**2.A. Process for Monitoring Implementation:** Describe how the LEA will ensure that the interventions it implements, including but not limited to the interventions implemented under Section 2001 (e) (1) of the ARP Act to address the academic impact of lost instruction time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.

Description: Intervention efforts will be closely monitored by a district team that includes building level administrators, district curriculum director, and the district school improvement specialist. Student academic success levels will be utilized in modifying student plans in the years ahead. The team will take a close look at students that were disproportionately impacted by COVID-19 to measure what specific plans should exist for those students. The monitoring team will meet regularly and modify student plans as necessary.

**2.B. Process for Evaluating Implementation:** Please describe how the LEA will evaluate the effectiveness of these interventions.

Evaluation: The district will utilize multiple points of data to assess and measure the impact of the student interventions. Some of these data points will include Dibels, ACT Aspire, iReady scores. Other, more subjective data points will be gathered by asking questions of classroom teachers and parents about student progress and mental health status.
