Board with projected facility needs, enrollment trends, and other data impacting facility use. Board approval is needed for all new facility construction and expansion.

When making decisions pertaining to design and construction of school facilities, the Board will confer with members of the staff and community, the Ill. State Board of Education, and educational and architectural consultants, as it deems appropriate. The Board’s facility goals are to:

1. Integrate facilities planning with other aspects of planning and goal-setting.
2. Base educational specifications for school buildings on identifiable student needs.
3. Design buildings for sufficient flexibility to permit new or modified programs.
4. Design buildings for maximum potential for community use.
5. Meet or exceed all safety requirements.
6. Meet requirements on the accessibility of school facilities to disabled persons as specified in State and federal law.
7. Provide for low maintenance costs, energy efficiency, and minimal environmental impact.
Naming Buildings and Facilities

Recognizing that the name for a school building, facility, or ground or field reflects on its public image, the Board’s primary consideration will be to select a name that enhances the credibility and stature of the school or facility. Any request to name or rename an existing facility should be submitted to the Board. When a facility is to be named or renamed, the Board President will appoint a special committee to consider nominations and make a recommendation, along with supporting rationale, to the Board. The Board will make the final selection. The Superintendent or designee may name a room or designate some area on a school’s property in honor of an individual or group that has performed outstanding service to the school without using the process in this policy.

Hiring Process and Criteria
The District hires the most qualified personnel consistent with budget and staffing requirements and in compliance with School Board policy on equal employment opportunity and minority recruitment. The Superintendent is responsible for recruiting personnel and making hiring recommendations to the Board. If the Superintendent’s recommendation is rejected, the Superintendent must submit another. The Superintendent may select personnel on a short-term basis for a specific project or emergency condition before the Board’s approval. No individual will be employed who has been convicted of a criminal offense listed in Section 5/21B-80(c) of the School Code.

All applicants must complete a District application in order to be considered for employment.

Job Descriptions
The Board maintains the Superintendent’s job description and directs, through policy, the Superintendent, in his or her charge of the District’s administration.

The Superintendent shall develop and maintain a current comprehensive job description for each position or job category; however, a provision in a collective bargaining agreement or individual contract will control in the event of a conflict.

Investigations
The Superintendent or designee shall ensure that a fingerprint-based criminal history records check and a check of the Statewide Sex Offender Database and Violent Offender Against Youth Database is performed on each applicant as required by State law. When the applicant is a successful superintendent candidate who has been offered employment by the Board, the Board President shall ensure that these checks are completed. The Superintendent or designee, or if the applicant is a successful superintendent candidate, then the Board President shall notify an applicant if the applicant is identified in either database. The School Code requires the Board President to keep a conviction record confidential and share it only with the Superintendent, Regional Superintendent, State Superintendent, State Educator Preparation and Licensure Board, any other person necessary to the hiring decision, or for purposes of clarifying the information, the Ill. Dept. of State Police and/or Statewide Sex Offender Database. The Board reserves its right to authorize additional background inquiries beyond a fingerprint-based criminal history records check when it deems it appropriate to do so, in accordance with applicable laws.

Each newly hired employee must complete an Immigration and Naturalization Service Form as required by federal law.

The District retains the right to discharge any employee whose criminal background investigation reveals a conviction for committing or attempting to commit any of the offenses outlined in Section 5/21B-80 of the School Code or who falsifies, or omits facts from, his or her employment application or other employment documents.
The Superintendent shall ensure that the District does not engage in any investigation or inquiry prohibited by law and complies with each of the following:

1. The District uses an applicant’s credit history or report from a consumer reporting agency only when a satisfactory credit history is an established bona fide occupational requirement of a particular position.

2. The District does not ask an applicant or applicant’s previous employers about claim(s) made or benefit(s) received under the Workers’ Compensation Act.

3. The District does not request of an applicant or employee access in any manner to his or her personal online account, such as social networking websites, including a request for passwords to such accounts.

4. The District provides equal employment opportunities to all persons. See policy 5:10, Equal Employment Opportunity and Minority Recruitment.

Physical Examinations

Each new employee must furnish evidence of physical fitness to perform assigned duties and freedom from communicable disease. The physical fitness examination must be performed by a physician licensed in Illinois, or any other state, to practice medicine and surgery in any of its branches, or an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority by his or her supervising physician to perform health examinations. The employee must have the physical examination performed no more than 90 days before submitting evidence of it to the District.

Any employee may be required to have an additional examination by a physician who is licensed in Illinois to practice medicine and surgery in all its branches, or an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority by his or her supervising physician to perform health examinations, if the examination is job-related and consistent with business necessity. The Board will pay the expenses of any such examination.

Orientation Program

The District’s staff will provide an orientation program for new employees to acquaint them with the District’s policies and procedures, the school’s rules and regulations, and the responsibilities of their position. Before beginning employment, each employee must sign the Acknowledgement of Mandated Reporter Status form as provided in policy 5:90, Abused and Neglected Child Reporting.

Compliance with the Fair Labor Standards Act

Job Classifications

The Superintendent will ensure that all job positions are identified as either “exempt” or “non-exempt” according to State law and the Fair Labor Standards Act (FLSA) and that employees are informed whether they are “exempt” or “non-exempt.” “Exempt” and “non-exempt” employee categories may include certificated and non-certificated job positions. All non-exempt employees, whether paid on a salary or hourly basis, are covered by minimum wage and overtime provisions.

Workweek and Compensation

The workweek for District employees will be 12:00 a.m. Saturday until 11:59 p.m. Friday. Non-exempt employees will be compensated for all hours worked in a workweek including overtime. For non-exempt employees paid a salary, the salary is paid for a 40-hour workweek even if an employee is scheduled for less than 40 hours. “Overtime” is time worked in excess of 40 hours in a single workweek.

Overtime

The School Board discourages overtime work by non-exempt employees. A non-exempt employee shall not work overtime without his or her supervisor’s express approval. All supervisors of non-exempt employees shall: (1) monitor overtime use on a weekly basis and report such use to the business office, (2) seek the Superintendent or designee’s written pre-approval for any long term or repeated use of overtime that can be reasonably anticipated, (3) ensure that overtime provisions of this policy and the FLSA are followed, and (4) ensure that employees are compensated for any overtime worked. Accurate and complete time sheets of actual hours worked during the workweek shall be signed by each employee and submitted to the business office. The business office will review work records of employees on a regular basis, make an assessment of overtime use, and provide the assessment to the Superintendent.

In lieu of overtime compensation, non-exempt employees may receive compensatory time-off, according to Board policy 5:310, Compensatory Time-Off. Suspension Without Pay No exempt employee shall have his or her salary docked, such as by an unpaid suspension, if the deduction would cause a loss of the exempt status. Certificated employees may be suspended without pay in accordance with Board policy 5:240, Professional Personnel - Suspension. Non-certificated employees may be suspended without pay in accordance with Board policy 5:290, Educational Support Personnel - Employment Termination and Suspensions. Implementation The Superintendent or designee shall implement the policy in accordance with the FLSA, including its required notices to employees. In the event of a conflict between the policy and State or federal law, the latter shall control.

**Communicable and Chronic Infectious Disease**

The Superintendent or designee shall develop and implement procedures for managing known or suspected cases of a communicable and chronic infectious disease involving District employees that are consistent with State and federal law, Illinois Department of Public Health rules, and School Board policies.

An employee with a communicable or chronic infectious disease will be permitted to retain his or her position whenever, after reasonable accommodations and without undue hardship, there is no substantial risk of transmission of the disease to others, provided an employee is able to continue to perform the position’s essential functions. An employee with a communicable and chronic infectious disease remains subject to the Board’s employment policies including sick and/or other leave, physical examinations, temporary and permanent disability, and termination.

Temporary Illness or Temporary Incapacity

A temporary illness or temporary incapacity is an illness or other capacity of ill-being that renders an employee physically or mentally unable to perform assigned duties. During such a period, the employee can use accumulated sick leave benefits. However, income received from other sources (worker’s compensation, District-paid insurance programs, etc.) will be deducted from the District’s compensation liability to the employee. The School Board’s intent is that in no case will the employee, who is temporarily disabled, receive more than 100 percent of his or her gross salary. Those insurance plans privately purchased by the employee and to which the District does not contribute, are not applicable to this policy.

If illness, incapacity, or any other condition causes a teacher or other licensed employee to be absent in one school year, after exhaustion of all available leave, for more than 90 consecutive work days, such absence may be considered a permanent disability and the Board may begin dismissal proceedings subject to State and federal law, including the Americans with Disabilities Act. The Superintendent may recommend this paragraph’s use when circumstances strongly suggest that the teacher or other licensed employee returned to work intermittently in order to avoid this paragraph’s application. This paragraph shall not be considered a limitation on the Board’s authority to take any action concerning an employee that is authorized by State and federal law.

Any employee may be required to have an examination, at the District’s expense, by a physician who is licensed in Illinois to practice medicine and surgery in all its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority by his or her supervisor to perform health examinations if the examination is job-related and consistent with business necessity.

Family and Medical Leave

Leave Description
An eligible employee may use unpaid family and medical leave (FMLA leave), guaranteed by the federal Family and Medical Leave Act. The U.S. Department of Labor’s rules (federal rules) implementing FMLA, as they may be amended from time to time, control FMLA leave.

An eligible employee may take FMLA leave for up to a combined total of 12 weeks each 12-month period, beginning September 1 and ending August 31 of the next year.

During a single 12-month period, an eligible employee’s FMLA leave entitlement may be extended to a total of 26 weeks of unpaid leave to care for a covered servicemember (defined in the federal rules) with a serious injury or illness. The “single 12-month period” is measured forward from the date the employee’s first FMLA leave to care for the covered service member begins.

While FMLA leave is normally unpaid, the District will substitute an employee’s accrued compensatory time-off and/or paid leave for unpaid FMLA leave. All policies and rules regarding the use of paid leave apply when paid leave is substituted for unpaid FMLA leave. Any substitution of paid leave for unpaid FMLA leave will count against the employee’s FMLA leave entitlement. Use of FMLA leave shall not preclude the use of other applicable unpaid leave that will extend the employee’s leave beyond 12 weeks, provided that the use of FMLA leave shall not serve to extend such other unpaid leave. Any full workweek period during which the employee would not have been required to work, including summer break, winter break and spring break, is not counted against the employee’s FMLA leave entitlement.

FMLA leave is available in one or more of the following instances:

1. The birth and first-year care of a son or daughter.
2. The adoption or foster placement of a son or daughter, including absences from work that are necessary for the adoption or foster care to proceed and expiring at the end of the 12-month period beginning on the placement date.
3. The serious health condition of an employee’s spouse, child, or parent.
4. The employee’s own serious health condition that makes the employee unable to perform the functions of his or her job.
5. The existence of a qualifying exigency arising out of the fact that the employee’s spouse, child, or parent is a military member on covered active duty or has been notified of an impending call or order to active duty, as provided by federal rules.
6. To care for the employee’s spouse, child, parent, or next of kin who is a covered service member with a serious injury or illness, as provided by federal rules.
If spouses are employed by the District, they may together take only 12-weeks for FMLA leaves when the reason for the leave is 1 or 2, above, or to care for a parent with a serious health condition, or a combined total of 26 weeks for item 6 above.

An employee may be permitted to work on an intermittent or reduced-leave schedule in accordance with federal rules.

Eligibility
To be eligible for FMLA leave, an employee must be employed at a worksite where at least 50 employees are employed within 75 miles. In addition, one of the following provisions must describe the employee:

1. The employee has been employed by the District for at least 12 months and has been employed for at least 1,250 hours of service during the 12-month period immediately before the beginning of the leave. The 12 months an employee must have been employed by the District need not be consecutive. However, the District will not consider any period of previous employment that occurred more than seven years before the date of the most recent hiring, except when the service break is due to fulfillment of a covered service obligation under the employee’s Uniformed Services Employment and Reemployment Rights Act (USERRA), 38 U.S.C. 4301, et seq., or when a written agreement exists concerning the District’s intention to rehire the employee.

2. The employee is a full-time classroom teacher.

Requesting Leave
If the need for the FMLA leave is foreseeable, an employee must provide the Superintendent or designee with at least 30 days’ advance notice before the leave is to begin. If 30 days’ advance notice is not practicable, the notice must be given as soon as practicable. The employee shall make a reasonable effort to schedule a planned medical treatment so as not to disrupt the District’s operations, subject to the approval of the health care provider administering the treatment. The employee shall provide at least verbal notice sufficient to make the Superintendent or designee aware that he or she needs FMLA leave, and the anticipated timing and duration of the leave. Failure to give the required notice for a foreseeable leave may result in a delay in granting the requested leave until at least 30 days after the date the employee provides notice.

Certification
Within 15 calendar days after the Superintendent or designee makes a request for certification for a FMLA leave, an employee must provide one of the following:

1. When the leave is to care for the employee’s covered family member with a serious health condition, the employee must provide a complete and sufficient certificate signed by the family member’s health care provider.

2. When the leave is due to the employee’s own serious health condition, the employee must provide a complete and sufficient certificate signed by the employee’s health care provider.

3. When the leave is to care for a covered service member with a serious illness or injury, the employee must provide a complete and sufficient certificate signed by an authorized health care provider for the covered service member.
4. When the leave is because of a qualified exigency, the employee must provide: (a) a copy of the covered military member’s active duty orders or other documentation issued by the military indicating that the military member is on active duty or call to active duty status, and the dates of the covered military member’s active duty service, and (b) a statement or description, signed by the employee, of appropriate facts regarding the qualifying exigency for which FMLA leave is requested.

The District may require an employee to obtain a second and third opinion at its expense when it has reason to doubt the validity of a medical certification.

The District may require recertification at reasonable intervals, but not more often than once every 30 days. Regardless of the length of time since the last request, the District may request recertification when the, (1) employee requests a leave extension, (2) circumstances described by the original certification change significantly, or (3) District receives information that casts doubt upon the continuing validity of the original certification. Recertification is at the employee’s expense and must be provided to the District within 15 calendar days after the request. The District may request recertification every six months in connection with any absence by an employee needing an intermittent or reduced schedule leave for conditions with a duration in excess of six months.

Failure to furnish a complete and sufficient certification on forms provided by the District may result in a denial of the leave request.

