#### 1b. Annual Public Meeting

School boards are to hold an annual public meeting to communicate plans for the upcoming school year based on a review of goals, outcomes and strategies from the previous year. Stakeholders should be meaningfully involved, and this meeting is to occur separately from a regularly scheduled school board meeting. The author's intent was to have a separate meeting just for this reason.

## 2. Goals and Results

SMART goals are: specific and strategic, measurable, attainable (yet rigorous), results-based and time-based. Goals should be linked to needs and written in SMART-goal format. Results should tie directly back to the established goal so it is clear whether the goal was met. Districts may choose to use the data profiles provided by MDE in reporting goals and results or other locally-determined measures. Be sure to check the box with the most appropriate goal status.

*MDE Comments: We made the assumption that the table showing results was ACT College Readiness Benchmark Proficiency. Although, without explicitly reporting the measures in the results section, it is not clear that the district is reporting on the same measure. Would staff find it more helpful to report*

results in terms of percent change and direction of change? Maybe the trend would be informative vs. year to year changes when student populations are relatively small.

*MDE Comments: It can be tough to fit in the data and the needs, but it helps to see the numbers filled in along with the interpretations. I think there were some blanks that were intended to be filled in.*
