DOCUMENT CHANGE HISTORY

The following table lists the changes made to this manual since its release.

CHANGE LOGGED	CURRENT PAGE(S)	DESCRIPTION OF THE CHANGE

TIMELINE AND DATES

DATE	EVENT
January, 2019	Technology practice items
January 18, 2019	TEST record submissions to KIDS
January 18, 2019	PNP settings in Educator Portal
January 23, 2019	KELPA2 scoring training online; training materials released
February 4 - March 8, 2019	KELPA2 assessment window
February 4 - March 29, 2019	KELPA2 scoring window
March 22, 2019	Deadline for entering special circumstances codes
To be announced	KELPA2 scores released
To be announced	KELPA2 score reports available
July 8 - July 26, 2019	AMOSS data review

CONTACT INFORMATION

For help with KELPA2 administration and technology troubleshooting, districts may contact the Agile Technology Solutions (ATS), an Achievement and Assessment Institute (AAI) center responsible for Kite[®] Suite. The Service Desk is available 7:00 a.m. to 6:00 p.m., Monday through Friday, except holidays.

Service Desk

Toll Free: 855-277-9752

Introduction

This manual provides guidelines and procedures related to preparation for the Kansas English Language Proficiency Assessments (KELPA2).

Kite Educator Portal and Kite Student Portal manuals can be found at <http://ksassessments.org/documentation>.

NOTE: District and Building Test Coordinators may download additional secure *KELPA2 Test Administration and Scoring Directions* files, which are downloadable from the HELP tab in Kite Educator Portal. There is one file for each grade. Both Kindergarten and Grade 1 files contain specific scripts for test administration. The Kindergarten and Grade 1 *writing* files contain the master copies for paper-based test administration.

Manual Organization

This KELPA2 Manual is organized into sections, as outlined in the Table of Contents. The manual begins with a description of KELPA2 and the Kite assessment administration system. The manual describes guidelines for student participation as well as policies and procedures that will ensure a standardized and secure test administration.

This manual also outlines educator responsibilities before, during, and after KELPA2 administration. Following the manual instructions will ensure similar assessment conditions in all classrooms. Consistent administration supports test-score validity and fairness for all students involved in the assessment process.

KELPA2 Overview

KELPA2 measures the English language proficiency of English learner (EL) students. As outlined by the U.S. Department of Education and the U.S. Office of Civil Rights, identified ELs that are enrolled in Kansas schools are entitled to services that ensure the students can meaningfully participate in educational programs and services. ELs are entitled to additional support until they have reached a level of English proficiency that allows them to participate in a standard instructional program in the classroom without additional language support.

Kansas administers KELPA2 to measure student progress toward such proficiency based on [English Language Proficiency Standards](#) adopted in 2013. These standards were strategically designed to streamline the process of learning in English and to meet college- and career-ready standards in academic subject

areas by allowing students to gain English proficiency and to learn other subjects at the same time. Each KELPA2 assessment is broken into four parts, corresponding with the four domains: listening, reading, speaking, and writing.

This year's assessment uses items that were received from a third-party vendor; they were not developed at the Center for Educational Testing (CETE). Following a joint review of the test forms by KSDE and CETE, it was determined that not all of the vendor's items met the high level of quality we would expect for our students in Kansas. During test administration, if students indicate there is a problem with an item, please report the issue just as you would with any other item (see [Test Security and Ethics Fact Sheet](#)). Upon completion of testing, all items will be reviewed, and items of poor quality will be removed from the score. Although the number of items with issues is not significant, we want you to know that we are aware that issues exist and that we are already taking steps for future test administrations to correct these problems.

Assessed Students

All students who are identified as ELs must take KELPA2, whether or not they are receiving English for Speakers of Other Languages (ESOL) services. If an EL student first attended school in the United States after March 11, 2018, the student does not need to take the general English language arts (ELA) assessment but must take KELPA2. Students who take KELPA2 may be included in participation calculations regarding ELA assessments.

EL students proficient for one year are exited from ESOL services and are placed on "monitored" status for the following two years.

Students who are EL and have significant cognitive disabilities will also participate in KELPA2. A student's IEP will guide which accommodations to use for KELPA2. Accommodations should be set prior to testing using the Personal Needs Profile (PNP) in Kite Educator Portal and should be consistent with other content tests.

KELPA2 Design

KELPA2 domain-assessments in listening, reading, speaking, and writing are administered separately and may be given in any order.

Kindergarten and Grade 1 students complete a mostly computer-based exam along with a small number of paper-based writing items. The Kindergarten and Grade 1 paper-based writing domain-assessments can be found in each grade's *KELPA2 Test Administration and Scoring Directions for Writing*, downloadable from the HELP tab in Kite Educator Portal.

KELPA2 is entirely computer based for students in grades 2 through 12. Computer-based KELPA2 is delivered through the Kite Student Portal.

SECTION 1

KELPA2 OVERVIEW

NOTE: Headsets with microphones are required for KELPA2 administration.

The number of items in each domain-assessment by grade band is listed in Table 2.