Continuation of Health Benefits

During FMLA leave, employees are entitled to continuation of health benefits that would have been provided if they were working. Any share of health plan premiums being paid by the employee before taking the leave, must continue to be paid by the employee during the FMLA leave. A District’s obligation to maintain health insurance coverage ceases if an employee’s premium payment is more than 30 days late and the District notifies the employee at least 15 days before coverage will cease.

Changed Circumstances and Intent to Return

An employee must provide the Superintendent or designee reasonable notice of changed circumstances (i.e., within two business days if the changed circumstances are foreseeable) that will alter the duration of the FMLA leave. The Superintendent or designee, taking into consideration all of the relevant facts and circumstances related to an individual’s leave situation, may ask an employee who has been on FMLA leave for eight consecutive weeks whether he or she intends to return to work.

Return to Work

If returning from FMLA leave occasioned by the employee’s own serious health condition, the employee is required to obtain and present certification from the employee’s health care provider that he or she is able to resume work.

An employee returning from FMLA leave will be given an equivalent position to his or her position before the leave, subject to: (1) permissible limitations the District may impose as provided in the FMLA or implementing regulations, and (2) the District’s reassignment policies and practices.

Classroom teachers may be required to wait to return to work until the next semester in certain situations as provided by the FMLA regulations.
Implementation

The Superintendent or designee shall ensure that: (1) all required notices and responses to leave requests are provided to employees in accordance with the FMLA; and (2) this policy is implemented in accordance with the FMLA. In the event of a conflict between the policy and the FMLA or its regulations, the latter shall control. The terms used in this policy shall be defined as in the FMLA regulations.

School Year

Teachers shall work according to the school calendar adopted by the Board, which shall have a minimum of 176 student attendance days and a minimum of 180 teacher work days, including teacher institute days. Teachers are not required to work on legal school holidays unless the District has followed applicable State law that allows it to hold school or schedule teachers’ institutes, parent-teacher conferences, or staff development on the third Monday in January (the Birthday of Dr. Martin Luther King, Jr.); February 12 (the Birthday of President Abraham Lincoln); the first Monday in March (known as Casimir Pulaski’s birthday); the second Monday in October (Columbus Day); and November 11 (Veterans’ Day).

School Day

Teachers are required to work the school day adopted by the Board. Teachers employed for at least four hours per day shall receive a duty-free lunch equivalent to the student lunch period, or 30 minutes, whichever is longer.

The District accommodates employees who are nursing mothers according to provisions in State and federal law.

Substitute Teachers

The Superintendent may employ substitute teachers as necessary to replace teachers who are temporarily absent.

A substitute teacher must hold either a valid teaching or substitute license or short-term substitute license and may teach in the place of a licensed teacher who is under contract with the Board. There is no limit on the number of days that a substitute teacher may teach in the District during the school year, except as follows:

1. A substitute teacher holding a substitute license may teach for any one licensed teacher under contract with the District only for a period not to exceed 90 paid school days in any one school term.

2. A teacher holding a Professional Educator License or Educator License with Stipulations may teach for any one licensed teacher under contract with the District only for a period not to exceed 120 paid school days.

3. A short-term substitute teacher holding a short-term substitute teaching license may teach for any one licensed teacher under contract with the District only for a period not to exceed five consecutive school days.

The Illinois Teachers’ Retirement System (TRS) limits a substitute teacher who is a TRS annuitant to substitute teaching for a period not to exceed 120 paid days or 600 paid hours in each school year, but not more than 100 paid days in the same classroom. Beginning July 1, 2020, a substitute teacher who is a TRS annuitant may substitute teach for a period not to exceed 100 paid days or 500 paid hours in any school year, unless the subject area is one where the Regional Superintendent has certified that a personnel shortage exists.

The School Board establishes a daily rate of pay for substitute teachers. Substitute teachers receive only monetary compensation for time worked and no other benefits.

Short-Term Substitute Teachers

A short-term substitute teacher must hold a valid short-term substitute teaching license and have completed the District’s short-term substitute teacher training program. Short-term substitutes may teach no more than five consecutive school days for each licensed teacher who is under contract with the Board.

Emergency Situations

A substitute teacher may teach when no licensed teacher is under contract with the Board if the District has an emergency situation as defined in State law. During an emergency situation, a substitute teacher is limited to 30 calendar days of employment per each vacant position. The Superintendent shall notify the appropriate Regional Office of Education within five business days after the employment of a substitute teacher in an emergency situation.

CROSS REF.: 5:30 (Hiring Process and Criteria)
Maintaining an orderly learning environment is an essential part of each teacher’s instructional responsibilities. A teacher’s ability to foster appropriate student behavior is an important factor in the teacher’s educational effectiveness. The Superintendent shall ensure that all teachers, other certificated employees, and persons providing a student’s related service(s): (1) maintain discipline in the schools as required in the School Code, and (2) follow the School Board policies and administrative procedures on student conduct, behavior, and discipline.

When a student’s behavior is unacceptable, the teacher should first discuss the matter with the student, if appropriate. If the unacceptable behavior continues, the teacher should consult with the Building Principal and/or discuss the problem with the parent(s)/guardian(s). A teacher may remove any student from the learning setting whose behavior interferes with the lessons or participation of fellow students. A student’s removal must be in accordance with Board policy and administrative procedures.

Teachers shall not use disciplinary methods that may be damaging to students, such as ridicule, sarcasm, or excessive temper displays. Corporal punishment (including slapping, paddling, or prolonged maintenance of a student in physically painful positions, and intentional infliction of bodily harm) may not be used. Teachers may use reasonable force as needed to keep students, school personnel, and others safe, or for self-defense or defense of property.

Suspension

Suspension Without Pay

The School Board may suspend without pay: (1) a professional employee pending a dismissal hearing, or (2) a teacher as a disciplinary measure for up to 30 employment days for misconduct that is detrimental to the School District. Administrative staff members may not be suspended without pay as a disciplinary measure.

Misconduct that is detrimental to the School District includes:

- Insubordination, including any failure to follow an oral or written directive from a supervisor;
- Violation of Board policy or Administrative Procedure;
- Conduct that disrupts or may disrupt the educational program or process;
- Conduct that violates any State or federal law that relates to the employee's duties; and
- Other sufficient causes.

The Superintendent or designee is authorized to issue a pre-suspension notification to a professional employee. This notification shall include the length and reason for the suspension as well as the deadline for the employee to exercise his or her right to appeal the suspension to the Board or Board-appointed hearing examiner before it is imposed. At the request of the professional employee made within five calendar days of receipt of a pre-suspension notification, the Board or its designee will conduct a pre-suspension hearing. The Board or its designee shall notify the professional employee of the date and time of the hearing. At the pre-suspension hearing, the professional employee or his/her representative may present evidence. If the employee does not appeal the pre-suspension notification, the Superintendent or designee shall report the action to the Board at its next regularly scheduled meeting.

Suspension With Pay

The Board or Superintendent or designee may suspend a professional employee with pay: (1) during an investigation into allegations of disobedience or misconduct whenever the employee's continued presence in his or her position would not be in the School District’s best interests, (2) as a disciplinary measure for misconduct that is detrimental to the School District as defined above, or (3) pending a Board hearing to suspend a teacher without pay.

The Superintendent shall meet with the employee to present the allegations and give the employee an opportunity to refute the charges. The employee will be told the dates and times the suspension will begin and end.

Employees Under Investigation by Illinois Dept. of Children and Family Services (DCFS)

Upon receipt of a DCFS recommendation that the District remove an employee from his or her position when he or she is the subject of a pending DCFS investigation that relates to his or her employment with the District, the Board or Superintendent or designee, in consultation with the Board Attorney, will determine whether to:

1. Let the employee remain in his or her position pending the outcome of the investigation; or
2. Remove the employee as recommended by DCFS, proceeding with:
   a. A suspension with pay; or
   b. A suspension without pay.

**Repayment of Compensation and Benefits**

If a professional employee is suspended with pay, either voluntarily or involuntarily, pending the outcome of a criminal investigation or prosecution, and the employee is later dismissed as a result of his or her criminal conviction, the employee must repay to the District all compensation and the value of all benefits received by him or her during the suspension. The Superintendent will notify the employee of this requirement when the employee is suspended.

**Leaves of Absence**

Each of the provisions in this policy applies to all professional personnel to the extent that it does not conflict with an applicable collective bargaining agreement or individual employment contract or benefit plan; in the event of a conflict, such provision is severable and the applicable bargaining agreement or individual agreement will control.

**Sick and Bereavement Leave**

Each full-time professional staff member is granted 10 days sick leave each school year at full pay. Unused days are allowed to accumulate to 180 days. Sick leave is defined in State law as personal illness, quarantine at home, serious illness or death in the immediate family or household, or birth, adoption, or placement for adoption.

As a condition for paying sick leave after three days absence for personal illness or 30 days for birth or as the Board or Superintendent deem necessary in other cases, the Board or Superintendent may require that the staff member provide a certificate from: (1) a physician licensed in Illinois to practice medicine and surgery in all its branches, (2) a chiropractic physician licensed under the Medical Practice Act, (3) an advanced practice registered nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice registered nurse to perform health examinations, (4) a physician assistant who has been delegated the authority to perform health examinations by his or her supervising physician, or (5) if the treatment is by prayer or spiritual means, a spiritual adviser or practitioner of the employee’s faith. If the Board or Superintendent requires a certificate during a leave of less than three days for personal illness, the District shall pay the expenses incurred by the employee.

The use of paid sick leave for adoption or placement for adoption is limited to 30 days unless a longer leave is provided in an applicable collective bargaining agreement. The Superintendent may require that the employee provide evidence that the formal adoption process is underway.

**Child Bereavement Leave**

State law allows a maximum of 10 unpaid work days for eligible employees (Family and Medical Leave Act of 1993, 20 U.S.C. §2601 et seq.) to take child bereavement leave. The purpose, requirements, scheduling, and all other terms of the leave are governed by the Child Bereavement Leave Act. Child bereavement leave allows for: (1) attendance by the bereaved staff member at the funeral or alternative to a funeral of his or her child, (2) making arrangements necessitated by the death of the staff member’s child, or (3) grieving the death of the staff member’s child, without any adverse employment action.

The leave must be completed within 60 days after the date on which the employee received notice of the death of his or her child. However, in the event of the death of more than one child in a 12-month period, an employee is entitled to up to a total of six weeks of bereavement leave during the 12-month period, subject to certain restrictions under State and federal law. Other existing forms of leave may be substituted for the leave provided in the Child Bereavement Leave Act. This policy does not
create any right for an employee to take child bereavement leave that is inconsistent with the Child Bereavement Leave Act.

Sabbatical Leave
Sabbatical leave may be granted in accordance with the School Code.

Personal Leave
Professional staff members are granted one personal leave day per year. A personal leave day is defined as a day to allow professional personnel time to conduct personal business (but not vacation, travel, or work stoppage), which is impossible to schedule at a time other than during a school day. Any unused personal leave day in a school year will be credited to the cumulative sick leave.

The use of a personal day is subject to the following conditions:

1. Except in cases of emergency or unavoidable situations, personal leave requests should be submitted to the Building Principal three days in advance of the requested date,
2. No personal leave days may be used immediately before or immediately after a holiday unless the Superintendent grants prior approval,
3. Personal leave may not be used in increments of less than one-half day,
4. Personal leave days are subject to a substitute’s availability,
5. Personal leave days may not be used during the first and/or last five days of the school year,
6. Personal leave days may not be used on in-service and/or institute training days, and
7. Personal leave may not be used by more than 10% of the teaching staff in each building at the same time.

Leave of Absence Without Pay
The Board may grant a leave of absence without pay to tenured professional staff members who have rendered satisfactory service and desire to return to employment in a similar capacity at a time determined by the Board.

Each leave of absence shall be of the shortest possible duration required to meet the leave’s purpose consistent with a reasonable continuity of instruction for students.

Leave to Serve as an Election Judge
Any staff member who was appointed to serve as an election judge under State law may, after giving at least 20-days’ written notice to the District, be absent without pay for the purpose of serving as an election judge. The staff member is not required to use any form of paid leave to serve as an election judge. No more than 10% of the District’s employees may be absent to serve as election judges on the same Election Day.

Child-Rearing Leave
The Board shall grant a professional staff member’s request for a non-paid, child-rearing leave, not to exceed the balance of the school year plus one additional school year (but in no event shall such leave exceed three semesters), provided the request complies with this policy. Nothing in this section shall prohibit a professional staff member from using paid sick days as provided in this policy.

A teacher must request, if possible, a child-rearing leave by notifying the Superintendent in writing no later than 90 days before the requested leave’s beginning date. The request should include the
proposed leave dates. The leave shall end before a new school year begins or before the first day of school after winter recess.
Subject to the insurance carrier’s approval, the teacher may maintain insurance benefits at his or her own expense during a child-rearing leave.
A professional staff member desiring to return before the leave’s expiration will be assigned to an available vacancy for which the teacher is qualified, subject to scheduling efficiency and instruction continuity.

Leaves for Service in the Military
Leaves for service in the U.S. Armed Services or any of its reserve components and the National Guard, as well as re-employment rights, will be granted in accordance with State and federal law. A professional staff member hired to replace one in military service does not acquire tenure.

General Assembly Leave
Leaves for service in the General Assembly, as well as re-employment rights, will be granted in accordance with State and federal law. A professional staff member hired to replace one in the General Assembly does not acquire tenure.

Leave for Employment in Department of Defense
The Board may grant teachers a leave of absence to accept employment in a Dept. of Defense overseas school.

School Visitation Leave
An eligible professional staff member is entitled to eight hours during any school year, no more than four hours of which may be taken on any given day, to attend school conferences or classroom activities related to the teacher’s child, if the conference or activity cannot be scheduled during non-work hours. Professional staff members must first use all accrued vacation leave, personal leave, compensatory leave, and any other leave that may be granted to the professional staff member, except sick, and disability leave.

The Superintendent shall develop administrative procedures implementing this policy consistent with the School Visitation Rights Act.

Leaves for Victims of Domestic or Sexual Violence
An unpaid leave from work is available to any staff member who: (1) is a victim of domestic or sexual violence, or (2) has a family or household member who is a victim of domestic or sexual violence whose interests are not adverse to the employee as it relates to the domestic or sexual violence. The unpaid leave allows the employee to seek medical help, legal assistance, counseling, safety planning, and other assistance without suffering adverse employment action.

