Dear Parents and Community Members:

Thank you for your interest in the School District of Athens. This booklet contains a variety of documents and exhibits intended to provide the electors of the district a report on the financial landscape of the school district. The proposed budget demonstrates how the district intends to invest the resources provided by our community to build on our past success as we continue to strive for excellence.

The 2022 -2026 Strategic Plan includes current vision and mission statements, and three pillars each with supportive purpose statements and goals. At this time, action steps are in the developmental phase, and will eventually be included in the final Board approved comprehensive strategic plan later this fall. This plan was created based upon input from the Board of Education, educational leaders, and members of the community, and provides the foundation upon which the budget was developed and resources will be allocated. Throughout this process, the school district has deepened its commitment to academic excellence and honoring its tradition of educating all students.

The Annual Meeting provides members of the electorate a preliminary budget for the 2022 - 2023 school year with estimated school district taxes and tax rates. In October 2022, The Department of Public Instruction and the Department of Revenue will provide certified student enrollment counts, equalized aid numbers, and the equalized land value of the district. The final budget, tax levy, and mill rate will be determined by the Athens School Board at a November 2022 special Board meeting pending the referendum results.

On behalf of the Athens Board of Education, administration, teaching staff, and paraprofessionals, we express our gratitude to the community at large for their ongoing support of our educational endeavors.

Sincerely,

Andrea Sheridan, Superintendent

## **Key information which impacts the 2022 - 2023 budget estimation:**

### Full Time

Equivalency (FTE): The projected FTE will be approximately 425 students.

### General Aid:

The District is positively aided at the tertiary level, and this provides tax relief. It is important that we spend funds appropriately to capture as much general state aid as possible. The School District of Athens does receive sparsity and high cost transportation aid due to student enrollment.

### Revenue Limits:

A district's revenue limit is the maximum amount of revenue that may be raised through state general aid and property tax for the General, Non-Referendum Debt, and Capital Expansion Funds, also referred to as Funds 10, 38, and 41 respectively. It is driven by resident FTE x the district's maximum revenue / member. The district is seeking an operational referendum to exceed the revenue limit in 2022-2023.

### Fund Balance:

Fund balance monies were expended to sustain the budget in 2021 - 2022. The District is actively working to restore its fund balance.

### Equalized

### Land Value:

The total school based tax levy is distributed across the district's equalized property value in order to calculate its mill rate.

### Debt:

The District currently has a short-term note for the purposes of cash flow from 2021-2022. The district will be issuing a taxable general obligation note in order to pay back last year's obligation. Additionally, the District will be issuing another short-term note for purposes of cash flow borrowing in 2022-2023.

### Total School Based

### Tax Levy:

School district property taxes include the revenue limit levy (funds 10, 38, 41), referendum approved debt levy (fund 39), community services levy (fund 80), possibly others.

### Fund 46:

The District did establish a new fund for long-term capital improvement this past year. The money in this account will be used for long-term capital improvement projects.
