**INDEPENDENT AUDITORS' REPORT**  
**ON FINANCIAL STATEMENTS**

Board of Trustees  
Anderson County School District Number Three  
Iva, South Carolina

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Anderson County School District Number Three ("the District") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's financial statements, as listed in the accompanying table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to in the first paragraph above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the remaining fund information of Anderson County School District Number Three at June 30, 2021, and the respective changes in financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

### **Other Matters**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension liability and contribution schedules, and other post-employment benefits liability and contribution schedules as listed in the accompanying table of contents, be presented to supplement the financial statements. Such information, although not a required part of the financial statements, is supplementary information required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in the appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The introductory section, combining and individual non-major Fund Financial Statements and the Schedule of Expenditures of Federal Awards, as required by the provisions Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"), are presented for purposes of additional analysis and are not a required part of the financial statements of Anderson County School District Number Three. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the financial statements taken as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated November 22, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants. The purpose of that report is to describe the scope of testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

**ANDERSON COUNTY SCHOOL DISTRICT NUMBER THREE  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

---

This discussion and analysis of Anderson County School District Number Three's ("the District") financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the Notes to Financial Statements and the financial statements themselves to enhance their understanding of the District's financial performance.

**FINANCIAL HIGHLIGHTS**

**Government-Wide Financial Statements**

In the Statement of Net Position, the liabilities and deferred inflows of the District exceeded its assets and deferred outflows at the close of the 2021 fiscal year by \$36,534,014. The District has invested \$5,280,496 in capital assets, net of related debt, and has restricted net position of \$6,289,129 relating to its custodial funds, debt obligations and capital projects. Therefore, the District reported a deficit balance in unrestricted net position of \$48,478,181.

Included in liabilities is the net pension obligation of \$34,688,977 and other post-employment benefit obligation of \$30,385,097.

In the Statement of Activities, the District's total net position increased by \$1,338,783 for the 2021 fiscal year, as compared to a decline of \$581,300 in the previous year.

The District had \$34,533,400 in expenses related to governmental activities; of these expenses \$19,587,722 was offset by program specific operating grants and contributions. General revenues (primarily taxes) of \$15,591,272 provided the remaining funding for these programs.

**Fund Financial Statements**

As of the close of the current fiscal year, the District's Governmental Funds reported combined ending fund balances of \$12,601,792. This is a decline in the fund balances of \$255,037 from the previous year. This decrease was largely due to the District expending funds in its School Building Fund in this fiscal year for its planned capital expenditures.

At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$5,938,121.

The District's total capital assets, net of accumulated depreciation, increased by \$250,051 during the current fiscal year, as capital additions exceeded depreciation expense.

The District's total long-term debt decreased by \$2,768,432 during the current fiscal year, as the District made its scheduled debt payments.

During the 2021 fiscal year, the District's governmental fund-type revenues were \$34,755,725, an increase of \$4,096,785 from the previous year.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

Management's Discussion and Analysis serves as an introduction to the District's Financial Statements. The District's Financial Statements consist of three components:

- Government-Wide Financial Statements
- Fund Financial Statements
- Notes to the Financial Statements

In addition to the Financial Statements, this report contains Required Supplementary Information that will enhance the reader's understanding of the financial condition of the District.

### **Government-Wide Financial Statements**

The Government-Wide Financial Statements provide a broad overview of the District's overall financial status, in a manner similar to a private-sector enterprise.

The Statement of Net Position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, for some items, revenues and expenses are reported in this statement that will only result in cash flows in future fiscal periods.

The Government-Wide Financial Statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (Governmental Activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (Business-Type Activities). However, all activities of the District are Governmental Activities, which include instruction, supporting services, and debt service.

The Government-Wide Financial Statements can be found at Exhibits A and B of this report.

### **Fund Financial Statements**

The remaining financial statements are Fund Financial Statements that focus on individual parts of the District, reporting the District's operations in more detail than the Government-Wide Statements.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. All of the funds of the District can be divided into three categories: Governmental Funds, Proprietary Funds, and Fiduciary Funds.

### **Governmental Funds**

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the Government-Wide Financial Statements. However, unlike the Government-Wide Financial Statements, Governmental Funds Financial Statements focus on near-term uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

**ANDERSON COUNTY SCHOOL DISTRICT NUMBER THREE  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

---

**OVERVIEW OF THE FINANCIAL STATEMENTS, Continued**

**Governmental Funds, continued**

Because the focus of Governmental Funds is narrower than that of the Government-Wide Financial Statements, it is useful to compare the information presented for Governmental Funds with similar information presented for Governmental Activities in the Government-Wide Financial Statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Funds Balance Sheet and the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains five individual Governmental Funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund, Special Projects Fund, EIA Fund, Debt Service Fund, and the School Building Fund, all of which are considered major funds.

**Proprietary Fund**

The District maintains one type of Proprietary Fund. Enterprise Funds are used to report the same functions presented as Business-Type Activities in the Government-Wide Financial Statements. The District uses an Enterprise Fund to account for its food service operation. Proprietary Funds provide the same type of information as the Government-Wide Financial Statements, only in more detail; therefore, the Proprietary Fund Financial Statements provide more detailed information for the food service operation, which is considered a major fund of the District.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and Fund Financial Statements.

**Other information**

In addition to the financial statements and accompanying notes, this report includes certain required supplementary information. A required budgetary comparison schedule has been provided for the General Fund which has a legally adopted budget to demonstrate its compliance with the budget. Required pension and OPEB plan schedules have been included which provide relevant information regarding the District's participation in the South Carolina Retirement System and the SCRHITF.

Budgets for the Special Revenue Funds-Special Projects Fund and Special Revenue Funds-EIA Fund are not legally adopted. Budgets for the School Building Fund and Debt Service Fund are legally adopted.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows exceeded assets and deferred outflows by \$36,534,014 at the close of the most recent fiscal year.

The following table provides a summary of the District's net position for 2021 compared to 2020:

<b>Net Position</b>

**Changes in Net Position** - Overall, the District's net position increased in 2021, as revenues exceeded expenses (including depreciation of \$2,100,061) by \$1,338,783. Total revenue increased by \$4,715,020. When comparing 2021 to 2020, Program Revenues, which included Federal and State revenues, increased by \$2,643,343 due to higher allocations from the State of South Carolina in the Education Finance Act area, and an increase in the District's student enrollment. In addition, property taxes increased.

Instruction expenses increased \$1,193,631 and support services expenses increased \$1,520,961. The increase in instruction expenses reflected a "Step" raise (additional year of experience) and increase for teachers, teacher certificate upgrades; an increase in State health insurance premiums; and a rate increase in the employer portion of the State Retirement System rates, among other factors. The net increase in support services expenses reflected a "Step" and increase for non-teachers; and the non-teacher portion of State health insurance and retirement premiums increases, among other factors.

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

**Governmental Funds**

The analysis of Governmental Funds serves the purpose of looking at what resources came into the funds, how they were spent and what is available for future expenditures. Did the government generate enough revenue to pay for current obligations? What is available for spending at the end of the year?

For the year ended June 30, 2021, the District's Governmental Funds reported a combined fund balance of \$12,601,792, as compared to \$12,856,829 for the prior year. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At June 30, 2021, the District's unassigned fund balance for all Governmental Funds was \$5,938,121 which solely represents the General Fund. The remainder includes funds restricted for custodial funds of \$374,542, restricted for capital projects of \$4,908,169 and restricted for debt service of \$1,380,960.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$5,938,121.

The District's General Fund balance increased by \$592,902 during the current fiscal year, compared to an increase of \$467,508 in the previous year. The District had an increase in revenues of \$702,923 for the year, and was able to control its expenses. The District continues to focus on careful cost management so as to maximize increases in fund balance.

The District's major funds include General Fund, as described above, Special Revenue-Special Projects, Special Revenue-EIA, Debt Service, and School Building.

The District's Special Revenue Funds, Special Projects and EIA, are used to account for revenues derived from the State of South Carolina and the Federal Government. These funds were spent appropriately as mandated by the legislation that allowed for their distribution. The EIA funds that were received during the year were expended during the current fiscal year; therefore, there was no fund balance at the end of the previous or current year. As of July 1, 2020, the School implemented GASB Statement No. 84, *Fiduciary Activities*. Certain agency funds previously accounted for activities that are not considered fiduciary in nature and are now reported in the Special Revenue Fund. Therefore, this fund did have a fund balance as of June 30, 2021.

