ROCKLAND PUBLIC SCHOOLS EDUCATIONAL INTEGRITY POLICY

Society is profoundly affected by the level of honesty of its citizens; therefore, maintaining the educational integrity of both students and staff is an important goal of the Rockland Public Schools. Cheating in any form is dishonest and erodes the trust among parents, students, and teachers. It is a serious breach of ethics and values and will not be tolerated.

Cheating includes, but is not limited to, plagiarism, crib notes, copying homework, computer piracy, and looking at another person's test. Ultimately, however, teachers will set the tone of what is expected and what will not be tolerated in their classrooms. If cheating does occur, it will be dealt with swiftly and confidentially. Depending on the seriousness of the incident, parents and administrators may be involved as determined by the teacher. Consequences may range from receiving a zero on a test, paper, or project, to receiving a zero for a full marking terms or even being suspended from school.

Maintaining the highest ethical standards in teaching and learning in the Rockland Public Schools requires the understanding and cooperative efforts of students, parents, teachers, and administrators. By committing ourselves to the values of honesty and good character and by working together in the best interests of our children and their future, we will ensure the highest standards of educational integrity for the Rockland Public Schools.

SCHOOL REGULATIONS

Student Arrival: 8:00 A.M.

Student Dismissal: 2:35 P.M.

General adult supervision begins at 7:45 A.M. and ends at 3:00 P.M.

BEFORE SCHOOL

Students can enter for breakfast at 7:45 A.M. Students will be allowed in early when the principal deems it necessary.

FIRE DRILLS

Fire drill regulations are different for each classroom. You will find directions for your respective room posted in a conspicuous place. Students are to leave in a quiet and orderly manner. Any student who is unable to access the stairs should report to the Taunton Avenue end of the building. A faculty member will stay with these students until appropriate support arrives.

ATTENDANCE POLICY

One of the most common causes of poor student achievement is excessive absence from school. Absenteeism must be considered a serious matter for all students at any grade level, regardless of ability. Absences can only be approved when a child is ill or involved in an emergency necessitating his or her absence.

The laws of the Commonwealth of Massachusetts clearly explain the responsibility of the parent and school administrators regarding pupil attendance and what the school department must do to enforce the laws of student attendance.

Chapter 76, section 1, 2 of the General Laws of Education Relating to School Committees.

1. Chapter 76, section 1 Regulation of School Attendance

"...The superintendent or teachers insofar as authorized by him or the school committee, may excuse cases of necessary absence for the other causes not exceeding seven (7) sessions or fourteen (14) half-day sessions in any period of (6) months..."

2. Chapter 76, section 2 Duties of Parent: Penalty

"...Every person in control of a child described in the preceding section shall cause him to attend school as

therein required, and, if he fails to do so for seven (7) days sessions or fourteen (14) half-day sessions within any period of six (6) months..."

Therefore, any pupil returning to school after being absent one or more days must present a note from his/her parents or guardian giving the date and reason for the absence. Any student who is on restricted physical activity must present a doctor's certificate stating the cause for such restrictions and the length of the restriction.

A student may be excused from physical activity for a limited amount of time after the parent has consulted with the school nurse.

Any absences from school in excess of 14 days are considered unexcused absences and can only be considered excused absences under the following circumstances:

1. Student returns to school with a certified medical note, e.g. from a physician or hospital stating a medical cause for absence.
2. Death in family.
3. Observance of a religious holiday.
4. Mandated court appearances.

Failure to comply with the fourteen (14) day rule will jeopardize a student's promotion. It will be the student's responsibility to make up any school work missed during an absence.

The school will after the (5th) unexcused absence, notify the parents in writing of absences.

Any student found to be truant from school will receive any consequences as outlined in the student handbook in regard to truancy, including parental notification. Any student found to be truant from school will have his/her name referred to the **Learning Assistance Team** for further action, including possible court referral.

It is recommended that Perfect Attendance Awards be given out at the end of each school year. Perfect Attendance will include no tardiness and no early releases from school.

Accepted by School Committee 8/18/1997

TARDINESS

1. Students must be in their homerooms at 8:05 A.M. Tardy students must report to the office for a pass.
2. Tardiness is excused only for a student who brings a medical note from home explaining his/her tardiness.
3. Parents/guardians will be notified by mail if their child is chronically tardy
4. Excessive tardiness will result in Saturday detention (*when offered*).

DISMISSAL

Early dismissal from school requires a note stating who will pick you up or how you will get home. This note must be brought to the General Office and a dismissal pass will be issued. The dismissal pass must be shown to the classroom teacher at the time of dismissal and turned in to the office before leaving the building.

In case of illness while in school, your parent will be called to have you picked up. You will not be allowed to leave with anyone but your parent or someone who is designated by your parent or recorded on the emergency card. With parental permission, you may be allowed to walk home. **All calls for dismissal shall be made in the main office or Nurse's office.**

ILLNESS

A student who is ill should report to the nurse's office with consent of the classroom teacher. No student should be allowed to visit the nurse's office without a pass from the classroom teacher or administration. Students should remain home for 24 hours if:

- They are running an elevated temperature of 100 F or higher
- Persistent vomiting or diarrhea.

ABSENCE

A parent should call the school to inform them that their child will be absent. When a student returns to school after being absent, he/she must present a written excuse (email is permissible) to the homeroom teacher, which includes the date or dates of absence, the reason for the absence, and the signature of the parent or legal guardian, even though the school calls home. If a student is absent five or more consecutive days, he/she is required to submit a doctor's certificate on return to school. Note is to include reason for absence, date, and physician's signature.

MAKE-UP WORK POLICY

If students are absent, parents may call the school to arrange for homework assignments. **Work will be provided by the end of the next school day.** Other arrangements will be made for long term illnesses. When returning to school, it is recommended that students stay after school to obtain assignments and work.

MEDICATIONS

The following protocol must be followed if your child receives medication in school:

- 1) Note from parent with (a) Name of student, (b) Name of medication and dosage and time to be given.
- 2) Medicine must be in the original container with the student's and physician's name on it.
- 3) Doctor's note giving permission for prescribed medication to be dispensed at school.

This is a safety measure for the student and school nurse. If there are any questions, please contact the nurse at school.

The following guidelines should be followed- To ensure an environment conducive to education is maintained at RMS, students are prohibited from wearing inappropriate clothing that is likely to disrupt our educational climate. LIBRARY RULES AND PROCEDURES

Students may use the library if they arrive with a signed library pass from a teacher. The library pass indicates the reason the student is coming to use the library so the library staff knows the purpose of the visit. During SSR two students per classroom are allowed to come to the library at one time.

The library is generally open before and after school for students' academic use. Students sign in at the help desk. See postings for closed times in the Main Street hallway, or ask the library staff. Hours are subject to change due to staff availability.

