SUMMER 2020

PROGRAM SESSIONS

→ \$225 per session. Max of 45 participants. 5th-8th graders. ←

ART-istic Inventors:

June 22nd -June 26th, 2020
Middletown Campus

Explore the "A" in S.T.E.A.M. to the fullest potential this week by bringing the performing and visual arts to life! Investigate how the science of music, video production, and design thinking all come together through your own unique inventions. Debut your one-of-a-kind artistic visions at the STEAM Studio Art Fair!

Amusement Engineer

June 29th-July 3rd, 2020
Middletown Campus

Do you not only seek thrills, but wonder how to design them? Use everyday items to create one-of-a-kind thrill ride with physics, experiment with the food chemistry of carnival snacks, and learn the science behind those "unbeatable games!" Reveal your very own "Main Attractions" for future theme park experiences.

Code Crackers

July 6th - July 10th, 2020
Middletown Campus

Your mission, should you choose to accept it, use codes to communicate and solve mysteries! From sending Morse Code and semaphore messages to designing escape rooms, this week will test your ability to go undercover and communicate without information falling into the wrong hands.

Code Crackers

July 13-July 17th, 2020
Hamilton Campus

Your mission, should you choose to accept it, use codes to communicate and solve mysteries! From sending Morse Code and semaphore messages to designing escape rooms, this week will test your ability to go undercover and communicate without information falling into the wrong hands.

Take Flight

July 20th -July 24th, 2020
Hamilton Campus

Take your summer to new heights! Design original aircraft machines, construct aerospace experiments, try your hand flying a drone, and build a working wind tunnel for parachute testing. Unveil the flying machines of tomorrow during our Flight Expo!

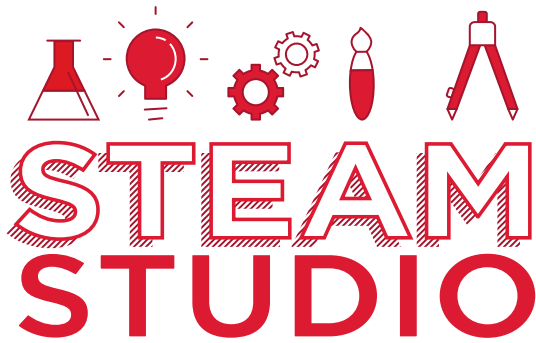

Level Up

July 27th-July 31st, 2020
Hamilton Campus

Don't just play video games - get in the game! Explore game design foundations in coding and virtual world simulations! Try your hand at creating 13-bit video games, and even design and print your own original player character using the 3D printers!

SUMMER 2020

LEADERSHIP ACADEMY

Are you a high school student (entering 9th - 10th grade) looking to make a positive impact this summer? Our Leaders-In-Training (LIT) program allows teens the opportunity to strengthen their personal leadership and STEAM skills while assisting in the delivery of the STEAM Studio program with younger camp participants. Get in on the summer fun by contacting **Theresa Young** at steamstudio@miamioh.edu to request a LIT application and program information.