The District's Debt Service Fund balance has remained relatively stable, increasing by \$441,702. The fiscal year ended 2021 Debt Service Fund balance is \$1,380,960, all of which is reserved for the payment of debt service. The District's debt millage rate continues to be static.

During the current fiscal year the District's School Building Fund decreased from \$6,226,474 to \$4,908,169. This decrease was expected as the District expended funds on capital items in accordance with its capital improvement plan.

**Proprietary Funds**

The District's only Proprietary Fund is the Food Service Fund. This program had net income of \$693,189 for the fiscal year ended June 30, 2021.

**General Fund Budgetary Highlights**

The School District's budget is prepared according to South Carolina law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

**ANDERSON COUNTY SCHOOL DISTRICT NUMBER THREE  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

At the end of 2021, the District had \$26,673,703 invested in capital assets, net of depreciation. The total amount the District invested in capital asset additions during the 2021 fiscal year was \$2,408,097.

The Anderson Institute of Technology ("the Institute") is a joint project governed by an affiliation agreement between the District, Anderson County School District Four, and Anderson County School District Five ("Member Districts"). The District has approximately 14% interest in the Institute. The District's share of the operating cost has been recorded as expenditures in the General Fund. The District's share of the construction cost has been recorded as capital outlay in the Capital Projects Fund. The District's interest in the Institute is shown as investment in Anderson Institute of Technology on the Statement of Net Position. At June 30, 2021, the District's investment in the Institute of \$4,790,870 was comprised of land, buildings and improvements, equipment, and vehicles of \$144,392; \$4,174,605; \$742,325; and \$19,535, respectively. Accumulated depreciation on these assets was \$289,987 at June 30, 2021.

**Long-term Debt and Capital Lease Obligations**

At fiscal year-end, the District had \$26,360,553 in bonds and related bond premiums outstanding versus \$29,128,985 in the prior year, as shown in the following table:

**ANDERSON COUNTY SCHOOL DISTRICT NUMBER THREE  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2021**

---

**Economic Factors**

The District is located in the southern part of Anderson County, South Carolina and contains the small towns of Iva and Starr. The District has a population of approximately 15,700 and operates one high school, one middle school, and three elementary schools.

Manufacturing is the largest employment sector in the District, followed by wholesale and retail. Wholesale and retail trade and services represent the fastest growing sectors of the District.

The District's tax base has shown slight growth over the past five years. The assessed value of taxable property within the District has increased 1% during that period, with manufacturing property showing a decline and real estate property increasing. Total property tax collections have historically been strong and increasing. Difficulties with manufacturing industries and textiles specifically, have been a drag on continued growth within the District.

In 2007, South Carolina enacted Act 388, which was effective for the District beginning July 1, 2007. Act 388 provides an exemption for one hundred percent of the fair market value of owner-occupied residential property, to the extent it is not already covered by other property tax relief exemptions, for all property taxes imposed for school operating purposes, but not including millage imposed for the repayment of general obligation debt for property tax years beginning after January 1, 2007. Act 388 also created a new Homestead Exemption Fund which is funded from an additional 1 cent sales tax imposed by Act 388.

Act 388 created three tiers of distribution to school districts. Tier one distributions equal the amounts that were received by the school districts for the fiscal year ended June 30, 2007, relating to an earlier property tax relief provision for owner occupied residential property. In the case of the District, that amount was \$539,881.

Tier two distributions equal the amounts received by school districts for the school operating portion of the homestead exemption for the elderly, disabled, and blind. In the case of the District, that amount was \$302,684. Tiers one and two distributions are fixed and do not change.

Tier three distributions are state funded payments to school districts to replace revenues formerly derived from taxation by school districts of owner-occupied residential property. For the fiscal year ended June 30, 2008, those distributions were expected to equal, dollar for dollar, the revenue that would have been collected by the school districts from property taxes for school operating purposes imposed by the school districts on owner occupied residential property for that fiscal year as if no reimbursed exemptions applied. Beginning with the 2008-2009 fiscal year, the tier three distributions will be the sum of the amount of the fiscal year 2007-2008 tier three distributions plus the tier three reimbursement increases. Act 388 requires the tier three reimbursements to be increased annually by (i) an inflation factor equal to the percentage increase in the previous year Consumer Price Index, Southeast Region, as published by the United States Department of Labor, Bureau of Labor Statistics, plus (ii) the percentage increase in the previous year in the population of the State as determined by the Office of Research and Statistics of the State Budget and Control Board. The tier three increases are aggregated for the entire state and the amount going to any particular school district is equal to an amount that is the district's proportionate share of the aggregated funds based on the school district's weighted pupil units as a percentage of the statewide weighted pupil units as determined annually pursuant to the EFA, with an adjustment for certain poverty factors to provide programs for the affected students. There are provisions in the tier three reimbursement that could, in any given year, result in a minimum increase of four percent to the extent funds are available in the Homestead Exemption Fund. There are also provisions that require the total tier three reimbursements to the school districts in a county to be not less than \$2,500,000. If the amount of tier three distributions other than those dependent upon balances in the Homestead Exemption Fund exceed amounts in the Homestead Exemption Fund, the excess is required to be paid from the general fund of the State. The District's reimbursement for fiscal 2021 for tier three was \$1,492,545.

Act 388 requires that, to the extent revenues in the Homestead Exemption Fund are insufficient to pay all required reimbursements to a school district; the State will pay the difference from its general fund. However, there can be no assurances that such funds will be appropriated in the event there is such an insufficiency or that the change in funding sources resulting from Act 388 will not have an adverse effect on the District's operations. The District recognizes that Act 388 places increased reliance on state funds to fund the general fund. This increased reliance at the state level is being funded by the additional one penny sales tax, which in the District's opinion is not as stable as property tax revenue which the sales tax replaced.

In addition, Act 388 removes the authority of governing bodies of school districts to increase operating millage in any year to meet the required local EFA inflation factor and the per pupil maintenance of effort requirement.

Total net change in fund balance - Governmental Funds	\$ (255,037)
Amounts reported for governmental activities in the Statement of Activities are different because of the following:	
Capital outlays are reported in Governmental Funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense (\$2,100,061) is less than the capital outlays (\$2,345,527) in the period.	245,466
Capital outlays related to the Anderson Institute of Technology are reported in Governmental Funds as expenditures. However in the Statement of Activities, these costs are capitalized.	180,983
Governmental Funds report District pension and OPEB contributions as expenditures. However, in the Statement of Activities, the cost of pension and OPEB benefits earned net of employer contributions is reported as pension and OPEB expense. This is the amount by which the costs of benefits earned (\$5,937,827) exceeds employer contributions (\$3,438,706).	(2,499,121)
Governmental Funds report certain non-employer OPEB contributions as revenue. However, in the Statement of Activities, such contributions are not recorded as revenue.	224,479
Bond premiums are revenues the year they are received in Governmental Funds, but are amortized over the lives of the bonds in the Statement of Activities.	150,347
Bond refunding charges are expenditures the year they are paid in Governmental Funds, but are amortized over the lives of the refunded bonds in the Statement of Activities.	(19,608)
Repayment of bond principal is an expenditure in the Governmental Funds, but the repayment reduces long-term liabilities in the Statement of Net Position.	<u>2,618,085</u>

**ANDERSON COUNTY SCHOOL DISTRICT NUMBER THREE**  
**IVA, SOUTH CAROLINA**  
**Notes to Financial Statements**  
**Year Ended June 30, 2021**

Anderson County School District Number Three, South Carolina (“the District”) is a school district created by the South Carolina Legislature to provide public education services to students of a specified geographical district of Anderson County, South Carolina. The District receives funding from local, state and federal sources and must comply with any requirements of the funding source entities. The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) as applied to governmental units. The Governmental Accounting Standards Board (“GASB”) is the accepted standard-setting body for establishing governmental accounting and financial accounting principles. The more significant of the District’s accounting policies are described below:

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**a) Reporting Entity**

The Board of Trustees (“the Board”) of the District controls the District and has oversight responsibility over all activities related to public school education in the District.

The District’s financial statements include the operations of all organizations for which the District’s Board exercises oversight responsibility. Oversight responsibility is demonstrated by financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. The District does not exercise oversight responsibility over any additional organizations.

**b) Government-Wide and Fund Financial Statements**

The Government-Wide Financial Statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements.