Table 2. KELPA2 Domain-Assessments and Item Counts

GRADE	LISTENING	READING	SPEAKING	WRITING
Kindergarten	19	20	16	17
Grade 1	18	35	12	20
Grades 2-3	26	35	11	16
Grades 4-5	27	31	12	17
Grades 6-8	31	35	14	12
Grades 9-12	21	37	14	10

Items in the listening, reading, and some items in the writing domain-assessments are machine scored.

Items in the speaking domain-assessments and some items in the writing domain-assessments require hand scoring. Table 3 lists the number of items by grade band and domain-assessment that require hand scoring.

Table 3. KELPA2 Hand-Scored Item Counts

GRADE	SPEAKING	WRITING
Kindergarten	16	5
Grade 1	12	4
Grades 2-3	11	6
Grades 4-5	12	7
Grades 6-8	14	8
Grades 9-12	14	6

Students will receive scale scores for each domain-assessment as well as an overall proficiency determination.

KELPA2 Window

The assessment administration window for KELPA2 is February 4 - March 8, 2019 at 5:00 p.m. The window for hand scoring speaking and writing items is February 4 - March 29, 2019 at 5:00 p.m.

Testing Time

All KELPA2 domain tests are untimed, and students should be given as much time as necessary to complete the test. Each domain-assessment should take approximately one class period to complete.

2

SECURITY AND ETHICS

Educator/Test Proctor Responsibilities

- » Complete training and sign an agreement to abide by Kansas State Department of Education (KSDE) test security, ethics of testing, and regulations before local testing begins.
- » Follow procedures outlined by the District/Building Test Coordinator.
- » Follow test procedures outlined in this KELPA2 Manual, the *KELPA2 Test Administration and Scoring Directions* for each grade, and in the training received regarding security and ethical practices for testing.
- » Follow established district/building procedures for collecting and destroying testing materials, student notes, scratch paper, and drawings, etc., upon completion of each test session and the entire test.
- » Remove or cover (with opaque material) bulletin-board displays, charts and diagrams, and other instructional material that may give assistance or advantage during testing.
- » Support the enforcement of usernames and passwords in Educator Portal being exclusive to the user and rights permitted for that user. Usernames and passwords should never be shared or exchanged.
- » Monitor the testing environment actively by moving around the room; moving around the room encourages students to focus on their own work.
- » Do not say or do anything that would let a student know whether an answer is correct.
- » Do not ask students the way in which they arrived at an answer.
- » Do not tell students to redo a specific item or to review any specific part of the test once testing has begun.
- » Verify the Review/End screen upon completion of the test to ensure that all test items have been answered before a student exits the test.
- » Do not go back and review each item individually with the student, simply direct students to answer items that did not have a check mark to indicate that the question was answered.
- » Do not store or save on computers or personal storage devices any test items; test items must never be shared via email or other file-sharing systems or reproduced by any means.

SECTION 2

SECURITY AND ETHICS

- » Report any breach of test security, loss of materials, failure to account for materials, or any other deviation to the Building Test Coordinator, who will report to the District Test Coordinator/KSDE for guidance.

Acceptable Practices

- » Provide students with the opportunity to learn the content and vocabulary prior to testing by basing instruction on state standards and an aligned local curriculum.
- » Integrate teaching of test-taking skills with regular classroom instruction and assessment.
- » Ensure that students have had prior experience with the testing format being used.
- » Use formative assessments to inform instruction prior to testing.
- » Ensure that accommodations made on the state assessment are completed on all instructional assignments, as well as classroom, district, and standardized assessments.

Unacceptable Practices

- » Do not use actual or altered test items (clone, parallel) for practice or instruction.
- » Do not conduct comprehensive reviews or drills the day of the test or between testing sessions. Once testing has begun, all reviewing should cease. Curriculum may be taught but not for review for the specific purposes of the test.
- » Do not store or save on computers or personal storage devices any test items; test items must never be shared via email or other file-sharing systems or reproduced by any means.
- » Do not review tests or analyze test items before, during, or after the assessment is administered.
- » Do not discuss any specific test items on the test with students or colleagues before, during, or after the administration of the assessment.
- » Do not construct answer keys so that an assessment could be scored locally.
- » Do not reproduce or rewrite test materials.
- » Do not coach or cue students in any way during test administration, including using gestures or facial expressions for guidance.
- » Do not **require** students to show work or to use scratch paper; scratch paper should not be graded and must be destroyed at the end of the test session.
- » Do not **require** students to use manipulatives, graphic organizers, or other tools during the assessment.

SECTION 2

SECURITY AND ETHICS

- » Do not respond to questions during testing that would help the students understand the item, aid them in responding to an item, or advise/encourage them to edit or change a response.

Important Information Regarding Test Security and Reporting Item Issues

Because of test security issues, we expect administrators and teachers to abide by the Test Security and Administration guidelines in this manual. If a student questions the correctness of an item, follow this outlined procedure.

1. To the student, repeat the information from the directions, teacher print directions, or Kite directions: “Choose the answer that you think is best. There is one correct or best answer to each question. Carefully read the question. Work the problem.” *It may be appropriate in certain circumstances to tell the student or reader that the concern will be forwarded to KSDE for review and analysis.*
2. Collect the following information and forward the information to the District Test Coordinator, who will then forward the information to the Service Desk and Lee Jones at KSDE.