Students are expected to keep the library neat and clean, to stay engaged in their work, and to allow other students to work without interruption. When a student comes to the library he/she is expected to engage in the activity noted on the library pass. If a student is not engaging in this activity, he/she will return to class.

BOOK LOAN

Students may borrow a total of 2 library books for a 2 week period, and may renew (borrow again) each book for another 2 weeks if needed. If another student is waiting for the same book (it is “on reserve”), only one renewal is allowed, so that the waiting student may borrow the book. Return books in the bin located on the library help desk. If a book is not returned or is damaged beyond reasonable repair, the student will be charged for the replacement of the item(s). Students who have overdue books need to return the books before they can borrow again.

READING DEVICES

The library loans electronic reading devices for one week periods and can be renewed if returned promptly. If a book is not on the library shelves in print, a student may request that the electronic book be added to a reading device. The Library Teacher will then consider the title for purchase using the library’s Selection Procedure that includes the consideration of: the popularity of the title, the currency of the title, the connection to the curriculum, the age level of the title, the reading level of the title, the frequency of use for similar titles, the existence of similar titles in our library, and professional reviews of the title. The library generally finishes the approval process within three days. Students may use the devices with a signed Technology & Electronic Communication Device Acceptable Use Policy and a signed Technology Borrowing Program Agreement. If the device is not returned within the one week period, the student will lose borrowing privileges. If a device is not returned, the student will be charged the replacement cost for the device.

MAGAZINES

Magazines may be borrowed in addition to books, and do not count toward the total borrowing limit of 2 books per student.

COMPUTERS

Students may use the library’s computers according to the school’s Technology & Electronic Communication Device Acceptable Use Policy. They are to be used only within the library. The computers along the wall are for use by students visiting from classes, either individually or in a small group. The laptop computers are for use with classroom teachers only. If a student comes with a class, the student will be assigned a numbered laptop computer. This will be the same computer the student will use for the remainder of the school year while visiting the library with the class. If there is any damage to the computer upon receiving it, the student must notify library staff immediately.

POSSESSION, USE, OR SALE OF CONTROLLED SUBSTANCES, ALCOHOL, STEROIDS, OR DRUGS

A student is prohibited: 1) from being in possession of, from using, from being under the influence of, and from selling, distributing, or intending to sell or distribute a controlled substance as defined in Chapter 94C of the General Laws (commonly known as the Controlled Substances Act), alcohol, or steroids at any time in school, on school premises or property, and during any school activity or event whether or not during school hours and 2) from misusing, selling, distributing, or intending to sell or distribute prescription or over-the-counter medicines, drugs, or medications at any time in school, on school premises or property, and during any school activity or event whether or not during school hours. The Rockland School Committee may require a student to take a breathalyzer test under any relevant circumstances. The school committee shall deliver to the police any and all controlled substances, steroids, drugs, etc. which the committee obtains from any students under such circumstances.

The Rockland School Committee believes that under any and all of the circumstances hereinabove described, the parents should obtain and provide medical intervention for the student. Additionally, the school department has counseling services available to students who wish to avail themselves of such services. The assistant principal may in his/her sound discretion modify or waive part or all of the discipline of a student who elects to participate in some type of approved drug or alcohol rehabilitation or treatment program.

With respect to the possession of a controlled substance, the relevant provisions of Section 37H of Chapter 71 of the General Laws are applicable, and these provisions are hereinafter set forth. Notwithstanding the provisions of Section 37H of Chapter 71, a student who is disciplined under this statute shall have the right of appeal to the Rockland School Committee in accordance with Part C–Due Process Procedures and Appeal Process.

Section 37H of Chapter 71 of the General Laws reads in relevant part as follows:

- (a) Any student who is found on school premises or at school-sponsored or school-related events, including athletic games, in possession of a dangerous weapon, including, but not limited to, a gun or a knife; or a controlled substance as defined in chapter ninety-four C. including, but not limited to, marijuana, cocaine, and heroin, may be subject to expulsion from the school or school district by the principal.
- (b) Any student who assaults a principal, assistant principal, teacher, teacher's aide or other educational staff on school premises or at school-sponsored or school-related events, including athletic games, may be subject to expulsion from the school or school district by the principal.
- (c) Any student who is charged with a violation of either paragraph (a) or (b) shall be notified in writing of an opportunity for a hearing; provided, however, that the student may have representation, along with the opportunity to present evidence and witnesses at said hearing before the principal.
After said hearing, a principal may, in his discretion, decide to suspend rather than expel a student who has been determined by the principal to have violated either paragraph (a) or (b).
- (d) Any student who has been expelled from a school district pursuant to these provisions shall have the right to appeal to the superintendent. The expelled student shall have ten days from the date of the expulsion in which to notify the superintendent of his appeal. The student has the right to counsel at a hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student has violated any provisions of this section.
- (e) When a student is expelled under the provisions of this section, no school or school district within the commonwealth shall be required to admit such student or to provide educational services to said student. If said student does apply for admission to another school or school district, the superintendent of the school district to which the application is made may request and shall receive from the superintendent of the school expelling said student a written statement of the reasons for said expulsion.

The provisions of Section 37H1/2 of Chapter 721 of the General Laws read in their entirety as follows:

Notwithstanding the provisions of section eighty-four and sections sixteen and seventeen of chapter seventy-six:

- (1) Upon the issuance of a criminal complaint charging a student with a felony or upon the issuance of a felony delinquency complaint against a student, the principal or headmaster of a school in which the student is enrolled may suspend such student for a period of time determined appropriate by said principal or headmaster if said principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and the reasons for such suspension prior to such suspension taking effect. The student shall also receive written notification of this right to appeal and the process for appealing such suspension; provided, however, that such suspension shall remain in effect prior to any appeal hearing conducted by the superintendent.
The student shall have the right to appeal the suspension to the superintendent. The student shall notify the superintendent in writing of his request for an appeal no later than five calendar days following the effective date of the suspension. The superintendent shall hold a hearing with the student and the student's parent or guardian within three calendar days of the student's request for an appeal. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational program for the student. The superintendent shall render a decision on the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the suspension.
- (2) Upon a student being convicted of a felony or upon an adjudication or admission in court of guilt with respect to such a felony delinquency, the principal or headmaster of a school in which the student is enrolled may expel said student if such principal or headmaster determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school. The student shall receive written notification of the charges and reasons for such expulsion prior to such expulsion taking effect. The student shall also receive written notification of his right to appeal and the process for appealing such expulsion; provided, however, that the expulsion shall remain in effect prior to any appeal hearing conducted by the superintendent.
The student shall have the right to appeal the expulsion to the superintendent. The student shall notify the superintendent, in writing, of his request for an appeal no later than five calendar days following the effective date of the expulsion. The superintendent shall hold a hearing with the student and the student's parent or guardian within three calendar days of the expulsion. At the hearing, the student shall have the right to present oral and written testimony on his behalf, and shall have the right to counsel. The superintendent shall have the authority to overturn or alter the decision of the principal or headmaster, including recommending an alternate educational

program for the student. The superintendent shall render a decision of the appeal within five calendar days of the hearing. Such decision shall be the final decision of the city, town or regional school district with regard to the expulsion.