The Victims’ Economic Security and Safety Act governs the purpose, requirements, scheduling, and continuity of benefits, and all other terms of the leave. Accordingly, if the District employs at least 50 employees, an employee is entitled to a total of 12 work weeks of unpaid leave during any 12-month period. Neither the law nor this policy creates a right for an employee to take unpaid leave that exceeds the unpaid leave time allowed under, or is in addition to the unpaid leave time permitted by, the federal Family and Medical Leave Act of 1993 (29 U.S.C. §2601 et seq.).
Leaves to Serve as an Officer or Trustee of a Specific Organization

Upon request, the Board will grant: (1) an unpaid leave of absence to an elected officer of a State or national teacher organization that represents teachers in collective bargaining negotiations, (2) twenty days of paid leave of absence per year to a trustee of the Teachers’ Retirement System in accordance with 105 ILCS 5/24-6.3, and (3) a paid leave of absence for the local association president of a State teacher association that is an exclusive bargaining agent in the District, or his or her designee, to attend meetings, workshops, or seminars as described in 105 ILCS 5/24-6.2.

**Student Teachers**

The Superintendent is authorized to accept students from university-approved teacher-training programs to do student teaching in the District. No individual who has been convicted of a criminal offense that would subject him or her to license suspension or revocation pursuant to Section 5/21B-80 of the School Code or who has been found to be the perpetrator of sexual or physical abuse of a minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987 is permitted to student teach.

Before permitting an individual to student teach or begin a required internship in the District, the Superintendent or designee shall ensure that:

1. The District performed a 105 ILCS 5/10-21.9(g) Check as described below; and
2. The individual furnished evidence of physical fitness to perform assigned duties and freedom from communicable disease pursuant to 105 ILCS 5/24-5.

A 105 ILCS 5/21.9(g) Check shall include:

1. Fingerprint-based checks through (a) the Illinois State Police (ISP) for criminal history records information (CHRI) pursuant to the Uniform Conviction Information Act (20 ILCS 2635/1), and (b) the FBI national crime information databases pursuant to the Adam Walsh Child Protection and Safety Act (P.L. 109-248);
2. A check of the Illinois Sex Offender Registry (see the Sex Offender Community Notification Law (730 ILCS 152/101 et seq.); and
3. A check of the Illinois Murderer and Violent Offender Against Youth Registry (Murderer and Violent Offender Against Youth Community Notification Law (730 ILCS 154/75-105).

The School Code requires each individual student teaching or beginning a required internship to provide the District with written authorization for, and pay the costs of, his or her 105 ILCS 5/21.9(g) check (including any applicable vendor’s fees). Upon receipt of this authorization and payment, the Superintendent or designee will submit the student teacher’s name, sex, race, date of birth, social security number, fingerprint images, and other identifiers, as prescribed by the Department of State Police, to the Department of State Police. The Superintendent or designee will provide each student teacher with a copy of his or her report.

Employment At-Will, Compensation, and Assignment

Employment At-Will

Unless otherwise specifically provided, District employment is at-will, meaning that employment may be terminated by the District or employee at any time for any reason, other than a reason prohibited by law, or no reason at all. Nothing in School Board policy is intended or should be construed as altering the employment at-will relationship.

Exceptions to employment at-will may include employees who are employed annually, have an employment contract, or are otherwise granted a legitimate interest in continued employment. The Superintendent is authorized to make exceptions to employing nonlicensed employees at-will but shall maintain a record of positions or employees who are not at-will.

Compensation

The Board will determine salary and wages for educational support personnel. Increments are dependent on evidence of continuing satisfactory performance. An employee covered by the overtime provisions in State or federal law shall not work overtime without the prior authorization from the employee’s immediate supervisor. Educational support personnel are paid twice a month.

Assignment

The Superintendent is authorized to make assignments and transfers of educational support personnel.

LEGAL REF.: 105 ILCS 5/10-22.34 and 5/10-23.5.

Educational Support Personnel

Duties and Qualifications

All support staff: (1) must meet qualifications specified in job descriptions, (2) must be able to perform the essential tasks listed and/or assigned, and (3) are subject to School Board policies as they may be changed from time to time at the Board’s sole discretion.

Paraprofessionals

Paraprofessionals provide supervised instructional support. Service as a paraprofessional requires an educator license with stipulations endorsed for a paraprofessional educator unless a specific exemption is authorized by the Illinois State Board of Education (ISBE).

Individuals with only non-instructional duties (e.g., providing technical support for computers, providing personal care services, or performing clerical duties) are not paraprofessionals, and the requirements in this section do not apply. In addition, individuals completing their clinical experiences and/or student teaching do not need to comply with this section, provided their service otherwise complies with ISBE rules.

Noncertificated and Unlicensed Personnel Working with Students and Performing Non-Instructional Duties

Noncertificated and unlicensed personnel performing non-instructional duties may be used:

1. For supervising study halls, long-distance teaching reception areas used incident to instructional programs transmitted by electronic media (e.g., computers, video, and audio), detention and discipline areas, and school-sponsored extracurricular activities;
2. As supervisors, chaperones, or sponsors for non-academic school activities; or
3. For non-teaching duties not requiring instructional judgment or student evaluation.

Nothing in this policy prevents a noncertificated person from serving as a guest lecturer or resource person under a certificated teacher’s direction and with the administration’s approval.

Coaches and Athletic Trainers

Athletic coaches and trainers shall have the qualifications required by any association in which the School District maintains a membership. Regardless of whether the athletic activity is governed by an association, the Superintendent or designee shall ensure that each athletic coach: (1) is knowledgeable regarding coaching principles, (2) has first aid training, and (3) is a trained Automated External Defibrillator user according to rules adopted by the Illinois Department of Public Health. Anyone performing athletic training services shall be licensed under the Illinois Athletic Trainers Practice Act, be an athletic trainer aide performing care activities under the on-site supervision of a licensed athletic trainer, or otherwise be qualified to perform athletic trainer activities under State law.
Bus Drivers

All school bus drivers must have a valid school bus driver permit. The Superintendent or designee shall inform the Illinois Secretary of State, within 30 days of being informed by a school bus driver, that the bus driver permit holder has been called to active duty. New bus drivers and bus drivers who are returning from a lapse in their employment are subject to the requirements contained in Board policy 5:30, Hiring Process and Criteria and Board policy 5:285, Drug and Alcohol Testing for School Bus and Commercial Vehicle Drivers.

Drug and Alcohol Testing for School Bus and Commercial Vehicle Drivers

Employment Termination and Suspensions

Resignation and Retirement
An employee is requested to provide two weeks’ notice of a resignation. A resignation notice cannot be revoked once given. An employee planning to retire should notify his or her supervisor at least two months before the retirement date.

Non-RIF Dismissal
The District may terminate an at-will employee at any time for any or no reason, but not for a reason prohibited by State or federal law.

Employees who are employed annually or have a contract, or who otherwise have a legitimate expectation of continued employment, may be dismissed: (1) at the end of the school year or at the end of their respective contract after being provided appropriate notice and after compliance with any applicable contractual provisions, or (2) mid-year or mid-contract provided appropriate due process procedures are provided.

The Superintendent is responsible for making dismissal recommendations to the School Board consistent with the Board’s goal of having a highly qualified, high performing staff.

Reduction in Force and Recall
The Board may, as necessary or prudent, decide to decrease the number of educational support personnel or to discontinue some particular type of educational support service and, as a result of that action, dismiss or reduce the hours of one or more educational support employees. When making decisions concerning reduction in force and recall, the Board will follow Sections 10-22.34c (outsourcing non-instructional services) and 10-23.5 (procedures) of the School Code, to the extent they are applicable and not superseded by legislation or an applicable collective bargaining agreement.

Final Paycheck
A terminating employee’s final paycheck will be adjusted for any unused, earned vacation credit. Employees are paid for all earned vacation. Terminating employees will receive their final pay on the next regular payday following the date of termination, except that an employee dismissed due to a reduction in force shall receive his or her final paycheck on or before the next regular pay date following the last day of employment.

Suspension
Except as provided below, the Superintendent is authorized to suspend an employee without pay as a disciplinary measure, during an investigation into allegations of misconduct or pending a dismissal hearing whenever, in the Superintendent’s judgment, the employee’s presence is detrimental to the District. A disciplinary suspension shall be with pay: (1) when the employee is exempt from the overtime provisions, or (2) until an employee with an employment contract for a definite term is provided a notice and hearing according to the suspension policy for professional employees. Upon
receipt of a recommendation from the Ill. Dept. Children and Family Services (DCFS) that the District remove an employee from his or her position when he or she is the subject of a pending DCFS investigation that relates to his or her employment with the District, the Board or Superintendent or designee, in consultation with the Board Attorney, will determine whether to:

1. Let the employee remain in his or her position pending the outcome of the investigation; or
2. Remove the employee as recommended, proceeding with:
   a. A suspension with pay; or
   b. A suspension without pay.

Any criminal conviction resulting from the investigation or allegations shall require the employee to repay to the District all compensation and the value of all benefits received by the employee during the suspension.

Schedules and Employment Year

The Superintendent shall supervise a process for setting work schedules and an employment year for educational support employees in accordance with State and federal law, School Board policy, and applicable agreements and shall:

1. Assign each employee one supervisor who will establish a work schedule, including breaks, as required by building or District needs, work load, and the efficient management of human resources;
2. Allow for the ability to respond to changing circumstances by altering work schedules as needed; and
3. Consider the well-being of the employee. The Superintendent’s approval is required to establish a flexible work schedule or job-sharing.

Compensatory Time-Off

This policy governs the use of compensatory time-off by employees who: (1) are covered by the overtime provisions of the Fair Labor Standards Act, 29 U.S.C. §201 et seq., and (2) are not represented by an exclusive bargaining representative.

Employees may be given 1-1/2 hours of compensatory time-off in lieu of cash payment for each hour of overtime worked. Other than as provided below, at no time may an employee’s accumulated compensatory time-off exceed 240 hours, which represents compensation for 160 hours of overtime. An employee whose work regularly includes public safety, emergency response, or seasonal activities may accumulate a maximum of 480 hours of compensatory time, which represents compensation for 320 hours of overtime. If an employee accrues the maximum number of compensatory time-off hours, the employee: (1) is paid for any additional overtime hours worked, at the rate of one and one-half times the employee’s regular hourly rate of pay, and (2) does not accumulate compensatory time-off until the employee uses an equal amount of accrued time-off.

An employee who has accrued compensatory time-off shall be permitted to use such time in at least half-day components provided such requests do not unduly disrupt the District’s operations. The employee’s supervisor must approve a request to use compensatory time-off.

Upon termination of employment, an employee will be paid for unused compensatory time at the higher of:

1. The average regular rate received by such employee during the last three years of employment; or
2. The final regular rate received by such employee.

Compensatory time-off is time during which the employee is not working and is, therefore, not counted as “hours worked” for purposes of overtime compensation.

Implementation

The Superintendent or designee shall implement this policy in accordance with the FLSA. In the event of a conflict between the policy and the FLSA, the latter shall control.

1. Each employee shall be evaluated annually, preferably before the annual salary review.
2. The direct supervisor shall provide input.
3. The employee’s work quality, promptness, attendance, reliability, conduct, judgment, and cooperation shall be considered.
4. The employee shall receive a copy of the annual evaluation.

Sick Days, Vacation, Holidays, and Leaves

Each of the provisions in this policy applies to all educational support personnel to the extent that it does not conflict with an applicable collective bargaining agreement or individual employment contract or benefit plan; in the event of a conflict, such provision is severable and the applicable bargaining agreement or individual agreement will control.

Sick and Bereavement Leave

Full or part-time educational support personnel who work at least 600 hours per year receive 10 paid sick leave days per year. Part-time employees will receive sick leave pay equivalent to their regular workday. Unused sick leave shall accumulate to a maximum of 180 days, including the leave of the current year.

Sick leave is defined in State law as personal illness, quarantine at home, serious illness or death in the immediate family or household, or birth, adoption, or placement for adoption. The Superintendent and/or designee shall monitor the use of sick leave.

As a condition for paying sick leave after three days absence for personal illness or 30 days for birth or as the Board or Superintendent deem necessary in other cases, the Board or Superintendent may require that the staff member provide a certificate from: (1) a physician licensed in Illinois to practice medicine and surgery in all its branches, (2) a chiropractic physician licensed under the Medical Practice Act, (3) an advanced practice registered nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice registered nurse to perform health examinations, (4) a physician assistant who has been delegated the authority to perform health examinations by his or her supervising physician, or (5) if the treatment is by prayer or spiritual means, a spiritual adviser or practitioner of the employee’s faith. If the Board or Superintendent requires a certificate during a leave of less than three days for personal illness, the District shall pay the expenses incurred by the employee.

The use of paid sick leave for adoption or placement for adoption is limited to 30 days unless a longer leave is provided in an applicable collective bargaining agreement. The Superintendent may require that the employee provide evidence that the formal adoption process is underway.

Vacation

Vacation days earned in one fiscal year must be used by the end of the following fiscal year; they do not accumulate. Employees resigning or whose employment is terminated are entitled to the monetary equivalent of all earned vacation.
Holidays

Unless the District has a waiver or modification of the School Code pursuant to Section 2-3.25g or 24-2(b) allowing it to schedule school on a holiday listed below, District employees will not be required to work on:

- Martin Luther King Jr.’s Birthday
- Abraham Lincoln’s Birthday
- Casimir Pulaski’s Birthday
- Memorial Day
- Independence Day
- Labor Day
- Columbus Day
- Veteran’s Day
- Thanksgiving Day
- Christmas Day

A holiday will not cause a deduction from an employee’s time or compensation. The District may require educational support personnel to work on a school holiday during an emergency or for the continued operation and maintenance of facilities or property.

Personal Leave

The use of a personal day is subject to the following conditions:

1. Except in cases of emergency or unavoidable situations, a personal leave request should be submitted to the Building Principal three days before the requested date.
2. No personal leave day may be used immediately before or immediately after a holiday, or during the first and/or last five days of the school year, unless the Superintendent grants prior approval.
3. Personal leave may not be used in increments of less than one-half day.
4. Personal leave is subject to any necessary replacement’s availability.
5. Personal leave may not be used on an in-service training day and/or institute training days without prior administrative approval.
6. Personal leave may not be used when the employee’s absence would create an undue hardship.

