Comments: We had to battle sustained winds of 25+ mph throughout the meet with higher gusts at times. We still managed 19 PR's and Season Bests even though we entered fewer events than usual. We're still trying out some new events and trying to work our way through a few injuries, but we're still competing well. We hope to be close to full strength at St. Marys next week. There should be 14 schools there, which is the same size as this meet. That's where we should be the most competitive team-wise. We'll try to start sorting through what our best events will be going forward. It's nice to have some options even though that makes the decisions tougher. We've got a good group and will look to see them continue to grow over the upcoming weeks!