Upon expulsion of such student, no school or school district shall be required to provide educational services to such student.

CHEMICAL HEALTH POLICY

A student, regardless of age, shall not, regardless of the quantity, use, possess, transmit, intend to distribute, distribute, or be under the influence of any beverage containing alcohol; any tobacco and/or nicotine products, including but not limited to e-cigarettes, vaporizers, aerosols and related devices/refills; marijuana and/or THC in any form (including but not limited to oils, edibles, potables or tinctures,); steroids; or any controlled substance. Students, regardless of age, shall not be in possession of any drug paraphernalia. Students are prohibited from the use or consumption of alcohol, tobacco/nicotine products, or drugs on school property, at any school function, or at any school-sponsored event.

Additionally, any student who is under the influence or in possession of drugs, drug paraphernalia, tobacco/nicotine or related devices/refills, or alcoholic beverages or other intoxicants upon arrival, or during, any school-sponsored activity, will be barred from that activity and will be subject to disciplinary action.

A student will not be disciplined for proactively requesting help for a substance use issue for themselves or if attempting to get assistance for a friend per MGL94C, Section 34A, Good Samaritan Law: MGL 94C: Section 34A Immunity from prosecution under Secs. 34 or 35 for persons seeking medical assistance for self or other experiencing drug-related overdose.

CONSEQUENCES FOR CHEMICAL HEALTH VIOLATIONS

Students in violation of the chemical health policy while in school or at a school-sponsored event will be subject to disciplinary action (including but not limited to suspension or expulsion) in accordance with student discipline laws, as deemed appropriate by the school administration.

CODE OF CONDUCT

Students in the Rockland Public Schools are expected to treat all members of the school community with dignity and respect. The school community is defined as all those people who work or interact in the school.

Each person in the school must have the opportunity to grow personally, socially, and intellectually, as well as the opportunity to exercise his/her rights in a positive and constructive way. Thus, all members of the school community have the responsibility to conduct themselves in a way that demonstrates a respect for all individuals, their rights, and their property. All members of the school community must also understand and support the standards of conduct of the school and assist in the enforcement of rules and regulations. This behavior is expected during all curricular, co-curricular, athletic, and special events of the school both on and off campus, including school-sponsored trips and those times when school buses or other school provided transportation is used.

Students are guaranteed due process and fair treatment at school. Therefore, prior to a school administrator taking disciplinary action against a student, the school administrator shall provide the student with appropriate due process. When the disciplinary action consists of ten days of suspension or a lesser penalty, this process shall consist of informing the student of the charges against him/her and giving the student an opportunity to respond. More formal procedures must be followed when the discipline proposed is greater than ten days suspension.

These rules and regulations may be supplemented by teachers' rules for individual classes. The academic success and the safety of students are contingent on students maintaining appropriate and responsible behavior. Therefore, in addition to disciplinary action imposed by the teacher for inappropriate behavior in class and or the disciplinary action provided in "Rules and Regulations" below, any student reported to be disruptive in class and/or in violation of the safety precautions established by the teacher may be removed from that class for a period of time designated by an administrator. If the student's behavior does not improve after returning to class, a student may be permanently removed from the class by an administrator following a conference with a parent or guardian.

The Principal or Assistant Principal will make a reasonable effort to notify parents by telephone of a student's suspension. All suspensions are confirmed by letter as soon as possible after the penalty is imposed. Because all members of the school community are subject to both the laws of the Commonwealth and Town Ordinances, the school will report acts which may

violate the law to police as appropriate.

Penalties or suspensions will be served on those dates specified by the school principal (or his designee). Suspensions will be served on consecutive days. If a suspension ends on the day prior to a weekend or vacation, then the student is ineligible to participate in or attend any activities on the following day. When a period of suspension includes a weekend or vacation period, the student is ineligible to participate in or attend any activities throughout the entire period. Students who are suspended from school are not allowed to be in school or on school property at any time during the period of suspension or are not allowed to attend any school-sponsored activities. Students who do not fulfill outstanding disciplinary obligations by the last day of school must make arrangements with the principal or assistant principal to serve detentions.

Our rules and regulations are based on a system of progressive discipline. This means that an administrator has the discretion to significantly increase penalties in the cases of second and third offenses.

In determining the severity of the penalty or suspension, the principal or assistant principal may consider all relevant factors, including but not limited to the following:

- a. the student's previous disciplinary record
- b. the severity of the disruption of the educational process
- c. the degree of danger to self, others, and the school in general
- d. the degree to which the student is willing to change his/her inappropriate behavior.

DISCIPLINE APPEAL HEARING PROCESS

 Office Detention
 Saturday Detention
 Suspension
 Expulsion

A student being suspended for any reason, pursuant to G.L. Chapter 71, §37H^{3/4}, shall be entitled to due process as shown below:

(2) If the primary language of the student's home is not English, the notice(s) shall be translated into the primary language spoken in the home.

(3) The principal will make reasonable efforts to include the parent(s) in the meeting/hearing.

(4) If the principal notifies the student and student's parents of intent to impose a long-term suspension (more than 10 days), the student shall have the following rights:

DISCIPLINE OF STUDENTS WITH SPECIAL NEEDS

All students are expected to meet the requirement for behavior as prescribed in this handbook. State and federal special education laws prescribe additional requirements concerning the discipline of students with special needs. Any time school personnel remove a student from current educational placement for more than ten (10) school days in any school year, this constitutes a “change in placement.” A change in placement invokes certain procedural protections under IDEA, the federal special education law. These include, but are not limited to: The student’s Team will convene to determine whether the student’s misconduct which led to the change in placement was a manifestation due to disability.

- If misconduct was a manifestation, the school will conduct a functional behavioral assessment and implement a behavior intervention plan, provided the school did not already have an assessment in place
- If such an assessment was already conducted and in place, the behavior intervention plan will be reviewed and modified as necessary.
- Additionally, if the behavior was a manifestation, the student will return to the original placement, unless the school and the parent agree otherwise.

If the behavior was not a manifestation, the school may apply the relevant disciplinary procedures as would be applied to a student not eligible for special education, except that a student eligible for special education who is removed from current educational placement is entitled to continue receiving educational services to enable participation in the general curriculum, although in another setting, and to continue to progress toward meeting the goals set out in the student’s IEP.

