

Request for Corporal Punishment Exemption

In accordance with Act 904 of 1977 and Act 333 of 1995, Smackover-Norphlet School District authorizes use of corporal punishments in its Discipline Policy when it is administered for cause, in a reasonable manner, and follows warnings that misbehavior will not be tolerated.

However, I request that my child NOT be disciplined with corporal punishment.

I understand that all teachers will be notified and urged to follow this request, though adherence is not legally required.

I also understand that in place of corporal punishment my child will be subject to other disciplinary measures as deemed appropriate by the administration.