Reporting item issues

- » Student ID only; do not include the name, building, or district.
- » Report the domain-assessment of the test (for example, listening, speaking, reading, writing).
- » Report the item number.
- » Report the issue, not the item (for example, no correct answer, multiple correct answers, a word is misspelled, the sentence is grammatically incorrect, etc.).
- » Do not forward the item, the item stem, any answer choices, or narrative descriptions of the item via email (these are live, secure test items).
- » Do not take or send pictures of the item.

Security of Test Administration and Scoring Directions for KELPA2

- » *KELPA2 Test Administration and Scoring Directions* for each grade will be downloadable from the HELP tab in Kite Educator Portal. Because the documents contain scoring information, the *KELPA2 Test Administration and Scoring Directions* are secure documents.
- » *KELPA2 Test Administration and Scoring Directions* should be returned to the Building Test Coordinator, accounted for, and securely destroyed after use.

3

ACCOMMODATIONS

Overview

- » Accommodations should be used on the state assessments only if they have been a regular part of instruction. Refer to the [*Tools and Accommodations for the Kansas Assessment Program \(KAP\)*](#).
- » Individualized Education Program (IEP), 504, ESOL, and Student Improvement Team (SIT) plans may use only accommodations documented on those plans.
- » Accommodations must be recorded in a Personal Needs Profile (PNP) or Access Profile in Kite Educator Portal. See [*Kite Educator Portal Manual*](#), for more information about setting options in the PNP.
- » To use an accommodation other than one listed, contact the District Test Coordinator, who will send the request to KSDE. If the accommodation changes the construct being tested, the student will count as not tested.
- » Spanish translations will not be included in KELPA2.
- » Magnification is an option for any student. Click the magnification tool in Kite Student Portal.
- » Text-to-speech is available for directions for all students. Text-to-speech for directions does not need to be set in the PNP. Students should adjust and set the audio volume before launching Kite Student Portal.
- » Directions may be read to the student in English.
- » Many KELPA2 items contain embedded audio tracks for item-specific directions. Students should play each audio track displayed on a media or item page. These audio tracks are available to all students, regardless of PNP settings.
- » A braille version of KELPA2 is not available. Please contact Lee Jones at KSDE, 785-296-4349, for more information regarding working with students who are blind or low vision.
- » For additional information about accommodations or Kite tools, please review the [*Kite Educator Portal Manual*](#) and the [*Educator's Guide to Kite Student Portal*](#).

Prohibited Practices

- » In general, unless directly specified by the *KELPA2 Test Administration and Scoring Directions*, reading to students any text (including isolated words) in a KELPA2 domain-assessment is prohibited. Violations will result in the student being counted as not tested.
- » Passages, test questions, answer choices, labels, or other items may **not** be translated into the student’s native language.
- » Teachers and students may **not** bring pre-generated organizers, journals, logs, or notes into a test session. Students may create notes during a test session but are not required, and should not be prompted, to do so.

Recording Accommodations

- » Most testing accommodations should be entered into the student’s PNP, which should be updated to ensure proper accommodations.
- » Buildings and districts may continue to use the following accommodations but need not report them to KSDE:
 - separate, quiet, or individual setting
 - frequent breaks
 - student dictation of answers to scribe
 - another accommodation being used
 - American Sign Language (ASL) delivery of directions to student
 - student response in ASL

Preparing Students - Technology Practice

KELPA2 technology practice items familiarize students and teachers with the assessment format and the procedures for answering the different types of KELPA2 items.

KELPA2 technology practice items are not secure and should be used liberally to help students understand how to listen to directions and all assessment media, enter responses, access test-taking tools, and navigate through an assessment. If students have difficulty with the practice content, encourage students to experiment with the tools, choose the best answer, and move on to the next item.

Instructions for accessing the KELPA2 technology practice items are available at <https://ksassessments.org/kite-technology-practice>.

Preparing for Test Administration

- » To register students for KELPA2, submit TEST records by January 18, 2019.
- » Complete PNP setting by January 18, 2019.
- » All educators who will be administering and scoring KELPA2 must complete training on test administration, scoring, and security procedures.
- » Educators must read the *Kansas Appropriate Testing Practices Fact Sheet* found on the KSDE website.
- » Educators who are administering KELPA2 must have accounts in Educator Portal.
- » Educators who will be scoring assessments should be assigned the Proctor and/or Teacher Role in Educator Portal.
- » Refer to the [Kite Educator Portal Manual](#) for more information about creating accounts and assigning roles.
- » Kindergarten and Grade 1 writing domain-assessments are both computer based and paper based. The Kindergarten and Grade 1 writing assessment masters are located in the *KELPA2 Test Administration and Scoring Directions for Writing* files, downloadable from the HELP tab in Kite Educator Portal. Print as needed for test administration. All copies must be destroyed at the end of testing.

