1:10 School District Legal Status

The Illinois Constitution requires the State to provide for an efficient system of high-quality public educational institutions and services in order to achieve the educational development of all persons to the limits of their capabilities.

The General Assembly has implemented this mandate through the creation of school districts. The District is governed by the laws for school districts serving a resident population of not fewer than 1,000 and not more than 500,000.

The School Board constitutes a body corporate that possesses all the usual powers of a corporation for public purposes, and in that name may sue and be sued, purchase, hold and sell personal property and real estate, and enter into such obligations as are authorized by law.

"Excellence through Rigor, Relevance, & Relationships"

Rigor
PBL is dedicated to providing a rigorous curriculum, coherent across grade levels, where students learn, think, comprehend, and communicate analytically.

Due to a rigorous curriculum:
- I can achieve anything by giving maximum effort, using my academic skills to think critically, to solve problems, and to communicate with others.

Relevance
Relevance is reinforced at PBL by making curricular connections between learning objectives and real-life experiences. Students will prepare for adult roles by learning and applying fundamental skills and competencies.

My educational experiences are relevant to me because:
- I can be a self-motivated, life-long learner.
- I can be accountable to myself and others.
- I can plan for the future by adapting easily to change and managing new technologies and information.

Relationships
Positive relationships are the foundation for all learning experiences at PBL. Students, staff, parents and community members will collaborate to create and foster a safe environment where respect for others and tolerance of individual differences are modeled and expected at all times.

To build positive relationships:
- I can be tolerant and accepting of individual differences.
- I can demonstrate responsibility through good decision making.
- I can display good citizenship by representing myself, my school, my community, and my country with pride.
- I can achieve my goals through self-motivation and by encouraging and working with others.

Mission Statement
It is the mission of PBL Unit No. 10 School District to prepare each student to be a successful citizen as demonstrated through strong character, responsible actions, and a passion for lifelong learning. PBL students will be empowered with the skills that allow them to read with comprehension, communicate clearly, utilize technology, think critically, work effectively with others, and use information to solve problems. PBL is committed to a systematic approach of support and intervention to assist each individual in reaching his or her full potential. We are dedicated to providing a safe environment while fostering a climate of high expectations for our students, staff, and the communities we serve.

School District Elections

School District elections are non-partisan, governed by the general election laws of the State, and include the election of School Board members, various public policy propositions, and advisory questions. Board members are elected at the consolidated election held on the first Tuesday in April in odd-numbered years. If, however, that date conflicts with the celebration of Passover, the consolidated election is postponed to the first Tuesday following the last day of Passover. The canvass of votes is conducted by the election authority within 21 days after the election.

The Board, by proper resolution, may cause to be placed on the ballot: (a) public policy referendum according to Article 28 of the Election Code, or (b) advisory questions of public policy according to Section 9-1.5 of the School Code.

The Board Secretary serves as the local election official. He or she receives petitions for the submission of a public question to referenda and forwards them to the proper election officer and otherwise provides information to the community concerning District elections.

Prohibited Political Activity

The following precepts govern political activities being conducted by District employees and School Board members:

1. No employee shall intentionally perform any "political activity" during any "compensated time," as those terms are defined herein.
2. No Board member or employee shall intentionally use any District property or resources in connection with any political activity.
3. At no time shall any Board member or employee intentionally require any other Board member or employee to perform any political activity: (a) as part of that Board member's or employee's duties, (b) as a condition of employment, or (c) during any compensated time off, such as, holidays, vacation, or personal time off.
4. No Board member or employee shall be required at any time to participate in any political activity in consideration for that Board member or employee being awarded additional compensation or any benefit, whether in the form of a salary adjustment, bonus, compensatory time off, continued employment or otherwise; nor shall any Board member or employee be awarded additional compensation or any benefit in consideration for his or her participation in any political activity.

A Board member or employee may engage in any activity that: (1) is otherwise appropriate as part of his or her official duties, or (2) is undertaken by the individual on a voluntary basis that is not prohibited by this policy.

Limitations on Receiving Gifts

Except as permitted by this policy, no Board member or employee, and no spouse of or immediate family member living with a Board member or employee shall intentionally solicit or accept any "gift" from any "prohibited source," as those terms are defined herein, or that is otherwise prohibited by law or policy. No prohibited source shall intentionally offer or make a gift that violates this policy.

The following are exceptions to the ban on accepting gifts from a prohibited source:

1. Opportunities, benefits, and services that are available on the same conditions as for the general public.
2. Anything for which the Board member or employee, or his or her spouse or immediate family member, pays the fair market value.
3. Any: (a) contribution that is lawfully made under the Election Code, or (b) activities associated with a fundraising event in support of a political organization or candidate.
4. Educational materials and missions.
5. Travel expenses for a meeting to discuss business.
6. A gift from a relative, meaning those people related to the individual as father, mother, son, daughter, brother, sister, uncle, aunt, great aunt, great uncle, first cousin, nephew, niece, husband, wife, grandfather, grandmother, grandson, granddaughter, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, half sister, and including the father, mother, grandfather, or grandmother of the individual's spouse and the individual's fiancé or fiancée.
7. Anything provided by an individual on the basis of a personal friendship unless the recipient has reason to believe that, under the circumstances, the gift was provided because of the official position or employment of the recipient or his or her spouse or immediate family member and not because of the personal friendship. In determining whether a gift is provided on the basis of personal friendship, the recipient shall consider the circumstances under which the gift was offered, such as: (a) the history of the relationship between the individual giving the gift and the recipient of the gift, including any previous exchange of gifts between those individuals; (b) whether to the actual knowledge of the recipient the individual who gave the gift personally paid for the gift or sought a tax deduction or business reimbursement for the gift; and (c) whether to the actual knowledge of the recipient the individual who gave the gift also at the same time gave the same or similar gifts to other Board members or employees, or their spouses or immediate family members.
8. Food or refreshments not exceeding $75 per person in value on a single calendar day; provided that the food or refreshments are: (a) consumed on the premises from which they were purchased or prepared; or (b) catered. "Catered" means food or refreshments that are purchased ready to consume which are delivered by any means.
9. Food, refreshments, lodging, transportation, and other benefits resulting from outside business or employment activities (or outside activities that are not connected to the official duties of a Board member or employee), if the benefits have not been offered or enhanced because of the official position or employment of the Board member or employee, and are customarily provided to others in similar circumstances.
10. Intra-governmental and inter-governmental gifts. "Intra-governmental gift" means any gift given to a Board member or employee from another Board member or employee, and "inter-governmental gift" means any gift given to a Board member or employee from an officer or employee of another governmental entity.
11. Bequests, inheritances, and other transfers at death.
12. Any item or items from any one prohibited source during any calendar year having a cumulative total value of less than $100.

Each of the listed exceptions is mutually exclusive and independent of every other.

A Board member or employee, his or her spouse or an immediate family member living with the Board member or employee, does not violate this policy if the recipient promptly takes reasonable action to return a gift from a prohibited source to its source or gives the gift or an amount equal to its value to an appropriate charity that is exempt from income taxation under Section 501(c)(3) of the Internal Revenue Code.

Enforcement
The Board President and Superintendent shall seek guidance from the Board attorney concerning compliance with and enforcement of this policy and State ethics laws. The Board may, as necessary or prudent, appoint an Ethics Advisor for this task.

Written complaints alleging a violation of this policy shall be filed with the Superintendent or Board President. If attempts to correct any misunderstanding or problem do not resolve the matter, the Superintendent or Board President shall, after consulting with the Board attorney, either place the alleged violation on a Board meeting agenda for the Board's disposition or refer the complainant to Board policy 2:260, Uniform Grievance Procedure. A Board member who is related, either by blood or by marriage, up to the degree of first cousin, to the person who is the subject of the complaint, shall not participate in any decision-making capacity for the Board. If the Board finds it more likely than not that the allegations in a complaint are true, it shall notify the State's Attorney and/or consider disciplinary action for the employee.

The Open Meetings Act (OMA) requires the School Board to discuss District business only at a properly noticed Board meeting. Other than during a Board meeting, a majority or more of a Board-quorum may not engage in contemporaneous interactive communication, whether in person or electronically, to discuss District business. This Guide assumes a Board has seven members and covers issues arising from Board policy 2:140, Communications To and From the Board.

Communications Between or Among Board Members and/or the Superintendent Outside of a Properly Noticed Board Meeting

1. The Superintendent or designee is permitted to email information to Board members. For example, the Superintendent may email Board meeting agendas and supporting information to Board members. When responding to a single Board member’s request, the Superintendent should copy all other Board members and include a do not reply/forward alert to the group, such as: “BOARD MEMBER ALERT: This email is in response to a request. Do not reply or forward to the group but only to the sender.”

2. Board members are permitted to discuss any matter except District business with each other, whether in person or by telephone or email, regardless of the number of members participating in the discussion. For example, they may discuss league sports, work, or current events.

3. Board members are permitted to provide information to each other, whether in person or by telephone or email, that is non-deliberative and non-substantive. Examples of this type of communication include scheduling meetings and confirming receipt of information.

4. A Board member is not permitted to discuss District business with more than one other Board member at a time, whether in person or by telephone or email. Stated another way, a Board member may discuss District business in person or by telephone or email with only one other Board member at a time. However, a Board member should not facilitate interactive communication by discussing District business in a series of visits with, or telephone calls or emails to, Board members individually.

5. A Board member should include a do not reply/forward alert when emailing a message concerning District business to more than one other Board member. The following is an example of such an alert: “BOARD MEMBER ALERT: This email is not for interactive discussion purposes. The recipient should not reply to it or forward it to any other individual.”

6. Board members should not forward email received from another Board member.

When Must the Electronic Communications Sent or Received by Individual Board Members Be Disclosed Pursuant to a Freedom of Information Act (FOIA) Request?

An electronic communication must be disclosed if it is a public record as defined by FOIA, unless a specific exemption applies. A public record is any recorded information "pertaining to the transaction of public business, regardless of physical form or characteristics, having been prepared by or for, or having been or being used by, received by, in the possession of, or under the control of any public body." 5 ILCS 140/2. Email sent or received by an individual Board member may be, depending on the content and circumstances, subject to disclosure as a public record (unless a FOIA exemption is applicable).

If a Board member uses a District-provided device or email address to discuss public business, the email is subject to disclosure under FOIA, barring an applicable exemption. If a Board member uses a private device and email address, the communication is subject to FOIA if it satisfies this test:

First, the communication pertains to the transaction of public business, and

Second, the communication was: (1) prepared by a public body, (2) prepared for a public body, (3) used by a public body, (4) received by a public body, (5) possessed by a public body, and/or (6) controlled by a public body.

This test is from the appellate court decision in City of Champaign v. Madigan, 992 N.E.2d 629 (Ill.App.4th 2013).

The following examples describe FOIA’s treatment of electronic communications:

1. If an electronic communication does not pertain to public business, it is not a public record and is not subject to a FOIA request.

2. An electronic communication pertaining to public business that is:

   a. Sent and/or received by an individual Board member using a personal electronic device and personal email address while he or she is at home or work would not be a public record. Individual Board members, alone, cannot conduct school District business. As stated earlier, emails among a majority or more of a Board-quorum violate OMA and, thus, are subject to disclosure during proceedings to enforce OMA.

   b. Sent and/or received by an individual Board member on a District-issued device or District-issued email address will be a public record and subject to FOIA. The electronic communication is under the control of the District.

   c. Received by an individual Board member on a personal electronic device and then forwarded by the Board member to a District-owned device or server will be a public record and subject to FOIA. The electronic communication is under the control of the District.

   d. Received by an individual Board member using a personal electronic device and personal email address, and then forwarded by the Board member to enough members to constitute a majority or more of a Board-quorum will be a public record and subject to FOIA. The electronic communication is in the District's possession.

   e. Either sent to or from a Board member's personal electronic device during a Board meeting will be a public record and subject to FOIA. The electronic communication is in the District's possession because Board members were functioning collectively as a public body.
The District's Freedom of Information Officer and/or Board Attorney will help determine when a specific communication must be disclosed pursuant to a FOIA request.

**When Must Electronic Communications Be Retained?**

Email that qualifies under FOIA as a *public record* will need to be stored pursuant to the Local Records Act (LRA), only if it is evidence of the District's organization, function, policies, procedures, or activities or contains informational data appropriate for preservation, 50 ILCS 205/. An example is any email from a Board officer concerning a decision made in his or her capacity as an officer. If a Board member uses his or her personal email, he or she must copy this type of email to the appropriate District office where it will be stored. If made available, Board members should use their email accounts provided by the District, and the District will automatically store the official record messages. The District will delete these official record messages as provided in an applicable, approved *retention schedule*. Of course, email pertaining to public business that is sent or received by a Board Member using a District-issued device or email address will be subject to FOIA, even if the email does not need to be retained under the LRA.

**Important**: Do not destroy any email concerning a topic that is being litigated without obtaining the Board attorney's direction. In federal lawsuits, there is an automatic discovery of virtually all types of electronically created or stored data that might be relevant. Attorneys will generally notify their clients at the beginning of a legal proceeding not to destroy any electronic records that might be relevant. This is referred to as a *litigation hold*. For more discussion of a litigation hold, see 2:250-AP2, *Protocols for Record Preservation and Development of Retention Schedules*. In addition, any person who knowingly with the intent to defraud any party destroys, removes, or conceals any public record commits a Class 4 felony, 50 ILCS 205/4.

2:150 Committees

The School Board may establish committees to assist with the Board's governance function and, in some situations, to comply with State law requirements. These committees are known as Board committees and report directly to the Board. Committee members may include both Board members and non-Board members depending on the committee's purpose. The Board President makes all Board committee appointments unless specifically stated otherwise. Board committee meetings shall comply with the Open Meetings Act. A Board committee may not take final action on behalf of the Board - it may only make recommendations to the Board.

Special Board Committees

A special committee may be created for specific purposes or to investigate special issues. A special committee is automatically dissolved after presenting its final report to the Board or at the Board's discretion.

Standing Board Committees

A standing committee is created for an indefinite term although its members will fluctuate. Standing committees are:

1. Board Policy Committee. This committee researches policy issues, and provides information and recommendations to the Board.
2. Parent-Teacher Advisory Committee. This committee assists in the development of student behavior policy and procedure, and provides information and recommendations to the Board. Its members are parents/guardians and teachers, and may include persons whose expertise or experience is needed. The committee reviews such issues as administering medication in the schools, reciprocal reporting between the School District and local law enforcement agencies regarding criminal offenses committed by students, student discipline, disruptive classroom behavior, school bus safety procedures, and the dissemination of student conduct information.
3. Behavioral Interventions Committee. This committee develops and monitors procedures for using behavioral interventions in accordance with Board policy 7:230, Misconduct by Students with Disabilities, and provides information and recommendations to the Board. At the Board President's discretion, the Parent-Teacher Advisory Committee shall perform the duties assigned to the Behavioral Interventions Committee.

Nothing in this policy limits the authority of the Superintendent or designee to create and use committees that report to him or her or to other staff members.

The District will only pay for legal services that are provided in accordance with the agreement for legal services or are otherwise authorized by this policy or a majority of the Board.

The Superintendent, his or her designee, and Board President, are each authorized to confer with and/or seek the legal advice of the Board Attorney. The Board may authorize a specific member to confer with legal counsel on its behalf.

The Board may hold a closed meeting, or close a portion of a meeting, by a majority vote of a quorum, taken at an open meeting.
The vote of each Board member present, and the reason for the closed meeting, will be publicly disclosed at the time of the meeting and clearly stated in the motion and the meeting minutes.

A single motion calling for a series of closed meetings may be adopted when such meetings will involve the same particular matters and are scheduled to be held within 3 months of the vote.

No final Board action will be taken at a closed meeting.

Reconvened or Rescheduled Meetings

A meeting may be rescheduled or reconvened. Public notice of a rescheduled or reconvened meeting shall be given in the same manner as that for a special meeting, except that no public notice is required when the original meeting is open to the public and: (1) is to be reconvened within 24 hours, or (2) an announcement of the time and place of the reconvened meeting was made at the original meeting and there is no change in the agenda.

Special Meetings

Special meetings may be called by the President or by any 3 members of the Board by giving notice thereof, in writing, stating the time, place, and purpose of the meeting to remaining Board members by mail at least 48 hours before the meeting, or by personal service at least 24 hours before the meeting.

Public notice of a special meeting is given by posting a notice at the District's main office at least 48 hours before the meeting and by notifying the news media that have filed a written request for notice. A meeting agenda shall accompany the notice.

All matters discussed by the Board at any special meeting must be related to a subject on the meeting agenda.

Agenda

The School Board President is responsible for focusing the Board meeting agendas on appropriate content. The Superintendent shall prepare agendas in consultation with the Board President. The President shall designate a portion of the agenda as a consent agenda for those items that usually do not require discussion or explanation before Board action. Upon the request of any Board member, an item will be withdrawn from the consent agenda and placed on the regular agenda for independent consideration.

The regular meeting calendar may be changed with 10 days' notice in accordance with State law.

Items submitted by Board members to the Superintendent or the President shall be placed on the agenda for an upcoming meeting. District residents may suggest inclusions for the agenda. The Board will take final action only on items contained in the posted agenda; items not on the agenda may still be discussed.

The Superintendent shall provide a copy of the agenda, with adequate data and background information, to each Board member at least 48 hours before each meeting, except a meeting held in the event of an emergency. The meeting agenda shall be posted in accordance with Board policy 2:200, Types of School Board Meetings.

The Board President shall determine the order of business at regular Board meetings. Upon consent of a majority of members present, the order of business at any meeting may be changed.

Voting Method

Unless otherwise provided by law, when a vote is taken upon any measure before the Board, with a quorum being present, a majority of the votes cast shall determine its outcome. A vote of abstain or present, or a vote other than yea or nay, or a failure to vote, is counted for the purposes of determining whether a quorum is present. A vote of abstain or present, or a vote other than yea or nay, or a failure to vote, however, is not counted in determining whether a measure has been passed by the Board, unless otherwise stated in law. The sequence for casting votes is rotated.

On all questions involving the expenditure of money and on all questions involving the closing of a meeting to the public, a roll call vote shall be taken and entered in the Board's minutes. An individual Board member may request that a roll call vote be taken on any other matter; the President or other presiding officer may approve or deny the request but a denial is subject to being overturned by a majority vote of the members present.

Minutes

The Board Secretary shall keep written minutes of all Board meetings (whether open or closed), which shall be signed by the President and the Secretary. The minutes include:

1. The meeting's date, time, and place;
2. Board members recorded as either present or absent;
3. A summary of the discussion on all matters proposed, deliberated, or decided, and a record of any votes taken;
4. On all matters requiring a roll call vote, a record of who voted yea and nay;
5. If the meeting is adjourned to another date, the time and place of the adjourned meeting;
6. The vote of each member present when a vote is taken to hold a closed meeting or portion of a meeting, and the reason for the closed meeting with a citation to the specific exception contained in the Open Meetings Act authorizing the closed meeting;
7. A record of all motions, including individuals making and seconding motions;
8. Upon request by a Board member, a record of how he or she voted on a particular motion; and
9. The type of meeting, including any notices and, if a reconvened meeting, the original meeting's date.

The minutes shall be submitted to the Board for approval or modification at its next regularly scheduled open meeting. Minutes for open meetings must be approved within 30 days after the meeting or at the second subsequent regular meeting, whichever is later.

At least semi-annually in an open meeting, the Board: (1) reviews minutes from all closed meetings that are currently unavailable for public release, and (2) decides which, if any, no longer require confidential treatment and are available for public inspection. The Board may meet in a prior closed session to review the minutes from closed meetings that are currently unavailable for public release.

The Board's meeting minutes must be submitted to the Board Treasurer at such times as the Treasurer may require.

The official minutes are in the custody of the Board Secretary. Open meeting minutes are available for inspection during regular office hours within 10 days after the Board's approval; they may be inspected in the District's main office, in the presence of the Secretary, the Superintendent or designee, or any Board member.