In special circumstances, the school may move students to an interim alternative educational setting for not more than forty-five (45) days without regard to whether the behavior which led to the removal was a manifestation of the student’s disability. These special circumstances are:

- If a student carries or possesses a weapon to or in school, on school premises, or to or at a school function under the jurisdiction of a State or local educational agency, knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at the school, or on school premises, or at a school function under the jurisdiction of a state or local educational agency; or has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a State or local educational agency.

STUDENT SUSPENSION

Suspensions may be served in or out of school at the discretion of the principal or assistant principal. (See exceptions under Section 37H and 37H 1/2 of Chapter 71).

When a student is suspended, the following procedures will be followed:

1. Except in an emergency situation, no student will be suspended prior to having an informal meeting before the assistant principal. At this meeting, the student will be informed of the reasons(s) for the proposed suspension, and will be given an opportunity to respond. In an emergency situation which requires the immediate removal of a student, the informal meeting will be held as soon after the suspension as possible.
2. The assistant principal will make every possible attempt to notify parent(s) or guardian(s) of the student about the suspension and state the cause(s) leading to it. If the suspension is imposed during the school day, the parent(s) or guardian(s) may be required to transport the student home.
3. The assistant principal will send a letter to the parent(s) or guardian(s) confirming the suspension. This notification shall contain:
 - The number of days of suspension
 - The re-admittance date
 - The reason(s) for suspension as provided in the code of conduct.
 - A request for the re-admission conference, held prior to the students return to school, the nature of which will be at the administrators discretion (e.g. phone conference, in person meeting, etc.)
 - A copy of suspension procedures.
4. The assistant principal shall forward a copy of each suspension to the superintendent by the close of the school day following the suspension.

5. The student will be given an opportunity to complete any class work including, but not limited to, examinations, that may have been missed during the period of suspension. The student is responsible for bringing all books and materials home, obtaining assignments from classmates, and completing school work during the suspension. All assignments are due within two days of when the student returns to school following the suspension. The student is expected to contact each teacher within two days of his/her return to class following suspension. The student will be expected to take all quizzes, tests, writing assignments, etc. within two days of his/her return to school following suspension.
6. A student is required to serve the full number of days of suspension. If school is canceled due to snow (or other reasons), a student cannot count that date for the serving of a suspension.
7. When a parent or guardian of a special needs student chooses to appeal a suspension as provided in the handbook, the student will be allowed to attend classes and participate in all school activities until the process has been completed, unless the principal determines that the student's presence in school will present a danger to him/herself or others or will otherwise cause a substantial disruption to the school environment.

LEAVING SCHOOL GROUNDS

Students may not leave the building or the school grounds during school for any reason without the permission of a school administrator. Students are not to leave school grounds after arrival at school.

ELECTRONIC DEVICES

Students are discouraged from bringing personal electronic devices to school. If you choose to bring a cell phone or a musical listening device to school and it is visible or disruptive at any time during the day, the device will be confiscated and returned at the end of the day (first offense to student, second offense etc. to parent or guardian). Continued infractions may result in disciplinary action and a parent/guardian conference.

Cell phones may not be used from 8:00 a.m. -2:35 p.m. Cell phones should not be visible at any time without permission from a school official. Cell phones disrupting class will result in student discipline. Repeated violations may result in permanent loss of cell phone pending a parent conference. See electronic device policy for further clarification.

HARASSMENT POLICY

I. Introduction

It is the goal of the Rockland Public Schools to provide equal employment opportunities for all employees, to prevent any unlawful discrimination or harassment of any individual working at or attending our schools, and to provide a mechanism by which individuals can bring any concerns about discrimination or harassment to our attention.

We expect all individuals to treat each other with dignity and respect. We are committed to maintaining a safe and secure environment in which staff and students are all treated with respect. The Rockland Public Schools will not condone or tolerate any discrimination, or different treatment, of or among staff or students based upon characteristics, which include, but are not limited to: Age, Disability, Sex (including sexual orientation), Race, National Origin, Creed, Color.

Not only does the Rockland Public Schools prohibit discriminatory treatment of its staff and students by supervisors and administrators, we also will not tolerate discriminatory treatment among staff or among students, including harassment.

II. Harassment and Retaliation

Harassment, including sexual harassment, in any form or for any reason is absolutely forbidden and violates Title VI and Title VII of the Civil Rights Act of 1964, Title IX of the Civil Rights Act of 1972, G.L. c. 151B, and c.278s3A of the Acts of 1996. The Rockland Public Schools will not tolerate retaliation against any individual who has brought harassment or other inappropriate behavior to our attention. Retaliation is strictly forbidden, and if any individual is found to have retaliated against any individual for filing a complaint and/or cooperating in the investigation of any complaint, such action shall be grounds for separate discipline.

Harassment includes verbal or physical conduct which may or does offend, denigrate, and belittle any individual because of, or due to, any of the characteristics described above. Such conduct includes pictures, jokes, comments, innuendoes, graffiti, or any other behavior which creates an environment which is offensive and impairs the ability of the employees to work, and students to learn.

Allegations of harassment will be promptly investigated. Such investigation may include discussions with involved parties,

identification and questioning of witnesses, and other appropriate actions. If it is determined that harassment has occurred, administrative action will be taken to ensure that it is not repeated. This action may include, among others, counseling, training, apology, warnings, transfers, probations, suspension, expulsion, and discharge.

III. Definition of Sexual Harassment

While all types of harassment are prohibited, sexual harassment requires particular attention. Sexual harassment includes sexual advances, requests for sexual favors, and/or other verbal or physical conduct of a sexual nature. In Massachusetts, the legal definition for sexual harassment is this:

“Sexual harassment” means sexual advances, requests for sexual favors, and verbal or physical conduct of a sexual nature when:

- a) Submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly, a term or condition of employment or as a basis for employment decisions;

or

- b) Such advances, request or conduct have the purpose or effect of unreasonably interfering with an individual’s work performance by creating an intimidating, hostile, humiliating, or sexually offensive work environment.

Under these definitions, direct or implied requests by a supervisor for sexual favors in exchange for actual or promised job benefits such as favorable reviews, salary increases, promotions, increased benefits, or continued employment constitutes sexual harassment.

The legal definition of sexual harassment is broad and in addition to the above examples, other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating a work place environment that is hostile, offensive, intimidating, or humiliating to male or female workers may also constitute sexual harassment.

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct which, if unwelcome, may constitute sexual harassment depending upon the totality of the circumstances including the severity of the conduct and its pervasiveness:

- Unwelcome sexual advances—whether they involve physical touching or not;
- Sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one’s sex life; comments on an individual’s body, comment about an individual’s sexual activity, deficiencies, or prowess;
- Displaying sexually suggestive objects, pictures, cartoons;
- Unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
- Inquiries into one’s sexual experiences; and,
- Discussion of one’s sexual activities.