Kite Assessment System

- » KELPA2 is administered using the Kite assessment system. Well before test administration, Kite Student Portal, a secure browser, must be installed on student computing devices. See the [Installation Instructions](#) for more information about installation.
- » Headsets with microphones must be used for KELPA2. Students should practice using the headsets and microphones with the KELPA2 interactive demos.
- » Students may *not* complete the speaking domain-assessment using an iPad or other type of tablet. Arrange for students to complete speaking domain-assessments on standard computers or laptops.
- » Test and adjust computer or device sound volume before opening Kite Student Portal. Students will also be prompted to test and adjust the sound and recording volume prior to beginning the speaking domain-assessment.

Scheduling and Time Limits

- » In general, an entire domain test should be completed in one sitting.
- » Listening, speaking, writing, or reading domain-assessments may be taken in any order.
- » Students may take different domain-assessments in the same lab or testing room at the same time.
- » All assessments are untimed. Each student must be allowed as much time as necessary and reasonable to complete each test session in one sitting.
- » If a student does not complete a test session within the time given to the class, the student may be allowed more time provided that the student makes a serious attempt to complete the test *and* that the student is provided additional time immediately following the unfinished session.
 - If the session is the last period of the day, the student may finish after school or the next school day; however, this will require reactivation. If administrators are concerned about students not finishing within a session, it is advisable for students to not take the test during the last period of the day.

Speaking Domain-Assessment Considerations

- » Educators may score speaking domain-assessment items while the student is registering a response in Kite Student Portal (simultaneous scoring) or score each item individually after the student has registered all responses in Kite Student Portal (deferred scoring). Determine which assessment option you will use *before* the start of testing.
- » Ensure a quiet environment and room arrangement for the speaking domain-assessment so that noise from other students does not interfere with recording of spoken responses.

KELPA2 Test Administration and Scoring Directions for Speaking and Writing

- » District and Building Test Coordinators may download *KELPA2 Test Administration and Scoring Directions* files from the HELP tab in Kite Educator Portal.
- » Kindergarten and Grade 1 speaking and writing files contain specific scripts for test administration.
- » The Kindergarten and Grade 1 *writing* files contain the master copies for paper-based test administration.
- » The *KELPA2 Test Administration and Scoring Directions* are available from the MANAGE TESTS and TEST COORDINATION menus in Kite Educator Portal.
- » Educators must read the Kindergarten and Grade 1 test administration scripts and follow all directions listed.
- » *KELPA2 Test Administration and Scoring Directions* are secure documents.
- » Printed documents must be stored securely when not in use.
- » Printed documents must be securely destroyed (preferably by shredding) after use. Copies may not be retained by educators or administrators.
- » Electronic files must be completely deleted after use.
- » *KELPA2 Test Administration and Scoring Directions* may not be used as instruction for students.
- » Misuse of the *KELPA2 Test Administration and Scoring Directions* is a violation of test security and should be reported to the Building or District Test Coordinator.

Room/Lab Preparation

The assessment environment must be prepared before KELPA2 administration to ensure standard and fair assessment conditions for all students. Rooms used for the assessment must have adequate lighting and temperature control. The use of language support (e.g., dictionaries, translation dictionaries, translators, word lists, etc.) during this assessment is *not* allowed.

Anything posted in a classroom or lab used for KELPA2 administration that could direct students to a correct answer for any assessment item must be covered or removed. Test Administrators should discuss the appropriateness of any specific displays with their Building Test Coordinator.

Examples of materials that must be covered up or removed include, but are not limited to, the following items:

- » word walls
- » visual or writing aids

- » posters that define words or different kinds of writing (narrative, expository, descriptive, etc.)
 - » punctuation charts
 - » spelling or vocabulary lists
 - » phonics charts
 - » graphic organizers
 - » instructional materials that relate specifically to the content being assessed
 - » reference materials that may be perceived as influencing student responses
- To prepare a quiet atmosphere for the assessment administration, do the following:

- » Turn off or remove items that make or could make noise, including alarms and bells.
- » Do not play music or soundscapes during the assessment.
- » Allow only trained staff involved in the assessment administration to be in the assessment environment.
- » Place a “Testing: Do Not Disturb” sign on the door of the assessment room.
- » Place a “No Electronic Devices” sign on the door of the assessment room.
- » Arrange the testing room for the speaking domain-assessment such that noise from other students does not interfere with recording of spoken responses.

Materials Needed for Testing

Obtain the materials listed in the following checklist:

- » pencils for each student to take notes on scratch paper
- » blank scratch paper
- » headphones for listening to audio
- » microphone for recording speaking responses (the microphones can be integrated into the headphones)

Usernames, Passwords, and Daily Access Codes

Test tickets are no longer available for KELPA2 tests. Instead, usernames and passwords are used to access the test. These are found by downloading the Student Login Usernames/Passwords extract in Educator Portal. Extracts are found in Kite Educator Portal at REPORTS > DATA EXTRACTS. See the [Educator Portal Manual](#) for more information about downloading usernames and passwords.

If the student participated in interim testing this year, the student’s username and password are also found on the student’s interim test ticket in the interim system.

