Notes – April 2019

Revenue

1.01 General Property (Real Estate): The final property tax payment for the fiscal year was received in March. The forecast was on target. Actual taxes received minimally exceeded projections by 0.1% for FY19.

1.035 Unrestricted Grants-In-Aid: We continue to exceed projections in the state foundation funding line. The budget vs. actual variance slightly decreased from 2.8% in March to 2.2% in April. Enrollment of resident students was projected to decline in FY19 based on historical trend. However, our average daily membership (ADM) has increased by 10.

1.05 Property Tax Allocation: The final FY19 property tax Homestead and Rollback revenue was received from the State in March. This is the main reason for total revenue of all sources exceeding projections as of April. However, revenue received in this line is 0.25% less than the amount projected for FY19.

1.06 All Other Operating Revenue: Interest earnings is the main reason revenue is exceeding projections in this line. Also on this line, we continue to see a decrease in open enrollment revenue. In the elementary school, resident student enrollment increased along with a decrease in open enrolled students. Projections are updated in the May forecast.

2.06 All Other Financing Sources: Revenue continues to exceed projections because of the large Medicaid reimbursement received earlier in the fiscal year.

Expenditures

3.01 Personal Services: Expenditures continue to trend less than projections. The budget vs. actual variance is 2.8%. We are on track to spend very close to projections for the fiscal year.

3.02 Employee's Retirement/Insurance Benefits: The budget vs. actual variance remained stable from March to April at 0.8% under budget. We are close to the projected expenditure on this line.

3.03 Purchased Services: Purchased services expenditures were 7.2% less than projected for April, compared to an 8.3% variance in March. We continue to see significant decreases in spending for students who attend community schools.