All employees and students should take special note that, as stated above, retaliation against an individual who has complained about sexual harassment, and retaliation against individuals for cooperating with an investigation of a sexual harassment complaint, is unlawful and will not be tolerated by this organization.

IV. Complaints of Sexual Harassment

If any of our employees or students believes that he or she has been subjected to sexual harassment, the employee has the right to file a complaint with our organization. This may be done in writing or orally.

If you would like to file a complaint you may do so by contacting any administrator or Dr. Alan Cron, Superintendent of Schools (781) 878-3893. Dr. Cron and administrators are also available to discuss any concerns you may have and to provide information to you about our policy on sexual harassment and our complaint process.

V. Sexual Harassment Investigation

When we receive the complaint, we will promptly investigate the allegation in a fair and expeditious manner. The investigation will be conducted in such a way as to maintain confidentiality to the extent practicable under the circumstances. Our investigation will include a private interview with the person filing the complaint and with witnesses. We will also interview the person alleged to have committed sexual harassment. When we have completed our investigation, we will, to

the extent appropriate, inform the person filing the complaint and the person alleged to have committed the conduct of the results of that investigation.

If it is determined that inappropriate conduct has occurred, we will act promptly to eliminate the offending conduct, and where it is appropriate we will also impose disciplinary action. Disciplinary action could include a range of consequences from verbal or written reprimand to suspension or termination.

VI. Disciplinary Action

In addition to the above, if you believe you have been subjected to sexual harassment, you may file a formal complaint with either or both of the government agencies set forth below. Using our complaint process does not prohibit you from filing a complaint with these agencies. Each of the agencies has a short time period for filing a claim. (EEOC-180 days; MCAD-6 months).

HAZING POLICY

The Rockland School Committee is subject to the provisions of Sections 17, 18 and 19 of Chapter 269 of the General Laws, the provisions of which read in their entirety as follows:

Section 17. Whoever is a principle organizer or participant in the crime of hazing as defined herein shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or both such fine and imprisonment.

The term “hazing” as used in this section and in sections eighteen and nineteen, shall mean any conduct or method or initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation.

Notwithstanding any other provisions of this section to the contrary, consent shall not be available as a defense to any prosecution under this action.

Section 18. Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to himself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. Whoever fails to report such crime shall be punished by a fine of not more than one thousand dollars.

Section 19. Each institution of secondary education and each public and private institution of secondary education shall issue to every student group, student team or student organization which is part of such institution or is recognized by the institution or permitted by the institution to use its name or facilities or is known by the institution to exist as an unaffiliated student group, student team or student organization, a copy of this section and sections seventeen and eighteen; provided, however, that an institution’s compliance with this section’s requirements that an institution issue copies of this section and sections seventeen and eighteen to unaffiliated student groups, teams or organizations shall not constitute evidence of the

institution's recognition or endorsement of said unaffiliated student groups, teams or organizations.

Each such group, team or organization shall distribute a copy of this section and sections seventeen and eighteen to each of its members, plebes, pledges or applicants for membership. It shall be the duty of each such group, team or organization, acting through its designated officer, to deliver annually, to the institution an attested acknowledgement stating that such group, team or organization has received a copy of this section and said sections seventeen and eighteen, that each of its members, plebes, pledges, or applicants has received a copy of sections seventeen and eighteen, and that such group, team or organization understands and agrees to comply with the provisions of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post secondary education shall, at least annually, before or at the start of enrollment, deliver to each person who enrolls as a full time student in such institution a copy of this section and sections seventeen and eighteen.

Each institution of secondary education and each public or private institution of post secondary education shall file, at least annually, a report with the regents of higher education and in the case of secondary institutions, the board of education, certifying that such institution has complied with its responsibility to inform student groups, teams or organizations and to notify each full time student enrolled by it of the provisions of this section and sections seventeen and eighteen and also certifying that said institution has adopted a disciplinary policy with regard to the organizers and participants of hazing, and that such policy has been set forth with appropriate emphasis in the student handbook or similar means of communicating the institution's policies to its students. The board of regents and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report.

HOMELESS STUDENTS: ENROLLMENT RIGHTS AND SERVICES POLICY

To the extent practical and as required by law, the Rockland Public Schools will work with homeless students and their families to provide stability in school attendance and other services. Special attention will be given to ensuring the enrollment and attendance of homeless students not currently attending school. Homeless students will be provided district services for which they are eligible, including Head Start and comparable pre-school programs, Title I, similar state programs, special education, bilingual education, vocational and technical education programs, gifted and talented programs and school nutrition programs.

Definition:

Homeless children and youth are defined as lacking a fixed, regular, and adequate nighttime residence, including:

1. Sharing the housing of other persons due to loss of housing, economic hardship or a similar reason;
2. Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
3. Living in emergency or transitional shelters;
4. Being abandoned in hospitals;
5. Living in public or private places not designed for or ordinarily used as regular sleeping accommodations for human beings;
6. Living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or transportation stations or similar settings;
7. Migratory children who qualify as homeless because they are living in conditions described in the previous examples.

The Superintendent shall designate an appropriate staff person to be the district's liaison for homeless students and their families.

Enrollment:

Homeless students have the right to remain enrolled in their school of origin while they remain homeless, or until the end of the academic year in which they obtain permanent housing. Instead of remaining in the school of origin, parents or guardians of homeless students may request enrollment in the school in the attendance area in which the student is temporarily living.

Attendance rights by living in attendance areas, other student assignment policies, or intra and inter-district choice options are available to homeless families on the same terms as families resident in the district.

The school district will immediately enroll homeless students in school and will remove any barriers to enrollment to ensure educational stability and to avoid separation from school.

If there is an enrollment dispute, the student shall be immediately enrolled in the school in which enrollment is sought, pending resolution of the dispute including all available appeals. The parent or guardian shall be informed of the district's decision and their appeal rights in writing. The district's liaison will carry out dispute resolution in accordance with the requirements of the McKinney-Vento Act and as provided by state rule. Unaccompanied youth will also be enrolled pending resolution of the dispute.

Transportation:

The school district will provide transportation to homeless students that meet Massachusetts state law and are comparable to those received by other students. If a homeless student continues to live in the area served by the school district in which the school of origin is located, the district will provide or arrange transportation if needed. If the homeless student moves to an area served by another district, though continuing his or her education at the school of origin, the district of origin and the district in which the student resides will agree upon a method to apportion responsibility and costs for transportation to the school of origin. If the districts cannot agree upon such a method, the responsibility and costs will be shared equally pursuant to applicable federal law.

PARENT NOTIFICATION RELATIVE TO SEX EDUCATION

In accordance with General Laws Chapter 71, Section 32A, the Rockland School Committee has adopted this policy on the rights of parents and guardians of our students in relation to curriculum that primarily involves human sexual education or human sexuality issues.