In addition to a username and password, a student also needs a Daily Access Code to access the KELPA2 assessment. Daily Access Codes are found in Kite Educator Portal at MANAGE TESTS > TEST COORDINATION > View Daily Access Codes. See the [Educator Portal Manual](#) for more information about downloading Daily Access Codes.

Daily Access Codes allow students to launch each domain-assessment. Each day during the testing window, there is a unique code for each domain-assessment; however, within a grade level, all students use the same codes. Codes are activated and expire at a specified time each day. Daily Access Codes can be retrieved from Educator Portal beginning at 2:30 p.m. the day *before* testing day and the entire day of testing.

Preparing Students - Assessment Day

The following information may stimulate confidence in students and prepare them for testing:

- » Advise students they will be responding to sets of questions in listening, speaking, reading, and writing.
- » Advise students that they will hear and see the questions in English and that they must answer the questions in English.
- » Inform students that they should try their best, though some questions may be hard because they have not yet studied the material.
- » Inform students that they will have as much time as they need to answer the questions.
- » Encourage students to attempt all items as best they can.
- » Inform students that they can repeat audio recordings in the testing environment as often as they would like.

Seating Students

- » Students should sit at a table or desk with plenty of room.
- » Create enough space between students to prevent answer sharing.
- » Provide an adequate writing surface for students to use scratch paper.
- » Ensure a quiet environment and room arrangement for the speaking domain-assessment so that noise from other students does not interfere with recording of spoken responses.

Beginning the Testing Session

- » For students who have difficulty logging in to Kite Student Portal, teachers may prepare the student's computer in advance by activating the Kite program and logging in to Kite Student Portal using the student's username and password.
- » Instruct students to enter the Daily Access Code.
- » Do not let a student take the wrong test or form type for any reason (for example, taking a general content assessment instead of KELPA2).
- » Tell students what they should do if they finish the assessment early. Students who finish before others must not disrupt the testing environment.
- » Check with the Building Test Coordinator before providing log-in information to

a student whose accountability school is different from the attendance school.

Using Kite Student Portal

Opening a Test

To begin a test session, tell students to perform the following steps:

1. Select the Kite icon. It may take a few seconds to open.
2. Enter username and password.
3. Select Sign In.
4. Select Take a Test.
5. On the blue bar, select KELPA2 (if needed).
6. Find the appropriate test and select Take Test.
 - Hint: Domain tests may also be found on Page 2.
7. Enter the Daily Access Code when prompted.

Walk around the room to verify students have logged in properly.

Listening Domain-Assessment Sound and Recording Check

Before launching the listening domain-assessment, Kite Student Portal will prompt students to test sound and recording volumes. Follow the directions on the screen.

Assessment Directions

Instruct students to read or listen to the assessment directions presented on the screen. The directions describe how to navigate through the test. If the student is listening to the instructions, instruct the student to select the Read button near the bottom of the screen to hear the directions read aloud in English.

- Hint: Students may return to the directions at any time. From the first page, select the Back button.

Question and Media Pages

Two types of pages occur in KELPA2, question pages and media pages.

- » Question pages contain the task or question the students must complete.
 - Question pages are noted with a number in the top bar of Kite Student Portal.
 - Unanswered questions have a gray background.
 - Answered questions have a green background.
 - Students may select the ? symbol above a question to access technology directions for a specific item type. Technology directions tell students how to navigate the Kite Student Portal interface to provide an answer to a question.
- » Media pages contain audio tracks and/or images that are associated with the questions after them.
 - Media pages are noted with an icon on the top bar of Kite Student Portal.
 - On the top bar, media pages are displayed to the left of their associated questions.
 - Students should play all of the audio tracks on each media page.

SECTION 5

DURING KELPA2

- Multiple media pages may precede a set of questions. Students should view and listen to all media on the media pages preceding a set of questions. Students may replay or review any media at any time during the session.

- Each sound track uses a media player. Select the play button to play the track.
- Drag the slider to advance or rewind the track.
- Select or drag the volume selector to change the volume.
- Toggle the loudspeaker icon to mute or unmute the sound.

Clearing a Response

Students may reset a question at any time by selecting Clear. Selecting the Clear button returns the question to its beginning state.

Navigation

To move forward or backward in the assessment, students may select a media or question page along the top navigation bar or select Next or Back at the bottom of the screen.

- Hint: Students may return to the directions at any time. From the first page, select the Back button.

Students may need to move the scroll bars up or down to view all of the content on a page.

Kindergarten and Grade 1 Scripts - Speaking and Writing

As indicated in the Kindergarten and Grade 1 *KELPA2 Test Administration and Scoring Directions*, read the test administration scripts for speaking and for writing.

The scripts detailed below for listening and reading-domain assessments may be used for Kindergarten and Grade 1.

Listening Assessment Guidelines and Script

During the listening domain-assessment, students will listen to recordings and then mark their answers to corresponding questions.

- » Students must have headphones to hear the recorded prompts.
- » Test the sound levels prior to launching the assessment. Sound levels may be adjusted using the media player in Kite Student Portal.
- » Students should play all media on all media pages.
- » Students may replay audio tracks as needed.

