

Silex R-1 School District

Student Technology Acceptable use Policy

The Silex R-1 School District Technology Usage policy and procedure is EHB which is available on the district website or by request. The student agrees to follow all aspects of this policy each time he/she logs onto any computer in the district. Parents and guardians must decide whether to allow Internet/computer access for their child. All students of the Silex R-1 district will be granted the right to have network/Internet privileges. **Any parents not wishing their child to have this privilege should specifically request in writing that their child be denied this privilege.**

Access to the Internet and the network is considered a privilege. Remember that communication over networks should not be considered private. Maintenance and supervision of the network will sometimes require review and inspection of directories. General school rules apply for behavior on the Internet. Students should report to their teacher or other staff members if they access information that could be deemed inappropriate. The guidelines are provided to make you aware of your responsibilities. Anyone found using access in a way deemed inappropriate will be denied privileges. (See Penalty in discipline section of handbook)

I, _____ agree to follow all the terms of the student handbook and telecommunications student handbook. Failure to follow any rule will result in disciplinary action taken against me as described in the student handbook.
