## Favorite Cake Flavors

By: Olivia B. & Sienna N.

## How to Organize a Picnic

By Ella A.

### 1. What food?

Some common foods that people pack for picnics are fruit and different sandwiches. Remember to have serving utensils for giving out your food. For some snacks you may want to bring are pretzels, Potato chips, and Crackers.

### 2. Where?

You might want to set up your picnic on a flat grassy land.

### 3. Dessert

You might want to have dessert after a picnic, but what. Some common picnic foods are brownies, fruit, and cheesecake.

## What is Honesty?

By: Sayuri V. and Jessica

Honesty is the quality of being truthful and able to be trusted when your family member or friend asks you what's going on. If someone places or puts their trust in you, they believe that you are honest to them and don't lie to them. That is that you will do the right thing in your life. Here is one example of honesty:

Lily was sitting down and reading her book when her mom called her.

"Lily, are you done with your homework?" said her mom. Lily grimaced and looked down at her homework. She hadn't started it yet. She called her mom, "I'm almost finished. I just have to do a few more problems."

Her mom asked, "Why didn't you finish it yet? You had an hour to do it."

Lily told her mom, "I started reading my book and forgot to do it."

Lily's mom said, "Lily, give me your book. You will get it back when you are done with with your homework."

Lily learned an important life lesson: always be honest to your family members

## March Acrostic poem

By: Julian.T

**L**uck is what all leprechauns give.  
**E**aster is when people love to search for little eggs.  
**P**rancing leprechauns dashing through spring fields.  
**R**ainbows are where leprechauns hide their pots of gold.  
**E**xtraordinary rainbows floating in the sky.  
**C**hocolate bunnies and candies inside hidden Easter eggs.  
**H**unting for eggs on an Easter day.  
**A**sneaky little leprechaun avoiding set traps.  
**I**mpolite leprechauns making a mess wherever they goes.  
**N**ever ending rainbows.

## Fun Things to do Inside When it Rains

By: Amber T.

- Indoor treasure hunt
- Build a blanket or pillow fort
- Create a race for marbles to go through
- Play volleyball with a balloon
- Bake
- Watch a movie
- Create a mini world out of blocks
- Tie-Dye
- Do origami
- Paint, draw or color
- Karaoke
- Play board games
- Make slime
- Play card games
- Play family feud
- Work on puzzles

## Things to Do When You're Bored

By: Jessica S.

When you are bored, you can do some fun and interesting things with your brain. Here are some ideas:

- You can draw or paint a picture
- You can work on some extra homework you didn't finish
- You can make a play with your family or friends (or both.)
- You can read or make your own book
- If it close to the New Year's, you can make your resolutions
- You can go in your your backyard or the park and explore all the plants and nature
- You can make your own mini store and sell stuff you don't use anymore
- You can make a project and tell your parents to help you
- You can make your own holiday and act it out with your friends or family
- You can call some of your friends and tell them about something that you did this week
- And last but not least, you can take a nice long nap.

## How to Plant a Flower

By: Lila W.

**Step 1:** First what you do is go to any store and buy any kind of flower seed you like (I recommend going to fresh shopping centers to by seeds)

**Step 2:** Find a nice sunny spot in your backyard or front yard, where ever you want to plant your flower.

**Step 3:** Next, what you do is you start digging a hole in the spot you want your flower.

**Step 4:** Then you take your flower seeds and you put them in the hole. When you're done you can cover the hole back up.

**Step 5:** After that you pour water on the ground where you planted the flower until it's moist.

**Step 6:** Repeat watering each day and give your plant lots of sunlight.

If you want you can plant many seeds and make a whole garden!
