RHS Football by Decade

Era	Won	Lost	Tied	Pct
1909-1919	24	35	9	41.9%
1920-1929	55	28	5	65.3%
1930-1939	67	26	8	70.3%
1940-1949	54	49	6	52.3%
1950-1959	42	58	7	42.5%
1960-1969	69	40	2	63.1%
1970-1979	55	49	1	52.9%
1980-1989	24	74	5	25.7%
1990-1999	43	61	1	41.4%
2000-2009	67	49	2	57.6%
2010-2014	15	38	0	28.3%
	515	506	46	50.4%

Note: in calculating winning percentages in football, ties mathematically count as half-wins and half-losses. For example, to compute the winning percentage for a 9-1-2 season, the two ties equate to one win and one loss. Thus a 9-1-2 season has the same winning percentage as a 10-2 season. Both seasons' winning percentage is 0.833 or 83.3%

Note: RHS had winning seasons from 1927-1941, a period of 15 years. This represents the longest streak in Cyclone history for winning seasons.