Minutes from closed meetings are likewise available, but only if the Board has released them for public inspection, except that Board members may access closed session minutes not yet released for public inspection (1) in the District's administrative offices or their official storage location, and (2) in the presence of the Recording Secretary, the Superintendent or designated administrator, or any elected Board member. The minutes, whether reviewed by members of the public or the Board, shall not be removed from the District's administrative offices or their official storage location except by vote of the Board or by court order.

The Board's open meeting minutes shall be posted on the District website within 10 days after the Board approves them; the minutes will remain posted for at least 60 days.
Verbatim Record of Closed Meetings

The Superintendent, or the Board Secretary when the Superintendent is absent, shall audio record all closed meetings. If neither is present, the Board President or presiding officer shall assume this responsibility. After the closed meeting, the person making the audio recording shall label the recording with the date and store it in a secure location. The Superintendent shall ensure that: (1) an audio recording device and all necessary accompanying items are available to the Board for every closed meeting, and (2) a secure location for storing closed meeting audio recordings is maintained close to the Board's regular meeting location.

After 18 months have passed since being made, the audio recording of a closed meeting is destroyed provided the Board approved: (1) its destruction, and (2) minutes of the particular closed meeting.

Individual Board members may access verbatim recordings in the presence of the Recording Secretary, the Superintendent or designated administrator, or any elected Board member. Access to the verbatim recordings is available at the District's administrative offices or the verbatim recording's official storage location. Requests shall be made to the Superintendent or Board President. While a Board member is listening to a verbatim recording, it shall not be re-recorded or removed from the District's main office or official storage location, except by vote of the Board or by court order.

Before making such requests, Board members should consider whether such requests are germane to their responsibilities, service to District, and/or Oath of Office in policy 2:80, *Board Member Oath and Conduct*. In the interest of encouraging free and open expression by Board members during closed meetings, the recordings of closed meetings should not be used by Board members to confirm or dispute the accuracy of recollections.

Quorum and Participation by Audio or Video Means

A quorum of the Board must be physically present at all Board meetings. A majority of the full membership of the Board constitutes a quorum.

Provided a quorum is physically present, a Board member may attend a meeting by video or audio conference if he or she is prevented from physically attending because of: (1) personal illness or disability, (2) employment or District business, or (3) a family or other emergency. If a member wishes to attend a meeting by video or audio means, he or she must notify the recording secretary or Superintendent at least 24 hours before the meeting unless advance notice is impractical. The recording secretary or Superintendent will inform the Board President and make appropriate arrangements. A Board member who attends a meeting by audio or video means, as provided in this policy, may participate in all aspects of the Board meeting including voting on any item.

Rules of Order

Unless State law or Board-adopted rules apply, the Board President, as the presiding officer, will use *Robert's Rules of Order, Newly Revised* (10th Edition), as a guide when a question arises concerning procedure.

Broadcasting and Recording Board Meetings

Any person may record or broadcast an open Board meeting. Special requests to facilitate recording or broadcasting an open Board meeting, such as seating, writing surfaces, lighting, and access to electrical power, should be directed to the Superintendent at least 24 hours before the meeting.

Recording meetings shall not distract or disturb Board members, other meeting participants, or members of the public. The Board President may designate a location for recording equipment, may restrict the movements of individuals who are using recording equipment, or may take such other steps as are deemed necessary to preserve decorum and facilitate the meeting.

The following procedures govern the verbatim audio recordings and minutes of School Board meetings that are closed to the public.

<table>
<thead>
<tr>
<th>Actor</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Before any Board meeting:</strong> Superintendent or designee</td>
<td>Arranges to have an audio recording device with extra recording tapes and a back-up audio recording device in the Board meeting room during every Board meeting regardless of whether a closed meeting is scheduled. The Board may close a portion of a public meeting without prior notice; it cannot, however, have a closed meeting unless it can record the session.</td>
</tr>
<tr>
<td><strong>Before a closed meeting:</strong> Board President or presiding officer</td>
<td>On the closed meeting date: (1) convenes an open meeting, (2) requests a motion to adjourn into closed meeting making sure the reason for the meeting is identified in the motion, (3) takes a roll call vote, (4) asks that the minutes record the vote of each member present and the reason for the closed meeting with a citation to the specific exception contained in the Open Meetings Act authorizing the closed meeting (5 ILCS 120/2a), and (5) adjourns the open meeting.</td>
</tr>
<tr>
<td><strong>Before a closed meeting:</strong> Superintendent or Board Secretary</td>
<td>Immediately before a closed meeting, tests and activates the audio recording device.</td>
</tr>
<tr>
<td><strong>During a closed meeting:</strong> Board President or presiding officer</td>
<td>Convenes the closed meeting stating: Seeing a quorum of the Board of Education gathered today, ___ date, at ___ o'clock, at ___ location, for the purpose of holding a closed meeting in order to confidentially discuss ___, I call the meeting to order. In order to record who is present, I request that each individual state his or her name and position with the District. Limits discussion to the topics that were included in the motion to go into a closed meeting. The failure to immediately call a person out-of-order who strays from the purposes included in the motion may result in an appearance of acquiescence. This responsibility to call a person out-of-order falls on each Board member in the event of the President's failure. Once the closed meeting is finished, announces a return to an open meeting or adjournment, and states the time.</td>
</tr>
<tr>
<td><strong>After a closed meeting:</strong> Superintendent, Recording Secretary, or Board Secretary</td>
<td>For Verbatim Recordings: Takes possession of the audio recording of the closed meeting and labels it with identification information, specifically the date and items discussed. Adds the identification information contained on the audio recording's label to a cumulative list of closed meeting recordings. As soon as possible, puts the recording of the closed meeting in the previously identified secure location for storing recordings of closed meetings. Upon request of a Board member: 1. Provides access to the verbatim recordings minutes at a reasonable time and place without disrupting District operations; 2. Supervises the access to the closed session minutes or delegates it to one of the following individuals in the District: a. The Recording Secretary, b. The Superintendent or designated administrator, or c. Any elected Board member; and 3. Logs the access to the recordings in 2:220-E7, Access to Closed Meeting Minutes and Verbatim Recordings. For Closed Meeting Minutes: Prepares written closed meeting minutes that include: • The date, time, and place of the closed meeting • The Board members present and absent • A summary of discussion on all matters proposed or discussed • The time the closed meeting was adjourned Upon request of a Board member: 1. Provides access to the closed session minutes at a reasonable time and place without disrupting District operations; 2. Supervises the access to the closed session minutes or delegates it to one of the following individuals in the District: a. The Recording Secretary, b. The Superintendent or designated administrator, or c. Any elected Board member; and 3. Logs the access in 2:220-E7, Access to Closed Meeting Minutes and Verbatim Recordings.</td>

<td>for the semi-annual review: Superintendent or designee</td>
<td>This step is in preparation of the Board's meeting to decide whether the need for confidential treatment of specific closed meeting minutes continues to exist. If the Board wants to discuss closed meeting minutes in closed session, places &quot;review of unreleased closed meeting minutes&quot; on a closed meeting agenda. Places &quot;result of Board's review of unreleased closed meeting minutes&quot; as an item on a subsequent open meeting agenda.</td>

<tr>
<td>In preparation for the semi-annual review: Individual Board members</td>

The Board may have an earlier meeting in closed session to discuss the continued need for confidential treatment.</td>

Open Meeting Minutes

The Open Meetings Act (OMA) requires public bodies to "keep written minutes of all their meetings, whether open or closed, and a verbatim record of all their closed meetings in the form of an audio or video recording." 5 ILCS 120/2.06(a). Minutes must include, but are not limited to: (1) the date, time, and place of the meeting; (2) the members of the public body recorded as either present or absent and whether the members were physically present or present by means of video or audio conference; and (3) a summary of discussion on all matters proposed, deliberated, or decided, and record of any votes taken. Id.

The remainder of Section 2.06 addresses the approval of open meeting minutes, the treatment of verbatim recordings of closed meetings, the semi-annual review of closed meeting minutes, the confidential nature of closed meeting minutes, and the right of persons to address public officials under rules established and recorded by the public body. The requirements of Section 2.06, as well as OMA requirements pertaining to Board agendas, are included in policy 2:220, School Board Meeting Procedure.

Exhibit 2:220-E3, Closed Meeting Minutes, provides a sample template for keeping closed meeting minutes that incorporates the requirements of Section 2.06 of OMA. It also includes an area to designate if the Board has determined, pursuant to Section 2.06(d), that the closed meeting minutes no longer need confidential treatment.

Exhibit 2:220-E4, Open Meeting Minutes, contains an open meeting minute's protocol that incorporates the requirements of Section 2.06 of OMA. It also provides a sample template for keeping open meeting minutes.

Exhibit 2:220-E5, Semi-Annual Review of Closed Meeting Minutes, contains a process for implementing the semi-annual review of closed meeting minutes, and exhibit 2:220-E6, Log of Closed Meeting Minutes, is designed to facilitate this semi-annual review.

Local Records Act

The Local Records Act (LRA) provides that public records, including "any book, paper, map, photograph, digitized electronic material, or other official documentary material, regardless of physical form or characteristics, made, produced, executed or received by any agency or officer pursuant to law or in connection with the transaction of public business and preserved or appropriate for preservation by such agency or officer" must be preserved unless the State Local Records Commission has given permission to destroy those records. 50 ILCS 205/3 and 7. Board records, including agendas, meeting packets and meeting minutes, fall into this definition.

Public bodies located in Cook County must work with the Local Records Commission of Cook County to determine how long they must retain public records. Public bodies located outside of Cook County must work with the Downstate Local Records Commission to determine how long they must retain public records.

Policy 2:250, Access to District Public Records, contains a subhead entitled Preserving Public Records which provides as follows:

Public records, including email messages, shall be preserved and cataloged if: (1) they are evidence of the District's organization, function, policies, procedures, or activities, (2) they contain informational data appropriate for preservation, (3) their retention is required by State or federal law, or (4) they are subject to a retention request by the Board Attorney (e.g., a litigation hold), District auditor, or other individual authorized by the School Board or State or federal law to make such a request. Unless its retention is required as described in items numbered 3 or 4 above, a public record, as defined by the Illinois Local Records Act, may be destroyed when authorized by the Local Records Commission.

See the sample policy, 2:200, School Board Meeting Procedure, for all relevant footnotes. Also see administrative procedure 2:250-AP2, Protocols for Record Preservation and Development of Retention Schedules, for recommendations regarding school district records retention protocols and links to web-based record management resources.

For an overall minimum of 30 minutes during each regular and special open meeting, any person may comment to or ask questions of the Board (public participation), subject to the reasonable constraints established and recorded in this policy's guidelines below. During public participation, there will be a 20-minute minimum total length of time for any one subject. When public participation takes less time than these minimums, it shall end.

To preserve sufficient time for the Board to conduct its business, any person appearing before the Board is expected to follow these guidelines:

1. Address the Board only at the appropriate time as indicated on the agenda and when recognized by the Board President.
2. Identify oneself and be brief. Ordinarily, the time for any one person to address the Board during public participation shall be limited to three minutes. In unusual circumstances, and when an individual has made a request to speak for a longer period of time, the person may be allowed to speak for more than three minutes.
3. Observe, when necessary and appropriate, the:
   a. Shortening of the time for each person to address the Board during public participation to conserve time and give the maximum number of people an opportunity to speak.
   b. Expansion of the overall minimum of 30 minutes for public participation and/or the 20-minute minimum total length of time for any one subject; and/or
   c. Determination of procedural matters regarding public participation not otherwise defined in Board policy.
4. Conduct oneself with respect and civility toward others and otherwise abide by Board policy 8:30, Visitors to and Conduct on School Property.

Petitions or written correspondence to the Board shall be presented to the Board at the next regularly scheduled Board packet.

The School Board governs using written policies. Written policies ensure legal compliance, establish Board processes, articulate District ends, delegate authority, and define operating limits. Board policies also provide the basis for monitoring progress toward District ends.

**Policy Development**

Anyone may propose new policies, changes to existing policies, or deletion of existing policies. Staff suggestions should be processed through the Superintendent. Suggestions from all others should be made to the Board President or the Superintendent.

A Board Policy Committee will consider all policy suggestions and provide information and recommendations to the Board.

The Superintendent is responsible for: (1) providing relevant policy information and data to the Board, (2) notifying those who will implement or be affected by or required to implement a proposed policy and obtaining their advice and suggestions, and (3) having policy recommendations drafted into written form for Board deliberation. The Superintendent shall seek the counsel of the Board Attorney when appropriate.

**Policy Adoption and Dissemination**

Policies or policy revisions will not be adopted at the Board meeting at which they are first introduced, except when: (1) appropriate for a consent agenda because no Board discussion is required, or (2) necessary or prudent in order to meet emergency or special conditions or to be legally compliant. Further Board consideration will be given at a subsequent meeting(s) and after opportunity for community input. The adoption of a policy will serve to supersede all previously adopted policies on the same topic.

The Board policies are available for public inspection in the District's main office during regular office hours. Copy requests should be made pursuant to Board policy 2:250, *Access to District Public Records*.

**Board Policy Review and Monitoring**

The Board will periodically review its policies for relevancy, monitor its policies for effectiveness, and consider whether any modifications are required. The Board may use an annual policy review and monitoring calendar.

**Superintendent Implementation**

The Board will support any reasonable interpretation of Board policy made by the Superintendent. If reasonable minds differ, the Board will review the applicable policy and consider the need for further clarification.

In the absence of Board policy, the Superintendent is authorized to take appropriate action.

**Suspension of Policies**

The Board, by a majority vote of members present at any meeting, may temporarily suspend a Board policy except those provisions that are controlled by law or contract. The failure to suspend with a specific motion does not invalidate the Board action.

2:250 Access to District Public Records

Full access to the District's public records is available to any person as provided in the Illinois Freedom of Information Act (FOIA), this policy, and implementing procedures. The Superintendent or designee shall: (1) provide the Board with sufficient information and data to permit the Board to monitor the District's compliance with FOIA and this policy, and (2) report any FOIA requests during the Board's regular meetings along with the status of the District's response.

Freedom of Information Officer

The Board will appoint an employee to serve as the District's Freedom of Information Officer. That appointee assumes all the duties and powers of that office as provided in FOIA and this policy.

Definition

The District's public records are defined as records, reports, forms, writings, letters, memoranda, books, papers, maps, photographs, microfilms, cards, tapes, recordings, electronic data processing records, electronic communications, recorded information and all other documentary material pertaining to the transaction of public business, regardless of physical form or characteristics, having been prepared by or for, or having been or being used by, received by, in the possession of, or under the control of the School District.

Requesting Records

A request for inspection and/or copies of public records must be made in writing and may be submitted by personal delivery, mail, telefax, or email directed to the District's Freedom of Information Officer. Individuals making a request are not required to state a reason for the request other than to identify when the request is for a commercial purpose or when requesting a fee waiver. The Superintendent or designee shall instruct District employees to immediately forward any request for inspection and copying of a public record to the District's Freedom of Information Officer or designee.

Responding to Requests

The Freedom of Information Officer shall approve all requests for public records unless:

1. The requested material does not exist;
2. The requested material is exempt from inspection and copying by the Freedom of Information Act; or
3. Complying with the request would be unduly burdensome.

Within five business days after receipt of a request for access to a public record, the Freedom of Information Officer shall comply with or deny the request, unless the time for response is extended as specified in Section 3 of FOIA. The Freedom of Information Officer may extend the time for a response for up to five business days from the original due date. If an extension is needed, the Freedom of Information Officer shall: (1) notify the person making the request of the reason for the extension, and (2) either inform the person of the date on which a response will be made, or agree with the person in writing on a compliance period.

The time periods are extended for responding to requests for records made for a commercial purpose, requests by a recurrent requester, or voluminous requests, as those terms are defined in Section 2 of FOIA. The time periods for responding to those requests are governed by Sections 3.1, 3.2, and 3.6 of FOIA.

When responding to a request for a record containing both exempt and non-exempt material, the Freedom of Information Officer shall redact exempt material from the record before complying with the request.

Fees

Persons making a request for copies of public records must pay any and all applicable fees. The Freedom of Information Officer shall establish a fee schedule that complies with FOIA and this policy and is subject to the Board's review. The fee schedule shall include copying fees and all other fees to the maximum extent they are permitted by FOIA, including without limitation, search and review fees for responding to a request for a commercial purpose and fees, costs, and personnel hours in connection with responding to a voluminous request.

Copying fees, except when fixed by statute, shall be reasonably calculated to reimburse the District's actual cost for reproducing and certifying public records and for the use, by any person, of its equipment to copy records. In no case shall the copying fees exceed the maximum fees permitted by FOIA. If the District's actual copying costs are equal to or greater than the maximum fees permitted by FOIA, the Freedom of Information Officer is authorized to use FOIA's maximum fees as the District's fees. No copying fees shall be charged for: (1) the first 50 pages of black and white, letter or legal sized copies, or (2) electronic copies other than the actual cost of the recording medium, except if the response is to a voluminous request, as defined in FOIA.

A fee reduction is available if the request qualifies under Section 6 of FOIA. The Freedom of Information Officer shall set the amount of the reduction taking into consideration the amount of material requested and the cost of copying it.

Provision of Copies and Access to Records

A public record that is the subject of an approved access request will be available for inspection or copying at the District's administrative office during regular business hours, unless other arrangements are made by the Freedom of Information Officer.

Many public records are immediately available from the District's website including, but not limited to, the process for requesting a public record. The Freedom of Information Officer shall direct a requester to the District's website if a requested record is available.
there. If the requester is unable to reasonably access the record online, he or she may resubmit the request for the record, stating
his or her inability to reasonably access the record online, and the District shall make the requested record available for inspection
and copying as otherwise provided in this policy.

Preserving Public Records

Public records, including email messages, shall be preserved and cataloged if: (1) they are evidence of the District's organization,
function, policies, procedures, or activities, (2) they contain informational data appropriate for preservation, (3) their retention is
required by State or federal law, or (4) they are subject to a retention request by the Board Attorney (e.g., a litigation hold), District
auditor, or other individual authorized by the School Board or State or federal law to make such a request. Unless its retention is
required as described in items numbered 3 or 4 above, a public record, as defined by the Illinois Local Records Act, may be
destroyed when authorized by the Local Records Commission.

A student, parent/guardian, employee, or community member should notify any District Complaint Manager if he or she believes that the School Board, its employees, or its agents have violated his or her rights guaranteed by the State or federal Constitution, State or federal statute, or Board policy, or have a complaint regarding any one of the following:

1. Title II of the Americans with Disabilities Act
2. Title IX of the Education Amendments of 1972
3. Section 504 of the Rehabilitation Act of 1973
7. Breastfeeding accommodations for students, 105 ILCS 5/10-20.60
8. Bullying, 105 ILCS 5/27-23.7
9. Misuse of funds received for services to improve educational opportunities for educationally disadvantaged or deprived children
10. Curriculum, instructional materials, and/or programs
13. Provision of services to homeless students
16. Employee Credit Privacy Act, 820 ILCS 70/.

The Complaint Manager will first attempt to resolve complaints without resorting to this grievance procedure. If a formal complaint is filed under this policy, the Complaint Manager will address the complaint promptly and equitably. A student and/or parent/guardian filing a complaint under this policy may forego any informal suggestions and/or attempts to resolve it and may proceed directly to this grievance procedure. The Complaint Manager will not require a student or parent/guardian complaining of any form of harassment to attempt to resolve allegations directly with the accused (or the accused’s parents/guardians); this includes mediation.

Right to Pursue Other Remedies Not Impaired

The right of a person to prompt and equitable resolution of a complaint filed under this policy shall not be impaired by the person’s pursuit of other remedies, e.g., criminal complaints, civil actions, etc. Use of this grievance procedure is not a prerequisite to the pursuit of other remedies and use of this grievance procedure does not extend any filing deadline related to the pursuit of other remedies. If a person is pursuing another remedy subject to a complaint under this policy, the District will continue with a simultaneous investigation under this policy.

Deadlines

All deadlines under this policy may be extended by the Complaint Manager as he or she deems appropriate. As used in this policy, school business days means days on which the District’s main office is open.