At the beginning of each school year, all parents/guardians of students in our schools will be notified in writing of the courses and curriculum we offer that primarily involve human sexual education or human sexuality issues. The Superintendent of Schools will determine the administrator(s) responsible for sending the notice(s). Parents/guardians of students who enroll in school after the start of the school year will be given the written notice at the time of enrollment. If the planned curriculum changes during the school year, to the extent practicable, parents/guardians will be notified of this fact in a timely manner before implementation.

Each such notice to parents/guardians will include a brief description of the curriculum covered by this policy, and will inform parents/guardians that they may:

- (1) exempt their child from any portion of the curriculum that primarily involves human sexual education or human sexuality issues, without penalty to the student, by sending a letter to the school principal requesting an exemption. Any student who is exempted by request of the parent/guardian under this policy may be given an alternative assignment.
- (2) inspect and review program instruction materials for these curricula, which will be made reasonably accessible to parents/guardians and others to the extent practicable. Parents/guardians may arrange with the principal to review the materials at the school, and may also review them at other locations that may be determined by the Superintendent of Schools.

A parent/guardian who is dissatisfied with a decision of the principal concerning notice, access to instructional material, or exemption for the student under this policy may send a written request to the Superintendent for review of the issue. The Superintendent or designee will review the issue and give the parent/guardian a timely written decision, preferably within two weeks of the request. A parent/guardian who is dissatisfied with the Superintendent's decision may send a written request to the School Committee for review of the issue. The School Committee will review the issue and give the parent/guardian a timely written decision, preferably within four weeks of the request. A parent/guardian who is still dissatisfied after this process may send a written request to the Commissioner of Education for review of the issue in dispute.

POLICY ON THE TREATMENT OF INDIVIDUALS WITH DISABILITIES AS PER SECTION 504 OF THE REHABILITATION ACT OF 1973 AND THE AMERICANS WITH DISABILITIES ACT (ADA)

It is the policy of the Rockland Public Schools not to discriminate against any otherwise qualified individual with disability, solely by reason of his/her disability, in admission or access to, or treatment or employment in, any program or activity sponsored by this school district.

Inquiries regarding compliance with this policy should be directed to the Section 504 Coordinator of the Rockland Public Schools, Superintendent's Office, 34 MacKinlay Way, Rockland, Massachusetts 02370. Telephone: (781) 878-3893

Chapter 164 of the Acts of 2000 added a new law, namely Section 43A of Chapter 265 of the General Laws, which makes it a crime, subject to fine and imprisonment, for an individual to engage in certain conduct of a willful and malicious nature "which seriously alarms" a person and which causes "substantial emotional distress." Section 43A of Chapter 265 provides that such conduct includes, among other things, "acts conducted by mail or by use of a telephonic or telecommunication device including, but not limited to, electronic mail, internet communications or facsimile communications."

PARENT NOTIFICATION "No Child Left Behind Law"

Under the No Child Left Behind Law schools that receive Title I funds are required to notify parents that a parent may request, and the district will provide the parent on request (in a timely manner) information regarding the *professional*

qualifications of the student's classroom teacher(s), including at a minimum the following:

- Whether the teacher has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- Whether the teacher is teaching under emergency license or waiver through which the State qualification or licensing criteria has been waived.
- The baccalaureate degree major of the teacher and any other graduate certification or degree held by the teacher, and the field or discipline of the certification or degree.
- Whether the child is provided services by paraprofessionals and if so their qualifications.

In addition, schools that receive Title I funding shall provide each individual parent *timely notice that the parent's child has been assigned or has been taught for four or more consecutive weeks by a teacher who is not highly qualified under NCLB standards.*

NOTIFICATION OF RIGHTS UNDER FERPA For Elementary and Secondary Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

- 1) The right to inspect and review the student's education records within 45 days of the day the school receives a request for access.

Parents or eligible students should submit to the School Principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- 2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate.

Parents or eligible students may ask the school to amend a record that they believe is inaccurate. They should write the School Principal (or appropriate school official), clearly identify the part of the record they want changed, and specify why it is inaccurate. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- 3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. (NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request.)

- 4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-4605

SYNOPSIS OF FEDERAL CIVIL RIGHTS LAWS AND DISTRICT COORDINATOR INFORMATION

SYNOPSIS OF LAWS

Title VI of the Civil Rights Act of 1964

Coordinator: Dr. Alan H. Cron

Statute prohibits discrimination on the grounds of race, color or national origin by recipients of federal financial assistance. This statute ensures that individuals are not excluded from participation in programs or activities receiving federal funds (or the benefits of) on account of their membership in one of these protected categories (42 USC S2000d). This statute has been interpreted to prohibit the denial of equal access to education because of a language minority student's limited proficiency in English.

Title IX of the Education Amendments

Coordinator: Mrs. Colleen Forlizzi

Title IX of the Education Amendments of 1972 provides that no individual may be discriminated against on the basis of sex in any education program or activity receiving federal financial assistance. Title IX requires that schools adopt and publish a policy against sex discrimination and have grievance procedures through which students can complain of alleged sex discrimination, including sex harassment. State law requires Massachusetts employers to have a policy against sexual harassment. (M.G.L. Ch. 151B, S3A)

Section 504 of the Rehabilitation Act of 1973

Coordinator: Dr. Alan H. Cron

Section 504 provides that no otherwise qualified individual with a disability shall solely by reason of his/her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. The regulations implementing Section 504 require that public schools provide a free appropriate public education to each qualified handicapped person who is in the recipient's jurisdiction, regardless of the nature or severity of the person's handicap. (34 CFR 104.33)

Americans with Disabilities Act of 1990

Coordinator: Mrs. Colleen Forlizzi

The regulations implementing the ADA provide that: "A public entity that employs 50 or more persons shall designate at least one employee to coordinate its efforts to comply with and carry out its responsibilities under this part, including any investigation of any complaint communicated to it alleging its noncompliance with this part or alleging any actions that would be prohibited by this part. The public entity must make available to all interested individuals the name, office address and telephone number of the employee or employees designated pursuant to this paragraph." (34 CFR 35.107(a))

EQUAL EDUCATIONAL OPPORTUNITIES LAWS

Equal Educational Opportunities Act of 1974

Coordinator: Dr. Alan H. Cron

This federal statute prohibits states from denying equal educational opportunities to an individual based on certain protected classifications including national origin. It specifically prohibits denying equal educational opportunities by failing to take appropriate action to overcome language barriers that impede equal participation by its students in its instructional programs. (20 USC S1203(f))

Massachusetts General Laws CH. 76, S5 (also known as Chapter 622)

Coordinator: Mrs. Colleen Forlizzi

This state law provides that "no person shall be excluded from or discriminated against in admission to a public school of any town, or in obtaining the advantages, privileges and courses of study of such public school on account of race, color, sex, religion, national origin, sexual orientation or gender identity."