Governmental Activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from Business-Type Activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements report detailed information about the District. The focus of Governmental and Enterprise Fund Financial Statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

The accounts of the government are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

**c) Measurement Focus, Basis of Accounting and Basis of Presentation**

The Government-Wide Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the Proprietary Fund and Fiduciary Fund Financial Statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**c) Measurement Focus, Basis of Accounting and Basis of Presentation, Continued**

The Government-Wide Statements are prepared using a different measurement focus from the manner in which Governmental Fund Financial Statements are prepared (see further detail below). Governmental Fund Financial Statements, therefore, include reconciliations with brief explanations to better identify the relationship between the Government-wide Statements and the Statements for Governmental Funds.

Governmental Fund Financial Statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

When both restricted and unrestricted resources are available for use, it is the District's practice to use restricted resources first, then unrestricted resources as they are needed.

Governmental fund-types are those through which most governmental functions of the District are financed. The District's expendable financial resources and related assets and liabilities (except for those accounted for in the proprietary and expendable trust funds) are accounted for through governmental funds. Governmental Funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. The following are the District's major governmental fund-types:

**The General Fund** - a major fund, is the general operating fund of the District and accounts for all revenues and expenditures of the District except those required to be accounted for in another fund. All general tax revenues and other receipts that are not allocated by law or contractual agreement to other funds are accounted for in the General Fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund. This is a budgeted fund, and any fund balance is considered a resource available for use.

**Special Revenue Funds** - are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District has two Special Revenue Funds:

- i) The Special Projects Fund, a major fund, is used to account for financial resources provided by federal, state, and local projects and grants.
- ii) The Education Improvement Act ("EIA") Fund, a major fund, is used to account for the revenue from the South Carolina Education Improvement Act of 1984 which is legally required by the state to be accounted for as a specific revenue source.

**Debt Service Fund** - a major fund, is used to account for the accumulation of resources for, and payment of, all long-term debt principal, interest and related costs for the District.

**School Building Fund** - a major fund, is used to account for financial resources to be used for site acquisitions, construction, equipment, and renovation of all major capital facilities except for those financed in the Enterprise Fund.

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**c) Measurement Focus, Basis of Accounting and Basis of Presentation, Continued**

Proprietary fund-types are accounted for based on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The District applies all applicable Governmental Accounting Standards Board ("GASB") pronouncements, as well as the requirements for Financial Accounting Standards Board ("FASB") Statements and Interpretations. In addition, the School District applies all FASB Statements and Interpretations issued after November 30, 1989, except for those that conflict with or contradict GASB pronouncements in accounting and reporting for its operations. Proprietary fund-types include the following fund:

The Enterprise Fund is used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is necessary for management accountability. The Food Service Fund is the School District's only Enterprise Fund and is used to account for the United States Department of Agriculture's ("USDA") approved school breakfast and lunch programs.

**d) Cash, Cash Equivalents, and Investments**

Custodial credit risk for cash deposits and investments is the risk that, in the event of a bank failure, the District's deposits or investments might not be recovered. The District does not have a formal deposit policy for credit risk but follows the investment policy statutes of the state of South Carolina.

The District's bank cash, cash equivalents and investments balance (which was different from the District's book balances of \$8,339,094 because of outstanding checks, deposits in transit, and other reconciling items) of \$9,583,151 at June 30, 2021, was insured or fully collateralized.

Cash and savings accounts and certificates of deposit are placed with a banking institution and are protected by federal depository insurance ("FDIC") up to \$250,000 and collateral pledged by the bank for 100% of the amount in excess of \$250,000. The collateral generally consists of obligations of the United States and its agencies or general obligations of the State of South Carolina or any of its political units. The collateral consists of investments that are insured or registered in the District's name or held by the District or its agents in the District's name.

Insured and collateralized amounts at June 30, 2021 are as follows:

Insured	\$ 250,000
Collateralized	4,989,231
Uncollateralized	<u>-</u>
Total bank balance	<u>\$ 5,239,231</u>

The District's cash investment objectives are preservation of capital, liquidity, and yield. The District reports its cash and investments at fair value, which is normally determined by quoted market prices.

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**d) Cash, Cash Equivalents, and Investments, Continued**

The District is authorized to invest in securities as allowed by South Carolina statute. Those investments are restricted to:

- 1) Obligations of the United States and agencies thereof;
- 2) General obligations of the State of South Carolina or any of its political units;
- 3) Savings and loan associations to the extent that the same are secured by the Savings Association Insurance Fund of the FDIC; and
- 4) Certificates of deposit where the certificates are collaterally secured by securities of the type described in (1) and (2) above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificates of deposit so secured, including interest.

**Interest Rate Risk:** Interest rate risk for investments is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

**Credit Risk for Investments:** Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District does not have an investment policy for credit risk.

**Custodial Credit Risk for Investments:** Custodial credit risk for investments is the risk that, in the event of a bank failure, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have an investment policy for custodial credit risk. As of June 30, 2021, none of the District's investments were exposed to custodial credit risk.

**Concentration of Credit Risk for Investments:** The District places no limit on the amount it may invest in any one issuer. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds and external investment pools are excluded from this disclosure requirement. None of the District's other security investments exceeded 5% of the total amount invested.

The District's investments consist of State Treasurer's Local Government Investment Pool ("LGIP") accounts with a total carrying value and fair market value of \$4,343,920 at June 30, 2021. The local government investment pool is a 2a7-like pool which is not registered with the Securities and Exchange Commission as an investment company but has a policy that it will operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. The South Carolina Treasurer oversees the pool. In accordance with GASB Statement No. 31 *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments are carried at fair value determined annually based upon quoted market prices. The fair value of the position in the pool is the same as the value of the pool shares. Financial statements for the LGIP may be obtained by writing the Office of the State Treasurer, Local Government Investment Pool, P.O. Box 11778, Columbia, SC 29211-1960.

Amounts due from county treasurer consist of funds held by the Anderson County Treasurer. The Treasurer receives monies from local, state, and federal sources on behalf of the District. The monies held by the Treasurer are uninsured but are collateralized with government investments held by the pledging institution's agent in the name of the Treasurer. The Treasurer invests these funds in investments authorized by state statute as described above. These monies are remitted to the District once a claim has been presented to the Treasurer.

For purposes of the Statement of Cash Flows, the District's proprietary fund-type considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**e) Receivables and Payables**

On Fund Financial Statements, receivables and payables resulting from short-term interfund loans are classified as “due from other funds” or “due to other funds”. These amounts are eliminated in the Governmental and Business-Type Activities columns of the Statement of Net Position, except for the net residual amounts due between Governmental and Business-Type Activities, which are presented as “internal balances”. All accounts and property tax receivables are shown net of an allowance for uncollectible accounts and are expected to be collected within one year.

**f) Inventories and Prepaid Assets**

With the exception of the Proprietary Fund, the District has elected to account for disbursements for inventory items as expenditures at the time of purchase. Accordingly, no inventories have been recorded in the financial statements of these funds. The Proprietary Fund inventories are recorded at cost using the first-in, first-out method as of June 30, 2021.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

**g) Capital Assets**

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the Governmental Funds. These assets are reported in the Governmental Activities column of the Government-Wide Statement of Net Position but are not reported in the Fund Financial Statements. Capital assets utilized by the Proprietary Funds are reported both in the Business-Type Activities column of the Government-Wide Statement of Net Position and in the respective Fund Financial Statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000. The District’s infrastructure assets are immaterial and have been reported with the buildings and improvements. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not capitalized. Interest incurred during the construction of capital assets is capitalized.

All reported capital assets except land and construction in progress are depreciated. Construction projects begin being depreciated once they are complete, at which time the complete costs of the project are transferred to the appropriate fixed asset category. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Buildings	30 years	N/A
Buildings / Improvements	10-30 years	N/A
Furniture and Equipment	5-10 years	7 years
Vehicles	10 years	N/A

**Investment in Anderson Institute of Technology:** The Anderson Institute of Technology (“the Institute”) is a joint project governed by an affiliation agreement between the District, Anderson County School District Four, and Anderson County School District Five (“Member Districts”). The Institute serves as the career and technology center for the Member Districts. The accounting and finance function will be performed by the Anderson County School District Five which will be reimbursed by the other Member Districts for their share of the costs. The District has approximately 14% interest in the Institute with Anderson County School District Four and Anderson County School District Five having approximately 16% and approximately 70% respectively. The District’s share of the operating costs has been recorded as expenditures in the General Fund. The District’s interest in the Institute is shown as investment in Anderson Institute of Technology on the Statement of Net Position and is also included in the net investment in capital assets in the net position section of the Statement of Net Position.