Filing a Complaint

A person (hereinafter Complainant) who wishes to avail him or herself of this grievance procedure may do so by filing a complaint with any District Complaint Manager. The Complainant shall not be required to file a complaint with a particular Complaint Manager and may request a Complaint Manager of the same gender. The Complaint Manager may request the Complainant to provide a written statement regarding the nature of the complaint or require a meeting with a student’s parent(s)/guardian(s). The Complaint Manager shall assist the Complainant as needed.

For any complaint alleging bullying and/or cyberbullying of students, the Complaint Manager shall process and review the complaint according to Board policy 7:180, Prevention of and Response to Bullying, Intimidation, and Harassment, in addition to any response required by this policy. For any complaint alleging sexual harassment or other violation of Board policy 5:20, Workplace Harassment Prohibited, the Complaint Manager shall process and review the complaint according to that policy, in addition to any response required by this policy 2:260, Uniform Grievance Procedure.

Investigation

The Complaint Manager will investigate the complaint or appoint a qualified person to undertake the investigation on his or her behalf. The Complaint Manager shall ensure both parties have an equal opportunity to present evidence during an investigation. If the Complainant is a student under 18 years of age, the Complaint Manager will notify his or her parent(s)/guardian(s) that they may attend any investigatory meetings in which their child is involved. The complaint and identity of the Complainant will not be disclosed except: (1) as required by law or this policy, (2) as necessary to fully investigate the complaint, or (3) as authorized by the Complainant.

The identity of any student witnesses will not be disclosed except: (1) as required by law or any collective bargaining agreement, (2)
as necessary to fully investigate the complaint, or (3) as authorized by the parent/guardian of the student witness, or by the student if the student is 18 years of age or older.

The Complaint Manager will inform, at regular intervals, the person(s) filing a complaint under this policy about the status of the investigation. Within 30 school business days of the date the complaint was filed, the Complaint Manager shall file a written report of his or her findings with the Superintendent. The Complaint Manager may request an extension of time.

The Superintendent will keep the Board informed of all complaints.

If a complaint contains allegations involving the Superintendent, the written report shall be filed directly with the Board, which will make a decision in accordance with paragraph four of the following section of this policy.

Decision and Appeal

Within five school business days after receiving the Complaint Manager’s report, the Superintendent shall mail his or her written decision to the Complainant and the accused by first class U.S. mail as well as to the Complaint Manager. All decisions shall be based upon the preponderance of evidence standard.

Within 10 school business days after receiving the Superintendent’s decision, the Complainant or the accused may appeal the decision to the Board by making a written request to the Complaint Manager. The Complaint Manager shall promptly forward all materials relative to the complaint and appeal to the Board.

Within 30 school business days, the Board shall affirm, reverse, or amend the Superintendent’s decision or direct the Superintendent to gather additional information. Within five school business days of the Board’s decision, the Superintendent shall inform the Complainant and the accused of the Board’s action.

For complaints containing allegations involving the Superintendent, within 30 school business days after receiving the Complaint Manager’s report, the Board shall mail its written decision to the Complainant and the accused by first class U.S. mail as well as to the Complaint Manager.

This policy shall not be construed to create an independent right to a hearing before the Superintendent or Board. The failure to strictly follow the timelines in this grievance procedure shall not prejudice any party.

Appointing a Nondiscrimination Coordinator and Complaint Managers

The Superintendent shall appoint a Nondiscrimination Coordinator to manage the District’s efforts to provide equal opportunity employment and educational opportunities and prohibit the harassment of employees, students, and others. The Nondiscrimination Coordinator also serves as the District’s Title IX Coordinator.

The Superintendent shall appoint at least one Complaint Manager to administer the complaint process in this policy. If possible, the Superintendent will appoint two Complaint Managers, one of each gender. The District’s Nondiscrimination Coordinator may be appointed as one of the Complaint Managers.

The Superintendent shall insert into this policy and keep current the names, addresses, and telephone numbers of the Nondiscrimination Coordinator and the Complaint Managers. The Superintendent or designee shall ensure that students, parents/guardians, employees, and members of the community are informed of the contact information for the District’s Nondiscrimination Coordinator and Complaint Managers on an annual basis.

The Superintendent shall develop an organizational chart indicating the channels of authority and reporting relationships for school personnel. These channels should be followed, and no level should be bypassed except in unusual situations.

All personnel should refer matters requiring administrative action to the responsible administrator, and may appeal a decision to a higher administrative officer. Whenever possible, each employee should be responsible to only one immediate supervisor. When this is not possible, the division of responsibility must be clear.

3:40 Superintendent

Duties and Authority

The Superintendent is the District's executive officer and is responsible for the administration and management of the District schools in accordance with School Board policies and directives, and State and federal law. District management duties include, without limitation, preparing, submitting, publishing, and posting reports and notifications as required by State and federal law. The Superintendent is authorized to develop administrative procedures and take other action as needed to implement Board policy and otherwise fulfill his or her responsibilities. The Superintendent may delegate to other District staff members the exercise of any powers and the discharge of any duties imposed upon the Superintendent by Board policies or by Board vote. The delegation of power or duty, however, shall not relieve the Superintendent of responsibility for the action that was delegated.

Qualifications

The Superintendent must be of good character and of unquestionable morals and integrity. The Superintendent shall have the experience and the skills necessary to work effectively with the Board, District employees, students, and the community. The Superintendent must have and maintain a Professional Educator License with a superintendent endorsement issued by the Illinois State Educator Preparation and Licensure Board.

Evaluation

The Board will evaluate, at least annually, the Superintendent's performance and effectiveness, using standards and objectives developed by the Superintendent and Board that are consistent with the Board's policies and the Superintendent's contract. A specific time should be designated for a formal evaluation session with all Board members present. The evaluation should include a discussion of professional strengths as well as performance areas needing improvement.

The Superintendent shall annually present evidence of professional growth through attendance at educational conferences, inservice training, or similar continuing education pursuits.

Compensation and Benefits

The Board and the Superintendent shall enter into an employment agreement that conforms to Board policy and State law. This contract shall govern the employment relationship between the Board and the Superintendent. The terms of the Superintendent's employment agreement, when in conflict with this policy, will control.

ADOPTED: July 15, 2015

Paxton-Buckley-Loda CUSD 10
The School Board hires and employs the Superintendent. The Superintendent shall be in charge of the administration of the schools under the direction of the Board, through its policies. See 105 ILCS 5/10-21.4 and 105 ILCS 5/10-16.7. As an effective employer, the Board must develop and maintain a productive relationship with the Superintendent. See IASB’s Foundational Principles of Effective Governance, Principle 3. The board employs a superintendent, at: www.iasb.com/pdf/found_prin.pdf.

The foundation for a productive employment relationship begins when the Board identifies the most qualified superintendent candidate (successful superintendent candidate) after an established interview process. The Board then extends an offer of employment to the successful superintendent candidate. The employment search process and resulting relationship should consist of mutual respect and a clear understanding of respective roles, responsibilities, and expectations. This relationship should begin with the Board’s policy, a thoughtfully crafted employment contract and job description, and procedures for communications and ongoing assessment. See Principles at: www.iasb.com/pdf/found_prin.pdf.

Below, the Checklist for the Superintendent Employment Contract Negotiation Process (Checklist) provides a column entitled Superintendent Contract Term Considerations for the Board. It lists common superintendent employment contract terms and points of consideration for boards to prepare for during the contract formation process. Another column entitled Explanation, Special Considerations, and Resources provides extra information about these common superintendent employment contract terms.

The Checklist is intended to serve as a resource to educate and guide the Board through the employment contract negotiation process with its successful superintendent candidate. Board members who are educated about the content within the Checklist are crucial to successful negotiation processes. An educated contract formation and negotiation process, along with a well-written contract and job description for the Superintendent, all set the foundation for mutual respect and a clear understanding of the Board and Superintendent’s respective roles, responsibilities, and expectations. Important: This Checklist is a resource for contract formation; it is not a list of must have items for a superintendent’s employment contract or a basis for a board to re-open contracts currently in effect.

Prior to providing the successful superintendent candidate an offer for employment and contract for review, consideration, and negotiation, consult the Board Attorney about the Checklist and the scope of the terms the Board wishes to offer the successful superintendent candidate. The Board and the successful superintendent candidate should expect and encourage the other to seek the advice of their respective attorneys during the employment contract formation process.

Many attorneys agree and best practices suggest that boards and successful superintendent candidates work with their own separate attorneys in an amicable and cooperative manner to complete the employment contract negotiation process.

r **Board Attorney**. Prior to providing any successful superintendent candidate with an offer for employment and a contract for review, consideration, and negotiation, best practices suggest consulting the Board Attorney about the Checklist. Note: Boards should view a successful superintendent candidate retraining his or her own attorney as a best practice (as opposed to a warning sign). Each party is beginning the employment relationship in a cooperative manner to set an appropriate foundation to the future working relationship.

2. What is the cost shift implication for the District if the Board offers or later agrees to a salary that is equal to or greater than the governor’s statutory salary of $177,412 (P.A. 100-23 now makes school districts responsible for paying the actuarial cost of the pension benefits earned on the portion of a TRS member’s salary that exceeds $177,412)?

3. Do any administrative cost cap triggers exist (105 ILCS 5/17-1.5)?

Items the Board may see the successful superintendent candidate request of it:

1. A fixed salary for each year of the contract.
2. A guaranteed minimum salary.
3. Compensation increases.

Severance Agreements

The Government Severance Pay Act (GSPA), 5 ILCS 415/10, added by P.A. 100-895, eff. 1-1-19, requires the following contract provisions:

1. A restriction to an amount not exceeding 20 weeks of compensation; and
2. A prohibition for any severance if the Superintendent is hired for misconduct by the Board. See the Severance Pay row under the Changes to the Superintendent’s Employment Contract subhead below for a definition of what misconduct means in the context of this law.

Tenure

1. Pension contributions (TRS-THIS)?
2. Inclusion of salary and other compensation in the payment of TRS and THIS? Or, will TRS and THIS be in addition to salary and other compensation?
3. Unforeseen pension reform issues?

| Other Background Check Laws                              | Does the Board want to require additional background inquiries beyond the fingerprint-based criminal history records information check required by 105 ILCS 5/10-21.9 and discussed above? If yes, consult the Board Attorney and consider the following laws:
- 15 U.S.C. § 1681 et seq., Federal Fair Credit Reporting Act (FCRA), is a federal law that regulates the gathering and use of information about consumers by third party consumer reporting agencies, including credit information, criminal background, driving record, personal characteristics/reputation, etc. The law requires consumer reporting agencies to comply with certain procedural notice requirements when gathering information from a consumer.
- 820 ILCS 75/., II. Job Opportunities for Qualified Applicants Act, prohibits employers from inquiring about an applicant’s criminal history until the application has been determined qualified and notified that he/she has been selected for an interview (a/k/a ban the box law).
- 820 ILCS 75/., II. Right to Privacy in the Workplace Act, prohibits employers from:
  1. Requesting, coercing, or requiring any employee or prospective employee to provide a user name and password for any personal online account;
  2. Requesting, coercing, or requiring an employee or applicant to invite the employer to have access to that individual’s personal online account; and
  3. Taking an adverse employment action against an individual (including refusal to hire) based on that individual’s use of a lawful product off District property during nonworking hours, i.e., tobacco or alcohol.
- 820 ILCS 70/., II. Employee Credit Privacy Act, prohibits employers from inquiring into an individual’s credit history or taking action against an employee based such history unless a satisfactory credit history is a bona fide occupational requirement, which is further defined in the statute. The job descriptions of superintendents generally meet this standard because they: (1) describe a managerial position that involves direction of school districts; (2) include signatory power over more than $100; and (3) involve having access to confidential and financial information. Note: Any one of these grounds alone is sufficient. |
| Medical Examination                                       | 105 ILCS 5/24-5 requires new employees to submit evidence of physical fitness to perform assigned duties and freedom from communicable diseases.

   The Americans With Disabilities Act allows medical inquiries of current employees only when they are job-related and consistent with business necessity or part of a voluntary employee wellness program. 42 U.S.C. §12112(d)(4). Districts may deny jobs to individuals with disabilities who pose a direct threat to the health or safety of others in the workplace, provided that a reasonable accommodation would not either eliminate the risk or reduce it to an acceptable level. 42 U.S.C. §12113; 29 C.F.R. Part 1630.2(p).

   See also PRESS sample policy 5:30, Hiring Process and Criteria, specifically fns 18 and 19. |
| Suspension of Tenure                                      | With multi-year contracts and multi-year extensions, superintendents waive their rights to tenure in a school district, but no previously acquired tenure may be lost. |
| Continued Tenure                                          | Superintendents serving multiple one year contracts may still accrue service toward and acquire tenure. |

Evaluation of Goals

<table>
<thead>
<tr>
<th>Superintendent Contract Term Considerations for the Board</th>
<th>Explanation, Special Considerations, and Resources</th>
</tr>
</thead>
</table>
105 ILCS 5/10-23.8 requires each performance-based contract to include the goals and indicators of student performance and academic improvement determined and used by the Board to measure the performance and effectiveness of the Superintendent and other information as the Board may determine.

Regarding its goals and indicators, has the Board:

1. At minimum, addressed student performance and academic achievement (105 ILCS 5/10-23.8 states “and other information as the Board may determine”)?
2. Included them in the body of the employment contract? Or as an exhibit to it?
3. Set them to be:
   a. Measurable and achievable, i.e., are they within the Superintendent’s control?
   b. Objective, subjective or a combination of both?
4. Set a timeline for achievement, and if so it is on an:
   a. Annual basis?
   b. Prior to completion of the employment contract?
5. Set them as procedural, substantive, or a combination of both?

For more information about setting goals and indicators for superintendents regarding student performance and academic achievement, see:
IASB’s Field Services Catalog at: www.iasb.com/pdf/fieldservicecatalog.pdf.
Contact a Field Services Director regarding the following IASB workshops and/or offerings that may set the stage for boards to hold their superintendents accountable for district performance, including academic achievement:
Setting District Goals and Direction (leads a board and superintendent to develop their own district-language for specific measurable, and attainable goals and indicators)
The Superintendent Evaluation Process (describes an effective method of holding the superintendent accountable)
The Board and its Superintendent (workshop assisting a board in developing an effective relationship with its superintendent).

Once the Board has developed its goals and indicators (as discussed immediately above), 105 ILCS 5/10-20, 5/10-23, and 5/10-23.8 require the Board to:

1. “Direct, through policy, its superintendent in his or her charge of the administration of the school district;” and
2. Evaluate the superintendent in his or her “administration of school board policies and his or her stewardship of the assets of the district.”

How will the Board evaluate the successful superintendent candidate upon its outlined goals and indicators?

Does the Board state when it will evaluate the successful superintendent candidate upon the goals and indicators that it set? Note: Some districts do not consider the superintendent evaluation to be a one-time event and put an on-going process into place. Contrast other districts, which depending upon their preferences, generally find the best time of year to evaluate is in the winter or early springtime.

Is the Board or the successful superintendent candidate responsible to trigger the components of the Superintendent’s evaluation process?

What evaluation instrument will be used? How will the evaluation be documented?
Will an evaluation instrument be outlined by the Board in its employment contract with the successful superintendent candidate?
Is the evaluation instrument the Board will use tied to its goals and indicators of student performance and academic improvement and other information as the Board may determine?

For more information about best practices when planning for and evaluating the Superintendent, see:
The Superintendent Evaluation Process at: www.iasb.com/training/superintendent-evaluation-process.pdf;

   a. Available post-retirement options available, e.g., payments for sick/vacation days, post-retirement insurance, longevity annuity payment, etc.  
   b. Whether a potential retirement payment will be properly creditable for TRS purposes. **Note**: Ultimately, only TRS has the authority to determine creditability. |

3. Will there be any agreement to a clause for an automatic one-year renewal if the Board fails to provide end-of-contract non-renewal notification?

2. What criteria will the Board base its renewal upon? For example, some boards base renewal upon superintendents achieving their stated goals and indicators of student performance and academic improvement and other information they required. |
| Contract Extensions | Will the Board agree to allow for an extension of its employment contract during its term? If yes, then:  
1. Will the Board agree to extend it during its term if the Board determines that the Superintendent successfully met all of the Board’s stated goals and indicators of student performance and academic improvement and other information it required?  
2. Will the Board agree to extend a one-year contract when the Superintendent is not required to meet any goals?  
See 105 ILCS 5/10-23.8.  
If the successful superintendent candidate accepts employment with the Board and becomes the Superintendent, how will the Board outline the grounds and procedures for terminating the Superintendent’s employment during the contract’s term? |
**Terminations**

1. Will the Board and the successful superintendent candidate agree to terminate it upon mutual agreement?
2. Will the Board allow retirement to be an appropriate reason for terminating its employment contract with the Superintendent? And if so, will the Board require reasonable notice from its Superintendent?
3. Could either the Board or Superintendent terminate the employment contract without cause by providing notice to the other?
4. Will the Board terminate the employment contract for permanent disability of the Superintendent?
   a. How will the Board define permanent disability in the contract?
   b. Will the Board require the Superintendent to obtain a permanent disability determination through physician certification, and/or
   c. Will the Board consider duration of absence; e.g., 90-days or exhaustion of sick leave, whichever is greater?

   See PRESS sample policy 5:180, Temporary Illness or Temporary Incapacity.

5. What standard will the Board use to terminate the employment contract for cause? Items to consider include:
   a. Any conduct detrimental/prejudicial to the District;
   b. Just cause;
   c. Sufficient to dismiss a tenured teacher;
   d. Material breach of contract; or
   e. Not arbitrary and capricious.

   *50 ILCS 205/3c, amended by P.A. 100-1040, requires a school district to post on its website and make available to news media specific information about severance agreements that it enters into because an employee or contractor was found to have engaged in sexual harassment or sexual discrimination, as defined by the Ill. Human Rights Act or Title VII of the Civil Rights Act of 1964. See Severance Pay row directly below.

6. Will the Board agree to provisions for hearing and due process for the Superintendent?
7. How will the Board address death of its Superintendent during the duration of the employment contract?

**Severance Pay**

Any renewal or renegotiation that adds a condition of severance pay must include the following provisions of GSPA, 5 ILCS 415/10(a) (1), added by P.A. 100-895, eff. 1-1-19:

1. A restriction to an amount not exceeding 20 weeks of compensation; and
2. A prohibition for any severance if the Superintendent is fired for misconduct by the Board. This law defines misconduct to include sexual harassment and/or discrimination. But 50 ILCS 205/3c, amended by P.A. 100-1040 limits sexual harassment or discrimination to instances when an employee is “found to have engaged in sexual harassment or sexual discrimination, as defined by the Ill. Human Rights Act or Title VII of the Civil Rights Act of 1964.” For more discussion about these laws, see fn 6 in policy 2:260, Uniform Grievance Procedure.

**Liquidated Damages**

Will the Board agree to liquidate damages with its Superintendent if one or the other terminates the employment contract?

1. Have both the Board and the successful superintendent candidate discussed the practical consequences of a liquidated damages clause with their respective attorneys?
2. If the Board terminates the contract, has it discussed with the Board Attorney how it can avoid litigation with its former Superintendent?

**Amendments**

How will the Board and Superintendent agree to allow for amendments to the employment contract?

4:30 Revenue and Investments

Revenue

The Superintendent or designee is responsible for making all claims for property tax revenue, State Aid, special State funds for specific programs, federal funds, and categorical grants.

Investments

The Superintendent shall either appoint a Chief Investment Officer or serve as one. The Chief Investment Officer shall invest money that is not required for current operations, in accordance with this policy and State law.

The Chief Investment Officer and Superintendent shall use the standard of prudence when making investment decisions. They shall use the judgment and care, under circumstances then prevailing, that persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the safety of their capital as well as its probable income.

Investment Objectives

The objectives for the School District's investment activities are:

1. Safety of Principal - Every investment is made with safety as the primary and over-riding concern. Each investment transaction shall ensure that capital loss, whether from credit or market risk, is avoided.
2. Liquidity - The investment portfolio shall provide sufficient liquidity to pay District obligations as they become due. In this regard, the maturity and marketability of investments shall be considered.
3. Rate of Return - The highest return on investments is sought, consistent with the preservation of principal and prudent investment principles.
4. Diversification - The investment portfolio is diversified as to materials and investments, as appropriate to the nature, purpose, and amount of the funds.

