Note: Figures above are for all LGISD accounts/meters, combined charges.

Price / Gallon, Price / kWh and Price / kW are figured by dividing Cost by total Gallons, kWh or kW.

Electricity is billed in two ways - Regular Use and On-Demand. Any account/meter w/ less than 30 kW (On-Demand use) is billed a flat \$240 charge. Not all LGISD accounts/meters have On-Demand charges.

Gas includes charges, storage inventory charges, base amounts, cost adjustments and other taxes and fees.