Leave to Serve as a Trustee of the Illinois Municipal Retirement Fund

Upon request, the Board will grant 20 days of paid leave of absence per year to a trustee of the Ill. Municipal Retirement Fund in accordance with 105 ILCS 5/24-6.3.

School Accountability

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the Ill. State Board of Education (ISBE) prepared State Goals for Learning with accompanying Illinois Learning Standards.

The School Board gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

Quality Assurance

The Board continuously monitors student achievement and the quality of the District’s work. The Superintendent shall supervise the following quality assurance components, in accordance with State law and ISBE rules, and continuously keep the Board informed:

1. Prepare each school’s annual recognition application and quality assurance appraisal, whether internal or external, to assess each school’s continuous school improvement.
2. Continuously assess the District’s and each school’s overall performance in terms of both academic success and equity. This includes, without limitation, a thorough analysis of ISBE’s balanced accountability measure and each school’s Multiple Measure Index and corresponding Annual Measurable Objective provided by ISBE.
3. If applicable, develop District and School Improvement Plans, present them for Board approval, and supervise their implementation.
4. Prepare a school report card, present it at a regular Board meeting, and disseminate it as provided in State law.
5. In accordance with 105 ILCS 5/2-3.153, annually administer a climate survey on the instructional environment within the school to, at minimum, students in grades 4 through 12 and teachers.

The school calendar shall have a minimum of 185 days to ensure 176 days of actual student attendance.

Commemorative Holidays
The teachers and students shall devote a portion of the school day on each commemorative holiday designated in the School Code to study and honor the commemorated person or occasion. The Board may, from time to time, designate a regular school day as a commemorative holiday.

Participation in the classes or activities must be voluntary, both genders must be treated with substantial equality, and the program must otherwise comply with State and federal law and with Board policy 7:10, Equal Educational Opportunities. The Superintendent must periodically evaluate any single-gender class or activity to ensure that: (1) it does not rely on overly broad generalizations about the different talents, capabilities, or preferences of either gender, and (2) it continues to comply with State and federal law and with Board policy 7:10, Equal Educational Opportunities.

The Superintendent or designee in a participating school may grant an EFD for grades 9 through 12 in participating schools. To request an EFD and learn more about the District’s related procedure(s), contact the Superintendent or designee. The District’s procedures are subject to change. The number of EFDs for grades 9 through 12 in participating schools is set by ISBE rule.

**Guidelines for Reimbursable School Meals**

Reimbursable school meals served shall meet, at a minimum, the nutrition requirements and regulations for the National School Lunch Program and/or School Breakfast Program.

**Monitoring**

At least every three years, the Superintendent shall provide implementation data and/or reports to the Board concerning this policy’s implementation sufficient to allow the Board to monitor and adjust the policy (a triennial report). This triennial report must include without limitation each of the following:

- An assessment of the District’s implementation of the policy
- The extent to which schools in the District are in compliance with the policy
- The extent to which the policy compares to model local school wellness policies
- A description of the progress made in attaining the goals of the policy
- How the District will make the results of the assessment available to the public
- Where the District will retain records of the assessment

The Board will monitor and adjust the policy pursuant to policy 2:240, *Board Policy Development*.

**Community Involvement**

The Board and Superintendent will actively invite suggestions and comments concerning the development, implementation, periodic reviews, and updates of the school wellness policy from parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the community. Community
involvement methods shall align their suggestions and comments to policy 2:140, *Communications To and From the Board* and/or the **Community Engagement** subhead in policy 8:10, *Connection with the Community*.

Students competent in SEL are able to recognize and manage their emotions, establish healthy relationships, set positive goals, meet personal and social needs, and make responsible and ethical decisions.

The Superintendent shall incorporate SEL into the District’s curriculum and other educational programs consistent with the District’s mission and the goals and benchmarks of the Ill. Learning Standards. The Ill. Learning Standards include three goals for students:

4. Community partnerships to promote students’ SEL development. This may include establishing partnerships with diverse community agencies and organizations to assure a coordinated approach to addressing children’s mental health and SEL development.
5. Early identification and intervention to enhance students’ school readiness, academic success, and use of good citizenship skills. This may include development of a system and procedures for periodic and universal screening, assessment, and early intervention for students who have significant risk factors for social, emotional, or mental health conditions that impact learning.
6. Treatment to prevent or minimize mental health conditions in students. This may include building and strengthening referral and follow-up procedures for providing effective clinical services for students with social, emotional, and mental health conditions that impact learning. This may include student and family support services, school-based behavioral health services, and school-community linked services and supports.

Administrative Procedure - Accelerated Placement Program Procedures

The District’s Accelerated Placement Program (APP) places qualified students in an educational setting that includes curriculum usually reserved for students who are older or in higher grades than the student, and is implemented by the Superintendent or designee. 105 ILCS 5/14A.

This administrative procedure contains four sections as follows:

1. Definitions
2. Referral Process
3. Evaluation Process
4. Eligibility Determination

Definitions

Accelerated placement is the placement of a student in an educational setting with curriculum that is usually reserved for students who are older or in higher grades than the student. Accelerated placement includes, but may not be limited to: early entrance to kindergarten or first grade, accelerating a student in a single subject, and grade acceleration.

Early entrance to kindergarten is the admission to kindergarten of a student who: (a) will not be five years of age on or before September 1 of that school term; or (b) is admitted prior to the dates established in the School Code based upon an assessment of his or her readiness to attend school.

Early entrance to first grade is the admission to first grade of a student who: (a) is assessed for readiness, attended a non-public preschool and continued his or her education at that school through kindergarten, was taught in kindergarten by an appropriately certified teacher, and will attain the age of six years on or before December 31; or (b) is admitted prior to the dates established in the School Code based upon an assessment of his or her readiness to attend school.

Single subject acceleration is the practice of assigning a student to a higher subject level than is typical, given the student’s age, for the purpose of providing access to appropriately challenging learning opportunities in one or more subject areas. It may be accomplished by either: (a) physically moving the student to a higher level class for instruction; or (b) using higher level curricular or study materials in the student’s current classroom.

Grade acceleration is the practice of assigning a student to a higher grade level than is typical, given the student’s age, for the purpose of providing access to appropriately challenging learning opportunities in all subject areas. Commonly referred to as skipping a grade, grade acceleration may be done at the beginning of or during the school term.

They shall include a filtering device that protects against Internet access by both adults and minors to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose,
provided the person receives prior permission from the Superintendent or system administrator. The Superintendent or designee shall include measures in this policy’s implementation plan to address the following:

1. Ensure staff supervision of student access to online electronic networks,
2. Restrict student access to inappropriate matter as well as restricting access to harmful materials,
3. Ensure student and staff privacy, safety, and security when using electronic communications,

5. Restrict unauthorized disclosure, use, and dissemination of personal identification information, such as, names and addresses.

Authorization for Electronic Network Access

Each staff member must sign the Authorization for Access to the District’s Electronic Networks as a condition for using the District’s electronic network. Each student and his or her parent(s)/guardian(s) must sign the Authorization before being granted unsupervised use.

All users of the District’s computers to access the Internet shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is loaded onto the network.

High School Credit for Students in Grade 7 or 8

The Superintendent or designee may investigate, coordinate, and implement a program for students in grades 7 and 8 to enroll in a course required for a high school diploma.

[The next two paragraphs are only for unit and high school districts; the final paragraph is only for elementary districts.]

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma when the course is offered by the high school that the elementary student would attend and either of the following is satisfied: (1) the student participates in the course at the high school and the elementary student’s enrollment in the course would not prevent a high school student from being able to enroll, or (2) the student participates in the course where the student attends school as long as the course is taught by a teacher who holds a professional educator license with an endorsement for the grade level and content area of the course.

A student who successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive academic credit for the course. That academic credit shall satisfy the requirements of Section 27-22 of the School Code for purposes of receiving a high school diploma, unless evidence about the course’s rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. The student’s grade in the course shall also be included in the student’s grade point average.

High School Credit for Proficiency

Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent or designee is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student’s cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency credit will be offered in the following subject areas:

- **Foreign language** - A student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District’s academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

- **Other proficiency testing** - The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.

Student Testing and Assessment Program

The District student assessment program provides information for determining individual student achievement and instructional needs; curriculum and instruction effectiveness; and school performance measured against District student learning objectives and statewide norms.

The Superintendent or designee shall manage the student assessment program that, at a minimum:

1. Administers the State assessment system, known as the Partnership for Assessment of Readiness for College and Careers (PARCC), to all students and/or any other appropriate assessment methods and instruments, including norm and criterion-referenced achievement tests, aptitude tests, proficiency tests, and teacher-developed tests.

2. Informs students of the timelines and procedures applicable to their participation in every State assessment.

3. Provides each student’s parents/guardians with the results or scores of each State assessment and an evaluation of the student’s progress. See policy 6:280, Grading and Promotion.

4. Utilizes professional testing practices.

Overall student assessment data on tests required by State law will be aggregated by the District and reported, along with other information, on the District’s annual report card. All reliable assessments administered by the District and scored by entities outside of the District must be (1) reported to ISBE on its form by the 30th day of each school year, and (2) made publicly available to parents and guardians of students. Board policy 7:340, Student Records, and its implementing procedures govern recordkeeping and access issues.

Equal Educational Opportunities

Equal educational and extracurricular opportunities shall be available for all students without regard to color, race, nationality, religion, sex, sexual orientation, ancestry, age, physical or mental disability, gender identity, status of being homeless, immigration status, order of protection status, actual or potential marital or parental status, including pregnancy. Further, the District will not knowingly enter into agreements with any entity or any individual that discriminates against students on the basis of sex or any other protected status, except that the District remains viewpoint neutral when granting access to school facilities under School Board policy 8:20, Community Use of School Facilities. Any student may file a discrimination grievance by using Board policy 2:260, Uniform Grievance Procedure.

Sex Equity

No student shall, based on sex, sexual orientation, or gender identity be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities. Any student may file a sex equity complaint by using Board policy 2:260, Uniform Grievance Procedure. A student may appeal the Board’s resolution of the complaint to the Regional Superintendent (pursuant to 105 ILCS 5/3-10) and, thereafter, to the State Superintendent of Education (pursuant to 105 ILCS 5/2-3.8).

Administrative Implementation

The Superintendent shall appoint a Nondiscrimination Coordinator. The Superintendent and Building Principal shall use reasonable measures to inform staff members and students of this policy and grievance procedure.

Surveys
All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the District’s educational objectives as identified in School Board policy 6:10, Educational Philosophy and Objectives, or assist students’ career choices. This applies to all surveys, regardless of whether the student answering the questions can be identified and regardless of who created the survey.

Surveys Created by a Third Party

The student’s parent(s)/guardian(s) may:

1. Inspect the survey or evaluation upon, and within a reasonable time of, their request, and/or
2. Refuse to allow their child to participate in the activity described above. The school shall not penalize any student whose parent(s)/guardian(s) exercised this option.

Instructional Material
A student’s parent(s)/guardian(s) may inspect, upon their request, any instructional material used as part of their child’s educational curriculum within a reasonable time of their request.

The term “instructional material” means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic
or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

**Physical Exams or Screenings**

No school official or staff member shall subject a student to a non-emergency, invasive physical examination or screening as a condition of school attendance. The term *invasive physical examination* means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

The above paragraph does not apply to any physical examination or screening that:

1. Is permitted or required by an applicable State law, including physical examinations or screenings that are permitted without parental notification.
2. Is administered to a student in accordance with the Individuals with Disabilities Education Act (20 U.S.C. §1400 et seq.).

The above paragraph does not apply: (1) if the student’s parent(s)/guardian(s) have consented; or (2) to the collection, disclosure or, use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for, or to, students or educational institutions, such as the following:

1. College or other postsecondary education recruitment, or military recruitment.
2. Book clubs, magazines, and programs providing access to low-cost literary products.
3. Curriculum and instructional materials used by elementary schools and secondary schools.
4. Tests and assessments to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments.
5. The sale by students of products or services to raise funds for school-related or education-related activities.
6. Student recognition programs.

Under no circumstances may a school official or staff member provide a student’s *personal information* to a business organization or financial institution that issues credit or debit cards.

Drug Testing Policy

EFFECTIVE BEGINNING THE 1998-1999 PARTICIPATION SEASON

Alcohol and drug abuse are serious problems in today's society, and schools are not immune to such problems. It is statistically predictable, and it is within our experience, that some students (student athletes) have used alcohol and have experimented with "street drugs" such as marijuana and cocaine, or may do so during their middle or high school years. Also, some athletes may be attracted to the use of so called "performance enhancing" drugs, such as various steroids, in misguided efforts to increase their strength or endurance.

This education and testing program is intended as a helpful part of the overall physical and mental educational and conditioning programs of WCUSD#2. Its purpose is not disciplinary in nature but rather is intended as a medical diagnostic aid in disclosing possible drug related problems and as an extension of our educational drug programs. Continuing drug usage obviously is inconsistent with participation in interscholastic activities, and the program includes appropriate procedures for dealing with any such problems.

The program will be applied to all interscholastic sports teams, male and female, and is intended for all students (student athletes) who tryout for or become members of any WCUSD#2 school interscholastic team. Also included are members of all cheerleading and dance teams.

Any student in the drug testing pool will be referred to herein as "eligible students" ("student athletes").

As an integral part of the district curriculum, all students will receive instruction in the dangers of drug and alcohol abuse. The curriculum will be designated to educate and encourage students to respect their bodies, to develop and pursue athletic ability and to continue throughout their lives to exercise, participate in sports and maintain healthy, drug free lives. The avoidance and/or elimination of drug and alcohol abuse shall be a part of the curriculum. This program will become effective during the 1998-99 athletic year.

The purposes of the program are to prevent drug and alcohol usage, to educate eligible students (student athletes) as to the serious physical, mental and emotional harm caused by drug and alcohol abuse, to alert eligible students (student athletes) with possible drug problems to the potential harm, to prevent injury, illness and harm as a result of drug and alcohol abuse, and to maintain WCUSD#2 schools as an athletic environment free of alcohol and drug abuse. The program is not primarily intended to be disciplinary or punitive in nature.

