October 11, 2019

Dear Parents and Guardians,

The Senior Experience Program, at the moment, is in a renewal process. The State has added new aspects and requirements that need to be fulfilled, all of which revolve around safety and effectiveness of the program as well as enhancing the educational experience. Currently, the program updates and database of locations are to be adopted by the Board of Education. Once the updates are adopted by the Board of Education, the sites will be checked for safety. Site Checks occur every 10th day of attendance for the Senior Experience. The students will also be identifying 2 skills of significance to gain from their mentor upon the first day of attendance as part of the site training plan.

As part of this renewal, the State of New Jersey issues a license for conducting this work for use in the State of New Jersey, not in other States. Therefore, it is strongly advised that an experience is located in the State of New Jersey and no other State.

We will continue to work to establish the foundation for a strong and comprehensive Senior Experience Program for our students, and will keep in contact as we progress in this process.

Best,

Ben Suro
Principal
Dwight Morrow High School/Academies@Englewood