At June 30, 2021, the District’s investment in the Institute of \$4,790,870 was comprised of land, buildings and improvements, equipment, and vehicles of \$144,392; \$4,174,605; \$742,325; 19,535, respectively. Accumulated depreciation on these assets was \$289,987 at June 30, 2021.

**h) Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the Government-Wide Financial Statements, and all payables, accrued liabilities and long-term obligations payable from Proprietary Funds are reported on the Proprietary Fund Financial Statements.

In general, payables and accrued liabilities that will be paid from Governmental Funds are reported on the Governmental Fund Financial Statements regardless of whether they will be liquidated with current resources. Payments made within sixty days after year end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from Governmental Funds are not recognized as a liability in the Fund Financial Statements until due.

In the Government-Wide Financial Statements, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Position. Bond premiums, as well as bond issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Amortization of premiums and bond issuance costs are included in interest expense. Bond premiums are included with bonds payable and other long-term obligations. Bond issuance costs are included with other assets and are amortized over the term of the related debt.

In the Fund Financial Statements, governmental fund-types recognized bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**i) Pension Plan**

In Government-Wide Financial Statements, pensions are required to be recognized and disclosed using the accrual basis of accounting, regardless of the amount recognized as pension expenditures on the modified accrual basis of accounting. The District recognizes a NPL, which represents the District's proportionate share of the excess of the TPL over the fiduciary net position of the qualified pension plan, measured as of the District's fiscal year-end. Changes in the NPL during the period are recorded as pension expense, or as deferred outflows or inflows of resources depending on the nature of the change, in the period incurred. Those changes in NPL that are recorded as deferred outflows or inflows of resources that arise from changes in actuarial assumptions or other inputs and differences between expected or actual experience are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and recorded as a component of pension expense beginning with the period in which they are incurred. Projected earnings on qualified pension plan investments are recognized as a component of pension expense. Differences between projected and actual investment earnings are reported as deferred outflows or inflows of resources and amortized as a component of pension expense on a closed basis over a five-year period beginning with the period in which the difference occurred.

**j) Postemployment Benefits Other Than Pensions**

In Government-Wide Financial Statements, postemployment benefits other than pensions ("OPEB") are required to be recognized and disclosed using the accrual basis of accounting, regardless of the amount recognized as OPEB expenditures on the modified accrual basis of accounting. For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB plans and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, the plans recognize benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**k) Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has deferred charges on refunding reported in the government-wide Statement of Net Position and outflows related to pensions and OPEB plans. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. District contributions to the pension and OPEB plans subsequent to the measurement date and the net difference between expected and actual experience in the pension and OPEB plans are included as deferred outflows of resources. These deferred pension charges are either (a) recognized in the subsequent period as a reduction of the net pension and OPEB liability (which includes pension and OPEB contributions made after the measurement date) or (b) amortized in a systematic and rational way to pension and OPEB expense in future periods in accordance with GAAP.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The net difference between projected and actual earnings on pension and OPEB plan investments are included as deferred inflows of resources. These deferred credits are amortized in a systematic and rational way as a reduction to pension and OPEB expense in future periods in accordance with GAAP.

**l) Compensated Absences**

There is no vested or accumulated vacation or sick pay that is expected to be paid after year-end.

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**m) Fund Equity**

In the Fund Financial Statements, fund balance classifications depict the nature of the net resources reported in the Governmental Funds. Individual Governmental Funds may include nonspendable resources and amounts that are restricted, committed, or assigned, or any combination of these classifications. The General Fund also includes unassigned amounts. The District considers that committed amounts are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of these unrestricted fund balance classifications could be used. The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting journal entries. First, nonspendable fund balances are determined. Then restricted fund balances for specific purposes, if any, are determined. Then any remaining fund balance amounts for the non-general funds are classified as restricted fund balance. Committed fund balance amounts are established by the District's Board through motions passed at the District's Board meetings. The District has no committed fund balance amounts. Assigned fund balance amounts are established by the District's administration.

**Nonspendable Fund Balance** - includes amounts which cannot be spent. This includes items that may not be in spendable form or that may be legally or contractually required to be maintained intact. The District's nonspendable fund balance represents amounts not in spendable form.

**Restricted Fund Balance** - includes amounts that have constraints placed upon the use of the resources either by an external party or imposed by law through a constitutional provision or enabling legislation.

**Committed Fund Balance** - includes amounts that can only be used for the specific purposes pursuant to constraints imposed by a formal action of the District's Board.

**Assigned Fund Balance** - includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. Assignments of fund balance are established by the District's administration.

**Unassigned Fund Balance** - is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other Governmental Funds, it may be necessary to report a negative unassigned fund balance.

**n) Net Position**

Net position represents the difference between assets plus deferred outflows and liabilities plus deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Outstanding debt, which has not been spent, is included in the same net position component as the unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

**o) Fair Value**

The fair value measurement and disclosure framework provides for a three-tier fair value hierarchy that gives highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

**Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the District can access at the measurement date.

**Level 2** – Inputs to the valuation methodology, other than quoted prices included in Level 1 that are observable for an asset or liability either directly or indirectly and include:

- Quoted prices for similar assets and liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted market prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

**Level 3** – Inputs to the valuation methodology that are unobservable for an asset or liability and include:

- Fair value is often based on developed models in which there are few, if any, observable inputs.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of future net realizable values or reflective of future fair values. The District believes that the valuation methods used are appropriate and consistent with GAAP. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no significant changes from the prior year in the methodologies used to measure fair value.

**p) Use of Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles as applicable to governmental units requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue, expenditures, or expenses during the reporting period. Actual results could differ from those estimates.

**q) Implementation of GASB Statement No. 84**

As of July 1, 2020, the District implemented GASB Statement No. 84, *Fiduciary Activities*. The objective of this statement is to improve the identification of those activities to be considered as fiduciary activities for accounting and reporting purposes and how those activities should be reported. The requirements of the statement will enhance consistency and comparability by (1) establishing specific criteria for identifying activities that should be reported as fiduciary activities and (2) clarifying whether and how business-type activities should report their fiduciary activities. Greater consistency and comparability enhances the value provided by information reported in financial statements for assessing government accountability and stewardship. The impact to the District resulted in certain activities previously reported as fiduciary not being considered fiduciary under GASB 84. The effect of the implementation of this standard on beginning net position and fund balance is disclosed in Footnote 17.

**2) STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

**Budgetary Practices** – Formal budgetary accounting is employed as a management tool for the District. Budgets are presented in the basic financial statements section for the General Fund and all major Special Revenue Funds.

Each budget is presented on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America. The budget includes proposed expenditures and the means of financing the expenditures.

The following procedures are followed in establishing the budgetary data as reflected in the financial statements:

- 1) In the fall of the preceding year, the District begins its budget process for the next succeeding fiscal year beginning on July 1.
- 2) After the District's budget committee reviews all requests and allocation requirements and related revenue, it presents a tentative proposed budget to the Superintendent for his review and adjustment.
- 3) The Superintendent then presents a proposed budget to the Board of Trustees which reviews it in a series of workshops and makes any additions or deletions it deems necessary.
- 4) Prior to July 1, the budget is legally enacted through passage of a resolution by the Board.
- 5) The Board recommends the budget to the Anderson County Board of Education.

Each budget is prepared by function and object as dictated by the State of South Carolina adopted Program Oriented Budgeting and Accounting System and for management control purposes. This District's policies allow funds to be transferred between functions. However, the total budget cannot be increased beyond that level without approval of the Board in supplementary action. The legal level of control is at the fund level. During the year, the Board revised the budget.

**3) DUE FROM/DUE TO OTHER FUNDS**

Interfund balances at June 30, 2021, consist of the following individual fund receivables and payables:

<u>Fund</u>	<u>Receivable</u>	<u>Payable</u>
Governmental Funds:		
General Fund	\$ 908,462	\$ 195,265
Special Projects Fund	-	531,984
Education Improvement Act Fund	190,359	-

Section 15 of Article X of the South Carolina state constitution allows school districts to incur a legal debt limit not to exceed 8% of the assessed value of all property within the school district (as of the date of debt issuance), unless approved by a majority vote in a referendum authorized by law. The District's computed debt limitation as of June 30, 2021, is \$3,445,875. The bond issue in 2009 was approved by majority vote in authorized referenda.

