Girls Basketball Season	\$100
Wrestling Season	\$25
Music/Theater Season	\$25

Contact Ms. White for needed Materials and Supplies for the Popcorn Machine

1. Plug in machine and turn on all switches 5 minutes prior to adding the 1st batch of popcorn. This will allow the kettle to warm-up properly.
2. Popping Instructions in this order:
 - Add 5 ounces of vegetable oil
 - Add 1 level Tablespoon of Flavacol salt
 - Add 2 level cups of Popcorn Seed
3. Pop a minimum of 5 batches in order to prevent the kettle heater from burning out.
4. When done popping, turn off the kettle heater and kettle motor switches.
5. Continue to run the Light and Fan to circulate warm air around the popcorn until you are finished.

Cleanup:

- *Turn off all switches and empty remaining popcorn and seeds into the garbage.
- *Lift bottom tray and vacuum up any seeds and popcorn
- *Use Windex to spray and wipe down the entire inside of the popcorn popper.
- *Place measuring cups and scoops inside the popper when done.

**If you have any questions, please direct them to Ms. White-Popcorn Machine Manager. **
For any popcorn machine emergencies, please call Ms. White's cell: 720-383-2200