In addition to the above stated policy for athletes, this policy is expanded to include the following. Any student who is taking the behind the wheel portion of driver’s education, any student issued a driving permit to school, any student who, as a part of their curriculum, may use or be exposed to, power equipment of any kind.
Students who are included in any of these groups will have their names added to the drug testing pool and will be tested using the guidelines and procedures as previously adopted.

Overall Guidelines

1. Each student participant in the program shall be provided with a consent form, a copy of which is attached hereto, which shall be dated and signed by the eligible student (student athlete) and by a custodial parent or guardian. This form must be signed and returned before such student shall be eligible to practice or participate in any interscholastic team sport, receive a permit to drive to school, be enrolled in the behind the wheel portion of drivers education, or be permitted to use any power equipment in classes. The consent shall be to provide at any time requested a urine sample for testing.

2. The selection of eligible students (student athlete) to be tested will be done randomly by the dean of students (athletic director) and principal. Selections may be made from time to time throughout the training and participation season for student athletes. In addition, selection of any other eligible student may be made anytime they are engaged in the activity or enrolled in the class that places them in the selection pool. Each eligible student (student athlete) will be assigned a number. In order to protect the identity of those in the pool, one cross-reference list of names and numbers will be maintained by the dean of students (athletic director). When selection for testing is done, the numbers of all participants will be placed in a pool. The number(s) of the eligible student (student athlete) to be tested will be drawn from the pool. The number of students tested, the number of test events, and the times and dates for testing are at the discretion of the principal and dean of students (athletic director) or his designee.

3. In the event that laboratory results indicate the test sample was tampered or adulterated in any way, the dean of students (athletic director) and the principal will conduct an investigation as to the possible cause of the laboratory results. If, in their judgment, it is determined that the sample was altered by the eligible student (student athlete), then said student (athlete) will be suspended from participation in the activity (any and all extracurricular events) covered by this policy for a period of no less than one calendar year.

4. If a student drawn for testing is absent on the draw date, their number will automatically be added to the list of students to be tested on the next occurrence of testing. In addition, the dean of students (athletic director) and the principal may at their discretion require the student to submit to testing upon his/her return to school.

5. All numbers drawn for a testing occurrence will be immediately returned to the pool in order to be available for the next random drawing.

6. A student who has signed the consent form and subsequently refuses random testing is automatically considered as a positive test and is subject to the conditions and sanctions of a positive test as indicated elsewhere in this policy.
7. Sanctions for positive testing are cumulative in nature and will bridge between all grade levels. For example, a student testing positive for a third time during the eighth grade year will begin the calendar year sanction for a third positive test during his/her eighth grade year and finish the sanction on the appropriate date during the freshman year.

8. On being selected for testing, each eligible student (student athlete) will be required to provide a sample of his/her urine in a verifiable manner. The collection of the sample shall not be physically observed. The eligible student (student athlete) number and the date shall be written on the sample bottle. Also, the dean of students (athletic director) shall date and initial the cross-reference list, establishing that the sample container has the proper identification number written on it. The samples will then be turned over to the testing laboratory. A competent laboratory shall do testing.

9. When an eligible student (student athlete) is selected for testing, only the principal, the dean of students (athletic director) and the designee obtaining the urine sample (who shall be the same sex as the student) shall be told that such student (student athlete) has given a urine sample or is being tested. The laboratory will report to the principal (athletic director) by the numbers on each sample container the results of each test. The results of any test shall not be made known to anyone other than the eligible student (student athlete), the eligible student's (student athletes) parent(s) or guardian, the dean of student's (athletic director), the principal, and, in the case of an athlete, the student athlete's head coach. If the eligible student (student athlete) is taking any over-the-counter or prescription medications which may contribute to a "positive" test result, it would be in the eligible student's (student athlete's) best interest to inform the dean of students (athletic director), principal, or designee of this fact at the time of the taking of the urine sample.

10. If any test as to a particular eligible student (student athlete) is "positive", that is, if it shows that drug residue substances are present in the eligible student (student athlete)'s system (after using at least two different types of analyses), the principal and/or the dean of students (athletic director) will so advise the student (student athlete) and the student's (student athlete's) custodial parent(s) or guardian. At that time they will explain the type of substance, which was found, and the health hazards involved. If the student (student athlete) or the student's (student athlete's) custodial parent(s) or guardian desire, they may have any remaining portion of the urine sample analyzed or any new sample taken and analyzed under conditions in which the sample is verified and transmitted to the laboratory by the principal and/or the dean of students (athletic director) and where the results are returned to the principal (athletic director). They may also submit any prescription or other explanation or information which will be considered in determining whether a positive test has been satisfactorily explained. If it is not satisfactorily explained, the principal and/or the dean of students (athletic director) will consult with the student (student athlete) and the student's (student athlete) custodial parent(s) or guardian concerning the nature and extent of the problem and may suggest counseling or other possible assistance. WCUSD#2 shall pay for the testing done at its request but will not pay for any tests submitted by the eligible student (student athlete), parent(s) or guardian and will not be required to pay for any counseling or subsequent treatment.
11. If any test is determined to be "positive", and not satisfactorily explained a "follow-up" test will be made after such an interval of time that the substance previously found would normally have been eliminated from the body if no intervening drug use has occurred. If a second "positive" result is obtained from the "follow-up" test, or any later test of that eligible student (student athlete), the same procedure shall be followed. In addition, WCUSD#2 reserves the right to continue testing at any time throughout the remaining school year any eligible student (student athlete) who tested "positive" and did not make satisfactory explanation. WCUSD#2 also reserves the right to test any eligible student (student athlete) who at any time exhibits cause for reasonable suspicion of drug or alcohol usage.

12. Apart from this drug-testing program, the coaching staff of each interscholastic sport has its own training rules and requirements, which include prohibitions concerning use of alcohol, tobacco, and drugs. Coaches have the necessary authority to enforce these rules as well as those of the athletic handbook. It is not the purpose of this policy to supersede any rules of the athletic handbook or to automatically bar from all further participation in sports a student athlete who exhibits a "positive" test from urinalysis the purpose of the program to prevent student athlete participation in interscholastic sports while the student athlete has drug-residues in his or her body. In addition, it is the purpose of this program to educate, help, and direct student athletes away from drug and alcohol abuse toward a healthy, drug free participation in sports.

13. The activity and results of testing for any eligible student (student athlete) shall not be made known to any school official other than as above stated. Also, no eligible student (student athlete) shall be expelled, suspended or disciplined as a result of any "positive" test conducted by the school under this program other than as stated herein. (i.e. a "positive" test under this program shall not be cause for automatic permanent suspension or expulsion from all regular school activities.)

14. If, in the case of student athletes, there is a suspension from practice or team participation, team members should not be told the reason unless the student chooses to do so. This program shall not affect other WCUSD#2 policies, practices or rights in dealing with drug or alcohol use or possession where there is reasonable suspicion of use or possession obtained by means other than the random sampling provided for in this program.

15. This program is open to any and all students on a voluntary basis. Any student outside of the pool of eligible students, who submits a consent form signed by himself or herself and a custodial parent or guardian, shall be added to the list of WCUSD#2 students who are subject to random selection for drug testing. Such students shall receive a copy of "WCUSD#2 DRUG EDUCATION AND TESTING PROGRAM" and shall be subject to such testing in the same manner as all eligible students who are subject to testing. If a student tests positive, the student and consenting parent or guardian will be informed. Eligible students will remain subject to random selection and testing until their consent form is withdrawn in writing.
16. Any student who is a participant in the interscholastic athletic programs is considered a WCUSD#2 athlete. Being an athlete at WCUSD#2 is considered a privilege and not a right. Training rules are not rules to be broken and any athlete who violates these rules will be subject to the following consequences for each "positive" drug test that is not satisfactorily explained.

17. The student athlete must have entered professional counseling and received a negative drug screening prior to returning to athletic participation.

The following stipulations apply to any positive test for student athletes:

A. If a suspension period included a fraction of an athletic contest and that fraction is .5 or higher, the athlete will not be allowed to participate in any part of that contest. If the fraction is lower than .5, then the athlete will be allowed to participate in the entire contest.

B. All suspensions will be based on varsity (A-team) contests. For example: If the student athlete's suspension consists of five contests, then the five contests will be varsity contests, even if the athlete only participates at the junior varsity or freshman level. He/she will not be allowed to participate until five varsity contests have been played.

C. Practice during the period of suspension will be up to the individual coach involved.

D. Cause of suspension will be established by a "positive" drug test that is not satisfactorily explained.

E. An athlete's suspension will carryover to the next sport that he/she participates in. For example: if an athlete has a 30% suspension from football and only 10% of the season remains, then 20% of his/her next season would be suspended. The following suspension regulations apply to positive test results for all student athletes:

First Occurrence: 30% of athletic contests of the sport in which the athlete is involved, which may carryover under the provisions of subparagraph F.

Second Occurrence: 50% of the athletic contests of the sport in which the athlete is involved, which may carryover under the provisions of subparagraph F.

Third Occurrence: One calendar year suspension from athletic participation from the date of suspension.

Fourth Occurrence: Suspension from athletic participation for the high school career. The following stipulations apply to any positive test for all non-athletes eligible for testing. The student must have entered professional counseling and received a negative drug screen prior to resuming to the suspended activity. All suspensions will be based on school day increments.

For example: If the eligible student's suspension consists of one month removal from an activity, such as driving to school, then thirty full school days must transpire.
before the student is eligible to be reinstated. In situations where power equipment is involved, alternate classroom activities during the period of suspension will be provided. Cause of suspension will be established by a "positive" drug test that is not satisfactorily explained. A student's suspension will carryover to the next calendar year.

For example: if a student has a two month suspension from driving to school and only one month of the school year remains, then the remaining one month of his/her suspension would fall into the next year.

The following regulations apply to positive test results for all non-athletes eligible for testing.

First Occurrence:

Driving To School Permits: 3 Months Suspension of the driving permit.

Driver's Education: One semester delay in the behind the wheel portion of the driver's education program.

In Courses Using Power Equipment: One-month removal from any activity involving power equipment.

Second Occurrence:

Driving To School Permits: 6 Months Suspension of the driving permit.

Driver's Education: One year delay in the behind the wheel portion of the driver's education program.

In Courses Using Power Equipment: One semester removal from any activity involving power equipment.

Third Occurrence:

Driving To School Permits: Permanent revocation of driving permit.

Driver's Education: One year delay in the behind the wheel portion of the driver's education program.

In Courses Using Power Equipment: One year removal from any activity involving power equipment.

Fourth Occurrence:

Driver's Education: 2 year ban from behind the wheel driver's education.

In Courses Using Power Equipment: 2 year ban from any course using power equipment.

Sexual harassment of students is prohibited. Any person, including a district employee or agent, or student, engages in sexual harassment whenever he or she makes sexual advances, requests sexual favors, and/or engages in other verbal or physical conduct, including sexual violence, of a sexual or sex-based nature, imposed on the basis of sex, that:

1. Denies or limits the provision of educational aid, benefits, services, or treatment; or that makes such conduct a condition of a student’s academic status; or

2. Has the purpose or effect of:
   a. Substantially interfering with a student’s educational environment;
   b. Creating an intimidating, hostile, or offensive educational environment;
   c. Depriving a student of educational aid, benefits, services, or treatment; or

**Student Assignment and Intra-District Transfer**

**Attendance Areas**
The School District is divided into school attendance areas. The Superintendent will review the boundary lines annually and recommend any changes to the School Board. The Superintendent or designee shall maintain a map of the District showing current school attendance areas. Students living in a given school attendance area will be assigned to that school. Homeless children shall be assigned according to Board policy 6:140, *Education of Homeless Children*.

**Transfers Within the District**
A student’s parent(s)/guardian(s) may request a transfer for their child to a District school other than the one assigned. A request should be directed to the Superintendent, who, at his or her sole discretion, may grant the request when the parent(s)/guardian(s) demonstrate that the student could be better accommodated at another school, provided space is available. If a request is granted, the parent/guardian shall be responsible for transportation. The provisions in this section have no applicability to transfers pursuant to the Unsafe School Choice Option covered in Board policy 4:170, *Safety*.

**Nonpublic School Students, Including Parochial and Home-Schooled Students**

**Part-Time Attendance**

The District accepts nonpublic school students, including parochial and home-schooled students, who live within the District for part-time attendance in the District’s regular education program on a space-available basis. Requests for part-time attendance must be submitted to the Building Principal of the school in the school attendance area where the student resides.

A student accepted for partial enrollment must comply with all discipline and attendance requirements established by the school. He or she may participate in any co-curricular activity associated with a District class in which he or she is enrolled. The parent(s)/guardian(s) of a student accepted for partial enrollment must pay all fees, pro-rated on the basis of a percentage of full-time fees. Transportation to and/or from school is provided on regular bus routes to or from a point on the route nearest or most easily accessible to the nonpublic school or student’s home. This transportation shall be on the same basis as the District provides transportation for its full-time students. Transportation on other than established bus routes is the responsibility of the parent(s)/guardian(s).

**Students with a Disability**

The District accepts for part-time attendance those children for whom it has been determined that special education services are needed, are enrolled in nonpublic schools, and otherwise qualify for enrollment in the District. Requests must be submitted by the student’s parent/guardian. Special educational services shall be provided to such students as soon as possible after identification, evaluation, and placement procedures provided by State law, but no later than the beginning of the next school semester following the completion of such procedures. Transportation for such students shall be provided only if required in the child’s Individualized Educational Program on the basis of the child’s disabling condition or as the special education program location may require.

**Extracurricular Activities, Including Interscholastic Competition**

A nonpublic school student is eligible to participate in: (1) interscholastic competition, provided his or her participation adheres to the regulations established by any association in which the School District maintains a membership, and (2) non-athletic extracurricular activities, provided the student attends a District school for at least one-half of the regular school day, excluding lunch. A nonpublic student who participates in an extracurricular activity is subject to all policies, regulations, and rules that are applicable to other participants in the activity.

**Assignment When Enrolling Full-Time in a District School**

Grade placement by, and academic credits earned at, a nonpublic school will be accepted if the school has a Certificate of Nonpublic School Recognition from the Illinois State Board of Education, or, if outside Illinois, if the school is accredited by the state agency governing education.

