Inclement Weather Days/AMI Information

Dear Parents:

Benton High School believes alternative methods of instruction (AMI) provides a great opportunity to continue student learning when schools are closed for any reason, including, but not limited to inclement weather. Important information for you is listed below.

- **Most of our teachers will post assignments online.**
- **If you do not have internet access, your child's teacher will give him/her the assignment on the first day back to school.**
- **Students will have five (5) days to complete and turn in completed assignments. The five (5) days will begin once we return to school.**
- **If multiple days are missed consecutively, additional days will be added to complete the assignments.**
- **Students will be counted as present for the block if the assignment is completed and turned in by the due date. For example, if they complete the work for 1st block and turn it in on time they will be counted present for 1st block.**
- **The library will be open every day before school and every day during lunch if students need a place to complete the assignments outside of home.**
- **Teachers, administrators, and counselors will be available at various times throughout the AMI day. If your student would like to email them with questions while we are out for an AMI day please have them do so.**

If you have any questions regarding AMI days, please contact the Benton High School office at (501) 778-3288.

Thank you,

Curt Barger
Principal
