Comments: We had a cold windy day to work with and battled through it. The 100's and High Hurdles got the benefit of a pretty good tailwind and our athletes to advantage of it to put up some good times there. But there were many other good marks that weren't wind-aided as well.

We got to see mostly a new set of teams from our previous meets, including some of the top teams from our Regional. That experience should be helpful as we move forward. We're also still in the process of trying a few new events and relay lineups so that we can see what our best options are down the line.

We're consistently having good practices with this group. As long as that continues we can keep building toward the League, Regional, and State Meets that we target at the end of the year.
