

BARNEVELD SCHOOL DISTRICT

ACCESSIBILITY FOR PERSONS WITH PHYSICAL DISABILITIES

The Barneveld School District ensures all educational programming within the district is readily accessible to persons with physical disabilities. There is one entrance into the building, which is marked and labeled accessible. These entrances are located in the following area:

Main Entrance, 304 S. Jones Street, Office Entrance

Parking is readily accessible to these individuals, located in the main parking lot. Elevator is accessible to access the second floor of the building. Elevator and Ramps will provide access throughout the inside of the building, one external ramp that leads to the PE fields. If a condition should arise and a student's educational needs are not being met (i.e. classroom accessibility), the district ensures appropriate accommodations will be made to guarantee educational programming (i.e. classroom to another location in the building).