For the payment of principal and interest on the bonds as they mature, the full faith, credit and taxing power of the District is irrevocably pledged.

The various bond indentures contain significant limitations and restrictions on annual debt service requirements, maintenance of and flow of moneys through various restricted accounts, minimum amounts to be maintained in various sinking funds, and minimum revenue bond coverage. The District is in compliance with all such significant limitations and restrictions at June 30, 2021.

**7) EMPLOYER RETIREMENT SYSTEMS AND PENSION PLANS**

The District participates in the State of South Carolina's retirement plans, which are administered by the South Carolina Public Employee Benefit Authority ("PEBA"), which was created July 1, 2012, and administers the various retirement systems and retirement programs managed by its Retirement Division. PEBA has an 11-member Board of Directors ("the PEBA Board"), appointed by the Governor and General Assembly leadership, which serves as custodian, co-trustee and co-fiduciary of the systems and the trust funds. The Retirement System Investment Commission, created by the General Assembly in 2005, has exclusive authority to invest and manage the retirement trust funds' assets. The Commission, an eight-member board, serves as co-trustee and co-fiduciary for the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority ("SFAA"), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the NPL, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with GAAP. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report ("CAFR") containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through PEBA's website at [www.peba.sc.gov](http://www.peba.sc.gov), or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

**Plan Descriptions** – The South Carolina Retirement System ("SCRS"), a cost-sharing multiple-employer defined benefit pension plan, was established July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and employees of the state and its political subdivisions. SCRS covers employees of state agencies, public school districts, higher education institutions, other participating local subdivisions of government and individuals newly elected to the South Carolina General Assembly at or after the 2012 general election.

The State Optional Retirement Program ("State ORP") is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired employees of state agencies, institutions of higher education, public school districts, and individuals first elected to the General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of four third party record keepers.

**7) EMPLOYER RETIREMENT SYSTEMS AND PENSION PLANS, CONTINUED**

**Plan Membership** – Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below:

**SCRS** – Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

**State ORP** – As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the South Carolina General Assembly at or after the November 2012 general election have the option to participate in the State ORP. Contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employer to the member's account with the ORP service provider for the employee contribution and a portion of the employer contribution (5%). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an incidental death benefit contribution, if applicable, which is retained by SCRS.

**Plan Benefits** – Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of benefit terms for each system is presented below:

**SCRS** – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of 1% or \$500 every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

**Funding Policy** – Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability ("UAAL") over a period that does not exceed the number of years scheduled in state statute. Legislation in 2017 increased, but also established a ceiling for SCRS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00% for SCRS. The legislation also increased employer contribution rates beginning July 1, 2017, for SCRS by two percentage points and further scheduled employer contribution rates to increase by a minimum of one percentage point each year in accordance with state statute. However, the General assembly postponed the one percent increase in the SCRS employer contribution rates that was scheduled to go into effect beginning July 1, 2020. If the scheduled contributions are not sufficient to meet the funding periods set in state statute, the PEBA Board shall increase the employer contribution rates as necessary to meet the funding periods set for the applicable year. The maximum funding period of SCRS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

**Funding Policy, continued**

Additionally, the PEBA Board is prohibited from decreasing the SCRS contribution rates until the funded ratio is at least 85%. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85%, then the PEBA Board, effective on the following July first, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85%. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85%, then effective on the following July first, and annually thereafter as necessary, the PEBA Board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85%.

As noted above, both employees and the District are required to contribute to the plans at rates established and as amended by the PEBA. The District's contributions are actuarially determined but are communicated to and paid by the District as a percentage of the employees' annual eligible compensation.

**Contribution Summary** – Required employer and employee contribution rates for the past three years are as follows:

	<b>SCRS and State ORP Rates</b>		
	<b>2021</b>	<b>2020</b>	<b>2019</b>
Employer Contribution Rate: <sup>^</sup>			
Retirement*	15.41%	15.41%	14.41%
Incidental Death Benefit	0.15%	0.15%	0.15%
	<u>15.56%</u>	<u>15.56%</u>	<u>14.56%</u>
Employee Contribution Rate	<u>9.00%</u>	<u>9.00%</u>	<u>9.00%</u>

<sup>^</sup> Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of Laws.

\* Of the rate for the State ORP Plan, 5% of earnable compensation must be remitted by the employer directly to the ORP service provider to be allocated to the member's account with the remainder of the employer contribution remitted to the SCRS.

The required contributions and percentages of amounts contributed by the District to the plans for the past three years were as follows:

<b>Year Ended June 30,</b>	<b>SCRS Contributions</b>		<b>State ORP Contributions</b>	
	<b>Required</b>	<b>% Contributed</b>	<b>Required</b>	<b>% Contributed</b>
2021	\$ 2,319,224	100%	\$ 118,049	100%
2020	2,235,057	100%	121,634	100%
2019	2,011,596	100%	115,561	100%

In an effort to help offset a portion of the burden of the increased contribution requirement for employers, the State General Assembly ("State") funded 1 percent of the SCRS contribution increases for the year ended June 30, 2020. The State's budget appropriated these funds directly to the PEBA for the South Carolina Retirement System Trust Fund. The amount of funds appropriated by the State (nonemployer contributing entity) for the year ended June 30, 2020 (measurement date) to the District were approximately \$141,140 for the SCRS.

The District recognized contributions (on-behalf benefits) from the State of approximately \$141,140 for the year ended June 30, 2021. These contributions by the State are recognized as intergovernmental revenues and pension expenditures in the District's governmental fund financial statements.

**Contribution Summary, continued**

Eligible payrolls of the District covered under the plans for the past three years were as follows:

<b>Year Ended</b>					<b>Total</b>
<b>June 30,</b>		<b>SCRS Payroll</b>	<b>State ORP Payroll</b>		<b>Payroll</b>
2021	\$	14,905,034	\$	1,117,883	\$ 16,022,917
2020		14,364,120		1,151,833	15,515,953
2019		13,815,907		1,208,794	15,024,701

**Actuarial Assumptions** – Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2019 for first use in the July 1, 2021 actuarial valuation.

The June 30, 2020, total pension liability, net pension liability, and sensitivity information shown in this report were determined by the consulting actuary, Gabriel, Roeder, Smith and Company (“GRS”) and are based on an actuarial valuation performed as of July 1, 2019. The total pension liability was rolled-forward from the valuation date to the plans’ fiscal year end, June 30, 2020, using generally accepted actuarial principles.

The following table provides a summary of the actuarial assumptions and methods used to calculate the total pension liability as of June 30, 2020:

	<b><u>SCRS</u></b>
Actuarial Cost Method	Entry age normal
Actuarial assumptions:	
Investment rate of return*	7.25%
Projected salary increases*	3.0% to 12.5% (varies by service)
Benefit adjustments	lesser of 1% or \$500 annually

\*Includes inflation at 2.25%

The post-retiree mortality assumption is dependent upon the member’s job category and gender. The base mortality assumptions, the 2016 Public Retirees of South Carolina Mortality table (“2016 PRSC”), was developed using the Systems’ mortality experience. These base rates are adjusted for future improvement in mortality using published Scale AA projected from the year 2016.

Assumptions used in the determination of the June 30, 2020 total pension liability are as follows:

<b><u>Former Job Class</u></b>	<b><u>Males</u></b>	<b><u>Females</u></b>

**Long-Term Expected Rate of Return** – The long-term expected rate of return on pension plan investments is based upon 20-year capital market assumptions. The long-term expected rate of return represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market-based inputs. Expected returns are net of investments fees.

