

Principal's Corner

School safety update

Please remember that if your child arrives before 7:30, please have your child go inside the building to wait. It is unsafe to have your child sit outside unsupervised or walking in the parking lot as there are parents, staff and buses pull in for the day. If you ever have any concerns or questions please give me a call and let me know how I can help.

1st Lunch is from 11:29am – 11:59am

2nd Lunch is from 12:23pm – 12:53pm

Meal Prices

Breakfast

Full Price \$2.05

Reduced Price \$.30

Lunch

Full Price \$3.05

Reduced Price \$.40

Meal Modification forms are available in the office for parents to fill out for students with food allergies. A Physician must sign the request. Please send forms back to the office.

Attendance Procedures

Students are required by law to be in attendance each day of school unless they are ill or there is serious family emergency. If your child must be absent from school, please call us at 421-4190 by 8:30am on the day of the absence. Otherwise, the school will attempt to contact you to obtain information concerning your child. If telephone contact is not made between home and school, please send a Dr. note to the office for your students absence. Otherwise it will be unexcused.

Tardy Policy

If a child is late to school, not only is your child missing out on instruction that started on time in the classroom, other students are impacted. In an effort to emphasize the importance of being on time, students will be allowed 2 tardies in a quarter. On the third and all subsequent tardies, students will be assigned a detention to be served within the next two days at either 7:05am or 3:15pm. Because of the large number of students who arrived to school late last year, students late for school will be given an unexcused tary as well as those between classes.

We Are A Nut Free Building

Please **DO NOT** bring anything nut related to the school!

***Food allergies affect approximately 15-32 million Americans, including 6 million children.**

***When a person with a food allergy eats the food, his or her immune system releases massive amounts of chemicals, including histamine, that trigger a cascade of symptoms that can affect the respiratory system, the gastrointestinal tract, the skin, and/or the cardiovascular system.**
