Dear Guidance Counselor,

Employment of healthcare occupations is projected to grow 18 percent from 2016 to 2026, much faster than the average for all occupations, adding about 2.4 million new jobs. This projected growth is mainly due to an aging population, leading to greater demand for healthcare services. Evangelical Community Hospital is seeking to adopt a proactive position in assuring quality healthcare by licensed and dedicated professionals to our community and the surrounding areas.

Evangelical would like to extend the opportunity to participate in the High School Healthcare Careers Internship Program to those eligible students completing their Junior or Senior year of High School with a cumulative GPA of 88% or better. This program is offered in conjunction with our award-winning internship program focused on nursing careers. The 72-hour internship program provides 32 hours in the classroom and 40 hours of one-on-one interaction with healthcare professionals and patients in diverse settings. Led by hospital educators and healthcare professionals, the students will learn a variety of skills including CPR certification, lifting and transfer techniques, and personal care skills. Students will select from either a nursing or healthcare career track.

We are accepting applications for this program until May 4, 2018. Applications received after this date will not be accepted. Two letters of recommendation and an official transcript should accompany the application or must be provided before the interview. Interviews will be scheduled after May 4, 2018, and the program will begin on June 25, 2018. Enclosed you will find information about the program and applications for submission. Please feel free to duplicate the application as needed. Students should forward the application to Lori Berger listed below. If you have any questions, please feel free to call me at 570-522-2727.

Sincerely,

A handwritten signature in cursive script that reads "Lori A. Berger".

Lori A. Berger, RN, BSN, MSN, CRNP