The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2020 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the following table. For actuarial purposes, the 7.25% assumed annual investment rate of return used in the calculation of the total pension liability includes a 5.00% real rate of return and a 2.25% inflation component.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions** – The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that system's fiduciary net position. NPL totals, as of June 30, 2020, for SCRS are presented below:

<u>System</u>	<u>Total Pension Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Employers' Net Pension Liability (Asset)</u>	<u>Plan Fiduciary Net Position as a Percentage of the Total Pension Liability</u>

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirement of GASB No. 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

At June 30, 2021, the District reported a liability of \$34,688,977 for its proportionate share of the PEBA's NPL. The NPL was measured as of June 30, 2020, and the TPL used to calculate the NPL was determined based on the most recent actuarial valuation report as of July 1, 2019 that was projected forward to the measurement date. The District's proportion of the NPL was based on a projection of the District's long-term share of contributions to the plans relative to the projected contributions of all participating South Carolina state and local governmental employers, actuarially determined. At the June 30, 2020 measurement date, the District's proportion was 0.135760%, which was a decrease of 0.002592% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized pension expense of \$3,683,736 for its proportionate share of the PEBA's pension expense. At June 30, 2021, the District reported its proportionate share of the PEBA's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b><u>Deferred Outflows of Resources</u></b>	<b><u>Deferred Inflows of Resources</u></b>
Net difference between expected and actual experience	\$ 400,265	\$ 131,174
Assumption changes	42,500	-
Net difference between projected and actual earnings on pension plan investments	2,923,179	371,514
Changes in proportionate share and differences between employer contributions and proportionate share of total plan employer contributions	49,441	608,394
District contributions subsequent to the measurement date	<u>2,437,273</u>	<u>-</u>
	<u>\$ 5,852,658</u>	<u>\$ 1,111,082</u>

\$2,437,273 reported as deferred outflows of resources related to pensions resulting from District contributions to the PEBA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows and inflows of resources related to the PEBA will be recognized in pension expense as follows:

<b><u>Year Ended June 30</u></b>	<b><u>Deferred Outflows (Inflows) of Resources</u></b>
2022	\$ 331,734
2023	578,755
2024	742,683

**Discount Rate** – The discount rate used to measure the TPL was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the system’s fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

**Pension Liability Sensitivity** – The following table presents the District’s proportionate share of the NPL, calculated using the discount rate disclosed in the preceding paragraph, as well as what the District’s proportionate share of the NPL would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

<u>Asset Class</u>	<u>1% Decrease (6.25%)</u>	<u>Discount Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
District's proportionate share of the Net Pension Liability:	\$ 42,992,733	\$ 34,688,977	\$ 27,755,240

**Pension Plan Fiduciary Net Position** – Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the separately issued CAFR containing financial statements and required supplementary information for the SCRS. The CAFR is publicly available through the PEBA’s website at [www.peba.sc.gov](http://www.peba.sc.gov), or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223.

**8) OTHER POST-EMPLOYMENT BENEFITS TRUST FUNDS**

The PEBA is the state agency responsible for the administration and management of the state’s employee insurance programs, other post-employment benefits trusts, and retirement systems.

The laws of the State and the policies and procedures specified by the State for State agencies are applicable to all activities of the PEBA. By law, the SFAA also reviews certain PEBA Board decisions in administering the State Health Plan and other postemployment benefits (“OPEB”). See Note 8 for more details on the PEBA and the SFAA.

PEBA – Insurance Benefits issues audited financial statements and required supplementary information for the OPEB Trust Funds. This information is publicly available through the PEBA – Insurance Benefits’ link on PEBA’s website at [www.peba.sc.gov](http://www.peba.sc.gov), or a copy may be obtained by submitting a request to PEBA – Insurance Benefits, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, OPEB Trust fund financial information is also included in the comprehensive annual financial report of the state.

**Plan Descriptions** – The Other Post-Employment Benefits Trust Funds (“OPEB Trusts”), collectively refers to the South Carolina Retiree Health Insurance Trust Fund (“SCRHITF”) and the South Carolina Long-Term Disability Insurance Trust Fund (“SCLTDITF”), which were established by the State of South Carolina as Act 195, which became effective in May 2008. The SCRHITF was created to fund and account for the employer costs of the State’s retiree health and dental plans. The SCLTDITF was created to fund and account for the employer costs of the State’s Basic Long-Term Disability Income Benefit Plan.

**Plan Descriptions, continued**

In accordance with Act 195, the OPEB Trusts are administered by the PEBA – Insurance Benefits and the State Treasurer is the custodian of the funds held in trust. The Board of Directors of PEBA has been designated as the Trustee.

The OPEB Trusts are cost-sharing multiple-employer defined benefit OPEB plans. Article 5 of the State Code of Laws defines the two plans and authorizes the Trustee to at any time adjust the plans, including its benefits and contributions, as necessary to insure the fiscal stability of the plans. In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents.

**Plan Benefits** – The SCRHITF is a healthcare plan that covers retired employees of the State of South Carolina, including all agencies and public-school districts. The SCRHITF provides health and dental insurance benefits to eligible retirees. Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires beginning employment May 2, 2008 and after, retirees are eligible for benefits if they have established 25 years of service for 100% employer funding and 15-24 years of service for 50% employer funding.

The SCLTDITF is a long-term disability plan that covers employees of the State of South Carolina, including all agencies and public-school districts and all participating local governmental entities. The SCLTDITF provides disability payments to eligible employees that have been approved for disability. Since the employer contribution/premium paid and the proportionate share of the net OPEB liability and related deferred outflows and inflows of resources related to the SCLTDITF are not material to the District, no SCLTDITF OPEB amounts have been recorded in these financial statements and only limited note disclosures have been provided related to these benefits.

**Funding Policy** – Section 1-11-710 of the South Carolina Code of Laws of 1976, as amended, requires the postemployment and long-term disability benefits to be funded through non-employer and employer contributions for active employees and retirees to the PEBA – Insurance Benefits. Non-employer contributions consist of an annual appropriation by the General Assembly and the statutorily required transfer from PEBA – Insurance Benefits reserves.

The SCRHITF is funded through participating employers that are mandated by State statute to contribute at a rate assessed each year by the Department of Administration Executive Budget Office on active employee covered payroll. The covered payroll surcharge for the year ended June 30, 2020, was 6.25%. The South Carolina Retirement System collects the monthly covered payroll surcharge for all participating employers and remits it directly to the SCRHITF. Other sources of funding for the SCRHITF include the implicit subsidy, or age-related subsidy inherent in the healthcare premium structure. The implicit subsidy represents a portion of the health care expenditures paid on behalf of the employer's active employees. For purposes of GASB Statement No. 75, this expenditure on behalf of the active employee is reclassified as a retiree health care expenditure so that the employer's contributions towards the plan reflect the underlying age-adjusted, retiree benefit costs. Non-employer contributions include the mandatory transfer of accumulated PEBA – Insurance Benefits' reserves and the annual appropriation budgeted by the General Assembly. It is also funded through investment income.

The covered payroll surcharge rates for the past three years were as follows:

	<b>Year Ended June 30,</b>		
	<b>2021</b>	<b>2020</b>	<b>2019</b>
Employer Contribution Rate:^	6.25%	6.25%	6.05%

^ Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of Laws.

The required payroll surcharge, percentages of amounts contributed, and eligible payroll by the District covered by the SCRHITF for the past three years were as follows:

<b>Year Ended June 30,</b>	<b>Contributions</b>		<b>Eligible Payroll</b>
	<b>Required</b>	<b>% Contributed</b>	
2021	\$ 1,001,433	100%	\$ 16,022,917
2020	969,747	100%	15,515,953
2019	908,994	100%	15,024,701

The State (via state appropriations) and the PEBA – Insurance Benefits (via state statute to transfer amounts above 140% of incurred but not reported claims) contributed to the SCRHITF on behalf of the District approximately \$224,479 for the year ended June 30, 2020 (measurement period). The contributions from these non-employer contributing entities are recognized as state revenues and intergovernmental expenditures in the District's governmental fund financial statements.

In accordance with part (b) of paragraph 69 of GASB Statement No. 75, participating employers should recognize revenue in an amount equal to the employer's proportionate share of the change in the collective net OPEB liability arising from contributions to the OPEB plan during the measurement period from non-employer contributing entities for purposes other than the separate financing of specific liabilities to the OPEB plan. Therefore, employers should classify this revenue in the same manner as it classifies grants from other entities.

For purposes of measuring the net OPEB liability, deferred outflows and inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Trusts, and additions to and deductions from the OPEB Trusts fiduciary net position have been determined on the same basis as they were reported by the OPEB Trusts. For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Therefore, benefit and administrative expenses are recognized when due and payable. Investments are reported at fair value.

**Actuarial Assumptions** – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of the District's Contributions, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about the District's net OPEB liability, funded status of the OPEB Plan, and the District's contributions to the OPEB Plan.

Projections of benefits for financial reporting purposes are based on the substantive plans (as understood by the employer and plan participants) and include the types of benefits provided at the time the valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The total OPEB liability, net OPEB liability, and sensitivity information were determined by the consulting actuary and are based on an actuarial valuation performed as of June 30, 2019. The total OPEB liability was rolled-forward from the valuation date to the OPEB plan's fiscal year ended June 30, 2020 using generally accepted actuarial principles.

