Policy Title: **Maintaining Professional Staff/Student Boundaries**

### **Purpose**

This policy provides all staff, students, volunteers and community members with information about their role in protecting children from inappropriate conduct by adults. This policy applies to all district staff and volunteers (with a regular, ongoing assignment).

For purposes of this policy and its procedure, the terms “district staff,” “staff member(s),” and “staff” also include volunteers.

### **General Standards**

The board expects all district staff to maintain the highest professional standards when they interact with students. District staff are required to maintain an atmosphere conducive to learning by consistently maintaining professional boundaries.

Professional staff/student boundaries are consistent with the legal and ethical duty of care that district employees have for students.

The interactions and relationships between district staff and students should be based upon mutual respect, trust, and commitment to an understanding of the professional boundaries between staff and students in and outside of the educational setting, and consistent with the educational mission of the district.

District staff will not intrude on a student’s physical and emotional boundaries unless the intrusion is necessary to serve a demonstrated educational purpose. An educational purpose is one that relates to the staff member’s duties in the district. Inappropriate boundary invasions can take various forms. Any type of sexual conduct with a student is an inappropriate boundary invasion.

Additionally, staff members are expected to be aware of the appearance of impropriety in their own conduct and the conduct of other staff when interacting with students. Staff members will notify and discuss issues with their building administrator or supervisor whenever they suspect or question whether their own or another staff member’s conduct is inappropriate or constitutes a violation of this policy.

The board recognizes that staff may have familial and pre-existing social relationships with parents or guardians and students. Staff members shall pro-actively discuss dual relationships with students with their building administrator or supervisor.

### **Use of Technology**

The board supports the use of technology to communicate for educational purposes. However, when the communication is unrelated to school work or other legitimate school

business district staff are prohibited from communicating with students by phone, e-mail, text, instant messenger, or other forms of electronic or written communication. District staff members are prohibited from engaging in any conduct on social networking websites that violates the law, district policies or procedures, or other general recognized professional standards. This prohibition includes prohibiting staff from “friending” and “following” students on social media.

Staff whose conduct violates this policy may face discipline and/or termination, consistent with the district’s policies and procedures, acceptable use agreement, and collective bargaining agreements, as applicable.

The superintendent/ designee will develop protocols for reporting and investigating allegations and develop procedures and training to accompany this policy.