Authorized Investments

The Chief Investment Officer may invest District funds in one or more of the following:

1. Bonds, notes, certificates of indebtedness, treasury bills, or other securities now or hereafter issued, that are guaranteed by the full faith and credit of the United States of America as to principal and interest.
2. Bonds, notes, debentures, or other similar obligations of the United States of America, its agencies, and its instrumentalities.

The term “agencies of the United States of America” includes: (a) the federal land banks, federal intermediate credit banks, banks for cooperative, federal farm credit banks, or any other entity authorized to issue debt obligations under the Farm Credit Act of 1971 and Acts amendatory thereto, (b) the federal home loan banks and the federal home loan mortgage corporation, and (c) any other agency created by Act of Congress.

3. Interest-bearing savings accounts, interest-bearing certificates of deposit or interest-bearing time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act.
4. Obligations of corporations organized in the United States with assets exceeding $500,000,000 if: (a) such obligations are rated at the time of purchase at one of the three highest classifications established by at least two standard rating services and that mature not later than three years from the date of purchase, (b) such purchases do not exceed 10% of the corporation's outstanding obligations, and (c) no more than one-third of the District's funds may be invested in short term obligations of corporations.
5. Money market mutual funds registered under the Investment Company Act of 1940, provided that the portfolio of any such money market mutual fund is limited to obligations described in paragraph (1) or (2) and to agreements to repurchase such obligations.
6. Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, school district, the State of Illinois, any other state, or any political subdivision or agency of the State of Illinois or any other state, whether the interest earned is taxable or tax-exempt under federal law. The bonds shall be (a) registered in the name of the municipality, county, or other governmental unit, or held under a custodial agreement at a bank, and (b) rated at the time of purchase within the four highest general classifications established by a rating service of nationally recognized expertise in rating bonds of states and their political subdivisions.
7. Short term discount obligations of the Federal National Mortgage Association or in shares or other forms of securities legally issuable by savings banks or savings and loan associations incorporated under the laws of this State or any other state or under the laws of the United States. Investments may be made only in those savings banks or savings and loan associations, the shares, or investment certificates that are insured by the Federal Deposit Insurance Corporation. Any such securities may be purchased at the offering or market price thereof at the time of such purchase. All such securities so purchased shall mature or be redeemable on a date or dates prior to the time when, in the judgment of the Chief Investment Officer, the public funds so invested will be required for expenditure by the District or its governing authority.
8. Dividend-bearing share accounts, share certificate accounts, or class of share accounts of a credit union chartered under the laws of this State or the laws of the United States; provided, however, the principle office of any such credit union must be located within the State of Illinois. Investments may be made only in those credit unions the accounts of which are insured by applicable law.
9. A Public Treasurers' Investment Pool created under Section 17 of the State Treasurer Act. The District may also invest any
public funds in a fund managed, operated, and administered by a bank, subsidiary of a bank, or subsidiary of a bank holding company or use the services of such an entity to hold and invest or advise regarding the investment of any public funds.

11. Repurchase agreements of government securities having the meaning set out in the Government Securities Act of 1986, as now or hereafter amended or succeeded, subject to the provisions of said Act and the regulations issued thereunder. The government securities, unless registered or inscribed in the name of the District, shall be purchased through banks or trust companies authorized to do business in the State of Illinois.

Except for repurchase agreements of government securities that are subject to the Government Securities Act of 1986, as now or hereafter amended or succeeded, the District may not purchase or invest in instruments that constitute repurchase agreements, and no financial institution may enter into such an agreement with or on behalf of the District unless the instrument and the transaction meet all of the following requirements:

12. The securities, unless registered or inscribed in the name of the District, are purchased through banks or trust companies authorized to do business in the State of Illinois.

13. The Chief Investment Officer, after ascertaining which firm will give the most favorable rate of interest, directs the custodial bank to "purchase" specified securities from a designated institution. The "custodial bank" is the bank or trust company, or agency of government, that acts for the District in connection with repurchase agreements involving the investment of funds by the District. The State Treasurer may act as custodial bank for public agencies executing repurchase agreements.

14. A custodial bank must be a member bank of the Federal Reserve System or maintain accounts with member banks. All transfers of book-entry securities must be accomplished on a Reserve Bank's computer records through a member bank of the Federal Reserve System. These securities must be credited to the District on the records of the custodial bank and the transaction must be confirmed in writing to the District by the custodial bank.

15. Trading partners shall be limited to banks or trust companies authorized to do business in the State of Illinois or to registered primary reporting dealers.

16. The security interest must be perfected.

17. The District enters into a written master repurchase agreement that outlines the basic responsibilities and liabilities of both buyer and seller.

18. Agreements shall be for periods of 330 days or less.

19. The Chief Investment Officer informs the custodial bank in writing of the maturity details of the repurchase agreement.

20. The custodial bank must take delivery of and maintain the securities in its custody for the account of the District and confirm the transaction in writing to the District. The custodial undertaking shall provide that the custodian takes possession of the securities exclusively for the District; that the securities are free of any claims against the trading partner; and that any claims by the custodian are subordinate to the District's claims to rights to those securities.

21. The obligations purchased by the District may only be sold or presented for redemption or payment by the fiscal agent bank or trust company holding the obligations upon the written instruction of the Chief Investment Officer.

22. The custodial bank shall be liable to the District for any monetary loss suffered by the District due to the failure of the custodial bank to take and maintain possession of such securities.

23. Any investment as authorized by the Public Funds Investment Act or the Investment of Municipal Funds Act, and Acts amendatory thereto. Paragraph 12 supersedes paragraphs 1-11 and controls in the event of conflict.

Except as provided herein, investments may be made only in banks, savings banks, savings and loan associations, or credit unions that are insured by the Federal Deposit Insurance Corporation or other approved share insurer.

Selection of Depositories, Investment Managers, Dealers, and Brokers

The Chief Investment Officer shall establish a list of authorized depositories, investment managers, dealers and brokers based upon the creditworthiness, reputation, minimum capital requirements, qualifications under State law, as well as a long history of dealing with public fund entities. The Board will review and approve the list at least annually.

In order to be an authorized depository, each institution must submit copies of the last two sworn statements of resources and liabilities or reports of examination that the institution is required to furnish to the appropriate State or federal agency. Each institution designated as a depository shall, while acting as such depository, furnish the District with a copy of all statements of resources and liabilities or all reports of examination that it is required to furnish to the appropriate State or federal agency.

The above eligibility requirements of a bank to receive or hold public deposits do not apply to investments in an interest-bearing savings account, interest-bearing certificate of deposit, or interest-bearing time deposit if: (1) the District initiates the investment at or through a bank located in Illinois, and (2) the invested public funds are at all times fully insured by an agency or instrumentality of the federal government.

The District may consider a financial institution's record and current level of financial commitment to its local community when deciding whether to deposit funds in that financial institution. The District may consider factors including:

1. For financial institutions subject to the federal Community Reinvestment Act of 1977, the current and historical ratings that the financial institution has received, to the extent that those ratings are publicly available, under the federal Community Reinvestment Act of 1977;

2. Any changes in ownership, management, policies, or practices of the financial institution that may affect the level of the financial institution's commitment to its community;

3. The financial impact that the withdrawal or denial of District deposits might have on the financial institution;
4. The financial impact to the District as a result of withdrawing public funds or refusing to deposit additional public funds in the financial institution; and

5. Any additional burden on the District’s resources that might result from ceasing to maintain deposits of public funds at the financial institution under consideration.

**Collateral Requirements**

All amounts deposited or invested with financial institutions in excess of any insurance limit shall be collateralized in accordance with the Public Funds Investment Act, 30 ILCS 235/. The Superintendent or designee shall keep the Board informed of collateral agreements.

**Safekeeping and Custody Arrangements**

The preferred method for safekeeping is to have securities registered in the District’s name and held by a third-party custodian. Safekeeping practices should qualify for the Governmental Accounting Standards Board Statement No. 3, Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, Category I, the highest recognized safekeeping procedures.

**Controls and Report**

The Chief Investment Officer shall establish a system of internal controls and written operational procedures to prevent losses arising from fraud, employee error, misrepresentation by third parties, or imprudent employee action.

The Chief Investment Officer shall provide a quarterly investment report to the Board. The report will: (1) assess whether the investment portfolio is meeting the District’s investment objectives, (2) identify each security by class or type, book value, income earned, and market value, (3) identify those institutions providing investment services to the District, and (4) include any other relevant information. The investment portfolio’s performance shall be measured by appropriate and creditable industry standards for the investment type.

The Board will determine, after receiving the Superintendent’s recommendation, which fund is in most need of interest income and the Superintendent shall execute a transfer. This provision does not apply when the use of interest earned on a particular fund is restricted.

**Ethics and Conflicts of Interest**

The Board and District officials will avoid any investment transaction or practice that in appearance or fact might impair public confidence. Board members are bound by the Board policy 2:100, Board Member Conflict of Interest. No District employee having influence on the District’s investment decisions shall:

1. Have any interest, directly or indirectly, in any investments in which the District is authorized to invest,
2. Have any interest, directly or indirectly, in the sellers, sponsors, or managers of those investments, or
3. Receive, in any manner, compensation of any kind from any investments in that the agency is authorized to invest.

4. The Disclosure Officer shall continue to review subsequent drafts of the Initial Statement in the manner set forth in 2. and 3. above.

5. If, in the Disclosure Officer's reasonable judgment, the Initial Statement does not include any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made in the Initial Statement not misleading, the Initial Statement may, in the reasonable discretion of the Disclosure Officer, be released for dissemination to the public; provided, however, that the use of the Initial Statement must be ratified, approved and authorized by the Board of Education of the District (the "Board").

C. Disclosure Procedures: Annual Financial Information. The Disclosure Officer will oversee the process of preparing the Annual Financial Information pursuant to these procedures:

1. By December 15th of each year (the same being at least 30 days prior to the last date on which the Annual Financial Information is required to be disseminated pursuant to the related Undertaking), the Disclosure Officer shall begin to prepare (or hire an agent to prepare) the Annual Financial Information. The Disclosure Officer shall also review the audited or unaudited financial statements, as applicable, to be filed as part of the Annual Financial Information (the "Financial Statements"). In addition to the required updating of the Annual Financial Information, the Disclosure Officer should consider whether additional information needs to be added to the Annual Financial Information in order to make the Annual Financial Information, including the Financial Statements, taken as a whole, correct and complete in all material respects. For example, if disclosure of events that occurred subsequent to the date of the Financial Statements would be necessary in order to clarify, enhance or correct information presented in the Financial Statements, in order to make the Annual Financial Information, taken as a whole, correct and complete in all material respects, disclosure of such subsequent events should be made.

2. If, in the Disclosure Officer's reasonable judgment, the Annual Financial Information, including the Financial Statements, is correct and complete in all material respects, the Disclosure Officer shall file the Annual Financial Information with EMMA (or confirm that such filing is completed by any agent hired by the District for such purpose) within the timeframe allowed for such filing.

D. Disclosure Procedures: EMMA Notices. Whenever the District determines to file an EMMA Notice, or whenever the District decides to make a voluntary filing to EMMA, the Disclosure Officer will oversee the process of preparing the EMMA Notice pursuant to these procedures:

1. The Disclosure Officer shall prepare (or hire an agent to prepare) the EMMA Notice. The EMMA Notice shall be prepared in the form required by the MSRB.

2. In the case of a disclosure required by an Undertaking, the Disclosure Officer shall determine whether any changes to the EMMA Notice are necessary to make the document compliant with the Undertaking.

3. If, in the Disclosure Officer's reasonable judgment, the EMMA Notice is correct and complete and, in the case of a disclosure required by an Undertaking, complies with the Undertaking, the Disclosure Officer shall file the EMMA Notice with EMMA (or confirm that such filing is completed by any agent hired by the District for such purpose) within the timeframe allowed for such filing.

E. Additional Responsibilities of the Disclosure Officer. The Disclosure Officer, in addition to the specific responsibilities outlined above, shall have general oversight of the entire disclosure process, which shall include:

1. Scheduling email reminders with EMMA to help ensure timely filing of the District's Annual Financial Information;

2. Maintaining appropriate records of compliance with this Disclosure Policy (including proofs of EMMA filings) and decisions made with respect to issues that have been raised;
3. Evaluating the effectiveness of the procedures contained in this Disclosure Policy; and
4. Making recommendations to the Board as to whether revisions or modifications to this Disclosure Policy are appropriate.

F. General Principles.

1. All participants in the disclosure process should be encouraged to raise potential disclosure items at all times in the process.
2. The process of revising and updating the Disclosures should not be viewed as a mechanical insertion of current numbers. While it is not anticipated that there will be major changes in the form and content of the Disclosures at the time of each update, the Disclosure Officer should consider whether such changes are necessary or desirable in order to make sure the Disclosure does not make any untrue statement of a material fact or omit to state a material fact necessary or desirable, in order to make the statements made, in light of the circumstances in which they were made, not misleading at the time of each update.
3. Whenever the District releases information, whether in written or spoken form, that may reasonably be expected to reach investors, it is said to be “speaking to the market.” When speaking to the market, District officials must be sure that the released information does not make any untrue statement of a material fact or omit to state a material fact necessary or desirable, in order to make the statements made, in light of the circumstances in which they were made, not misleading.
4. While care should be taken not to shortcut or eliminate any steps outlined in this Disclosure Policy on an ad hoc basis, the review and maintenance of the Disclosures is a fluid process and recommendations for improvement of these Disclosure Procedures should be solicited and regularly considered.
5. The Disclosure Officer is authorized to request and pay for attendance at relevant conferences or presentations or annual training sessions conducted by outside counsel, consultants or experts in order to ensure a sufficient level of knowledge for the effective administration of this Disclosure Policy.

The Superintendent and employees designated by the Superintendent are authorized to use District credit and procurement cards to simplify the acquisition, receipt, and payment of purchases and travel expenses incurred on the District's behalf. Credit and procurement cards shall only be used for those expenses that are for the District's benefit and serve a valid and proper public purpose; they shall not be used for personal purchases. Cardholders are responsible for exercising due care and judgment and for acting in the District's best interests.

The Superintendent or designee shall manage the use of District credit and procurement cards by employees. It is the Board's responsibility, through the audit and approval process, to determine whether District credit and procurement card use by the Superintendent is appropriate.

In addition to the other limitations contained in this and other Board policies, District credit and procurement cards are governed by the following restrictions:

At the close of each fiscal year, the Superintendent shall arrange an audit of the District funds, accounts, statements, and other financial matters. The audit shall be performed by an independent certified public accountant designated by the Board and be conducted in conformance with prescribed standards and legal requirements. **Disposition of District Property**

The Superintendent or designee shall notify the Board, as necessary, of the following so that the Board may consider its disposition: (1) District personal property (property other than buildings and land) that is no longer needed for school purposes, and (2) school site, building, or other real estate that is unnecessary, unsuitable, or inconvenient. Notwithstanding the above, the Superintendent or designee may unilaterally dispose of personal property of a diminutive value.

No reissuance will be made.

**Internal Controls**

The Superintendent is primarily responsible for establishing and implementing a system of internal controls for safeguarding the District's financial condition; the Board, however, will oversee these safeguards. 4. **Audit requirements**

Paxton-Buckley-Loda Unit #10 will contract with an approved auditor to conduct an annual audit of the PBL accounts. All findings of the audit shall be reported to the Paxton-Buckley-Loda Unit #10 superintendent and Board of Education.

Paxton-Buckley-Loda Unit #10 shall follow the regulations governing the purchase, use, record-keeping, and disposal of equipment each year. Paxton-Buckley-Loda Unit #10 shall inventory and monitor all equipment purchases, use, record keeping, and disposal of equipment purchased.

**Equipment Definition**

As defined in the federal uniform guidance (2 CFR 200.33), equipment means tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost that equals or exceeds the lesser of the capitalization level established by the non-federal entity for financial statement purposes, $1,000.

**Equipment use**

Equipment purchased using grant funds should be for the primary use of the program for which it was acquired. It is, however, acceptable for the equipment to be used for projects or programs currently or previously supported by grant funds provided that such use shall not interfere with the projects or program for which it was originally acquired. Use by non-grant funded programs or projects is also permissible, provided that such use shall not interfere with the priority of projects or program for which it was originally acquired.

**Record-Keeping of Equipment**

Paxton-Buckley-Loda Unit #10 and sub-recipients shall keep a record of all equipment purchases including serial or other identification number, source of funding for the property, acquisition date, cost per unit, location, and any ultimate disposition data. The owners of the property shall conduct a physical inventory of the property which is reconciled with records at least once every two years. The property must be maintained and kept in good condition with adequate controls to safeguard loss or unnecessary damage.

**Disposition of Property**

Disposition of property policy is guided by 2CFR §200.313 (e) (1-3). Property which is no longer required or used by Paxton-Buckley-Loda Unit #10 or the sub-recipients shall be disposed of in accordance with these terms:

- Equipment items with a current per unit fair market value of $5,000 or less may be retained, sold or otherwise disposed of with no further obligation to the grant awarding agency.
- Equipment items with a current per-unit fair market value of more than $5,000 must be disposed of in accordance with awarding agency disposal instructions. The grant award agency is entitled to an amount equal to multiplying the current market value or sale proceeds by the agency's percentage of participation in the cost of the original purchase. The awarding agency may permit the district/organization to deduct $500 or 10% of the sale proceeds to retained by the organization to compensate for selling/handling expenses.

6. **Procurement Standards**

The following procurement standards policies must be adhered to when purchasing goods and services using grant funds. All purchases of goods and services shall also comply with the Davis-Bacon Act as detailed in Appendix II of 2 CFR PART 200.

**Micro purchases/Small Purchase Procedures**

As per 2CFR §200.67 micro purchases are defined as being below $3,000 (threshold is occasionally adjusted). To the extent practicable, Paxton-Buckley-Loda Unit #10 must distribute micro-purchases equitably among qualified suppliers. Small purchase procedures will be used when securing services, supplies, or other property that does not cost more than the Simplified Acquisition Threshold (currently $150,000, occasionally adjusted). If small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources.

All solicitations for any procurement should identify clear requirements of the offeror and include all factors to be used in evaluating a bid or proposal for procurement of goods or services. All solicitations for the supply of goods and services shall contain a clear and accurate description of the goods and services being provided, including, if appropriate, the technical requirements, materials
specifications, labor hours and charges, and time frame.

**Conflict of Interest**

4:110 Transportation

The District shall provide free transportation for any student in the District who resides: (1) at a distance of one and one-half miles or more from his or her assigned school, unless the School Board has certified to the Illinois State Board of Education that adequate public transportation is available, or (2) if adequate public transportation is not available, within one and one-half miles from his or her assigned school where walking to or from school or to or from a pick-up point or bus stop would constitute a serious safety hazard due to either (a) vehicular traffic or rail crossing or (b) a course or pattern of criminal activity, as defined in the Ill. Streetgang Terrorism Omnibus Prevention Act, 740 ILCS 147/. A student's parent(s)/guardian(s) may file a petition with the Board requesting transportation due to the existence of a serious safety hazard. Free transportation service and vehicle adaptation is provided for a special education student if included in the student's individualized educational program. Non-public school students shall be transported in accordance with State law. Homeless students shall be transported in accordance with Section 45/1-15 of the Education for Homeless Children Act. Foster care students shall be transported in accordance with Section 6312(c)(5)(B) of the Elementary and Secondary Education Act.

If a student is at a location within the District, other than his or her residence, for child care purposes at the time for transportation to and/or from school, that location may be considered for purposes of determining the 1½ miles from the school attended. Unless the Superintendent or designee establishes new routes, pick-up and drop-off locations for students in day care must be along the District's regular routes. The District will not discriminate among types of locations where day care is provided, which may include the premises of licensed providers, relatives' homes, or neighbors' homes.

Bus schedules and routes shall be determined by the Superintendent or designee and shall be altered only with the Superintendent or designee’s approval and direction. In setting the routes, the pick-up and discharge points should be as safe for students as possible.

