November 13, 2019

JES Parents/Guardians:

The NC Report Card website is now available at <https://ncreportcards.ondemand.sas.com/src>

The NC School Report Cards website contains snapshots of information about Martin County schools and other public schools in North Carolina, including the school performance grade, student academic growth, how prepared our students are when they enter a school, and a number of other measures, I hope you find valuable.

This information, while important, cannot tell you the entire story of a school. These facts and figures cannot share the extra hours put in by your teachers preparing for class and grading assignments, the school spirit felt by families, involvement in sports, arts, or other extracurricular activities that build character, and other crucial aspects of a school community.

DPI's School Report Card website provides the transparency you need into the characteristics and performance of your school in an easy-to-use format, to better inform you. I encourage you to follow the link to a school's individual website to find out more about the school's full story. The release of the 2018-19 School Report Cards include some of the federal requirements as mandated by Every Student Succeeds Act (ESSA), as well as the addition of College & Career Ready data, Kindergarten and School Readiness, and Digital materials. As a parent myself, I believe this is the kind of information we need, in an accessible format we can understand, about North Carolina's public schools.

If you are not able to access the website, please contact us at 252-792-8304 to arrange a time for you to visit our school and use a computer to access the website.

Sincerely,

James Guard, Principal

Bambi Grady, Assistant Principal
