Beef to School*

# Beef To School

## Beef to School Program

The school in Newell uses approximately **1000 pounds of beef** during the school year which equals approximately 2-3 beef.

The Newell School District is looking for local support from ranchers who would be willing

### The types of beef that can be donated:

#### Market Steers

(1000-1500 lbs.)

#### Open Heifers

(less than two years of age)

#### Cull Cows & Cull Bulls

(only to be processed into pure ground beef patties)

to donate beef to feed our children here in Newell.

Market steers and open heifers will be processed for ground beef, cubed beef, and hamburger patties.

## Beef to School

The federal guidelines and the South Dakota Department of Education policy requires that meat for consumption through the school lunch program be processed at an approved processor.

**Wall Meats** has agreed to perform the processing for the Newell School District. Wall Meats is an inspected establishment licensed by South Dakota Meat Inspection.

Cattle producers are asked to transport their cattle to this processing plant and the school district will determine how it is cut up!

## Contact Information

If you have any questions about donating to the Beef to School project please do not be afraid to contact Mr. Andrew Fergen at the Newell School!