Script: Listening Domain-Assessment Directions to Students

Say: “This is a listening test. It will give you a chance to show how well you can listen to and understand English. Take your time and do your best work.”

“All questions will be read to you. You will hear things such as conversations and presentations. You may also listen to answer choices. Listen carefully.”

“Use the Help icon if you don’t understand how to mark your answer. If you do not understand what to do, raise your hand.”

“Answer as many questions as you can. Take as much time as you need.”

NOTE: Students log in to the test but do not start yet.

Say: “Silently read or listen to the directions. Raise your hand if you have any questions or do not understand what to do. You may come back to these directions any time.”

“At (insert time agreed upon with the Test Coordinator), I will stop the test. Many of you will be done, but some of you may need more time. If you need

more time, I will tell you how to continue testing. Does anyone have any questions?”

(Pause.)

“When you have answered the last question, choose the Review/End button. Raise your hand, and I will check your screen to make sure that you are finished. You may begin reading the directions, and when you are ready, start the test.”

Speaking Assessment Guidelines and Script

- » The speaking domain-assessment must be completed on a desktop or laptop computer.
- » Students must have headphones and a microphone to complete the speaking domain-assessment.
- » Kite Student Portal will prompt the student to test recording and sound levels prior to launching the speaking domain-assessment.
- » Students should play all media on pages.
- » Ensure a quiet environment and room arrangement for the speaking domain-assessment so that noise from other students does not interfere with recording of spoken responses.
- » To redo a recording, simply record a new response.
- » Educators may score speaking domain-assessment items as students are registering a response in Kite Student Portal (simultaneous scoring).

Script: Speaking Domain-Assessment Directions to Students

Say: “This is a speaking test. It will give you a chance to show how well you can speak in English. Take your time and do your best work.

“The questions will be read to you. Listen carefully.”

“You can hear the question again by selecting the play button.”

“You will answer the questions by speaking into the microphone and recording your answer. You will practice this on the microphone check screen. You can record your answer and then select play to listen to your answer.”

“If you want to change your answer, you may record a new one.”

“Use the Help icon if you don’t understand how to mark your answer. If you do not understand what to do, raise your hand.”

“Answer as many questions as you can. Take as much time as you need.”

NOTE: Students log in to the test but do not start yet.

Say: “Silently read or listen to the directions. Raise your hand if you have any questions or do not understand what to do. You may come back to these directions any time.”

“At (insert time agreed upon with the Test Coordinator), I will stop the test. Many of you will be done, but some of you may need more time. If you need more time, I will tell you how to continue testing. Does anyone have any questions?”

(Pause.)

“When you have answered the last question, choose the Review/End button. Raise your hand, and I will check your screen to make sure that you are finished. You may begin reading the directions, and when you are ready, start the test.”

Reading Assessment Guidelines and Script

- » Students must have headphones to complete the reading domain-assessment.
- » Students should play all media on pages.
- » Students may need to move scroll bars up or down to view the entire reading passage and/or to view an entire question.

Script: Reading Domain-Assessment Directions to Students

Say: “This is a reading test. It will give you a chance to show how well you can read and understand English. Take your time and do your best work.

“The test will include some passages. Read the passage and then answer the questions. Use the scroll bars to see all of the information.”

“Use the Help icon if you don’t understand how to mark your answer. If you do not understand what to do, raise your hand.”

“Answer as many questions as you can. Take as much time as you need.”

NOTE: Students log in to the test but do not start yet.

Say: “Silently read or listen to the directions. Raise your hand if you have any questions or do not understand what to do. You may come back to these directions any time.”

(Pause.)

“When you have answered the last question, choose the Review/End button. Raise your hand, and I will check your screen to make sure that you are finished. You may begin reading the directions, and when you are ready, start the test.”

Writing Assessment Guidelines and Script

- » Kindergarten and Grade 1 writing domain-assessments are both computer based and paper based. The Kindergarten and Grade 1 writing assessment masters are located in the *KELPA2 Test Administration and Scoring Directions for Writing* documents for each grade. Print as needed for test administration. All copies must be destroyed at the end of testing.
- » Students in grades 2-12 will answer individual questions and also respond to writing prompts.
- » Students in grades 2-12 must have headphones to complete the writing domain-assessment.
- » Students in grades 2-12 will enter writing responses using the on-screen text editor. It is a good practice to use the Save button regularly.
- » Students should play all media on pages.

Script: Writing Domain-Assessment Directions to Students

Say: “This is a writing test. It will give you a chance to show how well you can write in English. Take your time and do your best work.”

“The test will include some writing questions. For some questions, you will type your answer. Use the scroll bars to see all of the information.”

“Use the Help icon if you don’t understand how to mark your answer. If you do not understand what to do, raise your hand.”

“Answer as many questions as you can. Take as much time as you need.”

(Pause.)

“When you have answered the last question, choose the Review/End button. Raise your hand, and I will check your screen to make sure that you are finished. You may begin reading the directions, and when you are ready, start the test.”