A student who, after receiving instruction in a non-recognized or non-accredited school, enrolls in the District will: (1) be assigned to a grade level according to academic proficiency, and/or (2) have academic credits recognized by the District if the student demonstrates appropriate academic proficiency to the school administration. Any portion of a student’s transcript relating to such instruction will not be considered for placement on the honor roll or computation in class rank.
Notwithstanding the above, recognition of grade placement and academic credits awarded by a nonpublic school is at the sole discretion of the District. All school and class assignments will be made according to School Board policy 7:30, Student Assignment, as well as administrative procedures implementing this policy.

School Admissions and Student Transfers To and From Non-District Schools

Age
To be eligible for admission, a child must be five years old on or before September 1 of that school term. A child entering first grade must be six years of age on or before September 1 of that school term. A child will also be allowed to attend first grade based upon an assessment of his or her readiness if he or she attended a non-public preschool, continued his or her education at that school through kindergarten, was taught in kindergarten by an appropriately licensed teacher, and will be six years old on or before December 31. A child with exceptional needs who qualifies for special education services is eligible for admission at three years of age. Early entrance to kindergarten or first grade may also be available through Board policy 6:135, Accelerated Placement Program.

Admission Procedure
All students must register for school each year on the dates and at the place designated by the Superintendent. Parents/guardians of students enrolling in the District for the first time must present:

1. A certified copy of the student’s birth certificate. If a birth certificate is not presented, the Superintendent or designee shall notify in writing the person enrolling the student that within 30 days he or she must provide a certified copy of the student’s birth certificate. A student will be enrolled without a birth certificate. When a certified copy of the birth certificate is presented, the school shall promptly make a copy for its records, place the copy in the student’s permanent record, and return the certified copy to the person enrolling the child. If a person enrolling a student fails to provide a certified copy of the student’s birth certificate, the Superintendent or designee shall immediately notify the local law enforcement agency, and shall also notify the person enrolling the student in writing that, unless he or she complies within ten days, the case will be referred to the local law enforcement authority for investigation. If compliance is not obtained within that ten-day period, the Superintendent or designee shall so refer the case. The Superintendent or designee shall immediately report to the local law enforcement authority any material received pursuant to this paragraph that appears inaccurate or suspicious in form or content.

2. Proof of residence, as required by Board policy 7:60, Residence.

3. Proof of disease immunization or detection and the required physical examination, as required by State law and Board policy 7:100, Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students.

The individual enrolling a student shall be given the opportunity to voluntarily state whether the student has a parent or guardian who is a member of a branch of the U.S. Armed Forces and who is either deployed to active duty or expects to be deployed to active duty during the school year. Students who are children of active duty military personnel transferring will be allowed to enter: (a) the same grade level in which they studied at the school from which they transferred, if the transfer occurs during the District’s school year, or (b) the grade level following the last grade completed.
Homeless Children

Any homeless child shall be immediately admitted, even if the child or child’s parent/guardian is unable to produce records normally required for enrollment. Board policy 6:140, *Education of Homeless Children*, and its implementing administrative procedure, govern the enrollment of homeless children.

Student Transfers To and From Non-District Schools

A student may transfer into or out of the District according to State law and procedures developed by the Superintendent or designee. A student seeking to transfer into the District must serve the entire term of any suspension or expulsion, imposed for any reason by any public or private school, in this or any other state, before being admitted into the School District.

Foreign Students

The District accepts foreign exchange students with a J-1 visa and who reside within the District as participants in an exchange program sponsored by organizations screened by administration. Exchange students on a J-1 visa are not required to pay tuition.

Privately sponsored exchange students on an F-1 visa may be enrolled if an adult resident of the District has temporary guardianship, and the student lives in the home of that guardian. Exchange students on an F-1 visa are required to pay tuition at the established District rate. F-1 visa student admission is limited to high schools, and attendance may not exceed 12 months.

The Board may limit the number of exchange students admitted in any given year. Exchange students must comply with District immunization requirements. Once admitted, exchange students become subject to all District policies and regulations governing students.

Re-enrollment

Re-enrollment shall be denied to any individual 19 years of age or above who has dropped out of school and who could not earn sufficient credits during the normal school year(s) to graduate before his or her 21st birthday. However, at the Superintendent’s or designee’s discretion and depending on program availability, the individual may be enrolled in a graduation incentives program established under 105 ILCS 5/26-16 or an alternative learning opportunities program established under 105 ILCS 5/13B-1 (see 6:110, *Programs for Students At Risk of Academic Failure and/or Dropping Out of School and Graduation Incentives Program*). Before being denied re-enrollment, the District will offer the individual due process as required in cases of expulsion under policy 7:210, *Expulsion Procedures*. A person denied re-enrollment will be offered counseling and be directed to alternative educational programs, including adult education programs that lead to graduation or receipt of a GED diploma. This section does not apply to students eligible for special education under the Individuals with Disabilities Education Improvement Act or accommodation plans under the Rehabilitation Act, Section 504.

Residence

Resident Students

Only students who are residents of the District may attend a District school without a tuition charge, except as otherwise provided below or in State law. A student’s residence is the same as the person who has legal custody of the student.

A person asserting legal custody over a student, who is not the child’s natural or adoptive parent, shall complete a signed statement, stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than to receive an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency. If the District knows the current address of the child’s natural or adoptive parent, the District shall request in writing that the person complete a signed statement or Power of Attorney stating: (a) the role and responsibility of the person with whom their child is living, and (b) that the person with whom the child is living has full control over the child regarding daily educational and medical decisions in case of emergency.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition.

When a student’s change of residence is due to the military service obligation of the student’s legal custodian, the student’s residence is deemed to be unchanged for the duration of the custodian’s military service obligation if the student’s custodian made a written request. The District, however, is not responsible for the student’s transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within 60 days after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition.

Requests for Nonresident Student Admission

Nonresident students may attend District schools upon the approval of a request submitted by the student’s parent(s)/guardian(s) for nonresident admission. The Superintendent may approve the request subject to the following:

1. The student will attend on a year-to-year basis. Approval for any one year is not authorization to attend a following year.
2. The student will be accepted only if there is sufficient room.
3. The student’s parent(s)/guardian(s) will be charged the maximum amount of tuition as allowed by State law.
4. The student’s parent(s)/guardian(s) will be responsible for transporting the student to and from school.
Admission of Nonresident Students Pursuant to an Agreement or Order

Nonresident students may attend District schools tuition-free pursuant to:

1. A written agreement with an adjacent school district to provide for tuition-free attendance by a student of that district, provided both the Superintendent or designee and the adjacent district determine that the student’s health and safety will be served by such attendance.

2. A written agreement with cultural exchange organizations and institutions supported by charity to provide for tuition-free attendance by foreign exchange students and nonresident pupils of charitable institutions.

3. According to an intergovernmental agreement.

4. Whenever any State or federal law or a court order mandates the acceptance of a nonresident student.

Homeless Children

Any homeless child shall be immediately admitted, even if the child or child’s parent/guardian is unable to produce records normally required to establish residency. School Board policy 6:140, Education of Homeless Children, and its implementing administrative procedure, govern the enrollment of homeless children.

Challenging a Student’s Residence Status

If the Superintendent or designee determines that a student attending school on a tuition-free basis is a nonresident of the District for whom tuition is required to be charged, he or she on behalf of the School Board shall notify the person who enrolled the student of the tuition amount that is due. The notice shall detail the specific reasons why the Board believes that the student is a nonresident of the District and shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge this determination and request a hearing as provided by the School Code, 105 ILCS 5/10-20.12b.

Attendance and Truancy

Compulsory School Attendance

This policy applies to individuals who have custody or control of a child: (a) between the ages of six (on or before September 1) and 17 years (unless the child has graduated from high school), or (b) who is enrolled in any of grades kindergarten through 12 in the public school regardless of age.

Subject to specific requirements in State law, the following children are not required to attend public school: (1) any child attending a private school (including a home school) or parochial school, (2) any child who is physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, (5) any child absent because his or her religion forbids secular activity on a particular day, and (6) any child 16 years of age or older who is employed and is enrolled in a graduation incentives program.

The parent/guardian of a student who is enrolled must authorize all absences from school and notify the school in advance or at the time of the student’s absence. A valid cause for absence includes illness, observance of a religious holiday, death in the immediate family, family emergency, other situations beyond the control of the student, other circumstances that cause reasonable concern to the parent/guardian for the student’s safety or health, or other reason as approved by the Superintendent or designee.

Absenteism and Truancy Program

The Superintendent or designee shall manage an absenteeism and truancy program in accordance with the School Code and School Board policy. The program shall include but not be limited to:

1. A protocol for excusing a student from attendance who is necessarily and lawfully employed. The Superintendent or designee is authorized to determine when the student’s absence is justified.
2. A protocol for excusing a student in grades 6 through 12 from attendance to sound Taps at a military honors funeral held in Illinois for a deceased veteran.
3. A protocol for excusing a student from attendance on a particular day(s) or at a particular time of day when his/her parent/guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings.
4. A process to telephone, within two hours after the first class, the parents/guardians of students in grade 8 or below who are absent without prior parent/guardian notification.
5. A process to identify and track students who are truants, chronic or habitual truants, or truant minors as defined in the School Code, Section 26-2a.
6. A description of diagnostic procedures for identifying the cause(s) of a student’s unexcused absenteeism, including interviews with the student, his or her parent(s)/guardian(s), and staff
members or other people who may have information about the reasons for the student’s attendance problem.

7. The identification of supportive services that may be offered to truant, chronically truant, or chronically absent students, including parent-teacher conferences, student and/or family counseling, or information about community agency services. See Board policy 6:110, Programs for Students At Risk of Academic Failure and/or Dropping Out of School and Graduation Incentives Program.

8. Reasonable efforts to provide ongoing professional development to teachers, administrators, Board members, school resource officers, and staff on the appropriate and available supportive services for the promotion of student attendance and engagement.

9. A process to request the assistance and resources of outside agencies, such as, the juvenile officer of the local police department or the truant office of the appropriate Regional Office of Education, if truancy continues after supportive services have been offered.

10. A protocol for cooperating with non-District agencies including County or municipal authorities, the Regional Superintendent, truant officers, the Community Truancy Review Board, and a comprehensive community based youth service agency. Any disclosure of school student records must be consistent with Board policy 7:340, Student Records, as well as State and federal law concerning school student records.

11. An acknowledgement that no punitive action, including out-of-school suspensions, expulsions, or court action, shall be taken against a truant minor for his or her truancy unless available supportive services and other school resources have been provided to the student.

12. The criteria to determine whether a student’s non-attendance is due to extraordinary circumstances shall include economic or medical necessity or family hardship and such other criteria that the Superintendent believes qualifies.

13. A process for a 17-year-old resident to participate in the District’s various programs and resources for truants. The student must provide documentation of his/her dropout status for the previous six months. A request from an individual 19 years of age or older to re-enroll after having dropped out of school is handled according to provisions in 7:50, Students School Admissions and Student Transfers To and From Non-District Schools.

14. A process for the temporary exclusion of a student 17 years of age or older for failing to meet minimum attendance standards according to provisions in State law. A parent/guardian has the right to appeal a decision to exclude a student.

This notice shall satisfy the District’s requirement for a written excuse when the student returns to school.

The Superintendent shall develop and distribute to teachers appropriate procedures regarding student absences for religious reasons and include a list of religious holidays on which a student shall be excused from school attendance, how teachers are notified of a student’s impending absence, and the State law requirement that teachers provide the student with an equivalent opportunity to make up any examination, study, or work requirement.

Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students

Required Health Examinations and Immunizations

A student’s parent(s)/guardian(s) shall present proof that the student received a health examination, with proof of the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health (IDPH), within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school, regardless of the student’s grade (including nursery school, special education, Head Start programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

Proof of immunization against meningococcal disease is required for students in grades 6 and 12.

As required by State law:

1. Health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening is a required part of each health examination; diabetes testing is not required.
3. Beginning with the 2017-2018 school year, an age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination. A student will not be excluded from school due to his or her parent/guardian’s failure to obtain a developmental screening or a social and emotional screening.
4. Before admission and in conjunction with required physical examinations, parent(s)/guardian(s) of children between the ages of one and seven years must provide a statement from a physician that their child was risk-assessed or screened for lead poisoning.
5. The IDPH will provide all students entering sixth grade and their parent(s)/guardian(s) information about the link between human papillomavirus (HPV) and HPV-related cancers and the availability of the HPV vaccine.
6. The District will provide informational materials regarding influenza, influenza vaccinations, meningococcal disease, and meningococcal vaccinations developed, provided, or approved by the IDPH when it provides information on immunizations, infectious diseases, medications, or other school health issues to students’ parent(s)/guardian(s).

Unless an exemption or extension applies, the failure to comply with the above requirements by October 15 of the current school year will result in the student’s exclusion from school until the required health forms are presented to the District. New students who register after October 15 of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a
required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or local health department responsible for administering the immunizations.

A student transferring from out-of-state who does not have the required proof of immunizations by October 15 may attend classes only if he or she has proof that an appointment for the required vaccinations is scheduled with a party authorized to submit proof of the required vaccinations. If the required proof of vaccination is not submitted within 30 days after the student is permitted to attend classes, the student may no longer attend classes until proof of the vaccinations is properly submitted.

**Eye Examination**

Parent(s)/guardian(s) are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parent(s)/guardian(s) of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

If a student fails to present proof by October 15, the school may hold the student’s report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15. The Superintendent or designee shall ensure that parent(s)/guardian(s) are notified of this eye examination requirement in compliance with the rules of the IDPH. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

**Dental Examination**

All children in kindergarten and the second, sixth, and ninth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the IDPH.

If a child in the second, sixth, or ninth grade fails to present proof by May 15, the school may hold the child’s report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parent(s)/guardian(s) are notified of this dental examination requirement at least 60 days before May 15 of each school year.

**Exemptions**

In accordance with rules adopted by the IDPH, a student will be exempted from this policy’s requirements for:

1. Religious grounds, if the student’s parent(s)/guardian(s) present the IDPH’s Certificate of Religious Exemption form to the Superintendent or designee. When a Certificate of Religious Exemption form is presented, the Superintendent or designee shall immediately inform the parent(s)/guardian(s) of exclusion procedures pursuant to Board policy 7:280, *Communicable and Chronic Infectious Disease* and State rules if there is an outbreak of one or more diseases from which the student is not protected.
2. Health examination or immunization requirements on medical grounds, if the examining physician, advanced registered practice nurse, or physician assistant provides written verification.