No school employee may transport students in school or private vehicles unless authorized by the administration.

Every vehicle regularly used for the transportation of students must pass safety inspections in accordance with State law and Illinois Department of Transportation regulations. The strobe light on a school bus may be illuminated only when the bus is actually being used as a school bus and (1) is stopping or stopped for loading or discharging students on a highway outside an urban area, or (2) is bearing one or more students. The Superintendent shall implement procedures in accordance with State law for accepting comment calls about school bus driving.

Good nutrition shall be promoted in the District's meal programs and in other food and beverages that are sold to students during the school day. The Superintendent shall manage a food service program that complies with this policy and is in alignment with School Board policy 6:50, *School Wellness.*

Food or beverage items sold to students as part of a reimbursable meal under federal law must follow the nutrition standards specified in the U.S. Dept. of Agriculture rules that implement the National School Lunch and Child Nutrition Acts. Schools being reimbursed for meals under these laws are *participating schools.*

The food service program in participating schools shall comply with the nutrition standards specified in the U.S. Dept. of Agriculture's *Smart Snacks rules* when it offers competitive foods to students on the school campus during the school day. *Competitive foods* are all food and beverages that are offered by any person, organization or entity for sale to students on the school campus during the school day that are not reimbursed under programs authorized by federal law. The food service programs in participating schools shall also comply with any applicable mandates in the Illinois State Board of Education's School Food Service rules implementing these federal laws and the Ill. ADOPTED: January 14, 2015
Notice

The Superintendent shall be responsible for implementing the District's free and reduced-price food services policy and all applicable programs.

Eligibility Criteria and Selection of Children

A student's eligibility for free and reduced-price food services shall be determined by the income eligibility guidelines, family-size income standards, set annually by the U.S. Dept. of Agriculture and distributed by the Ill. State Board of Education. From time to time, the income eligibility guidelines and standards may not be necessary when reimbursements for students' free breakfasts and lunches are claimed through the U.S. Depts. of Agriculture and Education's Community Eligibility Provision (CEP). When claiming the CEP, the District will follow its requirements.

Notification

At the beginning of each school year, by letter, the District shall notify students and their parents/guardians of: (1) eligibility requirements for free and reduced-price food service; (2) the application process; (3) the name and telephone number of a contact person for the program; and (4) other information required by federal law. The Superintendent shall provide the same information to: (1) informational media, the local unemployment office, and any major area employers contemplating layoffs; and (2) the District's website (if applicable), all school newsletters, or students' registration materials. Parents/guardians enrolling a child in the District for the first time, any time during the school year, shall receive the eligibility information.

Nondiscrimination Assurance

The District shall avoid publicly identifying students receiving free or reduced-price meals and shall use methods for collecting meal payments that prevent identification of children receiving assistance.

Appeal

A family may appeal the District's decision to deny an application for free and reduced-price food services or to terminate such services as outlined by the U.S. Dept. of Agriculture in 7 C.F.R. §245.7, Determining Eligibility for Free and Reduced-Price Meals and Free Milk in Schools. The Superintendent shall establish a hearing procedure for adverse eligibility decisions and provide by mail a copy of them to the family. The District may also use these procedures to challenge a child's continued eligibility for free or reduced-price meals or milk.

During an appeal, students previously receiving food service benefits shall not have their benefits terminated. Students who were denied benefits shall not receive benefits during the appeal. The status of a student’s appeal or eligibility for free or reduced-price food services shall not relieve the District of its obligation to provide him or her with a free meal or snack under the Hunger-Free Students’ Bill of Rights Act if he or she requests one, regardless of his or her ability to pay.

The Superintendent shall keep on file for a period of three years a record of any appeals made and the hearing record. The District shall also maintain accurate and complete records showing the data and method used to determine the number of eligible students served free and reduced-price food services. These records shall be maintained for three years.

4:140 Waiver of Student Fees

The Superintendent will recommend to the School Board a schedule of fees, if any, to be charged students for the use of textbooks, consumable materials, extracurricular activities, and other school student fees. Students must also pay for the loss of or damage to school books or other school-owned materials.

Fees for textbooks, other instructional materials, and driver education are waived for students who meet the eligibility criteria for a fee waiver as described in this policy. In order that no student is denied educational services or academic credit due to the inability of parents/guardians to pay student fees, the Superintendent will recommend to the Board which additional fees, if any, the District will waive for students who meet the eligibility criteria for fee waiver. Students receiving a fee waiver are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

Notification

The Superintendent shall ensure that applications for fee waivers are widely available and distributed according to State law and Ill State Board of Education (ISBE) rule and that provisions for assisting parents/guardians in completing the application are available.

Eligibility Criteria

A student shall be eligible for a fee waiver when the student currently lives in a household that meets the same income guidelines, with the same limits based on household size, that are used for the federal free meals program.

Verification

The Superintendent or designee shall establish a process for determining a student's eligibility for a waiver of fees in accordance with State law requirements. The Superintendent or designee may require family income verification at the time an individual applies for a fee waiver and anytime thereafter, but not more often than once every 60 calendar days. The Superintendent or designee shall not use any information from this or any independent verification process to determine free or reduced-price meal eligibility.

If a student receiving a fee waiver is found to be no longer eligible during the school year, the Superintendent or designee shall notify the student's parent/guardian and charge the student a prorated amount based upon the number of school days remaining in the school year.

Determination and Appeal

Within 30 calendar days after the receipt of a waiver request, the Superintendent or designee shall mail a notice to the parent/guardian whenever a waiver request is denied. The denial notice shall include: (1) the reason for the denial, (2) the process and timelines for making an appeal, and (3) a statement that the parent/guardian may reapply for a waiver any time during the school year if circumstances change. If the denial is appealed, the District shall follow the procedures for the resolution of appeals as provided in the ISBE rule on waiver of fees.

Standards for Managing Buildings and Grounds

All District buildings and grounds shall be adequately maintained in order to provide an appropriate, safe, and energy efficient physical environment for learning and teaching. The Superintendent or designee shall provide the Board with periodic reports on maintenance data and projected maintenance needs that include cost analysis. Prior Board approval is needed for all renovations or permanent alterations to buildings or grounds when the total cost will exceed $12,500, including the cost equivalent of staff time. This policy is not intended to discourage efforts to improve the appearance of buildings or grounds that are consistent with the designated use of those buildings and grounds.

Standards for Green Cleaning

For each District school with 50 or more students, the Superintendent or designee shall establish and supervise a green cleaning program that complies with the guidelines established by the Illinois Green Government Coordinating Council.

As appropriate, the Board will authorize a comprehensive study to determine the need for facility construction and expansion. On an annual basis, the Superintendent or designee shall provide the Board with projected facility needs, enrollment trends, and other data impacting facility use. Board approval is needed for all new facility construction and expansion.

When making decisions pertaining to design and construction of school facilities, the Board will confer with members of the staff and community, the Ill. State Board of Education, and educational and architectural consultants, as it deems appropriate. The Board’s facility goals are to:

1. Integrate facilities planning with other aspects of planning and goal-setting.
2. Base educational specifications for school buildings on identifiable student needs.
3. Design buildings for sufficient flexibility to permit new or modified programs.
4. Design buildings for maximum potential for community use.
5. Meet or exceed all safety requirements.
6. Meet requirements on the accessibility of school facilities to disabled persons as specified in State and federal law.
7. Provide for low maintenance costs, energy efficiency, and minimal environmental impact.

Naming Buildings and Facilities

Recognizing that the name for a school building, facility, or ground or field reflects on its public image, the Board’s primary consideration will be to select a name that enhances the credibility and stature of the school or facility. Any request to name or rename an existing facility should be submitted to the Board. When a facility is to be named or renamed, the Board President will appoint a special committee to consider nominations and make a recommendation, along with supporting rationale, to the Board. The Board will make the final selection. The Superintendent or designee may name a room or designate some area on a school’s property in honor of an individual or group that has performed outstanding service to the school without using the process in this policy.

2. Locate the required carbon monoxide alarms or carbon monoxide detectors within 20 feet of a carbon monoxide emitting device, and
3. Incorporate carbon monoxide alarm or detector activation procedures into each school building that requires a carbon monoxide alarm or detector. The Superintendent or designee shall ensure each school building annually reviews these procedures.

Soccer Goal Safety

A). Purpose

The Paxton-Buckley-Loda School Board has authorized the use of video cameras throughout the PBL School District for the purpose of enhancing school safety and security. Our goals are to promote and foster a safe and secure teaching and learning environment for students and staff, to ensure public safety for community members who visit or use our school property, and to diminish the potential for personal and district loss or destruction of property.

B). General Protocols

**Signage and Notification**: Signage will be posted at school buildings that notify students, parents, staff and the general public of the District’s use of security cameras. Students, parents and staff will receive additional notification at the beginning of the school year regarding the use of security cameras in the schools and on school grounds. Such notification will include, but not be limited to, staff handbooks and student handbooks.

These areas include, but are not limited to, grounds, exterior entrances or exits to school buildings and large gathering spaces such as corridors, cafeterias, lobbies, gymnasiums, and main entries. Security cameras will not be used where there is a reasonable expectation of privacy, including but not limited to restrooms, changing rooms, private offices, nurse’s offices, or locker rooms.

**Viewing**: There will be no monitoring of live recordings, except in the case of a suspected emergency or safety concern. Reviewing the recordings will occur only when a suspected incident is committed inside or outside the building. Viewing the data is to be performed by authorized personnel that have been expressly designated by the principal or Superintendent of Schools. A log book shall include the following details: the persons viewing the data, what event triggered the viewing, and the date/time viewed and be maintained by the building principal and made available to the Superintendent of Schools. No sound is to be monitored or recorded in connection with the video surveillance system. District transportation will monitor both audio and video. Surveillance system misuse shall be addressed on a case-by-case basis by the Superintendent of Schools.

**Limited Access to Recordings**: Any video recordings used for security purposes in school buildings or grounds are the sole property of the District. Release of such videos will be made only as permissible pursuant to applicable laws and with the permission of the Superintendent or his/her designee.

Access to video recordings from security camera shall be limited to school administrators and management (Superintendent/designee, School Principal/designee, and Transportation Director). Law enforcement officials shall be granted access to video recordings after giving prior notice to the School Superintendent/designee.

**Data Storage**: All video recordings and logs are stored in a secure place to avoid tampering and ensure confidentiality in accordance with applicable laws and regulations. Recordings will be saved for thirty (30) days and automatically deleted, unless being used in an ongoing investigation.

4:190 Targeted School Violence Prevention Program

Threats and acts of targeted school violence harm the District's environment and school community, diminishing students' ability to learn and a school's ability to educate. Providing students and staff with access to a safe and secure District environment is an important Board goal. While it is not possible for the District to completely eliminate threats in its environment, a Targeted School Violence Prevention Program (Program) using the collective efforts of local school officials, staff, students, families, and the community helps the District reduce these risks to its environment.

The Superintendent or designee shall develop and implement the Program. The Program oversees the maintenance of a District environment that is conducive to learning and working by identifying, assessing, classifying, responding to, and managing threats and acts of targeted school violence. The Program shall be part of the District’s Comprehensive Safety and Security Plan, required by Board policy 4:170, Safety, and shall:

1. Establish a District-level School Violence Prevention Team to: (a) develop a District-level Targeted School Violence Prevention Plan, and (b) oversee the District’s Building-level Threat Assessment Team(s).

2. Establish Building-level Threat Assessment Team(s) to assess and intervene with individuals whose behavior may pose a threat to safety. This team may serve one or more schools.

3. Comply with State and federal law and align with Board policies.

The Local Governmental and Governmental Employees Tort Immunity Act protects the District from liability. The Program does not: (1) replace the care of a physician licensed to practice medicine in all of its branches or a licensed medical practitioner or professional trained in violence prevention, assessments and counseling services, (2) extend beyond available resources within the District, (3) extend beyond the school day and/or school-sponsored events, or (4) guarantee or ensure the safety of students, District staff, or visitors.

5:30 Hiring Process and Criteria

The District hires the most qualified personnel consistent with budget and staffing requirements and in compliance with School Board policy on equal employment opportunity and minority recruitment. The Superintendent is responsible for recruiting personnel and making hiring recommendations to the Board. If the Superintendent's recommendation is rejected, the Superintendent must submit another. No individual will be employed who has been convicted of a criminal offense listed in Section 5/21B-80(c) of the School Code.

All applicants must complete a District application in order to be considered for employment.

Job Descriptions

The Board maintains the Superintendent's job description and directs, through policy, the Superintendent, in his or her charge of the District's administration.

The Superintendent shall develop and maintain a current comprehensive job description for each position or job category; however, a provision in a collective bargaining agreement or individual contract will control in the event of a conflict.

Investigations

The Superintendent or designee shall ensure that a fingerprint-based criminal history records check and a check of the Statewide Sex Offender Database and Violent Offender Against Youth Database is performed on each applicant as required by State law. When the applicant is a successful superintendent candidate who has been offered employment by the Board, the Board President shall ensure that these checks are completed. The Superintendent or designee, or if the applicant is a successful superintendent candidate, then the Board President shall notify an applicant if the applicant is identified in either database. The School Code requires the Board President to keep a conviction record confidential and share it only with the Superintendent, Regional Superintendent, State Superintendent, State Educator Preparation and Licensure Board, any other person necessary to the hiring decision, or for purposes of clarifying the information, the Ill. Dept. of State Police and/or Statewide Sex Offender Database. The Board reserves its right to authorize additional background inquiries beyond a fingerprint-based criminal history records check when it deems it appropriate to do so, in accordance with applicable laws.

Each newly hired employee must complete an Immigration and Naturalization Service Form as required by federal law.

The District retains the right to discharge any employee whose criminal background investigation reveals a conviction for committing or attempting to commit any of the offenses outlined in Section 5/21B-80 of the School Code or who falsifies, or omits facts from, his or her employment application or other employment documents.

The Superintendent shall ensure that the District does not engage in any investigation or inquiry prohibited by law and complies with each of the following:

1. The District uses an applicant's credit history or report from a consumer reporting agency only when a satisfactory credit history is an established bona fide occupational requirement of a particular position.
2. The District does not ask an applicant or applicant's previous employers about claim(s) made or benefit(s) received under the Workers' Compensation Act.
3. The District does not request of an applicant or employee access in any manner to his or her personal online account, such as social networking websites, including a request for passwords to such accounts.
4. The District provides equal employment opportunities to all persons. See policy 5:10, Equal Employment Opportunity and Minority Recruitment.

Physical Examinations

Each new employee must furnish evidence of physical fitness to perform assigned duties and freedom from communicable disease. The physical fitness examination must be performed by a physician licensed in Illinois, or any other state, to practice medicine and surgery in any of its branches, or an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority by his or her supervising physician to perform health examinations. The employee must have the physical examination performed no more than 90 days before submitting evidence of it to the District.

Any employee may be required to have an additional examination by a physician who is licensed in Illinois to practice medicine and surgery in all its branches, or an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the authority by his or her supervising physician to perform health examinations, if the examination is job-related and consistent with business necessity. Job Classifications

The Superintendent will ensure that all job positions are identified as either "exempt" or "non-exempt" according to State law and the Fair Labor Standards Act (FLSA) and that employees are informed whether they are "exempt" or "non-exempt." "Exempt" and "non-exempt" employee categories may include certificated and non-certificated job positions. All non-exempt employees, whether paid on a salary or hourly basis, are covered by minimum wage and overtime provisions.

"Overtime" is time worked in excess of 40 hours in a single workweek.

Overtime

A non-exempt employee shall not work overtime without his or her supervisor's express approval. All supervisors of non-exempt employees shall: (1) monitor overtime use on a weekly basis and report such use to the business office, (2) seek the Superintendent or designee's written pre-approval for any long term or repeated use of overtime that can be reasonably anticipated, (3) ensure that overtime provisions of this policy and the FLSA are followed, and (4) ensure that employees are compensated for any overtime worked. Accurate and complete time sheets of actual hours worked during the workweek shall be signed by each employee and submitted to the business office. The business office will review work records of employees on a regular basis, make an assessment of overtime use, and provide the assessment to the Superintendent. In lieu of overtime compensation, non-exempt employees may receive compensatory time-off, according to Board policy 5:310, Compensatory Time-Off.

Suspension Without Pay

No exempt employee shall have his or her salary docked, such as by an unpaid suspension, if the deduction would cause a loss of the exempt status. Licensed employees may be suspended without pay in accordance with Board policy 5:240, Professional Personnel - Suspension. Non-licensed employees may be suspended without pay in accordance with Board policy 5:290, Educational Support Personnel - Employment Termination and Suspensions.

Implementation

The Superintendent or designee shall implement the policy in accordance with the FLSA, including its required notices to employees. In the event of a conflict between the policy and State or federal law, the latter shall control.

Temporary Illness or Temporary Incapacity

A temporary illness or temporary incapacity is an illness or other capacity of ill-being that renders an employee physically or mentally unable to perform assigned duties. During such a period, the employee can use accumulated sick leave benefits. However, income received from other sources (worker's compensation, District-paid insurance programs, etc.) will be deducted from the District's compensation liability to the employee. The School Board's intent is that in no case will the employee, who is temporarily disabled, receive more than 100 percent of their gross salary.

Those insurance plans privately purchased by the employee and to which the District does not contribute, are not applicable to this policy.

After being absent 90 consecutive school days, or 90 days within 120 consecutive school days, in a school year due to illness or incapacity, or exhaustion of sick leave, whichever is greater, such illness or incapacity shall be considered a permanent disability and the School Board may begin dismissal proceedings subject to the provisions of the School Code and the Americans with Disabilities Act.

Any certified employee may be required to have an examination, at District expense, by a physician who is licensed in Illinois to practice medicine and surgery in all its branches, a licensed advanced practice registered nurse, or a licensed physician assistant if the examination is job-related and consistent with business necessity.

**5:185 Family and Medical Leave**

**Leave Description**

Eligible employees may use unpaid family and medical leave (FMLA leave), guaranteed by the federal Family and Medical Leave Act. The U.S. Department of Labor's rules (federal rules) implementing FMLA, as they may be amended from time to time, control FMLA leave.

An eligible employee may take FMLA leave for up to a combined total of 12 weeks each 12-month period for a combined total of 12 work weeks per rolling year.

During a single 12-month period, an eligible employee's FMLA leave entitlement may be extended to a total of 26 weeks of unpaid leave to care for a covered servicemember (defined in the federal rules) with a serious injury or illness. The "single 12-month period" is measured forward from the date the employee's first FMLA leave to care for the covered servicemember begins.

While FMLA leave is normally unpaid, the District will substitute an employee's accrued compensatory time-off and/or paid leave for unpaid FMLA leave. All policies and rules regarding the use of paid leave apply when paid leave is substituted for unpaid FMLA leave. Any substitution of paid leave for unpaid FMLA leave will count against the employee's FMLA leave entitlement. Use of family and medical leave shall not preclude the use of other applicable unpaid leave that will extend the employee's leave beyond 12 weeks, provided that the use of family and medical leave shall not serve to extend such other unpaid leave. Any full workweek period during which the employee would not have been required to work, including summer break, winter break and spring break, is not counted against the employee's FMLA leave entitlement.

FMLA leave is available in one or more of the following instances:

1. The birth and first-year care of a son or daughter.
2. The adoption or foster placement of a child, including absences from work that are necessary for the adoption or foster care to proceed and expiring at the end of the 12-month period beginning on the placement date.
3. The serious health condition of an employee's spouse, parent, or child. (see definition below)
4. The employee's own serious health condition that makes the employee unable to perform the functions of his or her job.
5. The existence of a qualifying exigency arising out of the fact that the employee's spouse, child, or parent is a military member on covered active duty or has been notified of an impending call or order to active duty, as provided in federal rules.
6. To care for the employee's spouse, child, parent, or next of kin who is a covered servicemember with a serious injury or illness, as provided by federal rules.

"Serious Health Condition" - A serious health condition is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities.

Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3 consecutive calendar days combined with at least two visits to a health care provider or one visit and a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

Employees may take an intermittent or reduced-hour family and medical leave when the reason for the leave is 3 or 4, above, with certain limitations provided by law.

