

# 5632 - Pesticide Notifications

2011 5632

Non-Instructional/Business Operations

## **SUBJECT: PESTICIDE NOTIFICATIONS**

The Wayland-Cohocton Central School District recognizes its responsibility to comply with New York State Environmental Conservation Law Section 325 pertaining to pesticide applications.

Accordingly, the use of pesticides will be limited to New York State certified pesticide applicators, or those staff members under their direct supervision.

Other District employees shall not bring into the District or apply pesticides at any time.

Should a situation arise for which pesticides may need to be applied on an emergency basis (bees, lice, etc.), the building administrator shall be notified immediately to determine further action by certified personnel.

The School District shall make every effort to comply with the mandatory 2-hour notification procedure in emergency situations.

Environmental Conservation Law Section 325

Adopted: 4/11/11