3. Eye examination requirement, if the student’s parent(s)/guardian(s) show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist.

4. Dental examination requirement, if the student’s parent(s)/guardian(s) show an undue burden or a lack of access to a dentist.

**Homeless Child**

Any homeless child shall be immediately admitted, even if the child or child’s parent/guardian is unable to produce immunization and health records normally required for enrollment. School Board policy 6:140, *Education of Homeless Children*, governs the enrollment of homeless children.

Student Rights and Responsibilities

All students are entitled to enjoy the rights protected by the U.S. and Illinois Constitutions and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably and avoid violating the rights of others. Students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures.

Students may, during the school day, during noninstructional time, voluntarily engage in individually or collectively initiated, non-disruptive prayer or religious-based meetings that, consistent with the Free Exercise and Establishment Clauses of the U.S. and Illinois Constitutions, are not sponsored, promoted, or endorsed in any manner by the school or any school employee. Noninstructional time means time set aside by a school before actual classroom instruction begins or after actual classroom instruction ends.

Search and Seizure

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. “School authorities” includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student’s personal effects in the student’s possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District’s student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student’s age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District’s policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Notification Regarding Student Accounts or Profiles on Social Networking Websites

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, 105 ILCS 75/:
1. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student’s account or profile on a social networking website.

2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student’s account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Students are encouraged to wear school uniforms to school on all school attendance days, in order to maintain and promote orderly school functions, student safety, and a positive learning environment. The Building Principal is authorized to designate days on which this uniform policy is relaxed.

The Superintendent or designee shall designate a school-wide uniform after receiving input from school staff members, parents, and interested community members. Students may:

1. Display religious messages on items of clothing to the same extent they are permitted to display other messages;
2. Wear attire that is part of the student’s religious practice;
3. Wear or display expressive items, such as a button, as long as such items do not contribute to disruption by substantially interfering with discipline or with the rights of others; and
4. Wear the uniform of a nationally recognized youth organization such as Boy Scouts or Girl Scouts on regular meeting days.

No student shall be denied attendance at school, penalized, or otherwise subject to compliance measures for failing to wear a uniform because of:

1. Personal choice;
2. Insufficient time in which to comply with this policy;
3. Financial hardship; or
4. Religious objection by the student’s parent/guardian to the student’s compliance with this policy or the applicable uniform, if they have provided the Superintendent with a signed statement detailing their objection.

Any student eligible for reduced or free lunches, or for a waiver of student fees, is eligible for financial assistance toward the purchase of school uniforms. The Superintendent or designee shall develop a process for informing parents/guardians of the availability of financial assistance and a method to process financial requests.

Prevention of and Response to Bullying, Intimidation, and Harassment

Bullying, intimidation, and harassment diminish a student’s ability to learn and a school’s ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the School District or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This paragraph (item #4) applies only when a school administrator or teacher receives a report that bullying through this means has occurred; it does not require staff members to monitor any nonschool-related activity, function, or program.

Definitions from Section 27-23.7 of the School Code (105 ILCS 5/27-23.7)

Bullying includes cyberbullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student’s or students’ person or property;
2. Causing a substantially detrimental effect on the student’s or students’ physical or mental health;
3. Substantially interfering with the student’s or students’ academic performance; or
4. Substantially interfering with the student’s or students’ ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-
electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Restorative measures means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

School personnel means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District's goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the requirements listed below; each numbered requirement, 1-12, corresponds with the same number in the list of required policy components in 105 ILCS 5/27-23.7(b) 1-12.

1. The District uses the definition of bullying as provided in this policy.

2. Bullying is contrary to State law and the policy of this District. However, nothing in the District's bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.

3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, a Complaint Manager, or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. The District named officials and all staff members are available for help with a bully or to make a report about bullying. Anonymous reports are also accepted.
Consistent with federal and State laws and rules governing student privacy rights, the Superintendent or designee shall promptly inform the parent(s)/guardian(s) of every student involved in an alleged incident of bullying and discuss, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.

5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:
   a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of a bullying incident was received and taking into consideration additional relevant information received during the course of the investigation about the reported bullying incident.
   b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
   c. Notifying the Building Principal or school administrator or designee of the reported incident of bullying as soon as possible after the report is received.
   d. Consistent with federal and State laws and rules governing student privacy rights, providing parents/guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the Building Principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

The Superintendent or designee shall investigate whether a reported incident of bullying is within the permissible scope of the District’s jurisdiction and shall require that the District
provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Superintendent or designee shall use interventions to address bullying, that may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.

7. A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student’s act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

8. A student will not be punished for reporting bullying or supplying information, even if the District’s investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

9. The District’s bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.

10. The Superintendent or designee shall post this policy on the District’s website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must be distributed annually to parents/guardians, students, and school personnel (including new employees when hired), and must also be provided periodically throughout the school year to students and faculty.

11. The Superintendent or designee shall assist the Board with its evaluation and assessment of this policy’s outcomes and effectiveness. This process shall include, without limitation:
   a. The frequency of victimization;
   b. Student, staff, and family observations of safety at a school;
   c. Identification of areas of a school where bullying occurs;
   d. The types of bullying utilized; and
   e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. The Superintendent or designee must post the information developed as a result of the policy evaluation on the District’s website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students.

12. The Superintendent or designee shall fully implement the Board policies, including without limitation, the following:
   a. 2:260, Uniform Grievance Procedure. A student may use this policy to complain about bullying.
   b. 6:60, Curriculum Content. Bullying prevention and character instruction is provided in all grades in accordance with State law.
   c. 6:65, Student Social and Emotional Development. Student social and emotional development is incorporated into the District’s educational program as required by State law.
   d. 6:235, Access to Electronic Networks. This policy states that the use of the District’s electronic networks is limited to: (1) support of education and/or research, or (2) a legitimate business use.
e. **7:20, Harassment of Students Prohibited.** This policy prohibits any person from harassing, intimidating, or bullying a student based on an identified actual or perceived characteristic (the list of characteristics in 7:20 is the same as the list in this policy).

f. **7:185, Teen Dating Violence Prohibited.** This policy prohibits teen dating violence on school property, at school sponsored activities, and in vehicles used for school-provided transportation.

g. **7:190, Student Behavior.** This policy prohibits, and provides consequences for, hazing, bullying, or other aggressive behaviors, or urging other students to engage in such conduct.

h. **7:310, Restrictions on Publications; Elementary Schools.** This policy prohibits students from and provides consequences for: (1) accessing and/or distributing at school any written, printed, or electronic material, including material from the Internet, that will cause substantial disruption of the proper and orderly operation and discipline of the school or school activities, and (2) creating and/or distributing written, printed, or electronic material, including photographic material and blogs, that causes substantial disruption to school operations or interferes with the rights of other students or staff members.

The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board’s authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student’s parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

**Disciplinary Measures**

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. 8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, Bus Conduct.

13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), look-alikes, alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than two calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).

2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including look-alikes of any firearm as defined above.

The expulsion requirement under either paragraph one or two above may be modified by the Superintendent, and the Superintendent’s determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.
This policy’s prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

Re-Engagement of Returning Students
The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student’s ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Required Notices
A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, Ill. Dept. of State Police (ISP), and any involved student's parent/guardian. 

School grounds includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

Delegation of Authority
Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Building Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to ten consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of ten school days for safety reasons.

Student Handbook
The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District’s disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students’ parents/guardians within 15 days of the beginning of the school year or a student’s enrollment.

Suspension Procedures

In-School Suspension

The Superintendent or designee is authorized to maintain an in-school suspension program. The program shall include, at a minimum, each of the following:

1. Before assigning a student to in-school suspension, the charges will be explained and the student will be given an opportunity to respond to the charges.
2. Students are supervised by licensed school personnel.
3. Students are given the opportunity to complete classroom work during the in-school suspension for equivalent academic credit.

Out-of-School Suspension

The Superintendent or designee shall implement suspension procedures that provide, at a minimum, for each of the following:

1. A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.
2. A pre-suspension conference is not required, and the student can be immediately suspended when the student’s presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. An attempted phone call to the student’s parent(s)/guardian(s).
4. A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:
   a. Provide notice to the parent(s)/guardian(s) of their child’s right to a review of the suspension;
   b. Include information about an opportunity to make up work missed during the suspension for equivalent academic credit;
   c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;
   d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
   e. Depending upon the length of the out-of-school suspension, include the following applicable information:
      i. For a suspension of 3 school days or less, an explanation that the student’s continuing presence in school would either pose:
         a) A threat to school safety, or
         b) A disruption to other students’ learning opportunities.
      ii. For a suspension of 4 or more school days, an explanation:
a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student, and
c) That the student’s continuing presence in school would either:
   i) Pose a threat to the safety of other students, staff, or members of the school community, or
   ii) Substantially disrupt, impede, or interfere with the operation of the school.
iii. For a suspension of 5 or more school days, the information listed in section 4.e.ii., above, along with documentation by the Superintendent or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.

5. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Superintendent or designee.

6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student’s parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from the Department of Human Services to consult with the Board. After presentation of the evidence or receipt of the hearing officer’s report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the Board’s written suspension decision shall specifically detail items (a) and (e) in number 4, above.

This policy becomes effective and replaces the current policy on *Expulsion Procedures* on the first student attendance day of the 2016-2017 school year.

**Expulsion Procedures**

The Superintendent or designee shall implement expulsion procedures that provide, at a minimum, for the following:

1. Before a student may be expelled, the student and his or her parent(s)/guardian(s) shall be provided a written request to appear at a hearing to determine whether the student should be expelled. The request shall be sent by registered or certified mail, return receipt requested. The request shall:
   a. Include the time, date, and place for the hearing.
   b. Briefly describe what will happen during the hearing.
   c. Detail the specific act of gross disobedience or misconduct resulting in the decision to recommend expulsion.
   d. List the student’s prior suspension(s).
   e. State that the School Code allows the School Board to expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis.
   f. Ask that the student or parent(s)/guardian(s) or attorney inform the Superintendent or Board Attorney if the student will be represented by an attorney and, if so, the attorney’s name and contact information.

2. Unless the student and parent(s)/guardian(s) indicate that they do not want a hearing or fail to appear at the designated time and place, the hearing will proceed. It shall be conducted by the Board or a hearing officer appointed by it. If a hearing officer is appointed, he or she shall report to the Board the evidence presented at the hearing and the Board shall take such final action as it finds appropriate. Whenever there is evidence that mental illness may be the cause for the recommended expulsion, the Superintendent or designee shall invite a representative from the Dept. of Human Services to consult with the Board.

3. During the expulsion hearing, the Board or hearing officer shall hear evidence concerning whether the student is guilty of the gross disobedience or misconduct as charged. School officials must provide: (1) testimony of any other interventions attempted and exhausted or of their determination that no other appropriate and available interventions were available for the student, and (2) evidence of the threat or disruption posed by the student. The student and his or her parent(s)/guardian(s) may be represented by counsel, offer evidence, present witnesses, cross-examine witnesses who testified, and otherwise present reasons why the student should not be expelled. After presentation of the evidence or receipt of the hearing officer’s report, the Board shall decide the issue of guilt and take such action as it finds appropriate.
4. If the Board acts to expel the student, its written expulsion decision shall:
   a. Detail the specific reason why removing the student from his or her learning environment is in the best interest of the school.
   b. Provide a rationale for the specific duration of the recommended expulsion.
   c. Document how school officials determined that all behavioral and disciplinary interventions have been exhausted by specifying which interventions were attempted or whether school officials determined that no other appropriate and available interventions existed for the student.
   d. Document how the student’s continuing presence in school would (1) pose a threat to the safety of other students, staff, or members of the school community, or (2) substantially disrupt, impede, or interfere with the operation of the school.

5. Upon expulsion, the District may refer the student to appropriate and available support services.

Bus Conduct

All students must follow the District’s School Bus Safety Rules.

School Bus Suspensions

The Superintendent, or any designee as permitted in the School Code, is authorized to suspend a student from riding the school bus for up to 10 consecutive school days for engaging in gross disobedience or misconduct, including but not limited to, the following:

1. Prohibited student conduct as defined in School Board policy, 7:190, Student Behavior.
2. Willful injury or threat of injury to a bus driver or to another rider.
3. Willful and/or repeated defacement of the bus.
4. Repeated use of profanity.
5. Repeated willful disobedience of a directive from a bus driver or other supervisor.
6. Such other behavior as the Superintendent or designee deems to threaten the safe operation of the bus and/or its occupants.

If a student is suspended from riding the bus for gross disobedience or misconduct on a bus, the School Board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The District’s regular suspension procedures shall be used to suspend a student’s privilege to ride a school bus.

Academic Credit for Missed Classes During School Bus Suspension

A student suspended from riding the bus who does not have alternate transportation to school shall have the opportunity to complete or make up work for equivalent academic credit. It shall be the responsibility of the student’s parent or guardian to notify the school that the student does not have alternate transportation.

Electronic Recordings on School Buses

Electronic visual and audio recordings may be used on school buses to monitor conduct and to promote and maintain a safe environment for students and employees when transportation is provided for any school related activity. Notice of electronic recordings shall be displayed on the exterior of the vehicle’s entrance door and front interior bulkhead in compliance with State law and the rules of the Illinois Department of Transportation, Division of Traffic Safety.

Students are prohibited from tampering with electronic recording devices. Students who violate this policy shall be disciplined in accordance with the Board’s discipline policy and shall reimburse the School District for any necessary repairs or replacement.

Behavioral Interventions

Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The School Board will establish and maintain a committee to develop, implement, and monitor procedures on the use of behavioral interventions for children with disabilities.

Discipline of Special Education Students

The District shall comply with the Individuals With Disabilities Education Improvement Act of 2004 and the Illinois State Board of Education’s Special Education rules when disciplining special education students. No special education student shall be expelled if the student’s particular act of gross disobedience or misconduct is a manifestation of his or her disability.

Conduct Code for Participants in Extracurricular Activities

The Superintendent or designee, using input from coaches and sponsors of extracurricular activities, shall develop a conduct code for all participants in extracurricular activities consistent with School Board policy. The conduct code shall: (1) require participants in extracurricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on or off school property; (2) emphasize that hazing and bullying activities are strictly prohibited; and (3) notify participants that failure to abide by it could result in removal from the activity. The conduct code shall be reviewed by the Building Principal periodically at his or her discretion and presented to the Board.

