

Barneveld School District Board Consultants

In order to pursue its educational mission and also to protect the public's financial investment, the Barneveld School Board will engage the services of qualified professional consultants. They may provide new insights and ideas for dealing with especially difficult problems; and provide special services which the present staff are unable to provide.

The assistance sought from consultants may include, but will not be limited to:

1. conducting fact-finding studies, surveys, and research;
2. providing counsel or services requiring special expertise; and
3. assisting the Board in developing policy and program recommendations.

The District Administrator, or designee, will establish an efficient working relationship between the consultant and the Board and/or staff members.
