

**Title: School Counseling Program**

A comprehensive and sequential program of developmentally-based school counseling services shall be maintained in grades kindergarten through 12 in the District. The broad program components shall include a school counseling curriculum, individual student planning services, responsive services, and system support services (e.g., planned opportunities for professional development, consultation, and collaboration).

School counseling services shall be planned and provided by District school counselors in conjunction with supervising administrators and other licensed staff. Staff members involved in planning these services shall involve and seek the input of students, parents and guardians, and other community members or entities, as appropriate, whose perspectives and insights will help to improve the District's programs and services.

The school counseling program and services shall be integrated with the District's Academic and Career Planning services at all appropriate grade levels. School counselors shall have an integral role in delivering Academic and Career Planning services and be represented on District-level and building level Academic and Career Planning leadership teams.

The general goals and functions of the District's school counseling program, which shall be reflected in a Board-approved plan for such services, shall be:

1. Personal and social development, including the following:
  - a. Assist students in developing a better understanding and acceptance of themselves, including knowledge of their strengths and weaknesses, aptitudes, needs, interests and worth as unique individuals.
  - b. Assist students in developing skills needed to initiate and maintain positive interpersonal relationships.
  - c. Assist students in developing problem-solving and decision-making skills.
  - d. Assist students and their parents and guardians with individual concerns, problems, or situations that, even if not directly related to the curriculum and a student's academic progress, affect the student's readiness to learn and their ability to be successful in school.
2. Academic development and planning, including the following:

- a. Assist students in understanding educational requirements and options.
  - b. Assist students in understanding and resolving educational difficulties.
  - c. Assist students in accepting increased responsibility for their educational and life-planning goals.
3. Career development and planning, including the following:
- a. Assist students by helping them develop positive work traits.
  - b. Assist students in exploring various career options.
  - c. Assist students in identifying and developing career interests.
  - d. Assist students in learning career decision-making and goal-setting skills.

Staff members who provide school counseling services and other staff who work collaboratively with school counselors are expected to appropriately maintain the confidentiality of information they receive from students and from student record information in accordance with applicable legal requirements and the District's student records policy and procedures. However, such staff are also expected to avoid making express commitments to students regarding the degree and extent to which ongoing and complete confidentiality can be assured if applicable laws, regulations, District policies, or professional responsibilities could reasonably prevent the staff member from meeting the commitment.

The District shall not unlawfully discriminate in the methods, practices and materials used for guidance and counseling services for students on the basis of sex, sexual orientation, race, color, national origin, ancestry, religion, creed, pregnancy, marital or parental status, any physical, mental, emotional or learning disability, or any other legally-protected status or classification. This does not, however, prohibit the use of special counseling materials or techniques to meet the individualized needs of students. Discrimination complaints shall be processed in accordance with established procedures.