Participants in extracurricular activities must abide by the conduct code for the activity and Board policy 7:190, Student Behavior. All coaches and sponsors of extracurricular activities shall annually review the conduct code with participants and provide participants with a copy. In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

Extracurricular Drug and Alcohol Testing Program

The District maintains an extracurricular drug and alcohol testing program in order to foster the health, safety, and welfare of its students. Participation in extracurricular activities is a privilege and participants need to be exemplars. The program promotes healthy and drug-free participation.

Each student and his or her parent(s)/guardian(s) must consent to having the student submit to random drug and alcohol testing in order to participate in any extracurricular activity. Failure to sign the District’s “Random Drug and Alcohol Testing Consent” form will result in non-participation.

If a test is positive, the student will not participate in extracurricular activities until after a follow-up test is requested by the Building Principal or designee and the results are reported. The Building Principal or designee will request a follow-up test after such an interval of time that the substance previously found would normally be eliminated from the body. If this follow-up test is negative, the student will be allowed to resume extracurricular activities. If a positive result is obtained from the follow-up test, or any later test, the same previous procedure shall be followed.

The Superintendent or designee shall develop procedures to implement this policy. No student shall be expelled or suspended from school as a result of any verified positive test conducted under this program other than when independent reasonable suspicion of drug and/or alcohol usage exists. This program does not affect the District policies, practices, or rights to search or test any student who at the time exhibits cause for reasonable suspicion of drug and/or alcohol use.

Performance Enhancing Drug Testing of High School Student Athletes

The Illinois High School Association (IHSA) prohibits participants in an athletic activity sponsored or sanctioned by IHSA from ingesting or otherwise using any performance enhancing substance on its banned substance list, without a written prescription and medical documentation provided by a licensed physician who evaluated the student-athlete for a legitimate medical condition. IHSA
administers a performance-enhancing substance testing program. Under this program, student athletes are subject to random drug testing for the presence in their bodies of performance-enhancing substances on the IHSA’s banned substance list. In addition to being penalized by IHSA, a student may be disciplined according to Board policy 7:190, Student Behavior.

Student Support Services

The following student support services may be provided by the School District:

1. Health services supervised by a qualified school nurse. The Superintendent or designee may implement procedures to further a healthy school environment and prevent or reduce the spread of disease.

2. Educational and psychological testing services and the services of a school psychologist as needed. In all cases, written permission to administer a psychological examination must be obtained from a student’s parent(s)/guardian(s). The results will be given to the parent(s)/guardian(s), with interpretation, as well as to the appropriate professional staff.

3. The services of a school social worker. A student’s parent/guardian must consent to regular or continuing services from a social worker.

4. Guidance and school counseling services.

5. A liaison to facilitate the enrollment and transfer of records of students in the legal custody of the Illinois Department of Children and Family Services when enrolling in or changing schools.

The Superintendent or designee shall develop protocols for responding to students with social, emotional, or mental health needs that impact learning ability. The District, however, assumes no liability for preventing, identifying, or treating such needs.

This policy shall be implemented in a manner consistent with State and federal laws, including the Individuals with Disabilities Education Act, 42 U.S.C. §12101 et seq.

Exemption from Physical Education

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request.

Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practice Act, prevents his or her participation in the physical education course.

State law prohibits the Board from honoring parental excuses based upon a student’s participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student’s participation as required by the Superintendent or designee.

A student requiring adapted physical education must receive that service in accordance with his or her Individualized Educational Program/Plan (IEP).

A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated in 6:310, High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students.

Students in grades 7 and 8 may submit a written request to the Building Principal to be excused from physical education courses because of his or her ongoing participation in an interscholastic or extracurricular athletic program. The Building Principal will evaluate requests on a case-by-case basis.

The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student’s individual circumstances, as appropriate.

Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to a physical education course:

1. The time of year when the student’s participation ceases;
2. The student’s class schedule; and
3. The student’s future or planned additional participation in activities qualifying for substitutions for physical education as outlined in policy 6:310, *High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students*.

**Administering Medicines to Students**

Students should not take medication during school hours or during school-related activities unless it is necessary for a student’s health and well-being. When a student’s licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District’s procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student’s self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student’s parent/guardian. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parent(s)/guardian(s) of students.

**Self-Administration of Medication**

A student may possess an epinephrine injector, e.g., EpiPen®, and/or asthma medication prescribed for use at the student’s discretion, provided the student’s parent/guardian has completed and signed a School Medication Authorization Form. The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student’s self-administration of medication or epinephrine injector or the storage of any medication by school personnel. A student’s parent/guardian must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student’s self-administration of an epinephrine injector and/or medication, or the storage of any medication by school personnel.

**School District Supply of Undesignated Asthma Medication**

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated asthma medication in the name of the District and provide or administer them as necessary according to State law. Undesignated asthma medication means an asthma medication prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated asthma medication to a person when they, in good faith, believe a person is having respiratory distress. Respiratory distress may be characterized as mild-to-moderate or severe. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.
School District Supply of Undesignated Epinephrine Injectors

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated epinephrine injectors in the name of the District and provide or administer them as necessary according to State law. Undesignated epinephrine injector means an epinephrine injector prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine injector to a person when they, in good faith, believe a person is having an anaphylactic reaction. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

School District Supply of Undesignated Opioid Antagonists

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated opioid antagonists in the name of the District and provide or administer them as necessary according to State law. Opioid antagonist means a drug that binds to opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration. Undesignated opioid antagonist is not defined by the School Code; for purposes of this policy it means an opioid antagonist prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated opioid antagonist to a person when they, in good faith, believe a person is having an opioid overdose. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law. See the website for the Ill. Dept. of Human Services for information about opioid prevention, abuse, public awareness, and a toll-free number to provide information and referral services for persons with questions concerning substance abuse treatment.

Designated Caregiver Administration of Medical Cannabis

The Compassionate Use of Medical Cannabis Pilot Program Act allows a parent/guardian of a student who is a minor to register with the Ill. Dept. of Public Health (IDPH) as a designated caregiver to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student’s parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a medical cannabis infused product to a child who is a student on the premises of his or her school or on his or her school bus if:

1. Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
2. Copies of the registry identification cards are provided to the District; and
3. That student’s parent/guardian completed, signed, and submitted a School Medication Authorization Form - Medical Cannabis.

Medical cannabis infused product (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited.

After administering the product to the student, the designated caregiver shall immediately remove it from school premises or the school bus. The product may not be administered in a manner that, in the opinion of the District or school, would create a disruption to the educational environment or
cause exposure of the product to other students. A school employee shall not be required to administer the product.

Discipline of a student for being administered a product by a designated caregiver pursuant to this policy is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

**Void Policy**

The *School District Supply of Undesignated Asthma Medication* section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated asthma medication from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District’s prescription for undesignated school asthma medication.

The *School District Supply of Undesignated Epinephrine Injectors* section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District’s prescription for undesignated school epinephrine injectors.

The *School District Supply of Undesignated Opioid Antagonists* section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for opioid antagonists from a health care professional who has been delegated prescriptive authority for opioid antagonists in accordance with Section 5-23 of the Substance Use Disorder Act, or (2) fill the District’s prescription for undesignated school opioid antagonists.

Food Allergy Management Program

School attendance may increase a student’s risk of exposure to allergens that could trigger a food-allergic reaction. A food allergy is an adverse reaction to a food protein mediated by the immune system which immediately reacts causing the release of histamine and other inflammatory chemicals and mediators. While it is not possible for the District to completely eliminate the risks of exposure to allergens when a student is at school, a Food Allergy Management Program using a cooperative effort among students’ families, staff members, and students helps the District reduce these risks and provide accommodations and proper treatment for allergic reactions.

The Superintendent or designee shall develop and implement a Food Allergy Management Program that:

1. Fully implements the following goals established in the School Code: (a) identifying students with food allergies, (b) preventing exposure to known allergens, (c) responding to allergic reactions with prompt recognition of symptoms and treatment, and (d) educating and training all staff about management of students with food allergies, including administration of medication with an auto-injector, and providing an in-service training program for staff who work with students that is conducted by a person with expertise in anaphylactic reactions and management.

3. Complies with State and federal law and is in alignment with Board policies.

The Board will review and update this policy pursuant to *Ann Marie’s Law* and Board policy 2:240, *Board Policy Development*.

**Information to Staff, Parents/Guardians, and Students**

The Superintendent shall inform each school district employee about this policy and ensure its posting on the District’s website. The Superintendent or designee shall provide a copy of this policy to the parent or legal guardian of each student enrolled in the District.

However, the District will comply with an ex parte court order requiring it to permit the U.S. Attorney General or designee to have access to a student’s school records without notice to, or the consent of, the student’s parent/guardian. Upon request, the District discloses school student records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law.

The Superintendent shall fully implement this policy and designate an official records custodian for each school who shall maintain and protect the confidentiality of school student records, inform staff members of this policy, and inform students and their parents/guardians of their rights regarding school student records.

**Student Biometric Information Collection**

The Superintendent or designee may recommend a student biometric information collection system solely for the purposes of identification and fraud prevention. Such recommendation shall be consistent with budget requirements and in compliance with State law. Biometric information means any information that is collected through an identification process for individuals based on their unique behavioral or physiological characteristics, including fingerprint, hand geometry, voice, or facial recognition or iris or retinal scans.
Before collecting student biometric information, the District shall obtain written permission from the person having legal custody/parental responsibility or the student (if over the age of 18). Upon a student’s 18th birthday, the District shall obtain written permission from the student to collect student biometric information. Failure to provide written consent to collect biometric information shall not be the basis for refusal of any services otherwise available to a student.

All collected biometric information shall be stored and transmitted in a manner that protects it from disclosure. Sale, lease, or other disclosure of biometric information to another person or entity is strictly prohibited.

The District will discontinue use of a student’s biometric information and destroy all collected biometric information within 30 days after: (1) the student graduates or withdraws from the School District, or (2) the District receives a written request to discontinue use of biometric information from the person having legal custody/parental responsibility of the student or the student (if over the age of 18). Requests to discontinue using a student’s biometric information shall be forwarded to the Superintendent or designee.

The Superintendent or designee shall develop procedures to implement this policy consistent with State and federal law.

Accommodating Individuals with Disabilities

Individuals with disabilities shall be provided an opportunity to participate in all school-sponsored services, programs, or activities and will not be subject to illegal discrimination. When appropriate, the District may provide to persons with disabilities aids, benefits, or services that are separate or different from, but as effective as, those provided to others.

The District will provide auxiliary aids and services when necessary to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of a service, program, or activity. Each service, program, website, or activity operated in existing facilities shall be readily accessible to, and useable by, individuals with disabilities. New construction and alterations to facilities existing before January 26, 1992, will be accessible when viewed in their entirety.

The Superintendent or designee is designated the Title II Coordinator and shall:

1. Oversee the District’s compliance efforts, recommend necessary modifications to the School Board, and maintain the District’s final Title II self-evaluation document, update it to the extent necessary, and keep it available for public inspection for at least three years after its completion date.

Individuals with disabilities should notify the Superintendent or Building Principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

Individuals with disabilities may allege a violation of this policy or federal law by reporting it to the Superintendent or designated Title II Coordinator, or by filing a grievance under the Uniform Grievance Procedure.

Gifts to the District

The School Board appreciates gifts from any education foundation, other entities, or individuals. All gifts must adhere to each of the following:

1. Be accepted by the Board or, if less than $10,000.00 in value, the Superintendent or designee. Individuals should obtain a pre-acceptance commitment before identifying the District, any school, or school program or activity as a beneficiary in any fundraising attempt, including without limitation, any Internet fundraising attempt.

2. Be given without a stated purpose or with a purpose deemed by the party with authority to accept the gift to be compatible with the Board’s educational objectives and policies.

3. Be consistent with the District’s mandate to provide equal educational and extracurricular opportunities to all students in the District as provided in Board policy 7:10, Equal Educational Opportunities. State and federal laws require the District to provide equal treatment for members of both sexes to educational programming, extracurricular activities, and athletics. This includes the distribution of athletic benefits and opportunities.

4. Permit the District to maintain resource equity among its learning centers.

5. Be viewpoint neutral.

6. Comply with all laws applicable to the District including, without limitation, the Americans with Disabilities Act, the Prevailing Wage Act, the Health/Life Safety Code for Public Schools, and all applicable procurement and bidding requirements.

The District will provide equal treatment to all individuals and entities seeking to donate money or a gift. Upon acceptance, all gifts become the District’s property. The acceptance of a gift is not an endorsement by the Board, District, or school of any product, service, activity, or program. The method of recognition is determined by the party accepting the gift.

Parent Organizations and Booster Clubs

Parent organizations and booster clubs are invaluable resources to the District’s schools. While parent organizations and booster clubs have no administrative authority and cannot determine District policy, the School Board welcomes their suggestions and assistance.

Parent organizations and booster clubs may be recognized by the Board and permitted to use the District’s name, a District school’s name, or a District school’s team name, or any logo attributable to the District provided they first receive the Superintendent or designee’s express written consent. Consent to use one of the above-mentioned names or logos will generally be granted if the organization or club has by-laws containing the following:

1. The organization’s or club’s name and purpose, such as, to enhance students’ educational experiences, to help meet educational needs of students, to provide extra athletic benefits to students, to assist specific sports teams or academic clubs through financial support, or to enrich extracurricular activities.
2. The rules and procedures under which it operates.
3. An agreement to adhere to all Board policies and administrative procedures.
4. A statement that membership is open and unrestricted, meaning that membership is open to all parent(s)/guardian(s) of students enrolled in the school, District staff, and community members.
5. A statement that the District is not, and will not be, responsible for the organization’s or club’s business or the conduct of its members.
6. An agreement to maintain and protect its own finances.
7. A recognition that money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable consideration must be given to the District to use at its discretion. The Board’s legal obligation to comply with Title IX by providing equal athletic opportunity for members of both genders will supersede an organization or club’s recommendation.

Permission to use one of the above-mentioned names or logos may be rescinded at any time and does not constitute permission to act as the District’s representative. At no time does the District accept responsibility for the actions of any parent organization or booster club regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as the recognized liaison to parent organizations or booster clubs. The liaison will serve as a resource person and provide information about school programs, resources, policies, problems, concerns, and emerging issues. Building staff will be encouraged to participate in the organizations.
