Francis Walsh Intermediate School Administrators,
Staff, Parents, Students, Program Participants using
School Facilities:

Francis Walsh Intermediate School is in the process of having renovation, demolition and abatement activities performed throughout the building. The work started in 2018 and will continue throughout 2020. The upcoming abatement/ remediation phases of the project involving asbestos and PCB containing materials are planned to occur 9 January through 11 June, 2020 throughout the entire original building except for the large gymnasium. The building materials requiring abatement/ remediation include interior flooring materials, pipe and pipe fitting insulation, fire door insulation, transite cement board, electrical insulation, duct vibration cloth, duct adhesives, ceiling pin adhesives, sink undercoating, science countertops/ test tube racks/adhesives/caulking compounds, column/window/door/wall expansion caulking compounds and adjacent walls, exterior foundation damp-proofing materials and roofing materials.

The Connecticut Department of Public Health (CT DPH) is involved with this project since abatement will occur during school session. This portion of the project will occur 9 January through June 2020 (or later). Abatement is scheduled to be performed 2nd shift between 4:00pm to 2:30am Monday to Friday and Saturdays 6:00am to 12:30 am (if needed). Interior demolition, containment set up, exterior foundation, and roofing abatement will occur between 7:00am to 4:00pm. Vacations/Holidays/Closures are scheduled for 20 January, 17 & 18 February, 13-17 April, and 25 May and work will occur during the day. Student occupancy will only be allowed in the new addition, large gymnasium and athletic fields during the normal school day and will not be allowed in the large gymnasium after 3pm. Langan CT has performed the abatement/ remediation design for this project and is working closely with CT DPH to ensure that the work will be performed properly. CT DPH will be reviewing and approving this portion of the project

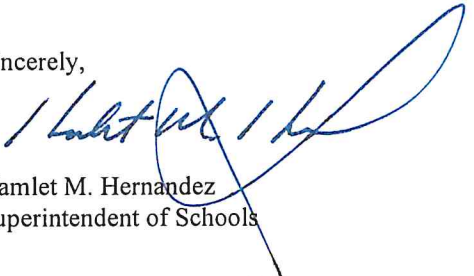

The intent of this letter is to inform you that asbestos/PCB abatement will be performed January through June 2020 and will occur in regulated areas using appropriate engineering controls. The Connecticut licensed asbestos abatement companies Standard Demolition Services, Inc. and American Vets Abatement Experts LLC will perform the abatement/ remediation work. Langan CT, an independent environmental consultant (or its representative), will monitor the project. The monitoring includes, but is not limited to, daily inspections, air sampling during abatement activities, final post abatement visual inspections, re-occupancy air sampling and post remediation verification sampling.

As required by CT DPH, this notification is being sent to all parents and guardians of the children/ students, faculty and staff associated with Francis Walsh Intermediate School. Contact information is below.
