The threat assessment process is centered upon an analysis of the facts and evidence of behavior in a given situation. The appraisal of risk in a threat assessment focuses on actions, communications, and specific circumstances that might suggest that an individual intends to cause physical harm and is engaged in planning or preparing for that event.

- B. The Board authorizes the Superintendent to create building-level, trained threat assessment teams. Each team shall be headed by the principal and shall include a person with expertise in counseling (school/psychological), instructional personnel, and law enforcement (school resource officer) and provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self.

  - 2. Upon a preliminary determination that a student poses a threat of violence or physical harm to him/herself or others, the threat assessment team may obtain criminal history record information. The team must immediately attempt to notify the student's parent/legal guardian. The team will coordinate resources and interventions to engage behavioral and or mental health crisis resources when mental health or substance abuse crisis is suspected.