Multipliers are applied to the base tables based on gender and employment type.
<b>Health Care Trend Rate:</b>	Initial trend starting at 6.40% and gradually decreasing to an ultimate trend rate of 4.00% over a period of 15 years
<b>Retiree Participation:</b>	79% for retirees who are eligible for funded premiums 59% participation for retirees who are eligible for partial funded premiums 20% participation for retirees who are eligible for non-funded premiums
<b>Notes:</b>	The discount rate changed from 3.13% as of June 30, 2019 to 2.45% as of June 30, 2020; updates were also made to the healthcare trend rate assumption, including an adjustment to reflect the repeal of the "Cadillac Tax."

**Long-term Expected Rate of Return** – The long-term expected rate of return represents assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market-based inputs. The expected returns, along with the expected inflation rate, form the basis for the target asset allocation adopted at the beginning of the 2018 fiscal year. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation. This information is summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Expected Arithmetic Real Rate of Return</u>	<u>Allocation Weighted Long-Term Expected Real Rate of Return</u>

**OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB** – The net OPEB Liability (“NOL”) is calculated separately for each system and represents that particular system’s total OPEB liability (“TOL”) determined in accordance with GASB No. 74 less its fiduciary net position.

The following table represents the components of the NOL as of the June 30, 2020 measurement date, as well as the three prior years:

The TOL is calculated by the Trusts’ actuary, and each Trust’s fiduciary net position is reported in the Trust’s financial statements. The NOL is disclosed in accordance with the requirements of GASB No. 74 in the Trusts’ notes to the financial statements and required supplementary information. Liability calculations performed by the Trusts’ actuary for the purpose of satisfying the requirements of GASB Nos. 74 and 75 and are not applicable for other purposes, such as determining the Trusts’ funding requirements.

At June 30, 2021, the District reported a liability of \$30,385,097 for its proportionate share of the NOL for the SCRHITF. The NOL was measured as of June 30, 2020, and the TOL for the SCRHITF used to calculate the NOL was determined by an actuarial valuation as of June 30, 2019 that was projected forward to the measurement date. The District’s proportion of the NOL was based on a projection of the District’s long-term share of contributions to the SCRHITF relative to the projected contributions of all participating South Carolina state and local governmental employers, actuarially determined. At the June 30, 2020 measurement date, the District’s proportion was 0.168325%, which was a decrease of 0.003468% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the District recognized OPEB expense of \$2,242,981 for its proportionate share of the PEBA’s OPEB expense for SCRHITF. At June 30, 2021, the District reported its proportionate share of the PEBA’s deferred outflows of resources and deferred inflows of resources related to SCRHITF from the following sources:

	<b><u>Deferred Outflows of Resources</u></b>	<b><u>Deferred Inflows of Resources</u></b>
Net difference between expected and actual experience	\$ 869,042	\$ 691,978

\$1,001,433 reported as deferred outflows of resources related to the District's contributions subsequent to the measurement date to the SCRHITF will be recognized as a reduction of the NOL in the year ended June 30, 2022. Other amounts reported as deferred outflows and inflows of resources related to the SCRHITF will be recognized in OPEB expense as follows:

<u>Year Ended June 30</u>	<u>Deferred Outflows (Inflows) of Resources</u>
2022	\$ 356,184
2023	340,664
2024	609,973
2025	664,344
Thereafter	<u>989,623</u>
	<u>\$ 2,960,788</u>

**Discount Rate** – The discount rate of 2.45% was used to measure the TOL for the SCRHITF. The accounting policy for this plan is to set the discount rate equal to the prevailing municipal bond rate. Due to the plan's investment and funding policies, the difference between a blended discount rate and the municipal bond rate would be less than several basis points (several hundredths of one percent).

**OPEB Liability Sensitivity** – The following table presents the District's proportionate share of the NOL calculated using a single discount rate of 2.45%, as well as what the District's NOL would be if it were calculated using a single discount rate that is one percent lower or one percent higher:

	<u>1% Decrease (1.45%)</u>	<u>Discount Rate (2.45%)</u>	<u>1% Increase (3.45%)</u>
District's proportionate share of the SCRHITF net OPEB liability	\$ 36,255,520	\$ 30,385,097	\$ 25,694,190

Regarding the sensitivity of the SCRHITF's NOL to changes in the healthcare cost trend rates, the following table presents the District's proportionate share of the SCRHITF's NOL, calculated using the assumed trend rates as well as what the District's NOL would be if it were calculated using a trend rate that is one percent lower or one percent higher:

	<u>1% Decrease</u>	<u>Current Healthcare Cost Trend Rate</u>	<u>1% Increase</u>
District's proportionate share of the SCRHITF net OPEB liability	\$ 24,593,820	\$ 30,385,097	\$ 37,990,711

**9) DEFERRED COMPENSATION PLAN**

The District, through the South Carolina Deferred Compensation Commission, offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all District employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, disability, death, or unforeseeable emergency. Investments are managed by the plan's program administrator under a variety of investment options or a combination thereof. The participants make the choice of investment(s) option(s). Investments are carried at their market value. The District's administrative involvement is limited to transmitting amounts withheld from payroll to the program administrator.

**10) POSTEMPLOYMENT BENEFITS**

The District provides death benefits to employees through the group life insurance program for members of the SCRS, which is explained further in Note 7. The beneficiaries of those employees who die in active service after one year of credited service are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the budgeted salary of the deceased member. The District has no liability beyond the payment of monthly contributions. Contributions are determined as a percentage of monthly covered payroll. The District does not determine the number of eligible participants. For the year ended June 30, 2021, the District made contributions to the State for death benefits representing 0.15% of covered payroll.

Upon death of a retiree, a benefit will be paid to the designated beneficiary of an amount based on years of credit services as follows:

10 to 19 years of service credits	\$2,000
20 to 27 years of service credits	4,000
28 or more years of service credits	6,000

**11) RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees' and natural disasters. The District carries commercial insurance for such risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The District has elected to be self-insured for unemployment taxes, whereby it would reimburse the South Carolina Department of Employment and Workforce for actual claims paid attributable to service in the employ of the District. No separate liability for unemployment claims has been established due to the insignificant amounts of the expenditures.

**12) COMMITMENTS AND CONTINGENCIES**

The District participates in a number of federal and state assisted grant programs. Although the District has been audited in accordance with provisions of the Uniform Guidance, these programs are still subject to financial and compliance audits by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the District's management believes such disallowances, if any, would not be significant.

In 2007, South Carolina enacted Act 388, which was effective for the District beginning July 1, 2007. Act 388 provides an exemption for one hundred percent of the fair market value of owner-occupied residential property, to the extent it is not already covered by other property tax relief exemptions, for all property taxes imposed for school operating purposes, but not including millage imposed for the repayment of general obligation debt for property tax years beginning after January 1, 2007. Act 388 also created a new Homestead Exemption Fund which is funded from an additional 1 cent sales tax imposed by Act 388.

**12) COMMITMENTS AND CONTINGENCIES, CONTINUED**

Act 388 created three tiers of distribution to school districts. Tier one distributions equal the amounts that were received by the school districts for the fiscal year ended June 30, 2007, relating to an earlier property tax relief provision for owner occupied residential property. In the case of the District, that amount was \$539,881.

Tier two distributions equal the amounts received by school districts for the school operating portion of the homestead exemption for the elderly, disabled, and blind. In the case of the District, that amount was \$302,684. Tiers one and two distributions are fixed and do not change.

Tier three distributions are state funded payments to school districts to replace revenues formerly derived from taxation by school districts of owner-occupied residential property. For the fiscal year ended June 30, 2008, those distributions were expected to equal, dollar for dollar, the revenue that would have been collected by the school districts from property taxes for school operating purposes imposed by the school districts on owner occupied residential property for that fiscal year as if no reimbursed exemptions applied. Beginning with the 2008-2009 fiscal year, the tier three distributions will be the sum of the amount of the fiscal year 2007-2008 tier three distributions plus the tier three reimbursement increases. Act 388 requires the tier three reimbursements to be increased annually by (i) an inflation factor equal to the percentage increase in the previous year Consumer Price Index, Southeast Region, as published by the United States Department of Labor, Bureau of Labor Statistics, plus (ii) the percentage increase in the previous year in the population of the State as determined by the Office of Research and Statistics of the State Budget and Control Board. The tier three increases are aggregated for the entire state and the amount going to any particular school district is equal to an amount that is the district's proportionate share of the aggregated funds based on the school district's weighted pupil units as a percentage of the statewide weighted pupil units as determined annually pursuant to the EFA, with an adjustment for certain poverty factors to provide programs for the affected students. There are provisions in the tier three reimbursement that could, in any given year, result in a minimum increase of four percent to the extent funds are available in the Homestead Exemption Fund. There are also provisions that require the total tier three reimbursements to the school districts in a county to be not less than \$2,500,000. If the amount of tier three distributions other than those dependent upon balances in the Homestead Exemption Fund exceed amounts in the Homestead Exemption Fund, the excess is required to be paid from the General Fund of the State. The District's reimbursement for fiscal year 2021 for tier three was \$1,492,545.

