4. The preschool schedule will vary. On late start days, there will be no morning sessions of preschool, but afternoon sessions will meet. On early out days, there will be no afternoon sessions of preschool.

5. Grand River Technical School will follow the same winter weather schedule as the Chillicothe R-II School District. Adult Education courses may still have class on days when R-II classes are not in session, but instructors will communicate with students in these situations.

6. District personnel will use information from local, state, and national weather organizations to make determinations about dismissing or cancelling school. In addition, road conditions, wind chill temperatures, and student safety will be evaluated to determine what is best for students and staff of the Chillicothe R-II School District.
