10/8/2019

Dear Parents,

Our school will begin implementing a finger identification system for Food Service which will replace the current four digit pin system we are using. The system is called IDconnect. The purpose of the system is to assist in ensuring a student's pin number is not used in error with any food purchase.

In basic terms, the system will take a picture of your student's finger then associate the picture with your student's id number. This is not a finger print system. At no time does the system store any biometric information, finger prints, matrixes, or measurements. It cannot reproduce a finger print in any way. Additional information on this system can be found at IDconnect, www.fingerid.net.

If you have concerns with this system you may choose to have your student opt out of using the system, therefore, your child can still use their current pin number. To opt out of this system, please email Michelle Hopkins at mhopkins@isd361.k12.mn.us or call her at 283-2571 x1181 to request your student to not be included in this system. Please include your students name and current grade.

We will begin implementing this system with the Falls High School students starting in the month of October.

Thank you.

Sincerely,

Tim Everson
Principal Falls High School