Within 15 calendar days after the Superintendent makes a request, an employee must support a request for a family and medical leave when the reason for the leave is 3 or 4, above, with a certificate completed by the employee's or family member's health care provider. Failure to provide the certification may result in a denial of the leave request.

If both spouses are employed by the District, they may together take only 12-weeks for family and medical leaves when the reason for the leave is 3 or 4, above, or to care for a sick parent with a serious health condition, or a combined total of 26 weeks for item 6 above.

**Eligibility**

To be eligible for family and medical leave, an employee must have been employed by the District for at least 12 months (the 12 months need not be consecutive) and have been employed for at least 1,250 hours of service during the 12-month period immediately before the beginning of the leave. The District will not consider any period of previous employment that occurred more than seven years before the date of the most recent hiring, except when the service break is due to fulfillment of a covered service obligation under the employee's Uniformed Services Employment and Reemployment Rights Act (USERRA), 38 U.S.C. 4301, et seq., or when a written agreement exists concerning the District's intention to rehire the employee.

**Notice**

If possible, employees must provide at least 30 days’ notice to the District of the date when a leave is to begin. If 30 days' notice is not practicable, the notice must be given within two business days of when the need becomes known to the employee. Employees shall provide at least verbal notice sufficient to make the District aware that he or she needs a family and medical leave, and the anticipated timing and duration of the leave. Failure to give the required notice may result in a delay in granting the requested leave until at least 30 days after the date the employee provides notice.
Continuation of Health Benefits

During a family and medical leave, employees are entitled to continuation of health benefits that would have been provided if they were working.

Conditions of Family and Medical Leave of Absence

The following conditions apply to a leave of absence pursuant to this policy:

1. In its discretion, the district may require an employee taking an approved leave of absence to periodically report on his or her status and intention to return to work.

2. An employee taking leave of absence may not engage in other work or employment during the leave of absence. If an employee engages in other work or employment during the leave of absence, the employee will be considered to have violated the terms of the leave of absence, and to have voluntarily terminated his or her employment with the district.

3. If an employee is granted a leave of absence on an intermittent basis or on a reduced schedule basis, the district may require the employee to temporarily transfer to an alternative position that accommodates the employee's recurring absences or part-time schedule.

4. When applicable, spouses that are both employed by the district are entitled to 12 work weeks of leave in total if the leave is for the birth, adoption, or for the care of or placement of a child, or to care for a parent with a serious health condition.; and

5. If at the time of applying for a leave of absence or during the leave of absence the employee intends not to return to work or decides not to return to work after the completion of the leave of absence, the employee will be liable and required to reimburse the district for the cost of payments made to maintain the employee's benefits during the leave of absence.

Return to Work

An employee returning from a family and medical leave will be given an equivalent position to his or her position before the leave, subject to the District's reassignment policies and practices.

Classroom teachers may be required to wait to return to work until the next semester in certain situations as provided by law.

Upon returning from an approved leave of absence granted as a result of an employee's own serious health condition, an employee must present written medical certification from his or her medical care provider stating that he or she is able to perform the essential functions of his or her job with or without reasonable accommodation. At that time, the district will place the employee in his or her former position. If the former position is not available, the employee will be placed in an equivalent position with equivalent compensation and benefits.

Implementing Procedures

The Superintendent shall develop procedures to implement this policy consistent with the federal Family and Medical Leave Act.

Maintaining an orderly learning environment is an essential part of each teacher's instructional responsibilities. A teacher's ability to foster appropriate student behavior is an important factor in the teacher's educational effectiveness. The Superintendent shall ensure that all teachers, other certificated employees, and persons providing a student's related service(s): (1) maintain discipline in the schools as required in the School Code, and (2) follow the School Board policies and administrative procedures on student conduct, behavior, and discipline.

When a student's behavior is unacceptable, the teacher should first discuss the matter with the student, if appropriate. **Suspension Without Pay**

The School Board may suspend without pay: (1) a professional employee pending a dismissal hearing, or (2) a teacher as a disciplinary measure for up to 30 employment days for misconduct that is detrimental to the School District. Administrative staff members may not be suspended without pay as a disciplinary measure.

Misconduct that is detrimental to the School District includes:

- Insubordination, including any failure to follow an oral or written directive from a supervisor;
- Violation of Board policy or Administrative Procedure;
- Conduct that disrupts or may disrupt the educational program or process;
- Conduct that violates any State or federal law that relates to the employee’s duties; and
- Other sufficient causes.

The Superintendent or designee is authorized to issue a pre-suspension notification to a professional employee. This notification shall include the length and reason for the suspension as well as the deadline for the employee to exercise his or her right to appeal the suspension to the Board or Board-appointed hearing examiner before it is imposed. At the request of the professional employee made within five calendar days of receipt of a pre-suspension notification, the Board or Board-appointed hearing examiner will conduct a pre-suspension hearing. The Board or its designee shall notify the professional employee of the date and time of the hearing. At the pre-suspension hearing, the professional employee or his/her representative may present evidence. If the employee does not appeal the pre-suspension notification, the Superintendent or designee shall report the action to the Board at its next regularly scheduled meeting.

**Suspension With Pay**

The Board or Superintendent or designee may suspend a professional employee with pay: (1) during an investigation into allegations of disobedience or misconduct whenever the employee’s continued presence in his or her position would not be in the School District’s best interests, (2) as a disciplinary measure for misconduct that is detrimental to the School District as defined above, or (3) pending a Board hearing to suspend a teacher without pay.

The Superintendent shall meet with the employee to present the allegations and give the employee an opportunity to refute the charges. The employee will be told the dates and times the suspension will begin and end.

**Employees Under Investigation by Illinois Dept. of Children and Family Services (DCFS)**

Upon receipt of a DCFS recommendation that the District remove an employee from his or her position when he or she is the subject of a pending DCFS investigation that relates to his or her employment with the District, the Board or Superintendent or designee, in consultation with the Board Attorney, will determine whether to:

1. Let the employee remain in his or her position pending the outcome of the investigation; or
2. Remove the employee as recommended by DCFS, proceeding with:
   a. A suspension with pay; or
   b. A suspension without pay.

**Repayment of Compensation and Benefits**

If a professional employee is suspended with pay, either voluntarily or involuntarily, pending the outcome of a criminal investigation or prosecution, and the employee is later dismissed as a result of his or her criminal conviction, the employee must repay to the District all compensation and the value of all benefits received by him or her during the suspension. The Superintendent will notify the employee of this requirement when the employee is suspended.

Sick and Bereavement Leave, Sabbatical Leave, Personal Leave, Maternity Leave, Association Leave, Professional Leave

Please refer to the following current agreement:

Agreement Between Paxton-Buckley-Loda Community Unit School District No. 10 Board of Education and Paxton-Buckley-Loda Education Association.

Child Bereavement Leave

State law allows a maximum of 10 unpaid work days for eligible employees (Family and Medical Leave Act of 1993, 20 U.S.C. §2601 et seq.) to take child bereavement leave. The purpose, requirements, scheduling, and all other terms of the leave are governed by the Child Bereavement Leave Act. Child bereavement leave allows for: (1) attendance by the bereaved staff member at the funeral or alternative to a funeral of his or her child, (2) making arrangements necessitated by the death of the staff member's child, or (3) grieving the death of the staff member's child, without any adverse employment action.

The leave must be completed within 60 days after the date on which the employee received notice of the death of his or her child. However, in the event of the death of more than one child in a 12-month period, an employee is entitled to up to a total of six weeks of bereavement leave during the 12-month period, subject to certain restrictions under State and federal law. Other existing forms of leave may be substituted for the leave provided in the Child Bereavement Leave Act. This policy does not create any right for an employee to take child bereavement leave that is inconsistent with the Child Bereavement Leave Act.

Leaves for Service in the Military

Leaves for service in the U.S. Armed Services or any of its reserve components and the National Guard, as well as re-employment rights, will be granted in accordance with State and federal law. A professional staff member hired to replace one in military service does not acquire tenure.

General Assembly Leave

Leaves for service in the General Assembly, as well as re-employment rights, will be granted in accordance with State and federal law. A professional staff member hired to replace one in the General Assembly does not acquire tenure.

School Visitation Leave

An eligible professional staff member is entitled to eight hours during any school year, no more than four hours of which may be taken on any given day, to attend school conferences or classroom activities related to the teacher's child, if the conference or activity cannot be scheduled during non-work hours. Professional staff members must first use all accrued vacation leave, personal leave, compensatory leave, and any other leave that may be granted to the professional staff member, except sick, and disability leave.

The Superintendent shall develop administrative procedures implementing this policy consistent with the School Visitation Rights Act.

Leaves for Victims of Domestic or Sexual Violence

An unpaid leave from work is available to any staff member who: (1) is a victim of domestic or sexual violence, or (2) has a family or household member who is a victim of domestic or sexual violence whose interests are not adverse to the employee as it relates to the domestic or sexual violence. The unpaid leave allows the employee to seek medical help, legal assistance, counseling, safety planning, and other assistance without suffering adverse employment action.

The Victims' Economic Security and Safety Act governs the purpose, requirements, scheduling, and continuity of benefits, and all other terms of the leave. Accordingly, if the District employs at least 50 employees, an employee is entitled to a total of 12 work weeks of unpaid leave during any 12-month period. Neither the law nor this policy creates a right for an employee to take unpaid leave that exceeds the unpaid leave time allowed under, or is in addition to the unpaid leave time permitted by, the federal Family and Medical Leave Act of 1993 (29 U.S.C. §2601 et seq.).

Leaves to Serve as an Officer or Trustee of a Specific Organization

Upon request, the Board will grant: (1) an unpaid leave of absence to an elected officer of a State or national teacher organization that represents teachers in collective bargaining negotiations, (2) twenty days of paid leave of absence per year to a trustee of the Teachers' Retirement System in accordance with 105 ILCS 5/24-6.3, and (3) a paid leave of absence for the local association president of a State teacher association that is an exclusive bargaining agent in the District, or his or her designee, to attend meetings, workshops, or seminars as described in 105 ILCS 5/24-6.2.

Leave to Serve as an Election Judge

Any staff member who was appointed to serve as an election judge under State law may, after giving at least 20-days' written notice to the District, be absent without pay for the purpose of serving as an election judge. The staff member is not required to use any form of paid leave to serve as an election judge. No more than 10% of the District's employees may be absent to serve as election judge.

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the Ill. State Board of Education (ISBE) prepared State Goals for Learning with accompanying Illinois Learning Standards.

The School Board gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

- Develop a home/school communication link that serves as a source for parents to obtain information about school and activities in general and their student in particular.
- Provide technology hardware and software that is as current as funds allow and readily accessible so that students have opportunities to use software and hardware that enhance learning activities, stretch their imagination and challenge them to work productively and creatively.

6:280 Grading and Promotion

The Superintendent shall establish a system of grading and reporting academic achievement to students and their parents/guardians. The system shall also determine when promotion and graduation requirements are met. 1. Distance learning course, including a correspondence, virtual, or online course
2. Courses in an accredited foreign exchange program
3. Summer school or community college courses

The student must seek approval from the Superintendent or designee to receive graduation credit for any non-District course or experience. The Superintendent or designee shall determine the amount of credit and whether a proficiency examination is required before the credit is awarded. As approval is not guaranteed, students should seek conditional approval of the experience before participating in a non-District course or experience. The student assumes responsibility for any fee, tuition, supply, or other expense. The student seeking credit is responsible for (1) providing documents or transcripts that demonstrate successful completion of the experience, and (2) taking a proficiency examination, if requested. A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated below. The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances, as appropriate.

A student who is eligible for special education may be excused from physical education courses pursuant to 7:260, Exemption from Physical Education. Re-Entering Students

Individuals younger than 21 years of age may re-enter high school to acquire a high school diploma or an equivalency certificate, subject to the limitations in Board policy 7:50, School Admissions and Student Transfers To and From Non-District Schools. The Superintendent or designee may investigate, coordinate, and implement a program for students in grades 7 and 8 to enroll in a course required for a high school diploma.

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma when the course is offered by the high school that the elementary student would attend and either of the following is satisfied: (1) the student participates in the course at the high school and the elementary student’s enrollment in the course would not prevent a high school student from being able to enroll, or (2) the student participates in the course where the student attends school as long as the course is taught by a teacher who holds a professional educator license with an endorsement for the grade level and content area of the course.

A student who successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive academic credit for the course. That academic credit shall satisfy the requirements of Section 27-22 of the School Code for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. The student's grade in the course shall also be included in the student's grade point average.

Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent or designee is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

Proficiency credit will be offered in the following subject areas:

Foreign language - A student is eligible to receive one year of foreign language credit if the student has graduated from an accredited elementary school and can demonstrate proficiency, according to this District's academic criteria, in a language other than English. A student who demonstrates proficiency in American Sign Language is deemed proficient in a foreign language and will receive one year of foreign language credit. A student who studied a foreign language in an approved ethnic school program is eligible to receive appropriate credit according to the level of proficiency reached; the student may be required to take a proficiency examination.

Other proficiency testing - The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program.

Requests for part-time attendance must be submitted to the Building Principal of the school in the school attendance area where the student resides. All requests for attendance in the following school year must be submitted before May 1.

Transportation for such students shall be provided only if required in the child's individualized educational program on the basis of the child's disabling condition or as the special education program location may require.

Extracurricular Activities, Including Interscholastic Competition

A nonpublic school student is eligible to participate in: (1) band interscholastic competition, provided his or her participation adheres to the regulations established by any association in which the School District maintains a membership, and (2) provided the student attends a District school for at least one period of band. A nonpublic student who participates in band is subject to all policies, regulations, and rules that are applicable to other participants in the activity.

Assignment When Enrolling Full-Time in a District School

Grade placement by, and academic credits earned at, a nonpublic school will be accepted if the school has a Certificate of Nonpublic School Recognition from the Illinois State Board of Education, or, if outside Illinois, if the school is accredited by the state agency governing education.

A student who, after receiving instruction in a non-recognized or non-accredited school, enrolls in the District will: (1) be assigned to a grade level according to academic proficiency, and/or (2) have academic credits recognized by the District if the student demonstrates appropriate academic proficiency to the school administration. Any portion of a student's transcript relating to such instruction will not be considered for placement on the honor roll or computation in class rank.

Notwithstanding the above, recognition of grade placement and academic credits awarded by a nonpublic school is at the sole discretion of the District. All school and class assignments will be made according to School Board policy 7:30, Student Assignment, as well as administrative procedures implementing this policy.

7:50 School Admissions and Student Transfers To and From Non-District Schools

Age

To be eligible for admission, a child must be 5 years old on or before September 1 of that school term. A child entering first grade must be 6 years of age on or before September 1 of that school term. Based upon an assessment of a child's readiness to attend school, the District may permit him or her to attend school prior to these dates. A child will also be allowed to attend first grade based upon an assessment of his or her readiness if he or she attended a non-public preschool, continued his or her education at that school through kindergarten, was taught in kindergarten by an appropriately licensed teacher, and will be 6 years old on or before December 31. A child with exceptional needs who qualifies for special education services is eligible for admission at 3 years of age. Early entrance to kindergarten or first grade may also be available through Board policy 6:135, Accelerated Placement Program.

Admission Procedure

All students must register for school each year on the dates and at the place designated by the Superintendent. Parents/guardians of students enrolling in the District for the first time must present:

1. A certified copy of the student's birth certificate. If a birth certificate is not presented, the Superintendent or designee shall notify in writing the person enrolling the student that within 30 days he or she must provide a certified copy of the student's birth certificate. A student will be enrolled without a birth certificate. When a certified copy of the birth certificate is presented, the school shall promptly make a copy for its records, place the copy in the student's permanent record, and return the certified copy to the person enrolling the child. If a person enrolling a student fails to provide a certified copy of the student's birth certificate, the Superintendent or designee shall immediately notify the local law enforcement agency, and shall also notify the person enrolling the student in writing that, unless he or she complies within 10 days, the case will be referred to the local law enforcement authority for investigation. If compliance is not obtained within that 10-day period, the Superintendent or designee shall so refer the case. The Superintendent or designee shall immediately report to the local law enforcement authority any material received pursuant to this paragraph that appears inaccurate or suspicious in form or content.

2. Proof of residence, as required by Board policy 7:60, Residence.

3. Proof of disease immunization or detection and the required physical examination, as required by State law and Board policy 7:100, Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students.

The individual enrolling a student shall be given the opportunity to voluntarily state whether the student has a parent or guardian who is a member of a branch of the U. S. Armed Forces and who is either deployed to active duty or expects to be deployed to active duty during the school year. Students who are children of active duty military personnel transferring will be allowed to enter: (a) the same grade level in which they studied at the school from which they transferred, if the transfer occurs during the District's school year, or (b) the grade level following the last grade completed.

Homeless Children

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce records normally required for enrollment. Board policy 6:140, Education of Homeless Children, and its implementing administrative procedure, govern the enrollment of homeless children.

Foster Care Students

The Superintendent will appoint at least one employee to act as a liaison to facilitate the enrollment and transfer of records of students in the legal custody of the Illinois Department of Children and Family Services when enrolling in or changing schools.

Student Transfers To and From Non-District Schools

A student may transfer into or out of the District according to State law and procedures developed by the Superintendent or designee. A student seeking to transfer into the District must serve the entire term of any suspension or expulsion, imposed for any reason by any public or private school, in this or any other state, before being admitted into the School District.

Foreign Students

The District accepts foreign exchange students with a J-1 visa and who reside within the District as participants in an exchange program sponsored by organizations screened by administration. Exchange students on a J-1 visa are not required to pay tuition.

Privately sponsored exchange students on an F-1 visa may be enrolled if an adult resident of the District has temporary guardianship, and the student lives in the home of that guardian. Exchange students on an F-1 visa are required to pay tuition at the established District rate. F-1 visa student admission is limited to high schools, and attendance may not exceed 12 months.

The Board may limit the number of exchange students admitted in any given year. Exchange students must comply with District immunization requirements. Once admitted, exchange students become subject to all District policies and regulations governing students.

Re-enrollment

Re-enrollment shall be denied to any individual 19 years of age or above who has dropped out of school and who could not earn sufficient credits during the normal school year(s) to graduate before his or her 21st birthday. However, at the Superintendent's or designee's discretion and depending on program availability, the individual may be enrolled in a graduation incentives program established under 105 ILCS 5/26-16 or an alternative learning opportunities program established under 105 ILCS 5/13B-1 (see
Before being denied re-enrollment, the District will offer the individual due process as required in cases of expulsion under policy 7:210, Expulsion Procedures. A person denied re-enrollment will be offered counseling and be directed to alternative educational programs, including adult education programs that lead to graduation or receipt of a GED diploma. This section does not apply to students eligible for special education under the Individuals with Disabilities Education Improvement Act or accommodation plans under the Rehabilitation Act, Section 504.

Resident Students

Only students who are residents of the District may attend a District school without a tuition charge, except as otherwise provided below or in State law. A student's residence is the same as the person who has legal custody of the student.

A person asserting legal custody over a student, who is not the child's natural or adoptive parent, shall complete a signed statement, stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than to receive an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency. If the District knows the current address of the child's natural or adoptive parent, the District shall request in writing that the person complete a signed statement or Power of Attorney stating: (a) the role and responsibility of the person with whom the child is living, and (b) that the person with whom the child is living has full control over the child regarding daily educational and medical decisions in case of emergency.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition.

When a student's change of residence is due to the military service obligation of the student's legal custodian, the student's residence is deemed to be unchanged for the duration of the custodian's military service obligation if the student's custodian made a written request. The District, however, is not responsible for the student's transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District, but will be living within the District within 60 days after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition.

Admission of Nonresident Students

1. A written agreement with cultural exchange organizations and institutions supported by charity to provide for tuition-free attendance by foreign exchange students and nonresident pupils of charitable institutions.

2. According to an intergovernmental agreement.

3. Whenever any State or federal law or a court order mandates the acceptance of a nonresident student.

Homeless Children

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce records normally required to establish residency. School Board policy 6:140, Education of Homeless Children, and its implementing administrative procedure, govern the enrollment of homeless children.

