Project Child Find

Does your 3 to 5 year old have difficulty with sitting, standing, walking, running, talking, solving, eating or socialization?

The Palmyra School District provides a Preschool Disability Program and services for 3 to 5 year old children who are functioning below their chronological age in the following areas: speech and language, coordination, social and emotional adjustment, physical health or general learning. To be eligible a child must be 3 to 5 years of age and qualify for Special Education and Related Services based on a Child Study Team evaluation.

Does your school age child have difficulty with hearing, speaking, listening, learning, thinking, problem-solving, health, behavior, or social skills? The school district also provides programs and services to students ages 5 through 21 in grades Kindergarten through 12th grade who are experiencing educational difficulties and are in need of Special Education and Related Services. To be eligible, the child must also qualify for services based on a Child Study Team evaluation.

Educators believe the sooner a child's special needs can be determined, the better that child's chances are to receive an appropriate education. If you have a child or children who would benefit from the services we offer, please call the district at (856) 786-9300, x1007. Contact person: Mrs. Lianne Kane, Director of Special Services.