Act 388 requires that, to the extent revenues in the Homestead Exemption Fund are insufficient to pay all required reimbursements to a school district; the State will pay the difference from its general fund. However, there can be no assurances that such funds will be appropriated in the event there is such an insufficiency or that the change in funding sources resulting from Act 388 will not have an adverse effect on the District's operations. The District recognizes that Act 388 places increased reliance on state funds to fund the General Fund. This increased reliance at the state level is being funded by the additional one penny sales tax, which in the District's opinion is not as stable as property tax revenue which the sales tax replaced. In addition, Act 388 removes the authority of governing bodies of school districts to increase operating millage in any year to meet the required local EFA inflation factor and the per pupil maintenance of effort requirement.

**13) PROPERTY TAXES**

Anderson County, South Carolina ("the County") is responsible for levying and collecting sufficient property taxes to meet its funding obligation to the District. This obligation is established each year by the Anderson County Board of Education and does not necessarily represent taxes levied or collected. Property taxes are levied and billed by the County on real and personal properties on October 1 based on assessed values at established millage rates. These taxes are due without penalty through January 15. Penalties are added to taxes based on the date paid as follows:

January 16 through February 1	3% of tax
February 2 through March 15	10% of tax
After March 15	15% of tax, plus collection costs

**13) PROPERTY TAXES, CONTINUED**

Current year real and personal taxes become delinquent on March 16. Unpaid property taxes become a lien against the property as of June 1, of the calendar year following the levy date. The levy date for motor vehicles is the first day of the month in which the motor vehicle license expires. These taxes are due by the last day of the same month.

Taxes receivable includes an allowance for uncollectible taxes. An allowance for uncollectible amounts is not necessary for other receivable accounts.

**14) OPERATING LEASES**

The District has operating leases for copiers and printers used in its schools, with total lease expense under these agreements of \$83,693 for the year ended June 30, 2021. Future lease obligations under these operating lease agreements are \$83,693 annually for the next two fiscal years.

**15) TAX ABATEMENTS**

GASB Statement No. 77, *Tax Abatement Disclosures*, requires governments that forgo revenue in connection with tax abatements to disclose certain information relating to that fact. For purposes of this statement, a tax abatement is defined as a reduction in tax revenue that results from an agreement between one or more governments and an individual or entity in which one or more governments promise to forgo tax revenues to which they are otherwise entitled in exchange for the individual or entity's promise to take a specific action that contributes to economic development or otherwise benefits the governments or citizens of the governments.

The District's property tax revenues were reduced under agreements entered into by Anderson County. These agreements are broadly described as fee in lieu of tax programs and infrastructure credit programs. For the year ended June 30, 2021, the District's property tax revenues were reduced by \$5,208,721 and \$196,568 for fee in lieu and infrastructure credit programs, respectively.

**16) OTHER INFORMATION**

In December 2019, an outbreak of novel coronavirus ("COVID-19") originated in China and spread to other countries, including the U.S. In March 2020, the World Health Organization characterized COVID-19 as a pandemic. In addition, multiple jurisdictions in the U.S. declared a state of emergency, and limited most aspects of business, education, travel, and personal physical interactions. Beginning in March 2020 and continuing for portions of the 2020-2021 school year, the District's schools were forced to move to remote educational offerings and cancel certain other programs. These necessary actions did cause District-related revenue to decrease and additional expenses to be incurred.

In response to the pandemic, Congress passed the Coronavirus Aid, Relief, and Economic Security Act ("the CARES Act") which introduced aid to effected organizations. Follow-up legislation to the CARES Act provides funding to state schools and other entities for COVID-19 related expenditures. The District determined its eligibility for funding under various programs, applied for, and received additional funding through several programs. This funding did serve to mitigate the financial impact of expenditures the District had made or will be making.

With the substantial improvements in experience with COVID-19 regionally and nationally, the District has resumed normal school operations in the fall of 2021. However, there remains some uncertainty. Future significant impacts could include continued possible adjustments to the District's operations and calendar and could include disruptions or restrictions on employees' ability to work. Changes in the operating environment may also increase operating costs. Management of the District is carefully monitoring this situation and has budgeted so as to enable the District to maintain its financial stability.

**17) ADOPTION OF NEW STANDARD**

As of July 1, 2020, the District implemented GASB Statement No. 84, *Fiduciary Activities*. Certain agency funds previously accounted for activities that are not considered fiduciary in nature and are now reported in the Special Revenue Fund.

The District restated the net position and fund balance of the fund as indicated below to appropriately reflect the July 1, 2020, balances, as follows:

	<u><b>Governmental Activities</b></u>	<u><b>Special Revenue Fund</b></u>
Net position at July 1, 2020, as previously reported	\$ (39,882,085)	\$ -
Reclassification of student activity funds as Special Revenue Funds	<u>345,878</u>	<u>345,878</u>
Net position at July 1, 2020, as restated	\$ <u><u>(39,536,207)</u></u>	\$ <u><u>345,878</u></u>

**18) SUBSEQUENT EVENTS**

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through November 22, 2021, the date the financial statements were available to be issued. There were no such events requiring recording or disclosure for the year ended June 30, 2021.

**ANDERSON COUNTY SCHOOL DISTRICT NUMBER THREE**  
**IVA, SOUTH CAROLINA**  
**Notes to the Schedule of Expenditures of Federal Awards**  
**For the Fiscal Year Ended June 30, 2021**

**(1) General**

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal award programs of Anderson County School District Number Three, for the year ended June 30, 2021. All federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on the schedule.

**(2) Summary of Significant Accounting Policies**

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting, which is described in Note 1 to the District's financial statements.

**(3) Relationship to Financial Statements**

Federal expenditures are reported in the District's financial statements as expenditures in the Special Revenue Fund and Proprietary Fund.

**(4) Relationship to Federal Financial Reports**

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for timing differences relating to revenues and expenditures received or made subsequent to the filing of federal financial reports.

**(5) Indirect Cost Rate**

The District has elected not to use the 10% de minimus cost rate allowed under the Uniform Guidance.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND OTHER MATTERS AND  
ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON  
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT  
AUDITING STANDARDS**

Board of Trustees  
Anderson County School District Number Three  
Iva, South Carolina

We have audited the financial statements of the Governmental Activities, the Business-Type Activities, each major fund, and the aggregate remaining fund information of Anderson County School District Number Three (“the District”) as of and for the year ended June 30, 2021, which collectively comprise the District’s financial statements, and have issued our report thereon dated November 22, 2021. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District’s internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of internal control over financial reporting.

A deficiency in control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal controls, such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR  
FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY  
UNIFORM GUIDANCE**

Board of Trustees  
Anderson County School District Number Three  
Iva, South Carolina

**Report on Compliance for Each Major Program**

We have audited the compliance of Anderson County School District Number Three (“the District”) with the types of compliance requirements described in the United States Office of Management and Budget Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021. The District’s major federal programs are identified in the accompanying Schedule of Findings and Questioned Costs.

**Management’s Responsibility**

Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs is the responsibility of the District’s management.

**Auditor’s Responsibility**

Our responsibility is to express an opinion on the District’s compliance based on our audit. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (“Uniform Guidance”). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District’s compliance with those requirements.

**Opinion on Each Major Federal Program**

In our opinion, Anderson County School District Number Three complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

**Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District’s internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, by the District’s internal controls on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

**Report on Internal Control Over Compliance, continued**

Our consideration of the internal control over compliance was for the limited purpose described above and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. Given these limitations, we noted no matters involving the internal control over compliance that we consider material weaknesses. However, material weaknesses may exist that have not been identified.

**Purpose of this Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing on internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