Challenging a Student's Residence Status

If the Superintendent or designee determines that a student attending school on a tuition-free basis is a nonresident of the District for whom tuition is required to be charged, he or she on behalf of the School Board shall notify the person who enrolled the student of the tuition amount that is due. The notice shall detail the specific reasons why the Board believes that the student is a nonresident of the District and shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge this determination and request a hearing as provided by the School Code, 105 ILCS 5/10-20.12b.

Subject to specific requirements in State law, the following children are not required to attend public school: (1) any child attending a private school (including a home school) or parochial school, (2) any child who is physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, (5) any child absent because his or her religion forbids secular activity on a particular day, and (6) any child 16 years of age or older who is employed and is enrolled in a graduation incentives program.

The parent/guardian of a student who is enrolled must authorize all absences from school and notify the school in advance or at the time of the student's absence. A valid cause for absence includes illness, observance of a religious holiday, death in the immediate family, family emergency, other situations beyond the control of the student, other circumstances that cause reasonable concern to the parent/guardian for the student's safety or health, or other reason as approved by the Superintendent or designee.

Absenteism and Truancy Program

The Superintendent or designee shall manage an absenteeism and truancy program in accordance with the School Code and School Board policy. The program shall include but not be limited to:

1. A protocol for excusing a student from attendance who is necessarily and lawfully employed. The Superintendent or designee is authorized to determine when the student's absence is justified.
2. A protocol for excusing a student in grades 6 through 12 from attendance to sound Taps at a military honors funeral held in Illinois for a deceased veteran.
3. A protocol for excusing a student from attendance on a particular day(s) or at a particular time of day when his/her parent/guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings.
4. A process to telephone, within two hours after the first class, the parents/guardians of students in grade 8 or below who are absent without prior parent/guardian notification.
5. A process to identify and track students who are truants, chronic or habitual truants, or truant minors as defined in the School Code, Section 26-2a.
6. A description of diagnostic procedures for identifying the cause(s) of a student's unexcused absenteeism, including interviews with the student, his or her parent(s)/guardian(s), and staff members or other people who may have information about the reasons for the student's attendance problem.
7. The identification of supportive services that may be offered to truant, chronically truant, or chronically absent students, including parent-teacher conferences, student and/or family counseling, or information about community agency services. See Board policy 6:110, Programs for Students At Risk of Academic Failure and/or Dropping Out of School and Graduation Incentives Program.
8. Reasonable efforts to provide ongoing professional development to teachers, administrators, Board members, school resource officers, and staff on the appropriate and available supportive services for the promotion of student attendance and engagement.
9. A process to request the assistance and resources of outside agencies, such as, the juvenile officer of the local police department or the truant office of the appropriate Regional Office of Education, if truancy continues after supportive services have been offered.
10. A protocol for cooperating with non-District agencies including County or municipal authorities, the Regional Superintendent, truant officers, the Community Truancy Review Board, and a comprehensive community based youth service agency. Any disclosure of school student records must be consistent with Board policy 7:340, Student Records, as well as State and federal law concerning school student records.
11. An acknowledgement that no punitive action, including out-of-school suspensions, expulsions, or court action, shall be taken against a truant minor for his or her truancy unless available supportive services and other school resources have been provided to the student.
12. The criteria to determine whether a student's non-attendance is due to extraordinary circumstances shall include economic or medical necessity or family hardship and such other criteria that the Superintendent believes qualifies.
13. A process for a 17-year-old resident to participate in the District's various programs and resources for truants. The student must provide documentation of his/her dropout status for the previous 6 months. A request from an individual 19 years of age or older to re-enroll after having dropped out of school is handled according to provisions in 7:50, Students School Admissions and Student Transfers To and From Non-District Schools.
14. A process for the temporary exclusion of a student 17 years of age or older for failing to meet minimum attendance standards according to provisions in State law. A parent/guardian has the right to appeal a decision to exclude a student.

Required Health Examinations and Immunizations

A student's parent(s)/guardian(s) shall present proof that the student received a health examination, with proof of the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health (IDPH), within one year prior to:

1. Entering kindergarten or the first grade;  
2. Entering the sixth and ninth grades; and  
3. Enrolling in an Illinois school, regardless of the student's grade (including nursery school, special education, Head Start programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

Proof of immunization against meningococcal disease is required for students in grades 6 and 12.

As required by State law:

1. Health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening is a required part of each health examination; diabetes testing is not required.
3. Beginning with the 2017-2018 school year, an age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening.
4. Before admission and in conjunction with required physical examinations, parent(s)/guardian(s) of children between the ages of one and seven years must provide a statement from a physician that their child was risk-assessed or screened for lead poisoning.
5. The IDPH will provide all students entering sixth grade and their parent(s)/guardian(s) information about the link between human papillomavirus (HPV) and HPV-related cancers and the availability of the HPV vaccine.
6. The District will provide informational materials regarding influenza, influenza vaccinations, meningococcal disease, and meningococcal vaccinations developed, provided, or approved by the IDPH when it provides information on immunizations, infectious diseases, medications, or other school health issues to students’ parent(s)/guardian(s).

Unless an exemption or extension applies, the failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after October 15 of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or a local health department responsible for administering the immunizations.

A student transferring from out-of-state who does not have the required proof of immunizations by October 15 may attend classes only if he or she has proof that an appointment for the required vaccinations is scheduled with a party authorized to submit proof of the required vaccinations. If the required proof of vaccination is not submitted within 30 days after the student is permitted to attend classes, the student may no longer attend classes until proof of the vaccinations is properly submitted.

Eye Examination

Parent(s)/guardian(s) are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parent(s)/guardian(s) of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

If a student fails to present proof by October 15, the school may hold the student's report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15. The Superintendent or desighee shall ensure that parent(s)/guardian(s) are notified of this eye examination requirement in compliance with the rules of the IDPH. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

Dental Examination

All children in kindergarten and the second, sixth, and ninth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the IDPH.

If a child in the second, sixth, or ninth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or desighee shall ensure that parent(s)/guardian(s) are notified of this dental examination requirement at least 60 days before May 15 of each school year.
Exemptions

In accordance with rules adopted by the IDPH, a student will be exempted from this policy's requirements for:

1. Religious grounds, if the student's parent(s)/guardian(s) present the IDPH's Certificate of Religious Exemption form to the Superintendent or designee. When a Certificate of Religious Exemption form is presented, the Superintendent or designee shall immediately inform the parent(s)/guardian(s) of exclusion procedures pursuant to Board policy 7:280, *Communicable and Chronic Infectious Disease* and State rules if there is an outbreak of one or more diseases from which the student is not protected.

2. Health examination or immunization requirements on medical grounds, if the examining physician, advanced registered practice nurse, or physician assistant provides written verification.

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there. This paragraph applies to student vehicles parked on school property. In addition, Building Principals shall require each high school student, in return for the privilege of parking on school property, to consent in writing to school searches of his or her vehicle, and personal effects therein, without notice and without suspicion of wrongdoing.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Notification Regarding Student Accounts or Profiles on Social Networking Websites

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, 105 ILCS 75/:

1. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.
2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Bullying, intimidation, and harassment diminish a student’s ability to learn and a school’s ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and it does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

Definitions from Section 27-23.7 of the School Code (105 ILCS 5/27-23.7)

**Bullying** includes cyberbullying and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student’s or students’ person or property;
2. Causing a substantially detrimental effect on the student’s or students’ physical or mental health;
3. Substantially interfering with the student’s or students’ academic performance; or
4. Substantially interfering with the student’s or students’ ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

**Restorative measures** means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students’ behavioral health needs in order to keep students in school.

**School personnel** means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

**Bullying Prevention and Response Plan**

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District’s goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the following requirements:

1. Using the definition of bullying as provided in this policy, the Superintendent or designee shall emphasize to the school community that: (1) the District prohibits bullying, and (2) all students should conduct themselves with a proper regard for the rights and welfare of other students. This may include a process for commending or acknowledging students for demonstrating appropriate behavior.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District’s bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.
3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Nondiscrimination
Coordinator, Building Principal, Assistant Building Principal, Dean of Students, a Complaint Manager, or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. The District named officials and all staff members are available for help with a bully or to make a report about bullying. Anonymous reports are also accepted at 217/379-3314.

4. Consistent with federal and State laws and rules governing student privacy rights, the Superintendent or designee shall promptly inform parent(s)/guardian(s) of all students involved in an alleged incident of bullying and discuss, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.

5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:

   a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.
   
   b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
   
   c. Notifying the Building Principal or school administrator or designee of the report of the incident of bullying as soon as possible after the report is received.
   
   d. Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

   The Superintendent or designee shall investigate whether a reported act of bullying is within the permissible scope of the District’s jurisdiction and shall require that the District provide the victim with information regarding services that are available within the District and community, such as counseling, support services, and other programs.

6. The Superintendent or designee shall use interventions to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.

7. A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student’s act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

8. A student will not be punished for reporting bullying or supplying information, even if the District’s investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

9. The District’s bullying prevention and response plan must be based on the engagement of a range of school stakeholders, including students and parents/guardians.

10. The Superintendent or designee shall post this policy on the District’s website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must be distributed annually to parents/guardians, students, and school personnel (including new employees when hired), and must also be provided periodically throughout the school year to students and faculty.

11. The Superintendent or designee shall assist the Board with its evaluation and assessment of this policy’s outcomes and effectiveness. This process shall include, without limitation:

   a. The frequency of victimization;
   
   b. Student, staff, and family observations of safety at a school;
   
   c. Identification of areas of a school where bullying occurs;
   
   d. The types of bullying utilized; and
   
   e. Bystander intervention or participation.

   The evaluation process may use relevant data and information that the District already collects for other purposes. The Superintendent or designee must post the information developed as a result of the policy evaluation on the District’s website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students.
12. The District’s bullying prevention plan must be consistent with other Board policies.

13. The Superintendent or designee shall fully inform staff members of the District’s goal to prevent students from engaging in bullying and the measures being used to accomplish it. This includes each of the following:

   a. Communicating the District’s expectation and State law requirement that teachers and other certificated or licensed employees maintain discipline.

   b. Establishing the expectation that staff members: (1) intervene immediately to stop a bullying incident that they witness or immediately contact building security and/or law enforcement if the incident involves a weapon or other illegal activity, (2) report bullying, whether they witness it or not, to an administrator, and (3) inform the administration of locations on school grounds where additional supervision or monitoring may be needed to prevent bullying.

   c. Where appropriate in the staff development program, providing strategies to staff members to effectively prevent bullying and intervene when it occurs.

   d. Establishing a process for staff members to fulfill their obligation to report alleged acts of bullying.

The goals and objectives of this policy are to provide effective discipline practices that: (1) ensure the safety and dignity of students and staff; (2) maintain a positive, weapons-free, and drug-free learning environment; (3) keep school property and the property of others secure; (4) address the causes of a student’s misbehavior and provide opportunities for all individuals involved in an incident to participate in its resolution; and (5) teach students positive behavioral skills to become independent, self-disciplined citizens in the school community and society.

When and Where Conduct Rules Apply

A student is subject to disciplinary action for engaging in prohibited student conduct, as described in the section with that name below, whenever the student’s conduct is reasonably related to school or school activities, including, but not limited to:

Prohibited Student Conduct

The school administration is authorized to discipline students for gross disobedience or misconduct, including but not limited to:

1. Using, possessing, distributing, purchasing, or selling tobacco or nicotine materials, including without limitation, electronic cigarettes.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence of an alcoholic beverage are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.

   b. Any anabolic steroid unless it is being administered in accordance with a physician’s or licensed practitioner’s prescription.

The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited.
   e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student’s use of asthma or other legally prescribed inhalant medications.
   f. Any substance inhaled, injected, smoked, consumed, or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in tablet or powdered form.

   h. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.

Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they had the prohibited substance, as applicable, in their possession.

8. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, altering report cards, and wrongfully obtaining test copies or scores.
9. Engaging in hazing or any kind of bullying or aggressive behavior that does physical or psychological harm to a staff person or another student, or urging other students to engage in such conduct. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, bullying using a school computer or a school computer network, or other comparable conduct.
10. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning), and sexual assault. This does not include the non-disruptive: (a) expression of gender or sexual orientation or preference, or (b) display of affection during non-instructional time.

11. Teen dating violence, as described in Board policy 7:185, Teen Dating Violence Prohibited.

13. Entering school property or a school facility without proper authorization.

14. 15. Being absent without a recognized excuse; State law and School Board policy regarding truancy control will be used with chronic and habitual truants.

16. Being involved with any public school fraternity, sorority, or secret society, by: (a) being a member; (b) promising to join; (c) pledging to become a member; or (d) soliciting any other person to join, promise to join, or be pledged to become a member.

20. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Superintendent or designee.

21. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

For purposes of this policy, the term possession includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student’s person; (b) contained in another item belonging to, or under the control of, the student, such as in the student’s clothing, backpack, or automobile; (c) in a school’s student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board’s authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student’s parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student’s parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, Bus Conduct.
11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, Suspension Procedures. A student who has been suspended shall also be restricted from being on school grounds and at school activities.
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years in accordance with Board policy 7:210, Expulsion Procedures. A student who has been expelled shall also be restricted from being on school grounds and at school activities.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.

14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), look-alikes, alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion. Students enrolled in the District’s State-funded preschool program(s) may be temporarily removed or transitioned to a new program in accordance with federal and State law. State law prohibits the expulsion of students from the program(s).

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

**Weapons**

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1).

2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including look-alikes of any firearm as defined above.

The expulsion requirement under either paragraph 1 or 2 above may be modified by the Superintendent, and the Superintendent’s determination may be modified by the Board on a case-by-case basis. The Superintendent or designee may grant an exception to this policy, upon the prior request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy’s prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

**Re-Engagement of Returning Students**

The Superintendent or designee shall maintain a process to facilitate the re-engagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student’s ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

**Required Notices**

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, State Police, and any involved student's parent/guardian. “School grounds” includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

**Delegation of Authority**

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Building Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 school days for safety reasons.

**Student Handbook**

The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the
District's disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students' parents/guardians within 15 days of the beginning of the school year or a student's enrollment.

   c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;
   d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
   e. Depending upon the length of the out-of-school suspension, include the following applicable information:
      i. For a suspension of 3 school days or less, an explanation that the student's continuing presence in school would either pose:
         a) A threat to school safety, or
         b) A disruption to other students' learning opportunities.
      ii. For a suspension of 4 or more school days, an explanation:
         a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
         b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student, and
         c) That the student's continuing presence in school would either:
            i) Pose a threat to the safety of other students, staff, or members of the school community, or
            ii) Substantially disrupt, impede, or interfere with the operation of the school.

5. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Superintendent or designee.
6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from the Department of Human Services to consult with the Board. After presentation of the evidence or receipt of the hearing officer's report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the Board's written suspension decision shall specifically detail items (a) and (e) in number 4, above.

The Superintendent or designee shall implement expulsion procedures that provide, at a minimum, for the following:

1. Before a student may be expelled, the student and his or her parent(s)/guardian(s) shall be provided a written request to appear at a hearing to determine whether the student should be expelled. The request shall be sent by registered or certified mail, return receipt requested. The request shall:
   a. Include the time, date, and place for the hearing.
   b. Briefly describe what will happen during the hearing.
   c. Detail the specific act of gross disobedience or misconduct resulting in the decision to recommend expulsion.
   d. List the student's prior suspension(s).
   e. State that the School Code allows the School Board to expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis.
   f. Ask that the student or parent(s)/guardian(s) or attorney inform the Superintendent or Board Attorney if the student will be represented by an attorney and, if so, the attorney's name and contact information.

2. Unless the student and parent(s)/guardian(s) indicate that they do not want a hearing or fail to appear at the designated time and place, the hearing will proceed. It shall be conducted by the Board or a hearing officer appointed by it. If a hearing officer is appointed, he or she shall report to the Board the evidence presented at the hearing and the Board shall take such final action as it finds appropriate. Whenever there is evidence that mental illness may be the cause for the recommended expulsion, the Superintendent or designee shall invite a representative from the Dept. of Human Services to consult with the Board.

3. During the expulsion hearing, the Board or hearing officer shall hear evidence concerning whether the student is guilty of the gross disobedience or misconduct as charged. School officials must provide: (1) testimony of any other interventions attempted and exhausted or of their determination that no other appropriate and available interventions were available for the student, and (2) evidence of the threat or disruption posed by the student. The student and his or her parent(s)/guardian(s) may be represented by counsel, offer evidence, present witnesses, cross-examine witnesses who testified, and otherwise present reasons why the student should not be expelled. After presentation of the evidence or receipt of the hearing officer's report, the Board shall decide the issue of guilt and take such action as it finds appropriate.

4. If the Board acts to expel the student, its written expulsion decision shall:
   a. Detail the specific reason why removing the student from his or her learning environment is in the best interest of the school.
   b. Provide a rationale for the specific duration of the recommended expulsion.
   c. Document how school officials determined that all behavioral and disciplinary interventions have been exhausted by specifying which interventions were attempted or whether school officials determined that no other appropriate and available interventions existed for the student.
   d. Document how the student's continuing presence in school would (1) pose a threat to the safety of other students, staff, or members of the school community, or (2) substantially disrupt, impede, or interfere with the operation of the school.

5. Upon expulsion, the District may refer the student to appropriate and available support services.

**School Bus Suspensions**

The Superintendent, or any designee as permitted in the School Code, is authorized to suspend a student from riding the school bus for up to 10 consecutive school days for engaging in gross disobedience or misconduct, including but not limited to, the following:

1. Prohibited student conduct as defined in School Board policy, 7:190, *Student Behavior*.
2. Willful injury or threat of injury to a bus driver or to another rider.
3. Willful and/or repeated defacement of the bus.
4. Repeated use of profanity.

6. Such other behavior as the Superintendent or designee deems to threaten the safe operation of the bus and/or its occupants.

If a student is suspended from riding the bus for gross disobedience or misconduct on a bus, the School Board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The District's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

**Academic Credit for Missed Classes During School Bus Suspension**

A student suspended from riding the bus who does not have alternate transportation to school shall have the opportunity to complete or make up work for equivalent academic credit. It shall be the responsibility of the student’s parent or guardian to notify the school that the student does not have alternate transportation.

**Electronic Recordings on School Buses**

Electronic visual and audio recordings may be used on school buses to monitor conduct and to promote and maintain a safe environment for students and employees when transportation is provided for any school related activity. Notice of electronic recordings shall be displayed on the exterior of the vehicle's entrance door and front interior bulkhead in compliance with State law and the rules of the Illinois Department of Transportation, Division of Traffic Safety.

Students are prohibited from tampering with electronic recording devices. Students who violate this policy shall be disciplined in accordance with the Board's discipline policy and shall reimburse the School District for any necessary repairs or replacement.

The content of the electronic recordings are student records and are subject to District policy and procedure concerning school student records; such recordings are exempt from the Eavesdropping Act. Only those people with a legitimate educational or administrative purpose may view and/or listen to the electronic video and/or audio recordings. If the content of an electronic recording becomes the subject of a student disciplinary hearing, it will be treated like other evidence in the proceeding.

The Superintendent or designee, using input from coaches and sponsors of extracurricular activities, shall develop a conduct code for all participants in extracurricular activities consistent with School Board policy. The conduct code shall: (1) require participants in extracurricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on and off school property, and (2) notify participants that failure to abide by it could result in removal from the activity. The conduct code shall be reviewed by the Building Principal periodically at his or her discretion and presented to the Board.

Participants in extracurricular activities must abide by the conduct code for the activity and Board policy 7:190, Student Behavior. All coaches and sponsors of extracurricular activities shall annually review the conduct code with participants and provide participants with a copy. In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

Extra-Curricular Drug Testing Program

The Paxton-Buckley-Loda CUSD No. 10 Board of Education believes that the use of alcohol or drugs by a student who participates in extra-curricular activities presents a particular hazard to the health, safety, and welfare of the student and to those who compete with the student. The Board encourages students to participate in extra-curricular activities, but believes the opportunity to participate in school sponsored extra-curricular activities is not a right. Rather, it is a privilege offered to eligible students on an equal opportunity basis. To be eligible to participate in any school sponsored extra-curricular activity program, students must agree to submit to random testing for the use of illegal drugs, if selected, in accordance with this policy.