Providing Assistance with Technology

This section provides further information for Test Administrators on how to clarify, paraphrase, or define the technology directions for KELPA2. Test Administrators may read, paraphrase, or define technology directions for students who request assistance with how to show their answers.

Technology directions are the directions that appear when the ? icon is selected.

Technology directions tell students how to navigate Kite Student Portal to provide an answer to a question. Additionally, Test Administrators may provide further assistance to a student regarding how to use a device to provide an answer. **This further assistance must be limited to the technology directions only.**

Test Administrators must follow these steps when a student requests assistance:

- » Remind the student to select the ? to read or to listen to the technology directions.
- » If the student is still unsure, read the technology directions to the student exactly as written.

If the student needs further clarification, paraphrase or define the technology directions. Examples of how to paraphrase or define the technology directions are provided below.

- » Do not read the item (the question, answer choices, graphics, or passage) to the student.
- » Do not use the question or answer choices as part of your explanation of the technology directions.
- » Do not touch the screen, keyboard, or mouse.

CAUTION: The screenshots that follow in this section are non-secure KELPA2 items from the technology practice for training purposes. Please remember that district personnel are not allowed to take screenshots of KELPA2 for any purpose.

The following examples are given by the technology-enhanced item format and are not exclusive to the KELPA2 domain-assessment.

Choice Menu (Drop-Down Menu)

The screenshot shows a digital interface for a reading comprehension question. At the top, it says "Select the correct words to complete the sentences." Below this is a progress bar. The main text of the question is: "It was early afternoon, and we had set sail. We were on our way. There wasn't a strong wind, so we rowed with our oars to move down the river. [Select] we had traveled quite a distance, we heard a loud noise. The ship had hit a rock under [Select] water. We brought the ship to the shore [Select] it up on land. We decided to camp [Select] the river and repair the ship in the morning." A drop-down menu is open over the first "Select" box, showing the options: "Select", "During", "After", "As", and "Later".

Technology Directions

“On a computer, click anywhere inside the drop-down box for the answer choices to appear. Click the option you want to select. Your choice will show in the text.”

“On a tablet, tap anywhere inside the drop-down box for the answer choices to appear. Tap the option you want to select. A check mark appears next to your choice, and your choice then shows in the text.”

Paraphrase or restate the instructions.

ALLOWED

“Where it says Select, there is a drop-down menu. Click the triangle. Then pick the answer.”

NOT ALLOWED

“It’s asking you to look at the words and tell which word goes in the sentence. Click Select, and you’ll see the answer choices. Let’s look at it.”

Cautions

Do not cue students on the way to choose the best answer or on the context surrounding the Select menu.

Labeling

Technology Directions

“On a computer, click to select the word(s). Continue to hold the mouse button down to drag the word(s) to the correct box with red border. Release the mouse button. The word(s) remain in the box.”

“On a tablet, touch and hold the word(s). Keep touching the word(s) as you drag it to the correct box with red border. When you lift your finger, the word(s) drops into place.”

Paraphrase or restate the instructions.

ALLOWED

“You need to drag the labels to the picture. Click the label and hold the button on the mouse until you choose which box you want to put it in.”

NOT ALLOWED

“Click the word ‘canopy’ and drag it down to the box by the trees. You have to keep the button on the mouse down until you let it go. Here, like this ...”

Definitions

A “graphic” is a picture.

Cautions

Do not use the names of the labels.

Object Placement

Move the words to make the sentence.

flowers girl planting is

The .

Technology Directions

“On a computer, click to select the object. Continue to hold the mouse button down to drag the object to the correct box with red border. Release the mouse button. The option remains in the box.”

“On a tablet, touch and hold the object. Keep touching the object as you drag it to the correct box with red border. When you lift your finger, the option drops into place.”

Paraphrase or restate the instructions.

ALLOWED

“Select the answer choices from the shaded box below the question and move them to one of the empty boxes below.”

NOT ALLOWED

“Which word belongs in the first box?”

Cautions

Do not cue the student about what the objects are or how the objects relate to each other. Do not read the objects (in this case, words).

Ordering

**Technology Directions**

“On a computer, click an object. Continue to hold the mouse button down to drag the object to the box in the correct position. Release the mouse button. The object remains in place.”

“On a tablet, touch and hold an object. Keep touching the object as you drag it to the box in the correct position. When you lift your finger, the object snaps into place.”

Paraphrase or restate the instructions.

ALLOWED

“You can change the order by selecting one option and dragging it over to the place you want it.”

NOT ALLOWED

“The first thing that happens should be your first sentence. Figure out who talks first and then drag that one to the front.”

Cautions

Do not cue the student on how to order the options.

Select Image**Technology Directions**

“Click or tap the picture to select an answer. A red box will appear around the picture with yellow highlight inside the red box.”

“To select a different answer, click or tap the picture of the new answer choice. A red box will appear around the picture with yellow highlight inside the red box of that answer.”

Paraphrase or restate the instructions.

ALLOWED

“Pick from the images. When you tap the screen, there will be a red box around the image. That shows that you chose it as the answer.”

NOT ALLOWED

“Click the triangle. See how the image has a red box around it? That shows you chose it as an answer.”