Title I of the Elementary and Secondary Education Act of 1965

Coordinator: Dr. Alan H. Cron

Title I is designed to help disadvantaged children meet challenging content and student performance standards. Staff should know that special education students are not deemed ineligible for Title I services simply because they receive special education services. Also, school districts must ensure that Title I funds are not being misused (e.g. referring a limited English proficient student to a Title I program in order to meet the student's language needs rather than providing an ESL

program/class).

SPECIAL EDUCATION

Chapter 688 (transition planning)

Coordinator: Dr. Linda Maniglia

School districts file a Chapter 688 referral for students with severe disabilities who will need continued services and supports after their eligibility for special ceases. School districts must make Chapter 688 referrals at least 2 years before the student is expected to graduate from school or turn 22 years of age. This allows time to determine the student's eligibility for adult services and for agencies to include the anticipated cost of services for the student in its budget request that it submits to the state legislature each year.

Rockland Public Schools

Technology & Electronic Communication Device Acceptable Use Policy

Rockland Public Schools believe technology, when used in a responsible, efficient, ethical and legal manner offers valuable, diverse, and unique resources to administrative staff, teachers and students that promote educational excellence. Rockland Public Schools is committed to helping students and staff use technology as an effective educational and administrative tool and to meet state and national educational standards. It is understood that students and staff will use technology in a mature and professional manner in accordance with the district's acceptable use policy.

Technology and electronic communication device (ECD) users (administrative staff, faculty and students) are responsible for appropriate behavior and acceptable use when accessing technology in the schools. General school rules for conduct and communication apply to Internet and network use or the use of any ECD. This includes, but is not limited to computers, scanners, still and video cameras, cell phones, document cameras, SmartBoards, LCD projectors, PDAs, iPads, iPods, Kindles and all electronic devices. Use of technology shall be considered a privilege, not a right of each individual. Failure of a user to follow acceptable use standards may result in termination of technology privileges, appropriate disciplinary action as stated in school policies, and possible notification of law enforcement. The Rockland Public School District will cooperate fully with local, state, or federal officials in any investigation related to illegal activities conducted within or through the school system.

Internet, email and phone use within the district should be used solely for educational purposes, although RPS recognizes that limited personal use, by administrative and faculty staff members, is authorized so long as it does not interfere with the employee's duties or the policies of the Rockland Public Schools. It is important to recognize that traditional instructional resources and library materials can be screened with reasonable selection criteria. Technology that links to any public file server provides access to material that may not be considered educationally sound in the context of the school setting. Rockland Public Schools has taken precautions to restrict access to unacceptable information in accordance with CIPA rules by employing the use of a firewall/filter which is automatically and continuously updated to provide protection against current threats. However, it is important to understand that no solution is 100% perfect, and at times educational sites may be inadvertently blocked and conversely, inappropriate sites may be accessible. Students will be provided with guidance and instruction in the appropriate use of technology resources including the Internet so that responsible choices can be made in the event that such a breach occurs. RPS will make no guarantee relating to the reliability of the data connection and therefore will not be held liable for any data loss or data corruption resulting while using the RPS network.

Students must obtain permission from a staff member each and every time they use technology equipment. Student use of technology will be permitted upon verification of the signing of the technology sign off form. The principal or designee will maintain signature records, and will be responsible for enforcing the Technology & Electronic Communication Device Acceptable Use Policy. Rockland Public Schools reserves the right to make amendments to the terms and conditions of this policy without notice.

ROCKLAND PUBLIC SCHOOLS BULLYING PLAN

Position Statement

Rockland Public Schools will not tolerate any unlawful or disruptive behavior, including any form of bullying, cyber bullying, or retaliation, in our school buildings, on school grounds, or in school related activities. We will investigate promptly all reports and complaints of bullying, cyber bullying, and retaliation, and take prompt action to end that behavior and restore the target’s sense of safety. We will support this commitment in all aspects of our school community, including curricula, instructional programs, staff development, extracurricular activities, and parent or guardian involvement.

Definitions

“**Bullying**” is the repeated use by one or more students of a written, verbal, or electronic expression, or a physical act or gesture, or any combination thereof, directed at a target that:

- Causes physical or emotional harm to the target or damage to the target’s property;
- Places the target in reasonable fear of harm to him/herself, or of damage to his/her property;
- Creates a hostile environment at school for the target;
- Infringes on the rights of the target at school; or
- Materially and substantially disrupts the education process or the orderly operation of a school

“**Cyber bullying**” means bullying through the use of technology or any electronic communication, which shall include, but shall not be limited to, any transfer of signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a:

- Wire
- Radio
- Electromagnetic
- Photo-electronic or photo-optical system, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications.

Cyber bullying shall also include the creation of a web page or blog in which the creator assumes the identity of another person or knowingly impersonates another person as author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying.

Cyber bullying shall also include the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

Parental Cooperation

The prevention of bullying in our schools must be a joint effort involving both school staff and parent/guardians. The role of the parent of the target and or aggressor in understanding the bullying situation and working with their child and the schools is crucial to the student's development of appropriate social skills. Parents/guardians will be notified at the beginning of each year of the bullying curriculum in place for their child. This notice will include information about the dynamics of bullying including cyber-bullying and online safety. All notifications will be made available to parents/guardians in hard copy and electronic formats and will be posted on the districts website. The district will provide information evenings to educate parent/guardians about the dynamics of bullying and how they can reinforce the anti-bullying curriculum.

Investigation Process

Reporting bullying or retaliation: Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member shall be recorded in writing. A school district staff member is required to report immediately to the principal or designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously.

Use of an incident Reporting Form is not required as a condition of making a report. The school or district will: 1) include a copy of the Incident Reporting Form in the beginning of the year packets for students and parents or guardians; 2) make it available in the school's main office, the counseling office, the school nurse's office, and other locations determined by the school administration and 3) post it on the school's website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians.

At the beginning of each school year, the school or district will provide the school community, including administrators, staff, students, and parents or guardians, with written notice of its policies for reporting acts of bullying and retaliation. A description of the reporting procedures and resources, including the name and contact information of the principal or designee, will be incorporated in student and staff handbooks, on the school or district website, and in information about the Plan that is made available to parents or guardians.

Reporting by Staff

A staff member will report immediately to the school administration when he/she witnesses or becomes aware of conduct that may be bullying or retaliation. The requirement to report to the school administration does not limit the authority of the staff member to respond to behavioral or disciplinary incidents consistent with school or district policies and procedures for behavior management and discipline.

For isolated incidents of peer aggression, staff will use the schools incident form. The school administration will monitor all incident forms to determine if there is repeated behavior. If repetition is determined, then the Bullying Incident Reporting Form will be used.