The purpose of this policy is to protect the health, welfare, and safety of students engaged in extra-curricular activities. It is to better assure the student's health and physical fitness to participate in extra-curricular activities and not to provide a means in which the District may use to punish a student other than by disqualification from participation in extra-curricular activities. Accordingly, the results of any drug test administered under this policy shall be used only for determination of eligibility to try-out for or participate in extra-curricular activities and for no other disciplinary purpose.

The decision to implement the Drug-Testing Program is the result of increased student reporting of illegal drug usage amongst their peers and the increase in the extra-curricular code of conduct infractions.

Definitions:

A. Extra-Curricular Activities: School sponsored activities outside the regular school day, conducted by and representing Paxton-Buckley-Loda Community Unit School District No. 10 where participation is voluntary, no academic credit or grades are awarded, including but not limited to the following list of extra-curricular activities: Interscholastic Athletics, Scholastic Bowl and Speech Team.

B. Extra-Curricular Participant: Any student who is trying out for or participating in any school sponsored extra-curricular activity.

C. Alcohol: Any liquor, wine, beer, or other drink containing alcohol.

D. Illegal Drugs: Any substance considered illegal or controlled by the Food and Drug Administration or prescription drugs not prescribed to the student taking the drugs.

E. Self-Referral: Process of a student coming forward voluntarily seeking help for a problem with an illegal drug or alcohol. This is done before a violation of the Extra-Curricular Code has been verified by notifying staff or administration.

Consent Form:

To try out for or to participate in any school sponsored extra-curricular activities, the student must read this policy and sign a consent form by which the student agrees that as a condition of participation in extra-curricular activities, he/she will consent to the drug testing program outlined in this policy. The student's parents or guardians at the beginning of the school year or prior to try-outs for a specific activity must also sign this consent form. Students declining to participate in an extra-curricular activity after the first sign-up deadline will be required to be tested after the signed consent form is returned and their parents or guardians will be financially responsible for this test.

Withdrawal of Consent:

Consent for participation may be withdrawn under the following conditions:

1. Student fails to make the team/activity under try-out procedures.
2. Senior student will not be participating in any additional qualified extra-curricular activities for the remainder of his/her school career.
3. Parents/guardians must submit a written request for withdrawal of consent indicating intentions in #2 above.
4. Withdrawal of consent must be sent to the building principal who will verify the student is no longer participating in any qualified extra-curricular event.

Should the student elect to resume participation in any qualified extra-curricular activity again in his/her school career, the student will be required to be tested on the next scheduled test date prior to activity try-out or participation. This test will be at the expense of the students’ parents or guardians.

Non-Compliance:

If the extra-curricular participant, his/her parents or guardians refuse to sign the consent form, the student will not be permitted to be a member of the activity until such consent form is signed. Also, if the extra-curricular participant refuses to be tested or does
not complete the test as instructed, the extra-curricular participant will be considered in violation of this policy, and it would be considered a violation of the code of conduct.

Random Selection of Extra-Curricular Participants for Testing:
At the beginning of each school year, Carle Clinic will be provided the student identification numbers of each student that is participating in an extra-curricular activity. The selection of numbers will be computer generated and made by Carle Foundation Hospital. Participants will be eligible for random testing throughout the school year. There will be a minimum number of tests administered equal to fifty percent (50%) of the number of extra-curricular participants subject to testing. For example, if there is a total of 50 participants in extra-curricular activities at least 25 tests will be administered.

Student Transfers:
A student transferring to Paxton-Buckley-Loda Community Unit School District No. 10 will be provided a copy of this policy/procedure. Transfer students and parents/guardians will be given a reasonable period of time (not to exceed five (5) school days) to determine whether or not the student intends to participate in extra-curricular activities. If within the period of time given, the consent form is signed appropriately, the student's name will be added to the random list. If a decision is made to participate after the original timeline for consent, the student will automatically be tested on the next scheduled test date prior to activity try-out, or participation.

Financial Responsibility:
1. Under this policy, the Paxton-Buckley-Loda Community Unit School District No. 10 will pay for all initial drug tests requested by the District if the student signs up by the fall deadline.
2. Students deciding to participate in an extra-curricular activity after the first sign-up deadline date will be required to be tested after the signed consent form is returned. The cost of this test will be the financial responsibility of the student's parents/guardians.
3. A request for another re-test of a "positive" urine specimen is the financial responsibility of the student's parents/guardians.
4. A student/parent/guardian may request a re-testing of the urine specimen within three (3) days of notification of a positive test. The student will be ineligible to participate in extra-curricular activities until the final results are reported.
5. Counseling and subsequent treatment by non-school agencies is the financial responsibility of the student's parent/guardians.

Confidentiality:
The results of any test administered under the terms of this policy shall be kept confidential and disclosed only to the extra-curricular participant, his/her parents or guardians, and school officials designated by the Superintendent. The results of the testing shall not be used as a basis for any disciplinary action other than disqualification as provided for in the Paxton-Buckley-Loda Community Unit School District No. 10 Extra-Curricular Code of Conduct. The test results will not be part of the extra-curricular participant's permanent student record, but will be kept in a secure file in the High School office. The results for testing, negative or positive, will be kept until the student graduates.

Under this drug-testing program, no staff, coach, or sponsor shall divulge any information to anyone about a particular student or disposition of the student involved other than by order of a court competent jurisdiction.

Self or Parent/Guardian Referral:
Student self-referral or parent/guardian referral is a process designed to allow a student or parent/guardian to recognize a prohibited substance problem and bring it to the attention of staff or administration. Under the Extra-Curricular Code of Conduct, a student receives no consequences for self or parent/guardian referring, but will count as the first offense under the code of conduct. However, the student must receive a substance assessment and/or counseling at the parents/guardians expense.

Under the random drug-testing policy, self and parent/guardian referrals are still available. However, once a student is selected by number for testing, a self-referral is no longer an option. Second or any subsequent self or parent/guardian referrals will be reviewed individually with regard to the basis for self or parent/guardian referral and Extra-Curricular Code of Conduct. The Principal and Athletic Director will conduct this review.

Chain of Custody:
1. The testing organization will provide appropriately trained staff members, set up the collection environment, guarantee specimens, and supervise the chain-of-custody.
2. A District or testing organization staff member will escort students to the collection site. No student is allowed to go to his/her locker. The staff member should minimize classroom interruptions.
3. Before the testing organization staff member can test a student's urine, he/she must sign any form that may be required by the testing laboratory. If a student chooses, he/she may notify the administrator that he/she is taking a prescription medication.
4. Students will be instructed to remove all coats and wash their hands in the presence of the staff member before entering the restroom stall. The stall door will be closed while the student provides a urine specimen. The staff member will wait outside the restroom stall. The testing organization staff member will obtain the urine specimen.
5. A sanitized kit containing a specimen container will be given to each student. The container will remain in the student's possession until the staff member performs the rapid test.
6. If the test is found negative, the student will be notified immediately. If the test is inconclusive, then the specimen bottle will be sent to Medtox Lab for more testing.
7. The specimen container will be sealed, and only the lab testing the specimen may break the seal.
8. If the seal is tampered with or broken after leaving the student's possession or prior to arriving at the lab, the specimen is invalid. The student will remain eligible for extra-curricular activities subsequent to a re-test.

9. After it is sealed, the specimen will be transported to the testing laboratory by testing organization personnel. The testing organization will report the results to the building principal or designee.

**Testing Negative:**

By using the Rapid Testing, the student will know immediately if the test is negative. The parents/guardians of the extra-curricular participant who tests negative will be notified by mail.

**Inconclusive Test:**

If the test is inconclusive, it will be sent to the Medtox Lab for further testing. The parents/guardians of the extra-curricular participant who tests are inconclusive will be notified by phone and by mail. If the results from the inconclusive test come back as positive, the extra-curricular participant will be considered in violation of Paxton-Buckley-Loda Community Unit School District No. 10 Extra-Curricular Code of Conduct.

**Testing Positive:**

The Carle Clinic Medical Review Doctor will notify the school district, student, and parents/guardians within twenty-four (24) to forty-eight (48) hours. A letter of the results will also be sent home. A positive test will result in a violation of Paxton-Buckley-Loda Community Unit School District No. 10 Extra-Curricular Code of Conduct. The consequences of this violation are outlined in the Code of Conduct.

If a student tests positive, the student will be retested after a minimum of 45 days or at the next visit by Carle after 45 days.

**Performance Enhancing Drug Testing of High School Student Athletes**

The Illinois High School Association (IHSA) prohibits participants in an athletic activity sponsored or sanctioned by IHSA from ingesting or otherwise using any performance enhancing substance on its banned substance list, without a written prescription and medical documentation provided by a licensed physician who evaluated the student-athlete for a legitimate medical condition. IHSA administers a performance-enhancing substance testing program. Under this program, student athletes are subject to random drug testing for the presence in their bodies of performance-enhancing substances on the IHSA's banned substance list. In addition to being penalized by IHSA, a student may be disciplined according to Board policy 7:190, Student Behavior.

1. Health services supervised by a qualified school nurse. The Superintendent or designee may implement procedures to further a healthy school environment and prevent or reduce the spread of disease.

2. Educational and psychological testing services and the services of a school psychologist as needed. In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request.

Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practice Act, prevents his or her participation in the physical education course.

State law prohibits a school board from honoring parental excuses based upon a student’s participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student’s participation as required by the Superintendent or designee.

A student requiring adapted physical education must receive that service in accordance with his or her Individualized Educational Program/Plan (IEP).

A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated in 6:310, High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students.

Students in grades 7 and 8 may submit a written request to the Building Principal to be excused from physical education courses because of his or her ongoing participation in an interscholastic or extracurricular athletic program. The Building Principal will evaluate requests on a case-by-case basis.

The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student’s individual circumstances, as appropriate.

Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to a physical education course:

1. The time of year when the student’s participation ceases;
2. The student’s class schedule; and
3. The student’s future or planned additional participation in activities qualifying for substitutions for physical education as outlined in policy 6:310, High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students.

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed **School Medication Authorization Form** is submitted by the student's parent/guardian. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students.

**Self-Administration of Medication**

A student may possess an epinephrine auto-injector, e.g., EpiPen®, and/or asthma medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form. The School District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication or epinephrine auto-injector or the storage of any medication by school personnel. A student's parent/guardian must indemnify and hold harmless the School District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine auto-injector and/or medication, or the storage of any medication by school personnel.

**School District Supply of Undesignated Epinephrine Auto-Injectors**

The Superintendent or designee shall implement Section 22-30(f) of the School Code and maintain a supply of undesignated epinephrine auto-injectors in the name of the District and provide or administer them as necessary according to State law. **Undesignated epinephrine auto-injector** means an epinephrine auto-injector prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated epinephrine auto-injector to a person when they, in good faith, believe a person is having an anaphylactic reaction. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law.

**Void Policy: Disclaimer**

The **School District Supply of Undesignated Epinephrine Auto-Injectors** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine auto-injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school epinephrine auto-injectors.

Upon any administration of an undesignated epinephrine auto-injector, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

Upon implementation of this policy, the protections from liability and hold harmless provisions as explained in Section 22-30(c) of the School Code apply.

No one, including without limitation parents/guardians of students, should rely on the District for the availability of an epinephrine auto-injector. This policy does not guarantee the availability of an epinephrine auto-injector; students and their parents/guardians should consult their own physician regarding such medication(s).

Written orders from parent(s)/guardian(s) to forgo life-sustaining treatment for their child must be signed by the student's physician and given to the Superintendent. This policy shall be interpreted in accordance with the Illinois Health Care Surrogate Act. 755 ILCS 40/.

Whenever an order to forgo life-sustaining treatment is received, the Superintendent shall convene a multi-disciplinary team that includes:

1. The student, when appropriate;
2. The student's parent(s)/guardian(s);
3. Other medical professionals, e.g., licensed physician, physician's assistant, or nurse practitioner;
4. Local first responders for the building in which the student is assigned to attend school;

6. Clergy, if requested by the student or his or her parent(s)/guardian(s);
7. Other individuals to provide support to the student or his or her parent(s)/guardian(s); and
8. School personnel designated by the Superintendent.

The team shall determine guidelines to be used by school staff members in the event the child suffers a life-threatening episode at school or a school event. The Superintendent or designee will ensure minutes are taken that summarize the decisions and guidelines made during multi-disciplinary meetings and obtain signatures of the child's parent(s)/guardian(s) on the minutes of each multi-disciplinary meeting.

The District personnel shall convey orders to forgo life-sustaining treatment to the appropriate emergency or healthcare provider.

School attendance may increase a student's risk of exposure to allergens that could trigger a food-allergic reaction. A food allergy is an adverse reaction to a food protein mediated by the immune system which immediately reacts causing the release of histamine and other inflammatory chemicals and mediators. While it is not possible for the District to completely eliminate the risks of exposure to allergens when a student is at school, a Food Allergy Management Program using a cooperative effort among students' families, staff members, and students helps the District reduce these risks and provide accommodations and proper treatment for allergic reactions.

The Superintendent or designee shall develop and implement a Food Allergy Management Program that:

1. Fully implements the following goals established in the School Code: (a) identifying students with food allergies, (b) preventing exposure to known allergens, (c) responding to allergic reactions with prompt recognition of symptoms and treatment, and (d) educating and training all staff about management of students with food allergies, including administration of medication with an injector, and providing an in-service training program for staff who work with students that is conducted by a person with expertise in anaphylactic reactions and management.

2. Follows and references the applicable best practices specific to the District's needs in the joint State Board of Education and Ill. Dept. of Public Health publication Guidelines for Managing Life-Threatening Food Allergies in Schools, available at:

3. Complies with State and federal law and is in alignment with Board policies.

Illinois Suicide Prevention Strategic Planning Committee

The Superintendent or designee shall attempt to develop a relationship between the District and the Illinois Suicide Prevention Strategic Planning Committee, the Illinois Suicide Prevention Coalition Alliance, and/or a community mental health agency. The purpose of the relationship is to discuss how to incorporate the goals and objectives of the Illinois Suicide Prevention Strategic Plan into the District's Suicide Prevention and Depression Awareness Program.

7:340 Student Records

School student records are confidential. Information from them shall not be released other than as provided by law. A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction by a school employee, regardless of how or where the information is stored, except as provided in State or federal law as summarized below:

1. Records kept in a staff member’s sole possession.
2. Records maintained by law enforcement officers working in the school.
3. Video and other electronic recordings (including without limitation, electronic recordings made on school buses) that are created in part for law enforcement, security, or safety reasons or purposes. The content of these recordings may become part of a school student record to the extent school officials create, use, and maintain this content, or it becomes available to them by law enforcement officials, for disciplinary or special education purposes regarding a particular student.
4. Any information, either written or oral, received from law enforcement officials concerning a student less than the age of 17 years who has been arrested or taken into custody.

State and federal law grants students and parents/guardians certain rights, including the right to inspect, copy, and challenge school student records. The information contained in school student records shall be kept current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but a parent/guardian shall have the right to object to the release of information regarding his or her child. However, the District will comply with an ex parte court order requiring it to permit the U.S. Attorney General or designee to have access to a student’s school records without notice to, or the consent of, the student’s parent/guardian.

The Superintendent shall fully implement this policy and designate an official records custodian for each school who shall maintain and protect the confidentiality of school student records, inform staff members of this policy, and inform students and their parents/guardians of their rights regarding school student records. Upon request, the District discloses school student records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law.

Student Biometric Information Collection

The Superintendent or designee may recommend a student biometric information collection system solely for the purposes of identification and fraud prevention. Such recommendation shall be consistent with budget requirements and in compliance with State law. Biometric information means any information that is collected through an identification process for individuals based on their unique behavioral or physiological characteristics, including fingerprint, hand geometry, voice, or facial recognition or iris or retinal scans.

Before collecting student biometric information, the District shall obtain written permission from the person having legal custody/parental responsibility or the student (if over the age of 18). Upon a student’s 18th birthday, the District shall obtain written permission from the student to collect student biometric information. Failure to provide written consent to collect biometric information shall not be the basis for refusal of any services otherwise available to a student.

All collected biometric information shall be stored and transmitted in a manner that protects it from disclosure. Sale, lease, or other disclosure of biometric information to another person or entity is strictly prohibited.

The District will discontinue use of a student’s biometric information and destroy all collected biometric information within 30 days after: (1) the student graduates or withdraws from the School District, or (2) the District receives a written request to discontinue use of biometric information from the person having legal custody/parental responsibility of the student or the student (if over the age of 18). Requests to discontinue using a student’s biometric information shall be forwarded to the Superintendent or designee.

The Superintendent or designee shall develop procedures to implement this policy consistent with State and federal law.

8:80 Gifts to the District

The School Board appreciates gifts from any education foundation, other entities, or individuals. All gifts must adhere to each of the following:

1. Be accepted by the Board or, if less than $500.00 in value, the Superintendent or designee. Individuals should obtain a pre-acceptance commitment before identifying the District, any school, or school program or activity as a beneficiary in any fundraising attempt, including without limitation, any Internet fundraising attempt.

2. Be given without a stated purpose or with a purpose deemed by the party with authority to accept the gift to be compatible with the Board's educational objectives and policies.

3. Be consistent with the District's mandate to provide equal educational and extracurricular opportunities to all students in the District as provided in Board policy 7:10, Equal Educational Opportunities. State and federal laws require the District to provide equal treatment for members of both sexes to educational programming, extracurricular activities, and athletics. This includes the distribution of athletic benefits and opportunities.

4. Permit the District to maintain resource equity among its learning centers.

5. Be viewpoint neutral. The Superintendent or designee shall manage a process for the review and approval of donations involving the incorporation of messages into or placing messages upon school property.

6. Comply with all laws applicable to the District including, without limitation, the Americans with Disabilities Act, the Prevailing Wage Act, the Health/Life Safety Code for Public Schools, and all applicable procurement and bidding requirements.

The District will provide equal treatment to all individuals and entities seeking to donate money or a gift. Upon acceptance, all gifts become the District's property. The acceptance of a gift is not an endorsement by the Board, District, or school of any product, service, activity, or program. The method of recognition is determined by the party accepting the gift.

Parent organizations and booster clubs are invaluable resources to the District's schools. While parent organizations and booster clubs have no administrative authority and cannot determine District policy, the School Board welcomes their suggestions and assistance.

Parent organizations and booster clubs may be recognized by the Board and permitted to use the District's name, a District school's name, or a District school's team name, or any logo attributable to the District provided they first receive the Superintendent or designee's express written consent. Consent to use one of the above-mentioned names or logos will generally be granted if the organization or club has by-laws containing the following:

1. The organization's or club's name and purpose, such as, to enhance students' educational experiences, to help meet educational needs of students, to provide extra athletic benefits to students, to assist specific sports teams or academic clubs through financial support, or to enrich extracurricular activities.
2. The rules and procedures under which it operates and include a statement that declares that all assets left over after the event or organization dissolves will be donated to PBL Unit #10.
3. An agreement to adhere to all Board policies and administrative procedures.
4. A statement that membership is open and unrestricted, meaning that membership is open to all parent(s)/guardian(s) of students enrolled in the school, District staff, and community members.
5. A statement that the District is not, and will not be, responsible for the organization's or club's business or the conduct of its members.
6. An agreement to maintain and protect its own finances.
7. A recognition that money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable consideration must be given to the District to use at its discretion. The Board's legal obligation to comply with Title IX by providing equal athletic opportunity for members of both genders will supersede an organization or club's recommendation.
8. The parent organization or booster club shall provide a report to the Board at least quarterly. These reports will include officers, activities and a financial report.

Permission to use one of the above-mentioned names or logos may be rescinded at any time and does not constitute permission to act as the District's representative. At no time does the District accept responsibility for the actions of any parent organization or booster club regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as the recognized liaison to parent organizations or booster clubs. The liaison will serve as a resource person and provide information about school programs, resources, policies, problems, concerns, and emerging issues. Building staff will be encouraged to participate in the organizations.
