Subject: Student Activity Coaching Stipends Needing Review

---

Stipends for a number of positions need to be reviewed. In some cases these are for new events (beekeeping, Quiz Bowl, eSports, Coding Club). In other cases, they are for existing positions that are underfunded compared to the amount of time they take (tech theater, TEDx). In any event, here is the complete list:

Tech Theater—underfunded compared to time it takes

Quiz Bowl—new event, not a lot of time but should be reflected

Beekeeping—new student club, funded by CEEF

TEDx Coordinator—historically underfunded position; next year is TEDx year

eSports—new event, supported by CEEF

Coding Club—new event, not a lot of time but should be reflected

It is unclear to me what the process currently is for getting stipends added or reviewed, so I thought I would just memorialize the need here with my other budget documents, and then we can talk.