Reporting by Student, Parents or Guardians, and Others

The school or district expects students, parents or guardians, and others who witness or become aware of an instance of bullying or retaliation involving a student to report it to the school administration. Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report. Students, parents or guardians, and others may request assistance from a staff member to complete a written report. Students will be provided practical, safe, private and age-appropriate ways to report and discuss an incident of bullying with a staff member, or with the school administration.

Responding to a Report of Bullying

Prior to fully investigating the school administration will ensure the safety of the alleged target and/or protect the target from possible further incidents. The school administration will also ensure that all parties understand the definition and prohibition of retaliation. The school administration will implement appropriate strategies for protecting from bullying or retaliation a student who has witnessed bullying or retaliation: a student who provides information during an investigation; or a student who has reliable information about a reported act of bullying or retaliation. This protection extends to all students regardless of their status under the law.

Investigation

The school administration will use the Bullying Investigation Form as a template for the investigation process.

Interviews may be conducted by the school administration, other staff members as determined by the principal and in consultation with the school counselor, as appropriate. To the extent practicable, and given his/her obligation to investigate and address the matter, the school administration will maintain confidentiality during the investigative process. The school administration will maintain a written record of the investigation.

A copy of the completed Bullying Investigation Form will be sent to the Superintendent's office.

Determinations

The school administration will make a determination based upon all of the facts and circumstances. If, after investigation, bullying or retaliation is substantiated, the administration will take steps reasonably calculated to prevent recurrence and to ensure that the target is not restricted in participating in school or in benefiting from school activities. The school administration will: 1) determine what remedial action is required, if any, and 2) determine what responsive actions and/or disciplinary action is necessary.

Notifications

The school administration will promptly notify the parents or guardians of the target and the aggressor about the results of the investigation and, if bullying or retaliation is found, what action is being taken to prevent further acts of bullying or retaliation. All notice to parents must comply with applicable state and federal privacy laws and regulations. Because of the legal requirements regarding the confidentiality of student records, the school administration cannot report specific information to the target's parent or guardian about the disciplinary action taken unless it involves a "stay away" order or other directive that the target must be aware of in order to report violations. In the case of Cyberbullying, the parents of any student mentioned in/on the bullying medium (text, social networking page, etc) will be notified.

Notice to Another School or District

If the reported incident involves students from more than one school district, charter school, non-public school, approved private special education day or residential school, or collaborative school, the principal or designee first informed of the incident will promptly notify by telephone the principal or designee of the other school(s) of the incident so that each school may take appropriate action. All communications will be in accordance with state and federal privacy laws and regulations, and 603 CMR 49.00.

Notice to Law Enforcement

At any point after receiving a report of bullying or retaliation, including after an investigation, if the principal has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the principal will notify the local law enforcement agency. Notice will be consistent with the requirements of 603 CMR 49.00 and locally established agreements with the local law enforcement agency. Also, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the principal shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the aggressor.

Responses to Bullying

Teaching Appropriate Behavior

The teaching of appropriate social skills is a key part of preventing future bullying incidents. The school may:

- Offer individualized skill-building sessions based on the school's/district's anti-bullying curricula;
- Provide relevant educational activities for individual students or groups of students, in consultation with guidance counselors and other appropriate school personnel;
- Implement a range of academic and nonacademic positive behavioral supports to help students understand pro-social ways to achieve their goals;
- Meet with parents and guardians to engage parental support and to reinforce the anti-bullying curricula and social skills building activities at home;
- Adopt behavioral plans to include a focus on developing specific social skills; and
- Make a referral for evaluation

Access to Resources and Services

A key aspect to promoting positive school climate is ensuring that the underlying emotional needs of targets, aggressors, families and others are addressed. The district will provide or facilitate the following services:

- A anti-bullying coordinator position will be created to coordinate efforts between schools
- Guidance counselors, school psychologists and school social workers will be available to intervene with students and families at the request of school administration
- Schools in the district will work together to coordinate an approach that may include siblings at different schools.
- The district will followed established procedures for referral of students and families to local social services agencies.

Students with disabilities: As required by M.G.L. c. 71B, section 3, as amended by chapter 92 of the acts of 2010, when the I.E.P. Team determines the student has a disability that affects social skills development or the student may participate in or is vulnerable to bullying, teasing, or harassment because of his/her disability, the team will consider what should be included in the I.E.P. to develop the student's skills and proficiencies to avoid and respond to bullying, harassment, or teasing.

Discipline

Discipline will be administered according to the school's handbook. All discipline must be balanced with the requirement to teach appropriate behavior.

If the school administration decides that disciplinary action is appropriate, the disciplinary action will be determined on the basis of facts found by the school administration, including the nature of the conduct, the age of the student(s) involved, and the need to balance accountability with the teaching of appropriate behavior.

Sanctions may include:

- Detention
- Loss of privileges to participate in school activities
- Suspension

Discipline procedures for students with disabilities are governed by the federal Individuals with Disabilities Education Improvement Act (IDEA), which should be read in cooperation with state laws regarding discipline.

If the principal or designee determines that a student knowingly made a false allegation of bullying or retaliation, that student may be subject to disciplinary action.

Professional Development

The district will provide professional development to its staff that includes the following components:

- Developmentally appropriate strategies to prevent bullying incidents
- Developmentally appropriate strategies for immediate, effective interventions to stop bullying incidents
- Information regarding complex interaction and power differential that can take place between and among a perpetrator, victim and witnesses to the bullying
- Research finds on bullying, including information about specific categories of students who have been shown to be particularly at risk for bullying in the school environment
- Information on the incidence and nature of cyber bullying
- Internet safety issues as they relate to cyber bullying

Curriculum

The district will develop or purchase age appropriate curriculum to be incorporated into the districts academic offerings.

Instruction will take place at the class level in elementary schools and will be coordinated by the school psychologists.

At the Middle and High Schools, the curriculum will be taught by the health teachers. This will be supplemented by individual or group activities supervised by the guidance departments and social workers.

General Teaching Approaches That Support Bullying Prevention Efforts

The following approaches are integral to establishing a safe and supportive school environment. These underscore the importance of our bullying intervention and prevention initiatives:

- Setting clear expectations for students and establishing school and classroom routines
- Creating safe school and classroom environments for all students
- Using appropriate and positive responses and reinforcement, even when students require discipline
- Using positive behavioral supports
- Encouraging adults to develop positive relationships with students
- Modeling, teaching and rewarding pro-social, healthy and respectful behaviors
- Using positive approaches to behavioral health, including collaborative problem-solving conflict resolution training, teamwork, and positive behavioral supports that aid in social and emotional development
- Using the Internet safely
- Supporting students' interest and participation in non-academic and extracurricular activities, particularly in their areas of strength