Cautions

Do not indicate the number of images the student can chose from.

Maintaining Security

- » Do not leave students unattended in a room with access to assessment materials.
- » Continuously circulate through the assessment room to ensure that students do not access unauthorized electronic devices, such as cell phones, or other unauthorized resources or tools at any time during the assessment.
- » Do not engage in activities that interfere with active monitoring, such as using a computer or other device, preparing lesson plans, or grading papers.
- » Regularly check to see that students are able to navigate the Kite Student Portal interface and provide assistance if necessary.
- » Adequately supervise restroom trips and breaks to ensure students do not discuss the assessment with other students.
- » Security violations should be reported to the Building Test Coordinator.

Test Completion

- » Teachers must verify that all questions have been answered via the Review/End screen in Kite Student Portal before a student exits a domain-assessment.
- » Students who have omitted items or who did not finish a test session due to illness, time constraints, or other factors may have the session reactivated. The student should be monitored so that only the previously omitted items are completed.
- » Students who have completed all test sessions may *not* have their sessions reactivated due to poor test performance or lack of effort. If a student appears to be lacking effort or is quickly clicking through answer choices, stop the test and contact the Building Test Coordinator.
- » If students are allowed to leave the assessment room when finished, advise students where they are expected to report and to leave the testing room quietly.
- » If students are expected to remain in the assessment room when finished, they may read a book quietly or complete other individual work. The use of electronic devices by nontesting students is not allowed.
- » When students have completed the first assessment session, collect all materials.
- » Scratch paper and graph paper must be collected and destroyed.

Monitoring Student Testing Status

- » The Test Coordinator has the ability to monitor which students finished testing, which students have sessions to finish, and which students have incomplete tests.
- » Depending on the user's role and type of test, some individuals can monitor test sessions in real time using Educator Portal. This monitoring function shows which questions a student has completed but does not display student answers.
- » Real-time monitoring increases the load on Kite Student Portal and local bandwidth. To keep real-time monitoring to a minimum during the spring summative high-stakes test sessions, only users with the following roles can monitor student progress using Educator Portal:
 - Building Test Coordinator
 - Building User
 - District Test Coordinator
 - District User

Reactivating Student Testing Sessions

- » If a student's session ends before the student is finished, the student may reuse the username, password, and Daily Access Code to log in again within 90 minutes of the original login. After 90 minutes have passed, the student's test session must be reactivated.
- » To reactivate a test session for a student, contact the District or Building Test Coordinator and provide the student's name, grade level, subject, and the reason for the reactivation.

Entering Special Circumstances Codes

In the event that a student cannot take or complete KELPA2, the Test Coordinator at the building or district level will need to enter the special circumstance code in Educator Portal. To enter the special circumstance code for a student, perform the following steps.

1. Log in to Educator Portal.
2. Click MANAGE TESTS.
3. Select the TEST COORDINATION tab.

4. Select the appropriate choices from the drop-down menus.
5. Click Search.
6. Locate the session that needs to be updated.
7. In the Test Session Name column, select the name of the test.
8. Select the appropriate student.
9. In the Special Circumstance column, select the applicable circumstance.
10. Click Save.

NOTE: Please see the *Kansas Assessment Examiner's Manual* for a listing and description of special circumstance codes.

7

OVERVIEW OF SCORING

Hand Scoring Speaking and Writing Items

Items in the speaking domain-assessments and some items in the writing domain-assessments will require hand scoring locally by educators.

NOTE: Specific guidance and rubrics for item scoring at each grade band and domain-assessment are located in the *KELPA2 Test Administration and Scoring Directions* files, which are downloadable from the HELP tab in Kite Educator Portal. These documents are available one week before the testing window opens.

Table 4 lists the number of items by grade and domain-assessment that require hand scoring. Some items are scored using holistic rubrics, and others are scored using analytic rubrics.

Table 4. KELPA2 Hand-Scored Item Counts

GRADE	SPEAKING	WRITING
Kindergarten	16	5
Grade 1	12	4
Grades 2-3	11	6
Grades 4-5	12	7
Grades 6-8	14	8
Grades 9-12	14	6

- » Educators must complete training prior to scoring KELPA2 items and must have accounts in Kite Educator Portal.
 - Educators who are associated with the student’s TEST record will be assigned as the Scorer.
- » The window for hand scoring speaking and writing items is February 4 - March 29, 2019 at 5:00 p.m.
- » Scoring may begin immediately after the window opens. KSDE does *not* recommend waiting to begin scoring until after the KELPA2 window closes.
- » Speaking items may be scored as students are recording responses (simultaneous scoring).
- » For educators who will score multiple student speaking responses, spreadsheets of scores may be compiled and then uploaded into Kite Educator Portal.

SECTION 7

OVERVIEW OF SCORING

- Data in each file for upload must be comprised of a single grade and a domain assessment (for example, grade 3 reading).
- » Writing assessment items must be scored within Kite Educator Portal.
- » Users with permissions may monitor scoring progress and send reminders to educators who are assigned to score.
- » Maintain security of rubrics and scoring documents at all times.
